

# BUILDING GREAT NEIGHBOURHOODS

## DELTON NEIGHBOURHOOD TREE PLANTING

### Construction Bulletin

Building Great Neighbourhoods includes investments under the Drainage Renewal Program, Neighbourhood Renewal Program and the Great Neighbourhoods Capital Program.

As part of the Great Neighbourhoods Capital Program in Delton, contractors will be in your area planting trees on City property. You will have already seen some flags/survey markings and personnel doing field visits. Please do not remove these flags or markings.

The planting design took into account any feedback we received from the Delton Neighbourhood Renewal open houses in 2012 and 2013, and feedback from previously delivered notifications to properties adjacent to the areas of work.

***Tree planting is expected to occur in June/July 2016.***

#### **Scope of work:**

- A) Tree planting along 123 Avenue from 90-97 Streets on both the north and south sides of the avenue.
- B) Tree planting along 124 Avenue from 90-97 Streets on both the north and south sides of the avenue.

Tree species include Burr and Red Oak, Amur Maple and Ivory Silk Lilac.

#### **Access:**

During the planting period, one lane of traffic in each direction will be maintained at all times, under flag person control. No parking will be permitted in signed areas. Access to businesses, residences and alleys will be maintained, where possible, at all times. Emergency access will be maintained at all times.

If you have special access requirements, such as DATS, please advise the contact person listed below.

**Please mark all underground sprinkler systems to avoid damage during construction.**

**Please retain this bulletin for contact information.**
