What We've Heard So Far

Congestion

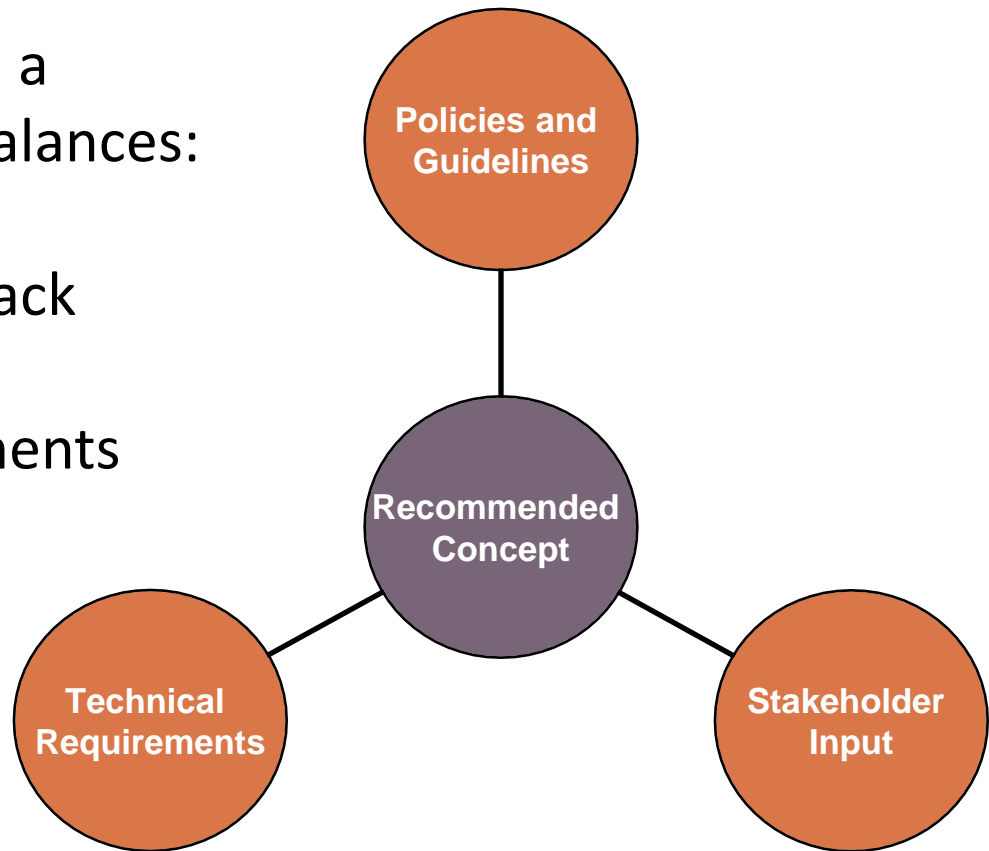

Wayfinding (Signage)

What influences the final plan?

The City will recommend a concept plan that best balances:

- Stakeholder feedback
- Technical requirements
- City policies

Option Development

- Numerous options were evaluated for viability considering the following:
 - Safety
 - Connectivity
 - Operations
- Constraints may require “Trade-Offs”
- Public input helped guide option development to address area concerns

