

HAWRELAK PARK – Concept for Discussion

The proposed dock is located near an amenity building and picnic areas, and will provide park users with an opportunity to connect with the river. It will also cater to occasional boaters by providing a stopping point to use the park's amenities.

What are the opportunities?

- Reasonable slopes
- Close proximity to amenity building, picnic areas and washrooms
- Slopes suitable for access with some re-grading

What design considerations exist?

- Popular park—parking reaches maximum capacity frequently
- Potential conflicts between users (trail users, vehicles, diverse range of park users)
- Dock location not highly visible

What amenities are being considered?

- Dock with granular trail access
- Winter storage area for dock
- Improved signage (for example, No Parking, unloading zones, etc.)
- Waste receptacles
