

STONY PLAIN ROAD STREETSCAPE

TRANSFORMING | EDMONTON

BRINGING OUR CITY VISION TO LIFE

Parking Reconfiguration

Current Weekday Peak Hours (07:00 - 09:00 and 15:30 - 18:00)

- On-street, parallel parking on north side
- Side street parallel parking

Weekday Off-Peak Hours and Weekends

- On-street, parallel parking on north and south sides
- Side street parallel parking

Proposed Weekday Peak Hours

- No parking both north and south sides

Weekday Off-Peak Hours and Weekends

- Two on-street, parallel parking lanes (north and south sides of Stony Plain Road)
- Perpendicular parking will be added to side streets where appropriate. (A 90° parking configuration allows for nearly double the stalls in the same amount of space as a parallel parking configuration.)
- Removal of "bulbings" on existing parking lane on north side of Stony Plain Road and closure of 152 Street will create more parking stalls during off-peak hours and weekends.
- Existing transit exclusive peak hour bus lanes and no parking at bus stops remains unchanged.

Future May be impacted by future West LRT

There is potential for land and business owners to reconfigure onsite parking to make the best use of available space.
