

BULLETIN

Reference: 16-1601-02
April 25, 2016

112 Avenue; 156 – 163 Street **Industrial Rehabilitation**

As part of the 2016 construction program, the City of Edmonton, Integrated Infrastructure Services will be involved in construction along 112 Avenue between 156-163 Street. **Please refer to the map on the back of this bulletin for the work locations.** The contractor will be delivering a bulletin prior to improvements being performed on your street with estimated start and end dates of construction.

Construction is tentatively scheduled to commence at the beginning of June 2016, weather permitting, and shall be completed by late August 2016.

Scope of Work

The construction involves concrete repairs, base repairs, foamed asphalt reconstruction, surface milling and asphalt paving.

Access

During the construction period, traffic will be split to one side or directed by flag persons as required. No parking will be permitted in signed areas. Access to businesses and alleys will be maintained where possible at all times. Emergency access will be maintained at all times.

If you have special access requirements, such as DATS, please contact David Kavanagh at (780) 496-5367.

Please be advised that all ramping devices (rubber mats, concrete fill in gutters or otherwise) used to facilitate access into commercial crossings must be removed prior to construction. Any ramping devices left on the roadway at the time of rehabilitation will be removed by the contractor throughout the construction process. During the final paving process, it may be necessary to pave over commercial crossing aprons in order to maintain drainage towards the roadway. The process of paving into the commercial crossing aprons will commence after the local roads have been paved.

Please retain this bulletin for contact information.
