

Neighbourhood Engagement

The City of Edmonton works with residents, community leaders and other organizations to make Edmonton one of Canada's most livable cities. We recognize that relationships are paramount to a neighbourhood. We encourage and assist Edmontonians to get together at the neighbourhood level to collectively identify their assets and then use those assets to enhance their community.

We provide the following tools:

- A NES presentation & discussion for your community group or neighbourhood
- Neighbourhood Engagement Strategy Toolkit
- Other information, resources & tools available on our website www.edmonton.ca/engagement
- Funding opportunities for up to \$500 or up to \$2500

Ask your local Community Recreation Coordinator or Community Building Social Worker for more details by calling 311.

Neighbourhood Engagement

Would you like to:

- gain skills and tools for engagement that will transform your community?
- increase your neighbourhoods' sense of community?
- inspire new volunteers to get involved in making their community better?
- discover and explore and build on the assets in your community?
- Live in a community where you know your neighbours?

Ask your local Community Recreation Coordinatator or Community Building Social Worker for more details by calling 311.
