

Relations with all Beings

This piece was created with elements from the land and symbolizes the interconnectedness we have with one another. The circle of this pendant represents the circle of life and is inclusive of all people, all living and non-living beings. The placement of the four porcupine quills in the four directions demonstrates over the course of our lives we are constantly building relations with everyone in all directions. Having balance with oneself spiritually, mentally, physically and emotionally is important to the mind, body and spirit. The center of this piece is round luminous glow, symbolizing the sun, the fire, our ceremony the sweat lodge; it is a reminder how the circle is symbolic to many people in many different ways. As the beads flow outward, it expresses our homes and how kinship is important to every family. The selection of blue beads is a reflection of how we are connected to the waters, the sky and the air. This circle of life is a reminder of the journey we are all on together, walking alongside one another, supporting each other and building good relations.
