BUILDING GREAT NEIGHBOURHOODS

TRANSFORMING | **EDMONTON**
BRINGING OUR CITY VISION TO LIFE

Renewing Your Neighbourhood Information Session

Windsor Park
October 6, 2011

Meeting Purpose

- Share information about the project, design, and planned 2012 construction.
- Overview the comments and suggestions & how those informed design decisions.
- Share information on next steps.

Neighbourhood Renewal: Presentation Overview

Neighbourhood Renewal - Three (3) part presentation:

- Overview of Neighbourhood Renewal Program
 - Neighbourhood Reconstruction - Scope of Work and Design
 - Neighbourhood Reconstruction - Local Improvements
-
- Hold questions until the end of the presentations are completed.
 - Staff on hand to answer questions.

THE CITY OF
Edmonton

Neighbourhood Renewal: Program Overview

- This part of the presentation focuses on the Neighbourhood Renewal Program covering such topics as:
 - Neighbourhood Renewal Scope
 - Selection Criteria
 - Funding Sources

Neighbourhood Renewal Program Overview

- Neighbourhood Renewal Program (NRP) – includes Residential and Industrials local and collector roadways. Scope of work includes:
 - Roads
 - Curbs and gutter
 - Sidewalks
 - Street lighting
 - missing links in ROW of sidewalk/MUT and bike networks
 - Pedestrian Safety
 - Alley in scope but funding model not finalized

Neighbourhood Renewal: Types of Renewal

- **Neighbourhood Microsurfacing** - roads are resealed with a thin asphalt ride surface. Microsurfacing candidates have good road conditions and are applied 10-12 years after road repaving
- **Neighbourhood Overlay** - roads are repaved and sidewalk panels treated to eliminate trip hazards. Overlay neighbourhood candidates have poor road condition and good sidewalk condition
- **Neighbourhood Reconstruction** - roads are repaved, sidewalk, curb and gutter, and street lights are replaced. Reconstruction neighbourhood candidates have poor sidewalk and fair to poor road conditions
- **Collector Renewal** (with priority on bus routes)
- **Northeast Road Reconstruction** - replacement of road with special drainage enhancement, selective concrete repair due to soft subgrade conditions that exist in the area

Neighbourhood Renewal Projects for 2011

- **Reconstruction:** 6 neighbourhoods - Parkallen, Rio Terrace, Sherbrooke, Fulton Place will be completed 2011; West Jasper Place, Capilano, will start in 2011.
- **Rehabilitation:** 17 neighbourhoods - Crawford Plains, High Park Industrial, McArthur Industrial, Hagmann Estate Industrial, Casselman, Duggan, McIntyre Industrial, Weir Industrial, Greenview, Menisa, Belvedere, Richfield, Kameyosek, Callingwood North, Bearspaw, Balwin (2010-2011) and Westridge (2010-2011).
- **Microsurfacing:** 5 neighbourhoods - Kensington, Ritchie Industrial, Sherwood, Greenfield and Goldbar (2010-2011).

THE WAY AHEAD

Neighbourhood Renewal: Coordination of Departments

- Transportation Services collaborates with other City Depts. in order to maximize investments and minimize disruption
 - Infrastructure Services (Drainage Services)
 - Community Services (Office of Great Neighbourhoods)
 - Sustainable Development
- Project management and procurement of design and construction services of neighbourhood renewal work is administered by Roads Design and Construction Branch

**Neighbourhood
Renewal** is Building Great Neighbourhoods

THE CITY OF
Edmonton

Neighbourhood Renewal: Selection Criteria

- Average Condition of Pavement and Concrete
 - 1/4 of the Local residential/industrial roads surveyed each year
 - Collector and Arterial collected on alternating years of each other
- Average Condition of Underground Infrastructure
- Coordination with Other Capital Projects
 - City (Internal)
 - External Agencies
- Available Funding
 - Approved Budget from Council
 - Construction Costs

Road Survey Unit

Neighbourhood Renewal: Roadway Condition

- Neighbourhoods in Edmonton:
 - 300 (Incl. Industrial)
- Surface Infrastructure Life Expectancy:
 - Approx. 40-50 Years
- Neighbourhoods Requiring Renewal:
 - 170 (100+ neighbourhoods need will require reconstruction)
- For a Sustainable Renewal Plan:
 - 13 - 15 Neighbourhoods/Year

THE WAY AHEAD

Neighbourhood Renewal: Drainage Condition

- Drainage Services Construction expected to be completed before neighbourhood renewal work
- Condition Assessments
 - CCTV, hydraulic, etc.
- Design & Construction
 - Sewer Rehabilitation
 - Flood Prevention
 - Sewer Upgrade

(Photos Taken July 11, 2004)

Neighbourhood Renewal: Funding Sources: 2009 - 2011

- Alberta Municipal Infrastructure Program (AMIP)
- Municipal Sustainability Initiative (MSI)
- City of Edmonton General Financing
- Local Improvement Tax Levy - Sidewalk*
 - *subject to approval of Local Improvement Bylaw
- Neighbourhood Renewal Tax Levy
 - (2% in 2009-2010, and 1.5% in 2011)

