

Edmonton's New Southside Bike Routes

Over 4.4 km of protected bike lanes, shared roadways, and paths have been installed to support and inspire Edmontonians of all ages to try new ways to get around in their communities and in the city. These bike lanes can be found along 83 Avenue, 106 Street, and 76 Avenue (see map for details).

Helpful Tips for All Road Users:

In Your Car

- Watch for new signs.
- Don't stop on the green paint.
- Shoulder check and look both ways.
- Yield to cyclists when turning across the bike lanes.

On Your Bike

- Yield to pedestrians in crosswalks and at bus stops.
- Watch out for new signs indicating how to safely turn at intersections.
- Not sure how to navigate the bike routes? Dismount onto the sidewalk and observe what others are doing.

On Your Feet

- Watch for turning vehicles entering and exiting accessways.
- When crossing the bike lane to get to a parked vehicle, yield to people on bikes.

Be Aware and Take Care.

Green stripes and white dashed paint on the roadway mark areas where drivers and cyclists may cross paths. Watch out for each other. Traveling slower along the new Southside Bike Routes will give you time to see and respond to all the new features.

November 2018
