- ☐ A vehicle commuter who uses Norwood Boulevard
- ☐ A representative of an association/organization (please specify)
- ☐ Other (please specify)

This study will seek to transform a large portion of Norwood Boulevard (111 Avenue and 112 Avenue) from 109 Street to 82 Street.

Legend:

The project goal is to recreate Norwood Boulevard into an innovative, vibrant and relevant streetscape that will strive to balance the needs of the community, commuters, businesses and visitors, and meet the Main Street Guidelines.

The study will focus on:

- establishing a unified vision for the future of Norwood Boulevard
- updating current land use policies
- improving transportation (particularly for pedestrians and cyclists)
- promoting new design policies and other changes to help create a street of exceptional quality for all people to work, live, learn and play.

Design Ideas:

Urban design addresses streets and public spaces, whole neighborhoods and districts, and entire cities, with the goal of making urban areas functional (accessible to all people), attractive, and sustainable.

What do we need to know about the urban design of the study area?

Please consider the following questions in your answer:

What new uses and amenities could make this study area a more interesting and attractive place to live, work, play, visit and learn in?

What kinds of public spaces and/or gathering places could enhance the livability and attractiveness of the study area?
