To: Victoria Carnaghan <victoria.carnaghan@edmonton.ca>

Hello,

I wish to let you know that Administration recently became aware of a previous commitment made regarding the joint use site in the Ermineskin community. In 1989, following a land-use change approval for St. Joseph's Auxiliary Hospital, the City committed to retaining the balance of the Ermineskin site as parkland.

We appreciate this information being brought to our attention and will honour this commitment. The community league has been informed that the vacant Ermineskin building site is no longer being considered for residential development..

Administration is in the process of updating our website to reflect this change. We will also be reviewing one other surplus school building site in La Perle, where there was a past surplus school development, to ensure no similar commitments were made on that site.

We also wish to take this opportunity to welcome Prabhat Dahal, the newest member of our team. Prabhat will be replacing Ron Jacob as a primary contact for surplus school building site changes. You may reach him for any related inquiries by email at Prabhat.Dahal@edmonton.ca or by calling [780-442-3794](tel:780-442-3794).

Thank you.

Sincerely,

Tim McCargar

Director, Strategic Planning
