

CAPILANO PARK/50TH STREET – Concept for Discussion

This existing location in Capilano Park is a highly used vehicle launch for motorized and non-motorized boats. This plan aims to more effectively manage vehicle and pedestrian traffic for safety, incorporate an additional hand launch site and provide support amenities to accommodate a range of boaters.

What are the opportunities?

- Existing vehicle launch site
- Adequate trailer parking
- Suitable slopes

What design considerations exist?

- Potential conflicts between users (motorized/non-motorized boats, trail users, vehicles)
- Distance to washrooms
- Flooding and sedimentation
- Close proximity to outfall

What amenities are being considered?

- Separate hand launch
- Dock
- Winter storage area for dock
- Improved signage (for example, No Parking, unloading zones, etc.)
- Reconfiguration of parking and vehicular circulation
