

Public Information Session Aspen Gardens, Royal Gardens and Greenfield Sewer upgrading project

The City of Edmonton's Drainage Services is hosting a Public Information Session for the Aspen Gardens, Royal Gardens and Greenfield neighbourhoods to show the preliminary designs of the sewer upgrading project planned for these areas.

The project is part of ongoing flood mitigation work to help protect the Aspen Gardens, Royal Gardens and Greenfield neighbourhoods from future flooding due to sanitary sewer backup. Preliminary designs for two of these projects are complete and your feedback is required.

Assuming the designs are approved, construction is tentatively scheduled to begin in spring 2015. The Public Information Session will introduce further details about the projects. Your feedback on the preliminary design will be passed onto the design team for consideration.

Updated information will continue to be provided as it becomes available.

All community residents are invited to the Public Information Session:

Wednesday, February 18, 2015

7:00 – 9:00 PM

Presentation begins at 7:00 PM

Vernon Barford Junior High School, Gym

32 Fairway Drive NW
