

ROSSDALE – Concept for Discussion

This plan integrates a new dock on the north side of the Waltherdale Bridge. The dock will be primarily for the non-boating public to improve access to the river and to enjoy the water's edge.

What are the opportunities?

- Location near downtown
- High pedestrian traffic
- Suitable slopes with new development

What design considerations exist?

- No parking
- No washroom facilities

What amenities are being considered?

- Dock
- Seating area
- Connections to trail system
