

# Welcome!

## 102 Avenue over Groat Road Bridge Replacement (B2)

### Purpose of Meeting:

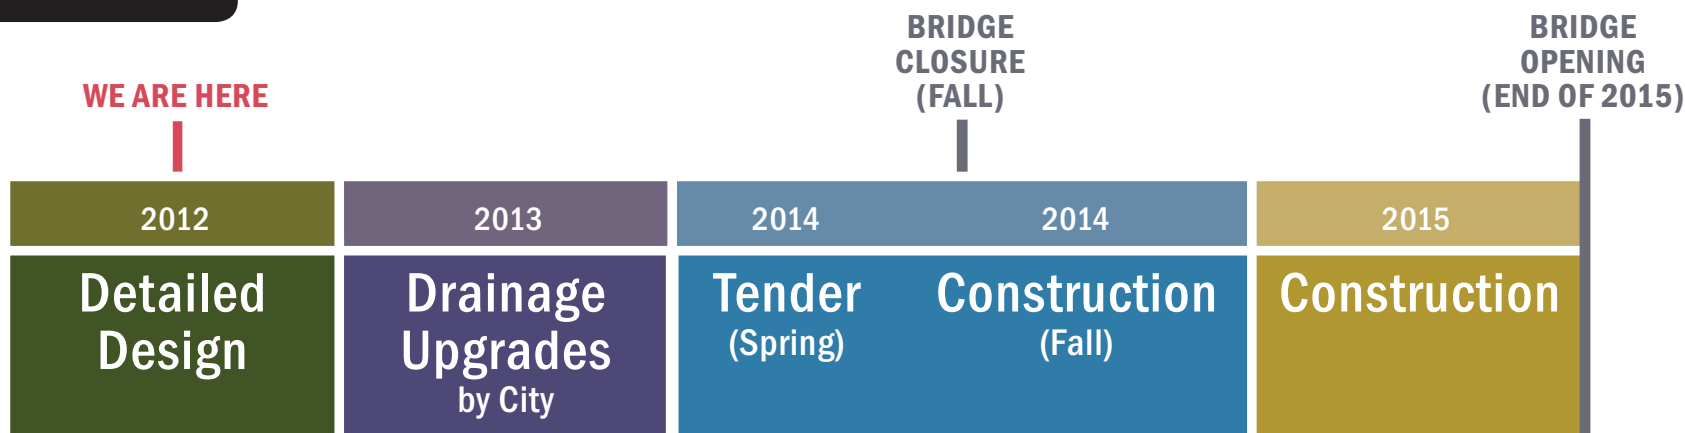

*To update stakeholders on the project status*

# Overall Project and Schedule

## Scope of Project

- Replacement of the 102 Avenue over Groat Road Bridge
- Enhancements to the storm water management system
- Reconfiguration of the intersection of Connaught Drive and 102 Avenue
- An environmental impact assessment (EIA) is being conducted to assess and mitigate possible environmental impacts of this project
- Percent for Art will be incorporated into the project

## Timeline

# Public Involvement

## What have we done?

- Meetings with key stakeholder groups including local businesses, the 124 Street Business Revitalization Zone (BRZ) and community leagues and neighbourhood associations
- Information on project website:  
[www.edmonton.ca/102AvenueOverGroat](http://www.edmonton.ca/102AvenueOverGroat)
- Promotion of tonight's public meeting

## What we heard

- Concerns about shortcutting through Glenora & Westmount Communities from Stony Plain Road to 102 Avenue
- Inform all Edmontonians of bridge closure through extensive media
- Inform all potential users of both Stony Plain Road and 102 Avenue well in advance of the detour site to allow users maximum notice and maximum options to revise their routing east and westbound
- Assist businesses in the area in communicating where to gain access to and from their businesses during construction
- Clearly promote alternative routes for pedestrians and cyclists
- Promote alternate ETS bus routes and consider bus shuttles
- Adjust traffic lights on 102 Avenue and 124 Street to facilitate movement in and out of High Street business area
- Consider traffic movements in, out and through Royal Alberta Museum site

# Thank You!

- A public meeting will be held prior to construction
- Check the website for ongoing updates:
