### Ward Boundary Corrections - Input Opportunity

The Returning Officer for the City of Edmonton has presented City Council with potential adjustments for ward boundaries within the city. The adjustments will equalize the populations and electors in the impacted wards. This is important to ensure that each Councillor represents about the same number of residents. Your address has been identified as a household that may be impacted by the proposed ward boundary correction. See reverse for the map showing the recommended adjustment.

If you have concerns about, or agree with, the proposed changes, we would like to hear from you!

**Where:** Jackson Heights School; 311 Jackson Road NW  
**When:** 6:00 pm - 8:00 pm  
**Date:** Thursday, June 23, 2016

The Returning Officer and Election staff will be in attendance to hear your comments on the impact of the proposed adjustments.

If you are unable to come to the session, please send us an email with your comments at [elections@edmonton.ca](mailto:elections@edmonton.ca).

Laura M. Kennedy  
Returning Officer,  
City of Edmonton
