Zoo Tours (Ages 3+)

Get closer to the animals on your day at the zoo with the assistance of an interpreter. We'll tour the zoo, meet some critters, and have a howlin' good time! Our themed tours will emphasize certain animal groups, continents, or animal adaptations.

These programs can be easily adapted to various age groups.

OPTION 1 - Animal Senses Tour

Have you ever wondered how animals use their senses to find lunch, or warn others about a predator? Bring your group for a "sense-sational" safari tour to learn about how some animals use their five senses in the way they live.

OPTION 2 - Northern Safari Tour

Discover some of the animals that call Canada home! An interpreter will guide your group around the zoo to meet some of our native animals that call the zoo home. Learn about some of the diverse ecosystems found in Canada and how animals adapt to living in them.

OPTION 3 - Animals of the World Tour

Let's explore animals around the world! The zoo has a variety of animals from all over the world. Discover some of the exotic animals here at the zoo and learn about some of the breeding programs that the Edmonton Valley Zoo is part of.

** Emphasis will be placed on animals that fit in the theme, but other animals may be included in the program.*

Nosy Noses (Ages 4-6)

Be a little nosy around the Zoo! Discover some of the amazing noses that belong to our zoo animals, and learn how many animals use their noses: elephants use them for work, seals have noses to keep out water, and snakes hide their 'smellers' inside their mouth. Have nosy encounters with some animals, play a nose matching bingo game, and test your own sense of smell by playing our mystery scent game.

Tail Tales (Ages 4-6)

Discover the tale behind those tails! With an interpreter, you'll find tails of all shapes and sizes and discover how different animals use their tails to move, show off, communicate, and defend themselves. As we tour the zoo, try to guess the mystery tails shown in our tail tales cards. Only one of the animals at the Zoo has no tail, and we'll figure out who that is! Through encounters and artifacts, your students will learn all about animals—from behind.

Group Programs

Fur, Feathers, and Scales (Ages 4-6)

Do all birds have feathers? Do all mammals have fur? Do amphibians and reptiles share some of the same features? Students will get a chance to feel the difference in textures between fur, feathers, and scales. We'll tour the zoo to see and meet a variety of animals that represent each major group—birds, mammals, reptiles, and amphibians.

Endangered Species (Ages 6+)

The Edmonton Valley Zoo offers you the opportunity to meet and learn about some of the most endangered species up close. Your group will discover which animals are endangered and the reasons behind the decline of some species. You'll get a chance to examine artifacts from endangered species, and will also learn about the role zoos play in the conservation of a number of species.

Be a Zookeeper (Ages 7+)

Zookeepers are always busy—making meals, creating enrichments, caring for sick animals and cleaning the animal enclosures. Your group will take part in at least one zookeeping activity that needs to be done that day as you find out what it's like to be a zookeeper. Your group will also get a chance to meet and touch a few of our smaller animals.
