

Construction Update

OCTOBER 2012

17 Street & 23 Avenue Roadway Upgrades

2012 Project work was broken into two stages, both involved total road closure.

The first stage, 23 Avenue and 17 Street, south of 23 Avenue, was re-opened to traffic on September 21, 2012.

Work on the second stage has begun and will continue until freeze-up at which point 17 Street will reopen for winter traffic. Further closure of 17 Street will occur early next spring until approximately July 2013.
