Animals Around the World Ages 3 & Up

Get closer to animals from around the world! Your group will discover exotic animals, as well as some from closer to home, as you go on a globetrotting tour without ever leaving Edmonton. You will meet some of our animals up close and even get a chance to touch a few, as you learn how the zoo (and you too) can help animals all over the world.

Animal Senses Ages 3 & Up

Stimulate your senses at the Zoo! Discover how animals find food, perceive predators and pick a partner using their five (or more!) senses. Meet some animals with senses very similar to ours and some that are very different. Your group will *look* and *listen* as they tour around part of the Zoo, *feel* some artifacts and live animals, and probably experience some rather unique *smells*.

Northern Safari Tour Ages 3 & Up

Discover some of the animals that call Canada home! An interpreter will guide your group around the Zoo to meet some of our Canadian animals, as well as ones that live in similar habitats around the world. Learn about diverse ecosystems found in the northern parts of the world and how animals adapt to living in them. You'll have a chance to see some awesome animal artifacts and meet some of our smaller northern animals up close.

Group Programs

Fur, Feathers, and Scales Ages 4 & Up

Do animals covered in scales feel slimy? Students will get a chance to see and feel the difference between fur, feathers, and scales when we tour the zoo, check out some animal artifacts, and even get to touch some live animals.

Night Creatures Ages 5 & Up

How do whiskers help animals scurry around at night? Can owls see in the dark? Students will discover some of the amazing adaptations of the night-loving animals that live in our nocturnal wing. We'll examine artifacts that come from endangered species, meet some animals up close and personal, and participate in hands-on activities to help your students understand why so many animals are endangered. As we visit the Zoo's endangered animals, students will learn about our Species Survival Plan and the conservation efforts that the Zoo supports.

Be a Zookeeper Ages 7 & Up

Zookeepers are always busy with making meals, creating enrichments, caring for sick animals and cleaning animal enclosures. Your group will take part in at least one zookeeping activity* that needs to be done that day. Students will find out first-hand what it's like to be a zookeeper as they go behind the scenes, discover what some of our animals eat, and learn more about what enrichments are and why zookeepers provide these to our animals. Your group will also get a chance to meet and touch a few of our smaller animals.

* Activities may include delivering an animal enrichment, cleaning an enclosure, or preparing an animal diet. Specific activities are dependent on animal health and zookeeper availability, so they cannot be guaranteed in advance.
