Whitemud Drive	
North - South Corridors	7
66 Street - 75 Street - Wayne Gretzky Drive - Fort Road - Manning Drive	
Groat Road - St Albert Trail - Mark Messier Trail	
97 Street	
Calgary Trail / Gateway Boulevard	
James Mowatt Trail - 111 Street - 109 Street	
170 Street	
East - West Corridors	11
Sherwood Park Freeway - 82 Avenue (Whyte Avenue)	
104 Avenue - Stony Plain Road/100 Avenue	
Jasper Avenue - 102 Avenue	
137 Avenue	
AAWDT Report 2008 - 2013	15

Introduction

Average Annual Weekday Traffic (AAWDT) over a 24 hour period for a typical Monday, Tuesday, Wednesday or Thursday.

(Please refer to the 2009 – 2014 AADT Report for the Average Annual Daily Traffic, which includes Fridays, Saturdays, Sundays, and holidays.)

Traffic Volumes

The following listing includes traffic counts obtained with automatic traffic recorders over the past six years. The volume shown is the total of all vehicles in both directions over a 24 hour period for a typical weekday.

- A blank cell indicates no count was undertaken that year.
- Volumes that were obtained from counts conducted during that year are displayed in **bold** font.
- Volumes that were estimated from counts conducted in previous years are displayed in grey font.
- Estimated volumes are derived from growth factors at permanent counting sites, applied to the most recent actual count volume at a given location.

Seasonal Adjustments

Volumes are based on counts of a minimum one day duration (usually completed between April and October) and are adjusted to reflect an average weekday during the year. Adjustments are based on variations by time of year measured at permanent count locations that monitor traffic year round.

Year to Year Volume Changes - Interpretation of Results

An increase or decrease in volume does not necessarily indicate a trend for a given roadway. Some areas may record a temporary change in volume due to the reconstruction of a roadway segment. Although every attempt is made to avoid counting areas while diversions are in effect, some roadway projects affect traffic patterns for a long period of time and are reflected in the counts. For example, the 2014 construction program included:

- Stony Plain Road (149 Street to 158 Street)
- 96 Street closure (Jasper Avenue to 103A Avenue)
- 63 Avenue (99 Street to 104 Street)
- 23 Avenue (85 Street to 91 Street)
- 34 Street closure (153 Avenue to 167 Avenue)
- 102 Avenue Bridge over Groat Road closure
- Walterdale Bridge construction
- New Ice District Construction
- Yellowhead Trail/Anthony Henday Drive Construction
- Anthony Henday Drive/Manning Drive Construction
- Anthony Henday Drive Bridge construction
