## **MULTI-UNIT RESIDENTIAL DEVELOPMENT GRANT PROGRAM**

### **Application Form**

#### **ELIGIBILITY CRITERIA**

- The property must be located within the boundaries of an Enterprise Area.
- The project must be a market housing development and one of the following mixed-use and/or multi-unit residential building types upon completion:
  - i. A mixed-use building that creates any new dwellings located above eligible retail and commercial use occupancy on the ground floor (or both ground and above ground floors) of the building, through either new construction or through conversion of an existing building from an alternate use.
  - ii. A multi-unit residential building that creates a minimum of 10 new dwellings through either new construction or through conversion of an existing building from an alternate use.
- Eligible ground floor retail and commercial uses are General Retail Stores (except Adult-oriented Stores), Convenience Retail Stores (except Adult-oriented Stores), Restaurants, Specialty Food Services, Personal Service Shops (except Adult-oriented Services), Minor Secondhand Stores (except Pawn Shops), and Hotels.
- Eligible above ground floor retail and commercial uses are all commercial uses permitted in existing CB1 and CB2 zones except Adult-oriented Services, Adult-oriented Stores, Minor and Major Alcohol Sales (i.e., liquor stores), Bars and Neighbourhood Pubs, Nightclubs, and Pawn Shops.
- Any existing retail or commercial use within an existing commercial building is also an eligible retail and commercial use when new dwellings are created above that existing retail or commercial use as part of a Mixed-use conversion project.
- The maximum amount of grant for an eligible mixed-use project is \$12,000 per new dwelling to a maximum of 36 dwellings.
- The maximum amount of grant for an eligible multi-unit residential project is \$7,000 per new dwelling to a maximum of 36 dwellings.
- Any dwellings of a project for which reimbursement was provided must remain as a dwelling for at least 10 years (otherwise the reimbursement monies must be refunded).
- Any retail and commercial use space created under this program for which reimbursement up to \$48,000 was provided must be utilized for Eligible Retail and Commercial Uses for at least five years (otherwise the reimbursement monies must be refunded).
- Any retail and commercial use space created under this program for which reimbursement over \$48,000 was provided must be utilized for Eligible Retail and Commercial Uses for at least 10 years (otherwise the reimbursement monies must be refunded).
- *Please refer to the Development Incentive Program Guidelines for further eligibility criteria details and design guidelines.*

#### **PROCEDURES**

- All applicants are encouraged to consult with the Sustainable Development Department, both the Program Manager and a Development Officer, prior to formally submitting their application package. The purpose is to discuss the program's eligibility criteria, eligible assistance, procedures, project design, and Development and Building Permit application requirements to ensure fast processing through to project approval.
- A pre-submission site visit is conducted by the Program Manager and applicant to evaluate existing property conditions.
- A complete application package is submitted and a pre-construction inspection is carried out to verify that the project has not proceeded prior to approval.
- The Project Review Committee reviews complete application packages and applicants will be notified in writing stating whether the application has been given conditional approval, refusal, or additional information is requested of the applicant.
- Applicants whose projects have successfully gained conditional approval will then apply for applicable Development and Building Permits.
- Once applicable Development and Building Permits are issued, applicants with conditional approval are required to enter into a Reimbursement Agreement with the City clearly outlining the terms and conditions of the project.
- Project construction begins with construction required to commence within one year of Development Permit issuance and completed within 24 months (or as otherwise predetermined) from the signing of the Reimbursement Agreement.
- Once construction is complete and final building inspections are completed for compliance with all Building Permits, the applicant notifies the Program Manager for a post-construction inspection.
- The applicant contacts the Program Manager for a post-construction inspection and provides evidence of compliance with all applicable permits and codes and where applicable, compliance with eligible retail and commercial use occupancy.
- The project is inspected for completion relative to the Reimbursement Agreement and the applicant signs off on a project completion checklist.
- Once all requirements have been met, the City provides grant funding consistent with the terms of the Reimbursement Agreement.
