KEY IMPROVMENTS ALONG JASPER AVENUE (92 STREET TO 96 STREET)

- Pedestrian through zone set back from curb to accommodate furnishings, such as pedestrian lighting and trees.
- Increased comfort for pedestrians by being further back from roadway.
- Number of travel lanes maintained.

RECONFIGURED 92 STREET INTERSECTION

- Existing left turn from 103A Avenue eastbound to 92 Street northbound removed. This will improve safety for all users at this intersection.
- Increases the amount of space available for landscape features.
- Pedestrian crosswalk added to east side of intersection to improve connectivity.

RECONSTRUCTED 94 STREET / 102 AVENUE INTERSECTION

- Creates generous area for future green space in island.
- Improvements allow 102A Avenue to operate as a two-directional roadway (currently one-way, westbound only).

ACCESS WIDTH REDUCED TO LOCAL ROAD STANDARD

- Reduces confusion for vehicles.
- Shortens pedestrian crossing distance.

MATCH TO PREVIOUS CONCEPT PLAN (APRIL 2018)

- Matches to existing.
- Matches to previous concept plan (2012).

MATCH TO EXISTING
