

Contractor Pesticide Use Notification Form

IMPORTANT: A Contractor wishing to apply a pesticide on City property must first email a completed *Contractor Pesticide Use Notification Form* to the appropriate Service Area. This must be sent at least 48 hours (not including weekends and holidays) prior, and be acknowledged by an e-mail confirmation before conducting the treatment. Please submit only one site per form!

STEP 1	STEP 2	STEP 3	STEP 4
Complete all information requested in the table below.	If the planned pesticide application includes herbicides , locate on the map (second page) the site that you plan to treat and email this form to the respective district area. If you are not using an herbicide, but are using one or more other types of pesticides , email this form to the City-wide pest area.	Before proceeding with the application, wait for an e-mail confirmation! If you have not heard back within 48 hours (excluding weekends and holidays) of emailing your notification, call the corresponding Emergency Telephone Number to enquire about your notification.	Within 48 hours following the treatment, email or fax a copy of the pesticide application record to the same Service Area.
