

The Grierson Hill Bridge Rehabilitation

On **Saturday, February 18**, the City of Edmonton will begin rehabilitation work on the **Grierson Hill Bridge**.

The Grierson Hill Bridge rehabilitation includes:

- Bridge deck demolition and new bridge deck construction.
- Pier column repairs.
- Paving and new guardrail construction.

Due to the construction, Grierson Hill Bridge at the bottom of Grierson Hill Road, will be entirely closed to traffic from **6am on Saturday, February 18** until **Fall 2012**. Drivers are advised to follow marked detour routes or use alternate routes such as Dawson Bridge, McDougall Hill, 105 Street, 106 Street, and James MacDonald bridge. Access to and from the Shaw Conference Centre from Grierson Hill Road will remain open.

During the demolition of the Grierson Hill bridge, McDougall Hill north of the Low Level Bridge will be entirely closed to traffic **Saturday February 18, 2012 at 6am** until **Tuesday February 21, 2012 at 6am**. After February 21, drivers can expect periodic lane closures off peak hours, and overnight total closures on McDougall Hill north of Low Level Bridge to accommodate construction activities on Grierson Hill Bridge. Drivers are advised to consider James MacDonald Bridge and Dawson Bridge as alternate routes during closures of McDougall Hill North of Low Level Bridge.
