

BULLETIN

Reference: 16-1602-02
April 25, 2016

64 Avenue; 170-178 Street **Rehabilitation**

As part of the 2016 construction program, the City of Edmonton, Integrated Infrastructure Services will be involved in construction along 64 Avenue between 170-178 Street. **Please refer to the map on the back of this bulletin for the work locations.** The contractor will be delivering a bulletin prior to improvements being performed on your street with estimated start and end dates of construction.

Construction is tentatively scheduled to commence during the school summer break starting on July 4, 2016 weather permitting. Construction is expected to be completed by early September 2016.

Scope of work

The work includes reconstructing new sidewalks, curb and gutter, curb ramps, foamed asphalt reconstruction of the roadway, surface milling and a new asphalt overlay. Re-landscaping of the boulevards will be done to accommodate the new sidewalk. Replacement of streetlights and other necessary utility work will be ongoing during the months of May and June prior to the main road work commencing.

Access

During the construction period, traffic will be split to one side or directed by flag persons as required. No parking will be permitted in signed areas. For parking lots with multiple entrances, one access will be maintained for business or residential accessibility at all times. Emergency access will be maintained at all times.

If you have special access requirements, such as DATS, please contact David Kavanagh at (780) 496-5367.

Please mark all underground sprinkler systems to avoid damage during construction.

Please retain this bulletin for contact information.
