REVISED: —
FILE NO.: 18SO925
DWG.NO.: 18SO92S5
The Subdivision by Plan is REFUSED on April 11, 2019 for the following reasons:

1. The parent lot, zoned (RF1) Single Detached Residential Zone, was originally subdivided in 2016, in order to create one (1) additional single detached residential lot. Subsequently the owner applied for a rezoning of the southern lot, changing it from (RF1) Single Detached Residential Zone to (RF2) Low Density Infill Zone. The intent of the rezoning was to build a semi-detached building as this was a permitted use under the (RF2) Low Density Infill Zone at that time. Council approved this rezoning with the specific understanding that a semi-detached dwelling would be developed, which does not require the site width of a single detached lot.

   a. This application for subdivision would have not been allowed under the (RF1) Single Detached Residential Zone, as it would not comply with the Development Regulations identified in Section 41.1(3) of the City of Edmonton Zoning Bylaw 12800: “The Subdivision Authority may not approve the subdivision of a Lot zoned RF1, as it existed on March 16, 2015 into more than two lots, notwithstanding the Site Width in the RF1 Zone. Subdivision into more than two Lots may only be approved where the proposed subdivision: has a Site Width deemed by the Subdivision Authority to be in character with Lots on the same block.”

   b. The application proposes to subdivide the subject lot again, into one (1) additional single detached residential lot, which would combine for a total of three (3) lots since the original subdivision. This is one (1) lot more than is allowed in Section 41.1(3) of the City of Edmonton Zoning Bylaw 12800.

   c. The intent of the rezoning was not to allow for an additional single detached residential lot. Therefore, it is the Subdivision Authority's opinion that the rezoning was intended to circumvent Section 41.1(3) of the City of Edmonton Zoning Bylaw 12800.

2. The proposed subdivision does not comply with the minimum development regulation identified in Section 120.4(1)(b) of the City of Edmonton Zoning Bylaw 12800. The site is zoned (RF2) Low Density Infill Zone. The minimum site width identified in the (RF2) Low Density Infill Zone for single detached housing is 7.50 metres. The site width of the proposed lots is 7.43 metres,
measured 4.5 metres from the front property line in accordance with Section 120.4(8) of the City of Edmonton Zoning Bylaw 12800, and is therefore deficient by 0.07 metres or 0.9%.

3. This proposal will result in a site width, and ultimately a lot size, that is uncharacteristically small when compared to properties on the adjacent block faces. For example, the site widths on the adjacent block faces range from approximately 27.42 metres to 30.48 metres, with the exception of the original subdivided lot. The proposed lot width for Lots 2A and 2B is 7.43 metres, which is significantly smaller than those of other properties characteristic to the adjacent block faces.

4. The proposed subdivision will create two non-conforming lots that do not meet development regulation in the City of Edmonton Zoning Bylaw 12800. This situation will create unnecessary hardship for existing and future landowners. Landowners wishing to further develop or redevelop their site will require a Development Permit variance.

Please be advised that an appeal may be lodged in accordance to Section 678 of the Municipal Government Act with the Subdivision and Development Appeal Board, 10019 - 103 Avenue NW, Edmonton, Alberta, T5J 0G9, within 14 days from the date of the receipt of this decision. The date of receipt of the decision is deemed to be seven (7) days from the date the decision is mailed.
