Under Responsible Hospitality Edmonton, the Public Safety Compliance Team is a multi-agency group designed to coordinate the efforts of the municipal and provincial agencies involved in the licensing and regulation of licensed establishments.

Through education, prevention and enforcement, the team works with the hospitality industry to improve the level of safety for patrons and staff and to improve relations between the licensed establishments and their surrounding communities.

When a neighborhood hears about a new liquor licensed business opening, questions arise on how the new business will manage noise, cleanliness, patrons, and how will regulations be enforced.

Quality of Life

The use of patios and open windows create vibrancy in a neighborhood. When a street becomes more active and vibrant, residents connect.

The City of Edmonton's **Noise Bylaw** sets the foundation to balance operational needs of the establishments and those neighbours that live and work close by. Noise after 10 p.m. is not to exceed 60dB(A).

Cleanliness is a concern all neighbors share. Licensed establishments closing procedures each night include sweeping in front of their establishment's of garbage/cigarette butts and placing garbage into receptacles, not onto the street.

Licensed establishments will remove, as soon as is practicable, any graffiti from the building's exterior.

Patron Management

The establishment's operational duty is to monitor and promote the orderly conduct of patrons immediately outside of the business, particularly those congregating during open hours and at closing time, and to discourage patrons from engaging in behaviour that may disturb the peace, quiet and enjoyment of the neighbourhood.

To encourage safe ride home, the business should provide a free telephone to patrons for the purpose of contacting a taxi or arranging other transportation from the establishment

Patrons have a Responsibility

Patrons are responsible to know their limits, have a safety plan, care for friends, treat each other and surroundings with respect, keep it social and get home safely!

Violence, vandalism, and disruption - these acts are committed by a few people, but they affect everyone who socializes and enjoyable evenings are lost to excessive behavior.

Policing in a hospitality zone is everyone's responsibility, whether it is a patron policing their own or a friend's behaviour, or being a responsible by-stander by reporting inappropriate or criminal activity.

Citizens can provide information through regular channels:

- If witness to an emergency phone 911
- If witness to a non-emergency situation phone 780-423-4567 or Telus #377 or Rogers *377
- If you have complaints or concerns call 311
