What is a Local Improvement?

- A local improvement is a construction project which is undertaken near or adjacent to your property.
- A project Council considers of greater benefit to an area of the municipality than to the whole municipality.
- A project to be paid for **IN WHOLE** or **IN PART** by a Local Improvement Tax Levy.

What are Considered Local Improvement Projects?

Property Owner Initiated:

- Curb Crossing
- Alley Lighting
- Streetscaping
- Alley Renewal (Reconstruction or Resurfacing)
- Decorative Street Lighting

City Initiated:

- Sidewalk Reconstruction 50/50 cost share

Assessment Length – Frontage?

- Frontage assessable length is the shorter side of the lot
- The orientation of the house on the lot does not impact the Frontage calculation

Assessment Length – For Pie or Odd Shaped Lots?

- For Odd Shaped Lots, Local Improvement will be assessed as follow:

$$\text{Assessed Length} = \frac{(\text{Front} + \text{Rear Dimension})}{2}$$

Note: This average may not be more than 2 times the front parcel dimension

RE: Proposed Local Improvements

Local improvements are proposed for construction in 2011 adjacent to property that is registered under your name, at 1015 60 STREET NW.

The proposed local improvement is the construction of the following:

Alley Paving, Residential, to be assessed to owners of land benefiting from the proposed improvement at the 2011 uniform unit rate of **\$30.71** per assessable metre per annum for 10 years. The owner(s) may at any time pay the remaining balance.

The owner(s) of any lands affected may pay cash for the improvements. The cash cost for this type of improvement is **\$248.85** per assessable metre.

Based on your estimated assessed width of **15.85** metres, the **estimated** charge to you would be **\$486.75** per annum for 10 years, or **\$3,944.27** cash cost. The actual charge will be determined after construction is complete, at the time of assessment.

The total estimated cost of the local improvement is **\$201,570**. The portion of the estimated cost of the proposed local improvement to all the benefiting property owners is 50% and 50% is to be borne by the City at large.

This local improvement is being constructed in accordance with Section 393(1) of the *Municipal Government Act*, R.S.A. 2000, c. M-26 (MGA). As per City Policy C433D, this local improvement may be constructed unless the majority of the assessable owners, representing at least one half (1/2) of the value of the assessments prepared under Part 9 of the MGA for the parcels of land, petition against this proposed improvement within 30 days of this notice.

Neighbourhood Renewal

The Transportation Services Department's Neighbourhood Renewal Program outlines a cost effective, long-term strategic approach to address Edmonton's neighbourhood infrastructure needs and the renewal and rebuilding of roads, sidewalks and streetlights in existing neighbourhoods and collector roadways. The Neighbourhood Renewal Program balances the rebuild need in some neighbourhoods with a preventative maintenance approach in others.

The types of neighbourhood renewal work vary depending on the state of infrastructure, and include:

Preventative Maintenance — Roads will be rescaled to extend their life span

Overlay — Roads will be repaved and sidewalk panels treated to eliminate trip hazards

Reconstruction — Roads will be repaved, and streetlights and sidewalks replaced*

In the case where reconstruction of a neighbourhood takes place, the cost for replacement of sidewalks is shared on a 50/50 basis between the City and the property owners. In addition, the City also replaces streetlights with a standard galvanized streetlight poles, but property owners can also opt for decorative street lighting (with the incremental cost to be paid by property owners)*.

By effectively combining reconstruction, overlay, and preventative maintenance, all Edmonton neighbourhoods can receive improvements within 30 years, where a total reconstruction only program would take many more years to complete, at a higher cost.

Edmonton City Council proactively supported the establishment of a Neighbourhood Renewal Program in 2009. Funds were allocated from Government of Alberta programs (Alberta Municipal Infrastructure Program and Municipal Sustainability Initiative), and a tax levy funding pool was established to cover remaining municipal costs and guarantee an ongoing commitment to renewing neighbourhood infrastructure.

Neighbourhood revitalization initiatives from other City departments, such as Infrastructure Services, Community Services (Office of Great Neighbourhoods), and Sustainable Development, align with Transportation Services program and are coordinated to maximize the City's investments in neighbourhood improvement. The Roads Design and Construction Branch provides the project management and procurement of design and construction services required to administer and complete the renewal work identified in Transportation Services Neighbourhood Renewal Program.

* Subject to the approval of the Local Improvement Bylaw. The neighbourhood application for decorative street lighting must be submitted to the City by November 30 of the year prior to neighbourhood reconstruction.
