

Private Vehicle Reimbursement
2014 Threshold to Trigger Cost Effectiveness Review to Provide a City Owned Vehicle

The thresholds provided are a guideline to trigger a review of the cost effectiveness of continuing to reimburse staff for the personal use of their vehicle versus the provision of a City owned vehicle. Business Areas are strongly recommended to consider operational functional requirements along with costs when completing this analysis.

Vehicle Type	Model	Into-Service Purchase Price	Vehicle Life (Years)	KM Threshold to Provide City Vehicle
Compact	Toyota Corolla	\$ 19,675	10	10,000
Hybrid Sedan	Toyota Prius	\$ 26,355	7	15,100
Compact SUV	Toyota RAV4	\$ 26,538	9	29,000
Light Duty Truck	Ford F150 4x2 Supercab	\$ 21,691	8	35,100
