

2013

June

- **Appointing liaison group representatives**

The City of Edmonton would like to offer congratulations to our First Place builders, Landmark Group of Builders and Rohit Communities, for their recent wins in various categories at the 2013 Canadian Home Builders Association Edmonton Awards of Excellence in Housing.

January/February

- **Appointing liaison group representatives**

Thank you to all of the Community Leagues who have provided us with the names for their two community liaisons. We look forward to getting to know you as we communicate more in the future. To those communities who haven't been able to name their liaisons yet, please do so as you're able. In the meantime, we will continue to email updates to your community league president to ensure everyone remains in the loop.

- **Landmark Communities Production Facility Tour**

Get to know your builder! Landmark Communities, one of our two First Place builders, will be hosting a tour of its innovative production facility on April 17 at 1pm. The tour will last about an hour and is open to all First Place Community Liaisons (and any other interested liaisons or community members).

- **Liaison Group preliminary meetings**

In January and February 2013, the City of Edmonton hosted meetings with community league and home owner association representatives to share program updates and discuss the best ways of communicating with citizens. Handouts and minutes from these meetings are available under "Additional Liaison Resources" below.