Neighbourhood Renewal: Funding Breakdown

Infrastructure	Source
Roads, Curbs, and Gutters	100% City
Underground Utility Work (EPCOR, Water, Drainage)	100% Utility
Standard Street Lights	100% City
Decorative Street Lights	100 % Property Owner on incremental costs above Standard Street Lights
Upgrade of <u>Existing</u> Alley Luminaire and Arm to standard, where possible	100% City
Sidewalk Reconstruction	50% Property Owner/50% City

THE CITY OF
Edmonton

Neighbourhood Renewal: Reconstruction Design Influences

- As part of the reconstruction of roads, sidewalks and curbs, and replacement of street lighting, the following opportunities are undertaken to improve safety and accessibility for pedestrians, and ensure meeting current neighbourhood design and construction practices:

- **Intersection Improvement** - adding curb ramps, eliminating "overdesigned" intersections and improve curb radius to meet existing standards (or if not feasible, aim for 6.0m on local roadways and 9.0m on collector roadways).

September 2011

Edmonton

THE WAY AHEAD

TRANSFORMING | **EDMONTON**

BRINGING OUR CITY VISION TO LIFE

Neighbourhood Renewal: Reconstruction Design Influences

- Road Width improvements - where possible, road widths are sized to current standards (Collector 11.5m /Local 9m).

For narrowing oversized roads, this includes shifting curbline walks to boulevards where opportunity presents itself.

**Neighbourhood
Renewal** is Building Great Neighbourhoods

Renewing *Your* Neighbourhood
Protect | Rehab | Reconstruct

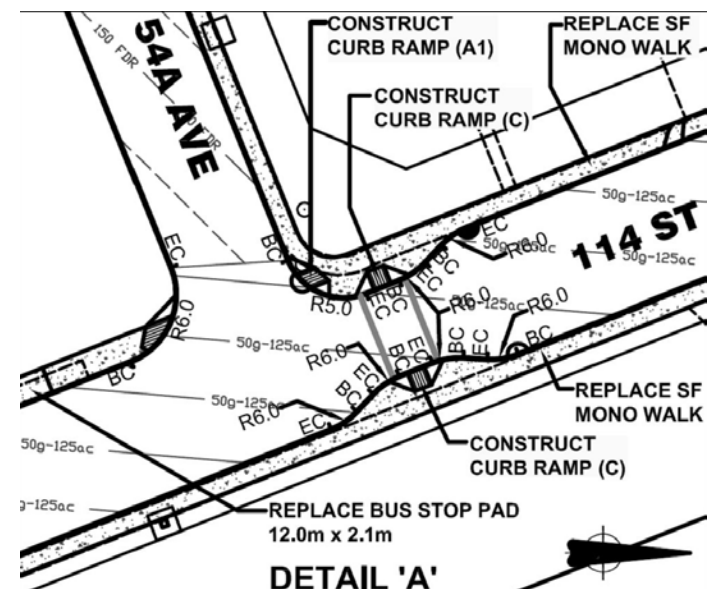

September 2011
http://www.edmonton.ca/transportation/roads_traffic/neighbourhood-renewal.aspx

THE CITY OF
Edmonton

Neighbourhood Renewal: Reconstruction Design Influences

- Circulation/Traffic Control Signs - review circulation/traffic control signage and determine if changes are required.
- Curb Extensions to reduce pedestrian crossing distance - considered at key pedestrian crossings near schools, community halls and playgrounds

Neighbourhood Renewal: Reconstruction Design Influences

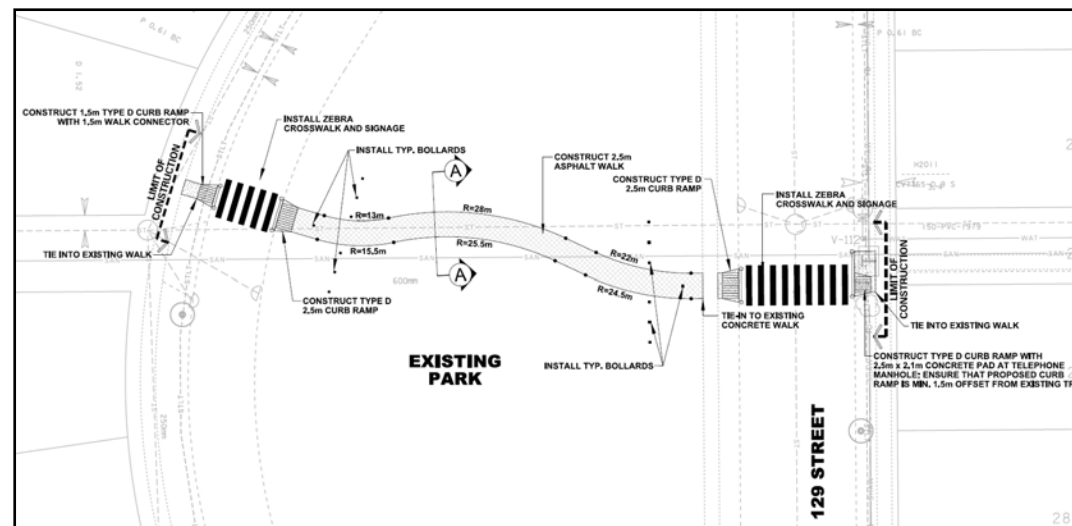

- Addressing missing Active Modes links in ROW - As per Sidewalk and Bicycle Strategy Plans

