SHALLOW WATER AQUAFIT	Get fit! Aquafit is a fun and energetic aerobic exercise class that uses the water for resistance. Low to zero impact is easy on bones and joints. A one-hour class set to music and taught by certified instructors. Work at your own pace, no swimming skills required.
SHALLOW WATER STRENGTH TRAINING	Get fit! Aquafit is a fun and energetic aerobic exercise class that uses the water for resistance. Low to zero impact is easy on bones and joints. A one-hour class set to music and taught by certified instructors. Work at your own pace, no swimming skills required. This class uses specialized equipment to increase workout.
DEEP WATER AQUAFIT	An aquabelt suspends you so giving you a total body workout. Good for those with joint or injury concerns. May also be referred to as Aquajog. This is done in deep water which requires participants to be comfortable in deep water.
FEMALE ONLY SWIM	ALL AGES WELCOME. A recreation and leisure swim for females only, including the staff.
COMMUNITY SWIM	A swim arranged with area-specific community leagues. A community league membership card is required for entry. Please check at the facility or call your Community League for details.
HOT TUB & STEAM	Facility amenities to warm you up.
WIDTH SWIM	Width swim committed to swimming laps across the width of the pool. Usually with an activity requiring full shallow or deep ends of the pool.
SWIM TRAINING	Professional swim coaches will help you improve your swimming skills, speed, and endurance. Perfect for swimmers who wish to turn up their strokes or are planning to compete in a triathlon. Participants should be able to swim 200 meters comfortably.
DEEP WATER TETHERING	A tether (i.e. bungee cord or hitch) is fastened to a deep water belt and then hooked onto a lane rope creating dynamic resistance. This activity can be performed in deep or shallow water and is easily modified for all levels. Participants can work towards their own personal best by increasing or decreasing the amount of effort or "pull" on the tether. Adding a tether further increases the resistance, especially when encouraged to pull forward. Benefits can include reduced impact on joints (shallow) or no impact on joints (deep), increased range of motion, improved strength and endurance, increased core strength and cardiac functioning.

We're all in this Together!

Inexperienced or weak swimmers should go no deeper than chest deep water without a personal floatation device or lifejacket. Lifejackets are free at all City of Edmonton Indoor and Outdoor Pools.

Be safe in and around water – wear a lifejacket!