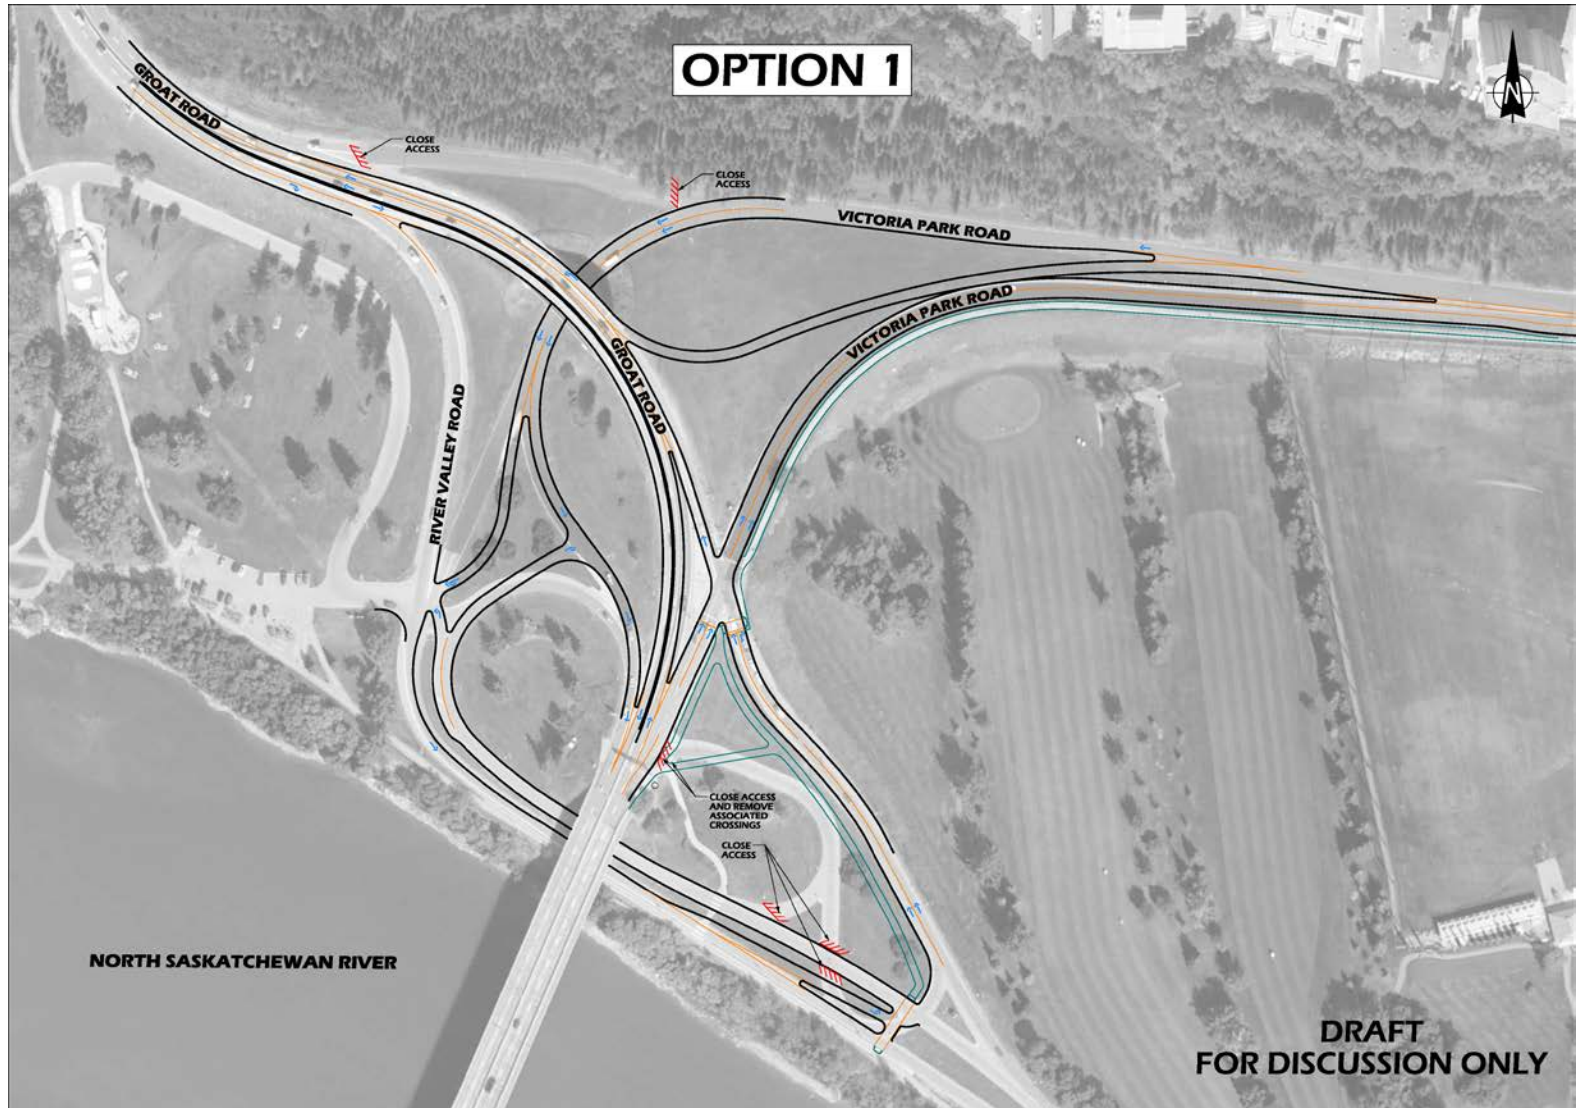

Option Development

- Two options were explored beyond the first viability review
- Common elements to each option
 - Moved pedestrian crossing on River Valley Road
 - Removed the multiple conflict points on River Valley Road
 - Steep shared-use path realigned
 - High angle merges altered or removed

