Detailed Train List (Metro Line - Southbound) - End of Report

***A Note On Ridership***

Daily ridership figures refer to the total number of boardings. Annual and monthly ridership figures refer to the total number of linked trips.

**Boarding:**

A boarding is counted each time a passenger boards a bus or LRT vehicle even though the boarding may be the result of a transfer from another route to complete the same one-way journey. For example, if a passenger boards three different buses to get to their destination then their trip will add three boardings to the daily total. (A boarding is also known as an unlinked trip.) The number of boardings is obtained by counting passengers (manually or with a machine) as they board each transit vehicle.

**Linked Trip:**

A linked trip is the complete ride from an origin to a destination, no matter how many transfers between buses (or between LRT and buses) it takes to complete the trip. Traveling from home to work would be one linked trip, even if it meant taking a bus to an LRT station and then transferring to the LRT to get Downtown. Returning from work to home would count as a second linked trip. The number of linked trips is obtained through an analysis of the monthly sales of the various fare media (e.g. monthly passes, ticket books, and cash).

***Disclaimer***

The project team makes an extensive effort to assure the quality of information contained in this report is correct. Transit usage can vary by 10 percent or more from one day to the next or by season to season. Our team tries to minimize the variations by conducting surveys around the same time of the year. Year to Year variation may be due to random events such as weather, accidents or unforeseen events affecting service delivery. It is impossible to achieve complete accuracy and consistency in the reported data.

We recommend looking at trends, since variation that is consistent over a longer period is more likely to be real and not just the result of random events. Consideration and appropriate weighting of other sources is to be encouraged before making decisions.
