

DAWSON PARK – Concept for Discussion

This park currently provides a range of amenities and is used by several boating groups to access the river. The plan aims to improve access to the river through a new gravel trail and dock.

What are the opportunities?

- Suitable slope with some re-grading
- Close proximity to amenity building, washrooms and picnic area
- Potential partnership with boating clubs

What design considerations exist?

- Located 300m upstream from fish habitat
- Distance to parking and unloading area

What amenities are being considered?

- Dock with gravel trail access
- Winter storage area for dock
- Improved signage (for example, No Parking, unloading zones, etc.)
- For safety, bollards/gates installed to restrict vehicle access to beach
