

Construction Update

July 2012

17 Street & 23 Avenue Roadway Upgrades

Due to rain delays, the first stage of the project is now scheduled to open in September 2012. The second stage, which focuses on 17 Street, from Silverberry Road to 23 Avenue, will begin after the first stage has been opened to traffic.

The 2012 project work has been broken into two stages, both will involve total road closure.

- **Stage One Road Closure:** 23 Avenue, from 24 Street to east of 17 Street, closed on March 21, 2012 along with 17 Street south of 23 Avenue.
- **Stage Two Road Closure:** 17 Street, from Silverberry Road to 23 Avenue, will close after Stage One has reopened to traffic which is anticipated for July 2012.
- For 23 Avenue, east of 17 Street, local access will be maintained.
