Valley Line West LRT - Utility Relocations
103 Avenue - 106 Street to 108 Street

PROJECT OVERVIEW
As part of the Valley Line West LRT project, EPCOR is responsible for relocating all the power, water and sewer utilities to avoid potential conflicts with the Valley Line West LRT infrastructure. This is the second stage of the Valley Line, an urban-style 27km line that will operate between Mill Woods in southeast Edmonton and Lewis Farms in west Edmonton. To meet the overall LRT project schedule, the City has requested that EPCOR perform the utility relocations within specific areas along the alignment prior to LRT construction.

SCHEDULE
Construction will begin on Monday, May 11 and is expected to be completed by end of July 2020, weather permitting. The typical hours of construction will be 7:00 a.m. to 9:00 p.m. Monday to Saturday. If required, these hours may be extended, and construction may occur on Sundays from 9:00 a.m. to 7:00 p.m. While EPCOR has suspended some in-person services to protect our teams and customers, critical work continues with additional health and safety protocols in place. Timelines for this work are subject to change based on developments associated with COVID-19. Updates will be provided on epcor.com.

We will take measures to ensure we comply with the City of Edmonton’s Community Standards Bylaw for Noise Control. If it’s necessary to temporarily exceed acceptable noise levels, we will work with the City of Edmonton to obtain the necessary permits.

RELOCATION DETAILS
Underground distribution infrastructure along 103 Avenue will be relocated to make way for future LRT track alignments. The maps on the next page shows the approximate location of each work site for this project. A description of each work site is provided. Below are some general construction impacts:

- We will work with the City of Edmonton to relocate bus stops as needed.
- For road closures or lane reductions, signage will be placed prior to any work starting. Traffic flow will be maintained where possible.
- Signage will be used to manage traffic and notify pedestrian/cyclists of any necessary detours.
- All affected landscaping, pavement, sidewalks, and alleyways will be restored to their original condition. Restoration will take place between June and September, as weather permits.
- The construction area will be fenced and/or marked as a restricted area.

UPCOMING UTILITY RELOCATION WORK IN YOUR NEIGHBOURHOOD
Prior to starting additional upcoming utility relocation work, more detailed information including traffic impacts and a construction schedule will be provided.

- Relocation of underground distribution infrastructure along 102 Avenue from 103 Street to 107 Street is currently underway and is expected to be completed by the end of July.
- Water line work will be occurring on 107 Street (102 Avenue to 104 Avenue) in July/August 2020 and additional details will be provided prior to construction.
- As part of the Columbia (105) Avenue Streetscape Sewer Upgrade project along 105 Avenue from 109 Street to 116 Street, underground electrical infrastructure needs to be installed. The work is tentatively planned to start in mid-May 2020.
- A main water line along 104 Avenue from 108 Street to 109 Street needs to be relocated. The work is tentatively planned for fall 2021.
WORK AREA 1: 103 AVENUE FROM 106 STREET TO 107 STREET

Work is scheduled to begin on **May 11** and is expected to be completed by **early June**. During construction:

- Eastbound lanes on 103 Avenue will be closed. The westbound lanes will be used to accommodate two-way traffic.
- Northbound and southbound lanes at the 103 Avenue and 106 Street intersection will be reduced for approximately five days.
- Left hand turns onto 107 Street southbound from 103 Avenue westbound may be impacted.
- Access in/out of the alley on the south side of 103 Avenue between 106 Street and 107 Street will be restricted.

WORK AREA 2: 103 AVENUE FROM 107 STREET TO 108 STREET

Work is scheduled to begin in **early June** and is expected to be completed in **mid-July**. During construction:

- Eastbound lanes on 103 Avenue will be closed. The westbound lanes will be used to accommodate two-way traffic.
- Northbound and southbound traffic on 107 Street at 103 Avenue will be reduced for approximately five days.
- Left hand turns onto 107 Street southbound from 103 Avenue westbound may be impacted.
- Access to the Norquest College underground parking garage will be reduced to a single lane for approximately one week.
