Advance Warning and Temporary Condition Signs

Must be made of minimum fluorescent orange diamond grade (DG3) material. All signs are 75x75 cm for speeds up to 70 km/hr and or 90x90 cm for speeds of 80 km/hr and greater.

- **Curve Warning**
- **Bump**
- **Highway Divider**
- **Right Lane Ends**
- **Trucks Crossing**
- **Pavement Drop Off**
- **Speed Advisory**

Note: To be used only when workers are present.

This sign shall be displayed only when a flagperson is actively controlling traffic.
Procedures for On-Street Construction Safety

Five zones to guide traffic around the work area:

- Signals Ahead
- BE PREPARED TO STOP
- OBSTRUCTION AHEAD
- REDUCE SPEED
- NO EXIT
- Checkerboard
- DETOUR AHEAD
- UNEVEN PAVEMENT
- CENTRE LANE ENDS
- SLOW FRESH OIL
- CONSTRUCTION ZONE ENDS
- STEEL PLATE ON ROADWAY
