

## Special Services

### SEWER

Service call for investigation and releasing of plugged sewer:  
**\$334 (GST exempt)**

### TRUCK-HAULED WASTEWATER

Sewage delivered by truck to City disposal site  
(less the first steering axle): **\$17/axle (GST exempt)**

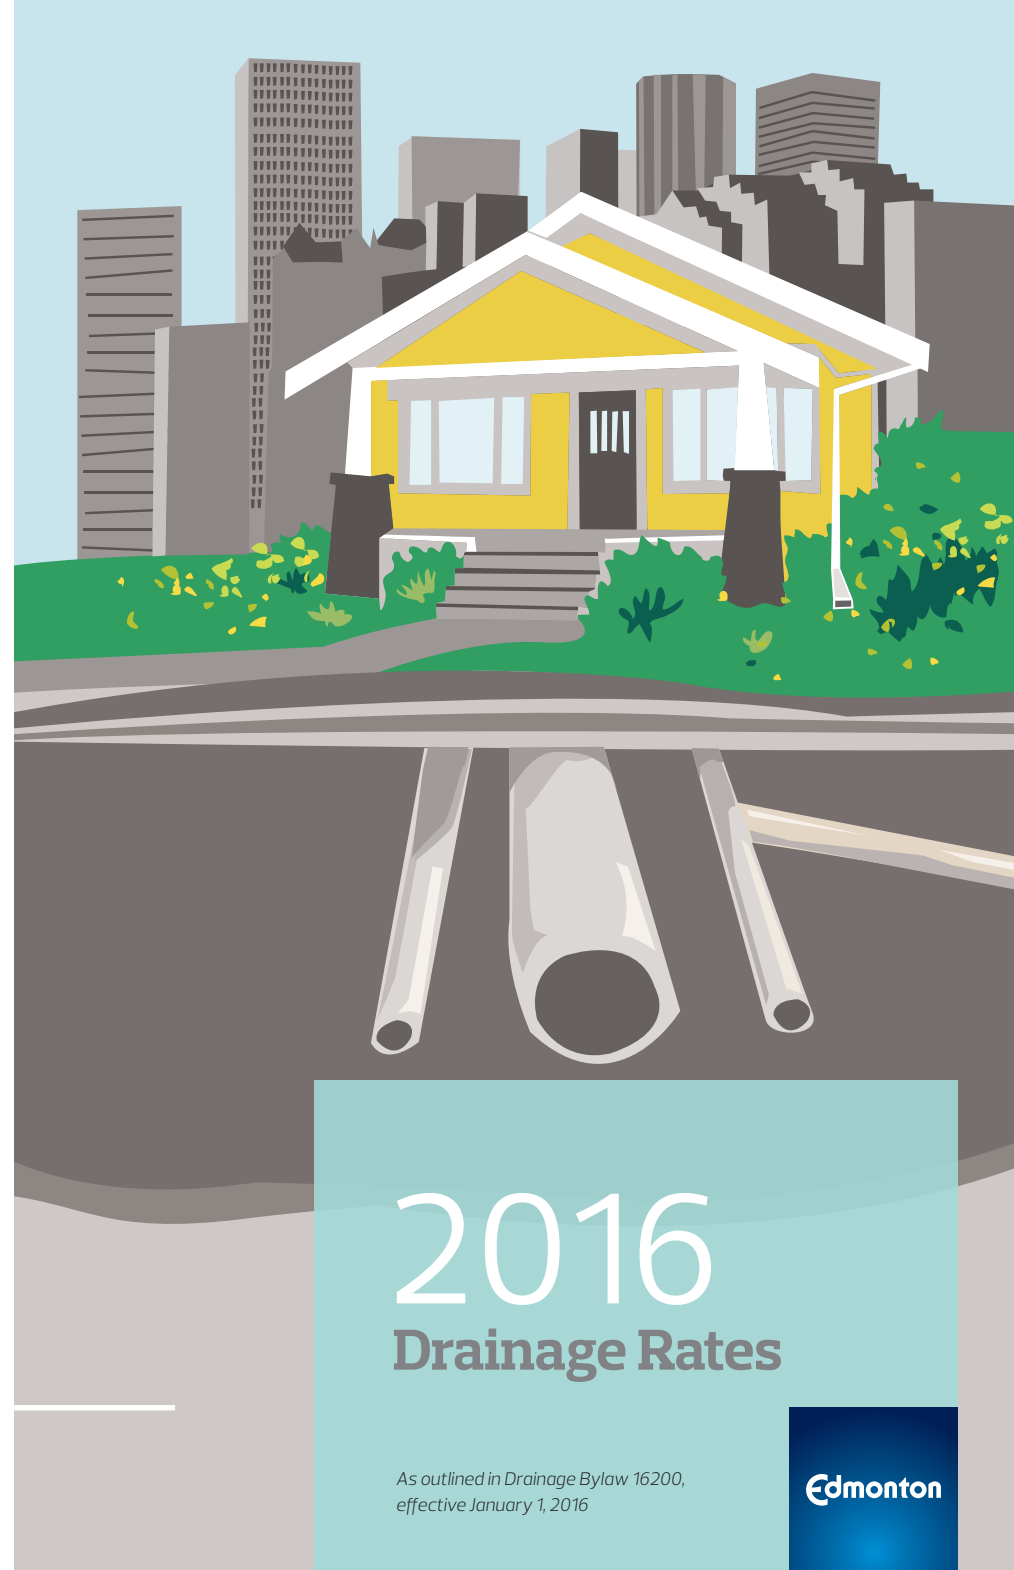

Wastewater having a settleable solids concentration greater  
than 100ml/l will be charged twice the rate of the above  
**(for 2016: \$34/axle, GST exempt)**

### APPLICATION FEES

- Permit to release fee  
(per year of permit term): **\$344 (GST exempt)**
- Compliance approval fee  
(per year of approval term): **\$344 (GST exempt)**
- Records search  
(per address): **\$107 + GST**
- Application for sewer metering fee  
(per application): **\$300 (GST included)**
- Application for contributive sewer utility fee  
(per application): **\$300 (GST included)**
- Application for stormwater utility credit fee  
(per application): **\$300 (GST included)**

## Questions, Problems, Emergencies

# 2016 Drainage Rates

As outlined in Drainage Bylaw 16200,  
effective January 1, 2016

Edmonton

## Collection & Transmission

### – Fixed Rate

METER SIZE	FIXED RATE
16mm	\$8.85
20mm	\$15.93
25mm	\$24.79
40mm	\$47.80
50mm	\$65.51
75mm	\$135.44
100mm	\$252.29
150mm	\$477.15
200mm	\$761.31
250mm	\$1,889.11
300mm	\$1,889.11
400mm	\$2,139.86
500mm	\$2,301.50

## Collection & Transmission

### – Variable Rate

**UNIFORM PER CUBIC METRE: \$0.9109**

**LARGE WHOLESALE  
WITH COLLECTION SYSTEM: \$0.5142**

Variable sewer charges are based on metered water consumption. If no meter exists, sewer charges are based on the provisions of the Drainage Bylaw 16200.

*Wastewater treatment services are provided by EPCOR.*

## Stormwater Charges

Charges are calculated using property size (**A**), development intensity (**I**), and a runoff coefficient (**R**), based on land zoning and a city-wide monthly rate.

The charges are calculated as follows:

$$\mathbf{A \times I \times R \times RATE = STORMWATER UTILITY CHARGE}$$

**A**

The area of the property in square metres (m<sup>2</sup>), and the proportion of the building lot area attributable to each unit for multiple units sharing a single building of property.

**I**

The development intensity factor of 1.0, except for properties where owners demonstrate that they contribute significantly less stormwater runoff per property area to the City's land drainage system during rainfalls than other similarly-zoned properties.

**R**

The runoff coefficient, which is based on land zoning.

**RATE**

The monthly charge of \$0.037114 per square metre (m<sup>2</sup>).
