This Schedule 3 sets out the Performance Based Regulation Plan and applies in respect of adjustments to the rates, fees and charges as set out in Schedule 1, under this bylaw for the period from January 1, 2018 to March 31, 2022.

Actual rate adjustments, if applicable, will occur on the first day of January 2018, 2019, 2020, 2021 and 2022.

2.1 Rate Adjustments

2.2 Non-routine Adjustments

Commencing January 1st, 2019 and for each subsequent year on that date the variable charge for the Sanitary Utility Charge and/or the Stormwater Utility Rate may be adjusted in accordance with the non-routine adjustment clause, Article 4.0 herein, as applicable.

2.3 Sanitary Sewer Trunk Charge

Commencing January 1, 2018 and for each subsequent year on that date the Sanitary Sewer Trunk Charge shall be adjusted in accordance with an adjustment notice provided by the City of Edmonton, as applicable. If applicable, the City of Edmonton will provide an adjustment notice on or before November 15 of the calendar year immediately preceding the year in relation to which the adjustment to the Sanitary Sewer Trunk Charge will be made.

4.1 Non-Routine Adjustments

Non-routine adjustments are, by their nature unusual, significant in size or nature and beyond the scope of control of EWSI. Requests for non-routine adjustments will be considered for each of Stormwater and Sanitary Utility Services.

Costs resulting in an annual adjustment to EWSI’s total revenue requirement for the Sanitary and Stormwater Utilities of up to $500,000 are not eligible for approval as a non-routine adjustment. Costs resulting in either an annual adjustment to EWSI’s total revenue requirement for the Sanitary and Stormwater Utilities of less than $3 million but either greater than $500,000 or greater than $1 million cumulatively are eligible for consideration and approval by the City Manager as a non-routine adjustment. Costs resulting in an annual adjustment to EWSI’s total revenue requirement for the Sanitary and Stormwater Utilities equal to or greater than $3 million are eligible for
consideration and approval by City Council. Review of the non-routine adjustment application will consider the projected return on equity.

If EWSI anticipates making a request for one or more non-routine adjustments to take effect on January 1, 2019, 2020, 2021 or 2022 (the Rate Adjustment Year) EWSI will on or before September 1 of the calendar year immediately preceding the Rate Adjustment Year submit its request for non-routine adjustments to the City Manager, and will include with such request sufficient information to enable the City Manager / City Council to evaluate the request. If after receiving the submission, the City Manager / City Council is satisfied that the non-routine adjustments should be included in the Sanitary or Stormwater variable rate calculated in accordance with this bylaw, the City Manager will issue a confirmation letter on or before October 15 confirming that the non-routine adjustments will be included in the Sanitary and Stormwater rates to take effect on the January 1 next following.

Where a non-routine adjustment is very significant in size, it may be charged to the Drainage Adjustment Deferral Account. EWSI will determine a reasonable time frame over which to recover/credit the balance of the account. Carrying costs will be calculated on the Drainage Adjustment Deferral Account balance.

The rate impact of non-routine adjustments will be calculated and added to the variable rate charge for either Sanitary or Stormwater Utility Charges, as applicable.

4.2 Changes to Legislation, Regulation or Taxes

In the event there is a change to: legislation, regulation, bylaws, policy order or directive affecting EWSI’s operations, including the common law and the law of equity; rates of tax or other mandatory amounts payable by EWSI to any level of government; the status of EWSI under existing legislation or the application of existing legislation to EWSI; then costs arising from any such event will be considered as non-routine.

4.3 Consequences of Force Majeure

Non-routine adjustments include any costs occasioned by Force Majeure events that are not recovered under a policy of insurance. For purposes of non-routine adjustments under this Schedule 3, events or circumstances of Force Majeure include: acts of God, strikes, lockouts or other industrial disturbances, acts of the Queen’s enemies, wars, blockades, insurrections, riots, epidemics, landslides, lightning, floods, earthquakes, explosions, fires, civil disturbances, mechanical breakdowns, regulatory requirements or approval conditions or other acts or interventions of any kind by federal, provincial, state or local governments or any of their agencies or boards, the order or direction of any court, and any other causes whether of the kind herein enumerated or otherwise, not within the reasonable control of EWSI and which by the exercise of reasonable diligence and at a reasonable cost EWSI is unable to prevent or overcome.
4.4 **Deterioration of Drainage Systems**

If there is significant deterioration to the Drainage System facilities, beyond reasonable projections, remediation costs will be considered as non-routine.

4.5 **Customer – initiated or City – initiated System Expansion**

Costs incurred to create significant Sewerage System expansion as a result of increases to the size of EWSI’s Customer base and/or increased demand by Customers or the City for Drainage Services, beyond reasonable projections, will be considered as non-routine.

4.6 **City - initiated Relocations of Drainage Assets**

Costs incurred to effect significant Sewerage System relocations, permanent or temporary moves or removals as a result of City requests will be considered as non-routine.

4.7 **Franchise Agreement**

If there is an amendment to the Drainage Services Franchise Agreement affecting drainage rates, the resultant impacts on the drainage rates will be deemed to be non-routine adjustments.

4.8 **City Initiatives**

Costs incurred to comply with City directed initiatives such as, and without limiting the foregoing, environmental initiatives or projects connected with accelerated flood mitigation will be deemed to be non-routine adjustments.

