

# BULLETIN

Reference: 16-1602-01  
April 25, 2016

## **St. Albert Trail Service Road** **128-130 Avenue Improvements**

As part of the 2016 construction program, the City of Edmonton, Integrated Infrastructure Services will be involved in construction along the western St. Albert Trail Service Road between 128-130 Avenue. **Please refer to the map on the back of this bulletin for the work locations.** The contractor will be delivering a bulletin prior to improvements being performed on your street with estimated start and end dates of construction.

**Construction is tentatively scheduled to commence in late May 2016, weather permitting, and is expected to be completed by August 2016.**

### **Scope of work**

The work includes constructing new sidewalk, curb repairs, curb ramp improvements, foamed asphalt reconstruction, surface milling and asphalt paving. Re-landscaping of the boulevards will be done where required to accommodate the new sidewalk. Fire hydrants and water valves in conflict with the new sidewalk are expected to be relocated in early May prior to the main road work starting.

### **Access**

During the construction period, traffic will be split to one side or directed by flag persons as required. No parking will be permitted in signed areas. For parking lots with multiple entrances, one access will be maintained for business accessibility at all times. Emergency access will be maintained at all times.

If you have special access requirements, such as DATS, please contact David Kavanagh at (780) 496-5367.

**Please mark all underground sprinkler systems to avoid damage during construction.**

**Please retain this bulletin for contact information.**
