

**Bylaw 16200
Drainage Bylaw
Code of Practice**

**Hauled Wastewater
Discharge Requirements**

APPROVED:

Chris Ward, Branch Manager, Drainage Services
Delegate of the City Manager

January 6 , 2014

1.0 Application

- 1.1 No person may release or discharge hauled wastewater to the sewerage system unless the discharge is done in accordance with this code of practice. s.35(1)(f)
- 1.2 Nothing in this code of practice exempts a person from complying with all applicable municipal, provincial, or federal legislation or standards.

2.0 Discharge Requirements

- 2.1 All facilities allowing the discharge of hauled wastewater must be approved by the City Manager. s. 35(1)(b)
- 2.2 If the approved location uses an automated entry system, access cards must be used to enter and exit the facility.
- 2.3 All access cards must be issued to a specific vehicle.
- 2.4 Hauled wastewater must be accompanied by a manifest that includes all of the following information:
- a) the generator(s) of the hauled wastewater;
 - b) date and time of loading;
 - c) the quantity and composition of hauled wastewater;
 - d) the name and contact information of the carrier;
 - e) the date, time, and location of release of the hauled wastewater; and
 - f) the name and contact information of the person consigning, hauling, and authorizing the release of the load.
- 2.5 The manifest for each load of hauled wastewater must be deposited in the drop box at the approved location.
- 2.6 A separate manifest must be completed for each load of hauled wastewater.
- 2.7 Hauled wastewater may not be diluted.
- 2.8 All hauled wastewater is subject to inspection, sampling, or analysis.

- 2.9 If any of the following occurs, the reporting procedures posted at the approved location must be followed:
- a) the hauled wastewater overflows the containment pad; or
 - b) the vacuum pump releases to the ground.
- 2.10 If a discharge portal at an approved location is barricaded, the next available discharge portal must be used.
- 2.11 Littering is not permitted at an approved location and may result in a suspension of access to an approved facility for a period of time.