4.9 **Flood Mitigation**

Costs incurred to implement accelerated flood mitigation projects or initiatives will be considered as non-routine.

5.0 **Off-Ramp**

This performance-based Drainage regulation can be terminated with the mutual consent and agreement of EWSI and the City.

In the event of termination of this Performance-Based Regulation Plan, the balance of the Adjustment Deferral Account must be cleared within a one-year period from the date of termination.
6.1 Reporting and Filing Requirements

On December 1st of the year following the reporting year (October 1 – September 30), EWSI will file with its regulator, the City, an *Annual Drainage Rate Filing*. The filing will contain three parts:

- An audit report as outlined in Schedule 4, if rates are adjusted pursuant to Article 4 herein;
- Rate Sheets - The rates for each calendar year as outlined in Schedule 4; and
- Drainage Service Quality Results – A report on EWSI’s performance related to service quality metrics.

If rates are adjusted pursuant to Article 4.0, the non-routine adjustment clause, an accountant will review the *Annual Drainage Rate Filing*, conduct an audit and prepare an audit report in accordance with the recommendations contained within Section 5805 of the Canadian Institute of Chartered Accountants Handbook. The audit report will address whether the drainage rates are calculated and presented in accordance with the requirements of this bylaw.

The filing will be submitted to the City Manager. The City Manager will review the filing and, if appropriate, accept it on or before December 15th as applicable. The filing, and the City Manager approval, will be posted on the EWSI website and copies will be available at the business office of EWSI.

6.2 Rate Sheets

The Annual Drainage Rate Filing will set out the rates for Stormwater and Sanitary Utility and will set out the service fees and charges for each calendar year. The rates will be calculated in accordance with this bylaw.

6.3 Drainage Service Quality Results

For the period January 1, 2018-December 31, 2019 The *Annual Drainage Rate Filing* will contain a report on the drainage system service quality measures for the purpose of tracking and reporting on performance. There will be no financial penalty related to performance metrics.

Stormwater Utility Charges

January 1, 20\text{yyyy} to December 31, 20\text{yyyy}.

Applicable

To all domestic service customers within the city of Edmonton.

Stormwater utility charges are levied on each premises and calculated based on a monthly rate using the following formula:

\[
\text{stormwater utility charge} = A \times I \times R \times \text{rate}
\]

\text{A is:}
- the area of premises (m}^2), and
- the proportion of building lot area attributable to each unit for multiple units sharing a single building or property

\text{I is}
- the development intensity factor of 1.0, except for properties where owners have demonstrated that they contribute significantly less stormwater per m}^2 to the City’s sewerage system during rainfalls than other similarly zoned properties by making an application for a reduction in the intensity development factor pursuant to this bylaw.

\text{R is}
- the runoff coefficient based on the zoning of the premises:

Sanitary Sewer Trunk Charges

January 1, 20λλλλ to December 31, 20λλλλ

Applicable
To all owners of a premises abutting an EWSI or City right-of-way in which there is a sanitary or combined sewer, the sanitary sewer trunk charge shall be levied when a development permit is issued for development, redevelopment, or renovation on the premises but if no development permit is required, when a building permit is issued for development, redevelopment, or renovation on the premises or when an application is made for sewer service to the premises.

For the purpose of calculating the sanitary sewer trunk charge, “secondary suite”, “garden suite”, and “garage suite”, as well as reference to “use classes”, have the same meaning as defined by the City of Edmonton Zoning Bylaw, Bylaw 12800, as amended.

Dwelling unit means a self-contained room or rooms with sleeping and cooking facilities, as defined in the City of Edmonton Zoning Bylaw, Bylaw 12800, as amended.

Residential means a premises used primarily for domestic purposes, where no more than four dwelling units are metered by a single water meter and the meter size to the premises is not greater than 50mm.

Sanitary sewer trunk charges are calculated as follows:

(a) For development, redevelopment, or renovation of premises for residential use classes:

<table>
<thead>
<tr>
<th>Dwelling</th>
<th>20λλλλ Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 – 2 dwelling units, excluding secondary suites, garden suites, or garage suites</td>
<td>$ λ</td>
</tr>
<tr>
<td>2 dwelling units where one unit is a secondary suite, garden suite, or garage suite</td>

</tr>
<tr>
<td>Commercial</td>
<td>$ λ</td>
</tr>
<tr>
<td>Industrial</td>
<td>$ λ</td>
</tr>
<tr>
<td>Institutional</td>
<td>$ λ</td>
</tr>
</tbody>
</table>

Notwithstanding the above, if a sanitary sewer trunk charge is levied on premises as a result of the redevelopment or renovation of premises, the sanitary sewer trunk charge will be calculated using the following formula:
sanitary sewer trunk charge = A – B

A is:
- the sanitary sewer trunk charge that would have been levied based on the above fees;

B is:
- the sanitary sewer trunk charge previously levied and paid for the premises prior to the redevelopment or renovation on the premises; or
- if the redevelopment or renovation of the premises is for residential use classes, then the sanitary sewer trunk charge that would have been paid had a sanitary trunk charge been levied with respect to the development that existed on the premises prior to the date of the redevelopment or renovation.
