PARK & RIDE LOT CAPACITY

The total supply of Park & Ride spaces decreased slightly from the previous year. Edmonton Transit now offers 5,003 parking spaces for access to the transit system by vehicle. The number of parking spaces at the five LRT Station Park & Ride sites decreased slightly by 0.5% from 4,005 to 3,986. Transit Centre Park & Ride sites remained the same as 1,017. The change in capacity at the Park & Ride sites can be attributed to the reconfiguration of reserved stalls which are not included in the lot capacity. These reserved stalls include loading zones, reserved taxi stalls, ETS inspector stalls and Transit Centre kiosk stalls. In addition, the decrease in capacity at Stadium reflects the true legal capacity as well as the loss of 10 stalls due to the introduction of 30 minutes parking. Changes can also be attributed to updates to the configuration of gravel parking lots at Belvedere and Century Park.

Table 1 provides a break down of the capacity for each Park & Ride site at LRT Stations and Transit Centre's.

Transit Centre Park & Ride Lots — Handicap Parking Spaces

Edmonton Transit provides 23 handicap parking spaces at Transit Centre Park & Ride Lots. By 10:00 a.m., on average there were 2 handicap parking spaces being utilized.

Transit Centre Park & Ride Lots — Bike Racks

Edmonton Transit also provides 105 bike rack parking spaces at Transit Centre Park & Ride Lots. By 10:00 a.m., on average there were 4 bike parking spaces being utilized.

METHODOLOGY

The number of vehicles in the five LRT Park & Ride sites and three Transit Centre Park & Ride sites are counted three times a year on a Wednesday and a Thursday. The timing of the surveys capture three different levels of demand for Transit:

-  The fall count is conducted between September 1 and November 30. This period represents a high demand season as post-secondary institutions and schools are in session and most people are back at work.
-  The spring count is conducted between mid-April and June 30. This period represents a moderate demand season as post-secondary institutions are not in full session but schools are in session and most people are working.
-  The summer count is conducted between July 1 and September 1. This period represents a low demand as people tend to be on vacation and post-secondary institutions and schools are not in session.

Utilization surveys are conducted on Wednesday and Thursday to capture the different usage patterns for the University of Alberta lecture hours (Monday/Wednesday/Friday and Tuesday/Thursday).

The vehicles in each site are counted at approximately 6:00, 7:00, 8:00, 9:00 and 10:00.

The capacity of each Park & Ride site is a reflection of the number of parking spaces available on the day of the survey. The totals for parking spaces used and capacity do not include reserved spaces for Transit, Taxis, Kiosk and Kiss & Ride.

DISCLAIMER

The Strategic Monitoring & Analysis team makes an extensive effort to assure the quality of information contained in this report is correct. Transit usage can vary by 10 percent or more from one day to the next or by season to season. Our team tries to minimize the variations by conducting surveys around the same time of the year. Year to Year variation may be due to random events such as weather, accidents or unforeseen events affecting service delivery. It is impossible to achieve complete accuracy and consistency in the reported data.

We recommend looking at trends, since variation that is consistent over a longer period is more likely to be real and not just the result of random events. Consideration and appropriate weighting of other sources is to be encouraged before making decisions.
