

# DELTON NEIGHBOURHOOD DESIGN

# Design Considerations

- Intersection Improvements
- Active Transportation
- Road Width

# Public Involvement

- Community League Meeting:  
April 30, 2012
- Public Meeting:  
September 27, 2012

## What We Heard

- *Poor drainage on the SW corner of 89 Street/123 Avenue*

### Standard Practice

- The detail design addresses drainage problems along roadways. If required, a new catch basin will be installed.

## What We Heard

- *Insufficient lighting on 123 Avenue between 89 Street and 90 Street*

### Standard Practice

- The new lighting design was developed in accordance with City Policy C564 to improve lighting levels.
- The new LED lighting design provides more uniform lighting along the roadway.

## What We Heard

- *Speeding and traffic violations along 124 Avenue*

### Standard Practice

- All intersections within the neighbourhood will have traffic control measures installed after reconstruction is complete.
- The Office of Traffic Safety, community leagues, and the Edmonton Police Service manage neighbourhood speed issues through a cooperative effort.
- More information is available at [edmonton.ca/trafficsafety](http://edmonton.ca/trafficsafety).

## What We Heard

- *Replace the existing noise wall because it is unfriendly and ugly*

### Investigation/Outcome

- The existing noise wall functions well; replacing it is not planned at this time.
- Proposed closure to match existing colour.

## What We Heard

- Building Great Neighbourhoods Program
  - *Improve lighting at the park on 124 Avenue between 96 Street and 95A Street*
  - *Plant trees along 123 Avenue from 90 Street to 97 Street*
  - *Plant trees along 124 Avenue*
