- Schedule subject to change. Please visit www.edmonton.ca/RecCentreNotifications for updates on closures and cancellations.
- No drop-in classes on statutory holidays.

ACTIVITY DESCRIPTIONS

SHALLOW WATER AQUAFIT (SW)	Get fit! Aquafit is a fun and energetic aerobic exercise class that uses the water for resistance. Low to zero impact is easy on bones and joints. A one-hour class set to music and taught by certified instructors. Work at your own pace, no swimming skills required.
DEEP WATER AQUAFIT (DW)	An aquabelt suspends you so that your whole body gets a total workout. Good for those with joint or injury concerns. Also known as Aquajog.
AQUABOX (AB)	Boxing moves with an aquatic twist to keep your heart rate up.
KARATAQUATICS (KA)	A hybrid of karate, strength and endurance training.
WATER WORKS (WW)	Water Works is an aquatic exercise program specifically for people with muscle, joint or mobility problems. A trained instructor takes participants through soothing, slow movements in the swimming pool, all accompanied by soft music. Relieve stiffness, increase flexibility, and restore or maintain muscle strength. Water Works is safe and easy, and perfect for arthritis or fibromyalgia sufferers.
GENTLE AQUAFIT	A mild - moderate one-hour class set to music and taught by certified instructors. Work at your own pace, no swimming skills required. Water temp varies depending on facility(29.5 – 32C)
DEEP WATER TETHERING(DW T)	A tether (i.e. bungee cord or hitch) is fastened to a deep water belt and then hooked onto a lane rope creating dynamic resistance. This activity can be performed in deep or shallow water and is easily modified for all levels. Participants can work towards their own personal best by increasing or decreasing the amount of effort or “pull” on the tether. Adding a tether further increases the resistance, especially when encouraged to pull forward. Benefits can include reduced impact on joints (shallow) or no impact on joints (deep), increased range of motion, improved strength and endurance, increased core strength and cardiac functioning.
SHALLOW WATER STRENGTH TRAINING (SW ST)	Get fit! Aquafit is a fun and energetic aerobic exercise class that uses the water for resistance. Low to zero impact is easy on bones and joints. A one-hour class set to music and taught by certified instructors. Work at your own pace, no swimming skills required. This class uses specialized equipment to increase workout.