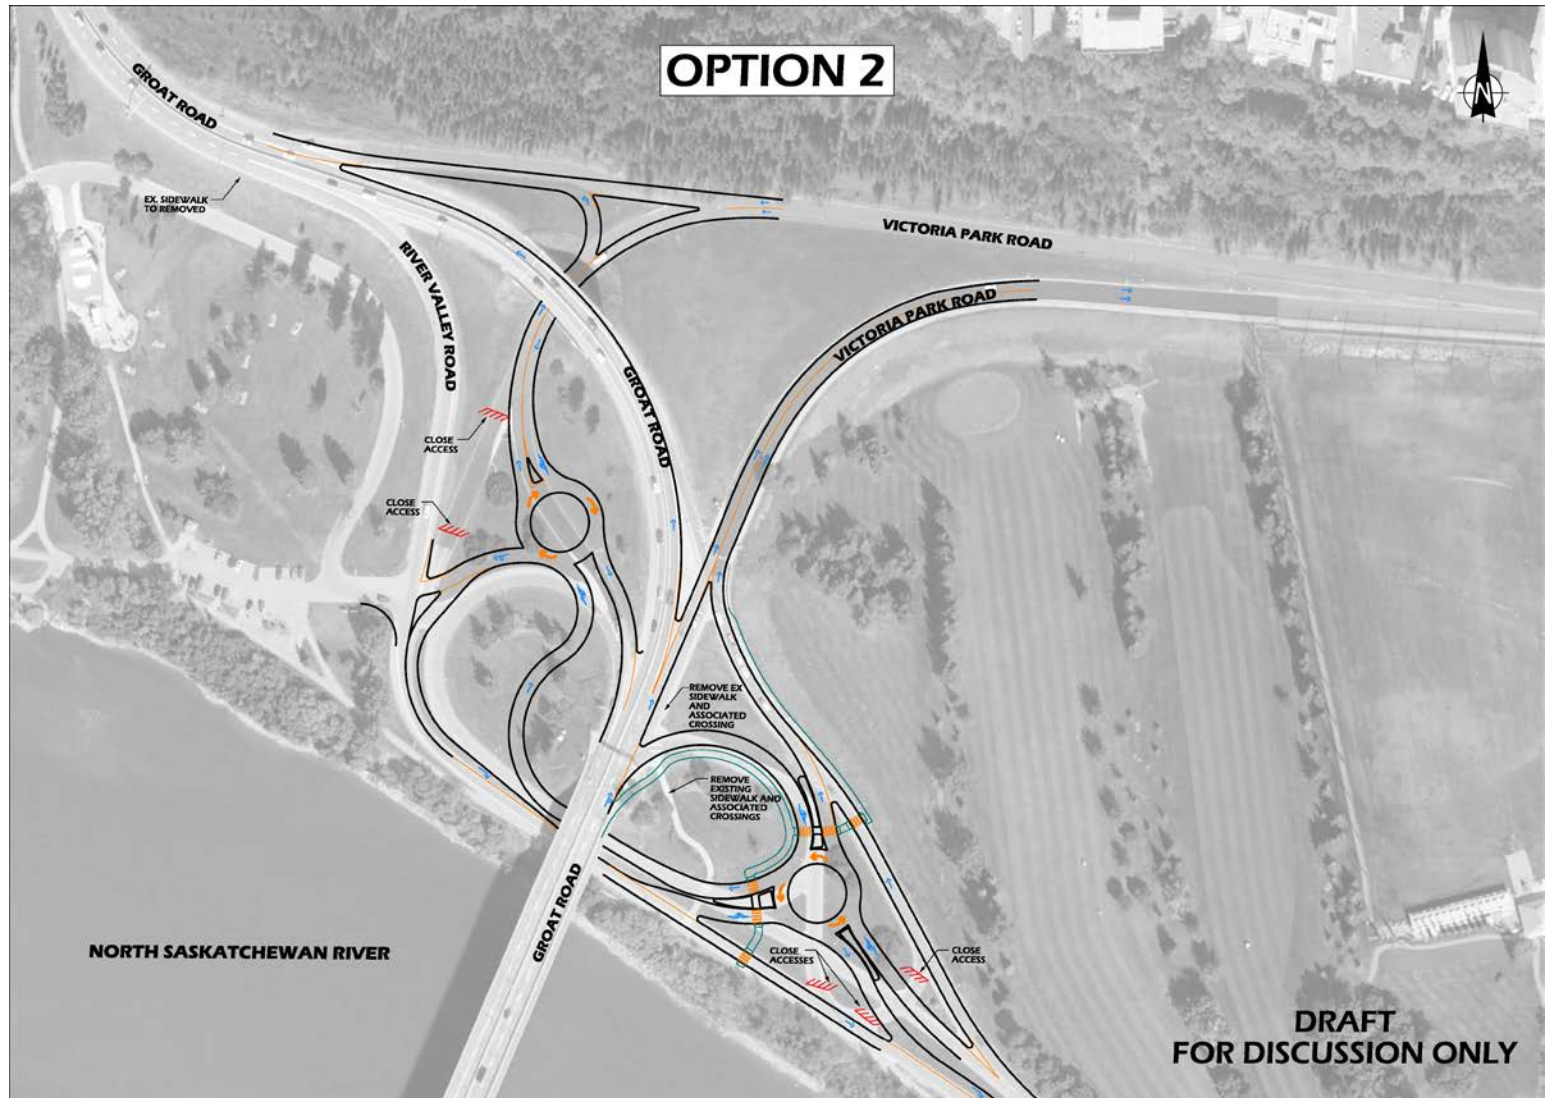

Option 1

- Remove vehicle connection from Groat Road Bridge to River Valley Road
- Modify merges
- Relocate / remove pedestrian crossings
- Modify shared-use paths

Option 2

- Roundabouts to replace intersections and other points of direct conflict
- Maintains all directions of travel
- Realign shared-use path
- Relocated pedestrian crossings

Next Steps