Sidewalks: a general objective is to ensure accessibility to all bus stops, provide a continuous sidewalk on both sides of collector roads in residential neighbourhoods (one side in industrials) and at least one side of all residential streets

Bicycle routes: implement through use of sharrows or wide sidewalk/trails.

- Great Neighbourhoods Capital Investments - opportunity for the City to invest in capital infrastructure not included in Transportation Renewal program, and that may be unique to each

THE WAY AHEAD

TRANSFORMING | EDMONTON

BRINGING OUR CITY VISION TO LIFE

Reconstruction Design Influences - Curb Types

- Generally, replace what was existing but can change

Straight face curb

- Collectors, bus routes, schools, parks, and commercial areas

Roll face curb

- Numerous driveway crossings, large trees, grading and/or drainage issues

THE WAY AHEAD

TRANSFORMING | **EDMONTON**

BRINGING OUR CITY VISION TO LIFE

Reconstruction Design Influences - Street Lights

Street Lighting Rehabilitation includes:

- Underground Bases - new concrete bases
- Electrical wiring - updated to new electrical codes
- Light fixtures - new fixtures (use LED in 2011)
- Street Light Poles - new galvanized poles.
- Existing street lighting system is maintained during construction
- Pole locations may change or move to the opposite side of the road
- Poles are placed on city property (ROW). Between homes, poles are placed near/on joining property lines.

Edmonton

Local Improvement - What is it?

- A local improvement is a construction project which is undertaken near or adjacent to your property.
- A project Council considers of greater benefit to an area of the municipality than to the whole municipality.
- A project to be paid for in whole or in part by property owner via a local improvement tax.

THE WAY AHEAD

TRANSFORMING | **EDMONTON**

BRINGING OUR CITY VISION TO LIFE

Local Improvements for neighbourhood reconstruction

Sidewalk Reconstruction LI

- City Initiated - no Expression of Interest (EOI) required
- City and Property Owner share costs (50%/50%)

THE CITY OF
Edmonton

Local Improvement Outcomes - 30 Day Petition Protest

- **Petition Protest Fails (Less than 50%)**
 - If petition protest is not successful, the Local Improvement Bylaw can be approved, and if the Bylaw is approved by Council, the City must proceed with construction within 3 years.
- **Petition Protest Succeeds (More than 50%)**
 - If City receives a sufficient petition against the Local Improvement within the 30-day petition period, it will not proceed.

Sidewalk Reconstruction: Local Improvement History

- 1995: Originated as a pilot project (Prince Rupert and Jasper Park)
- 1998: Approved by City Council
- 1995-2011, 24 neighbourhoods were reconstructed with the 50/50 cost share local improvement for sidewalks
- In addition, Capilano and West Jasper Place to be completed in 2012

Sidewalk Reconstruction: Local Improvement Projects

For each neighbourhood:

- Dozen or more sidewalk LI projects are created
- Each LI project may be petitioned against but must have the majority of Property Owners of that LI project to defeat it
- If one LI project is petitioned against, other projects will proceed if supported by the majority of the property owners.

THE WAY AHEAD

TRANSFORMING | **EDMONTON**

BRINGING OUR CITY VISION TO LIFE

Sidewalk Reconstruction: Local Improvement Outcomes

Petition Fails (less than 50%):

Support for sidewalk reconstruction

Petition Successful (more than 50%):

No reconstruction, only sidewalk maintenance-patching, grinding, mudjacking

Sidewalk Reconstruction: Local Improvement Costs

Current 2011 LI rates are as follows:

- One time cash payment (\$154.17/metre of frontage).
- Yearly rate (\$12.12/metre per year amortized over 20 years).
- The cost includes the existing concrete removal and excavation, a gravel base, reinforcing steel, concrete placement, tying into private walkway connectors, and re-landscaping of disturbed areas all to City of Edmonton specifications.
- For typical 50 ft (or 15.24m) frontage, based on 2011 rates, Cash rate would be \$2,349.55, or \$184.71 per year for 20 years.

THE CITY OF
Edmonton

Determination of Local Improvement Costs: Assessable Length

- Frontage: is the shorter side of the lot
- Flankage: is the long side of the lot
- For residential lots, flankage shall be assessed 15% percent of the total flankage abutting the local improvement project.

- For Odd Shaped Lots, LI will be assessed as follow:

Assessed Length = $(\text{Front} + \text{Rear})/2$
 but this average may not be more than
 2 times the front parcel dimension
