Interpretive Clauses

*Bylaw 17831
November 28, 2016*

1. Title and Contents

1.1 Title

1. Zoning Bylaw 12800 may be cited as the Zoning Bylaw.
2. Unless otherwise referenced in a Direct Control Provision or Agreement, references to "this Bylaw" shall be interpreted to be references to Zoning Bylaw 12800.

1.2 Contents of Bylaw

1. The contents of this Bylaw shall include:
 - a. Part I, General Administrative and Regulatory Clauses, as set out in Sections 1 to 109 inclusive;
 - b. Part II, Zones, Direct Control Provisions, Overlays and Special Areas, as set out in Sections 110 to 999 inclusive;
 - c. Part III, Zoning Map; and
 - d. Part IV, Direct Control Provisions adopted by City Council pursuant to the provisions of Sections 710 and 720 of this Bylaw and Development Agreements.

2. Repeal, Enactment and Transition Procedures

*Bylaw 17831
November 28, 2016*

1. No provisions of any other Bylaw with respect to zoning, development control, development schemes and Uses shall hereafter apply to any parts of the City described in this Bylaw.
2. Edmonton Land Use Bylaw 5996, as amended is repealed.
3. The provisions of this Bylaw come into effect 90 days after the date of its enactment (the "effective date").

*Bylaw 12807
April 18, 2001*

4. Subject only to the provisions in the Municipal Government Act respecting non-conforming Uses and notwithstanding the effect it may have on rights, vested or otherwise, the provisions of this Bylaw govern from the effective date onward. In particular, no Development Permit Application shall be evaluated under the procedural or substantive provisions of a previous land use bylaw after the effective date, even if the application was received before the effective date.

Edmonton Zoning Bylaw 12800

*Bylaw 12809

 - h. Farms is deemed to be Rural Farms.
2. Daytime Child Care Services is deemed to be Child Care Services and shall be developed in accordance with Section 80.
 3. For all Direct Control Provisions created prior to the passage of Bylaw 11844, which contain Single Detached Housing, Semi-detached Housing, Duplex Housing or Secondary Suite as a listed Use, the maximum number of Single Detached Housing Dwellings per Lot shall be one, the maximum number of Semi-detached Housing or Duplex Housing Dwellings per Site shall be two, and the maximum number of Secondary Suites per Lot, in addition to the principal Single Detached Housing Dwelling, shall be one, unless specifically noted otherwise in the Direct Control Provision.

3.3 Transitional and Interpretive

1. In the case of any conflict between the text of this Bylaw and any maps or drawings used to illustrate any aspect of this Bylaw (including Part III, Zoning Map) the text shall govern.
2. In the case of any conflict between a number written in numerals and a number written in letters, the number written in numerals shall govern.
3. In the case of any conflict between information expressed in metric units and in imperial units, the metric shall govern.

3.4 Headings and Titles

1. Notwithstanding any other provision of this Bylaw or any other Bylaw passed by City Council to the contrary, headings and titles within this Bylaw shall be deemed to form a part of the text of this Bylaw.

3.5 Reference Aids

1. Words that are capitalized in this Bylaw denote:
 - a. General Definitions in subsection 6.1;
 - b. General Sign Definitions in subsection 6.2;
 - c. Uses in Section 7;
 - d. titles of Zones, Direct Control Provisions, Overlays and Special Areas; and
 - e. headings and titles within this Bylaw.
2. Words that are not capitalized should be given their plain and ordinary meaning as the context requires.
3. When a word or expression is defined in this Bylaw, other parts of speech and grammatical forms of the same word or expression have corresponding meanings.

Edmonton Zoning Bylaw 12800

Amendment is to be interpreted as the same as a Redistricting Amendment.

*Bylaw 17831
November 38, 2016*

4. The Zoning Map

4.1 Part III, the Zoning Map divides the city into Zones and specifies the Zones that apply to particular lands.

4.2 Zoning and Overlay Boundaries

1. Should uncertainty or dispute arise relative to the precise location of any Zone boundary, as depicted on the Zoning Map, or Overlay boundary, as depicted on the Zoning Map, the location shall be determined by applying the following rules:

- a. where a Zone or Overlay boundary is shown as approximately following the centre of streets, Lanes or other public thoroughfares, it shall be deemed to follow the centre line thereof;
- b. where a Zone or Overlay boundary is shown as approximately following the boundary of a Site, the Site boundary shall be deemed to be the boundary of the Zone or Overlay;
- c. where a Zone or Overlay boundary is shown as approximately following city limits, it shall be deemed to be following city limits;
- d. where a Zone or Overlay boundary is shown as approximately following the centre of pipelines, railway lines, or utility easements, it shall be deemed to follow the centre line of the right-of-way thereof;
- e. where a Zone or Overlay boundary is shown as approximately following the edge or shore lines of the North Saskatchewan River, or other bodies of water, it shall be deemed to follow such lines, and in the event of change in such edge or shorelines, it shall be deemed as moving with the same;
- f. where a Zone or Overlay boundary is shown as being parallel to or as an extension of features noted above, it shall be so construed;
- g. where a Zone or Overlay boundary is shown as approximately following a topographic contour line or a top of bank line, it shall be deemed to follow such line, and in the event of change in such line, it shall be deemed as moving with that line;
- h. where features on the ground are at variance with those shown on the Zoning Map or map appended to an Overlay, or in other circumstances not mentioned above, the Development Officer shall interpret the Zone or Overlay boundaries. Any such decision shall be a Class B Discretionary Development; and
- i. where a Zone or Overlay boundary is not located in conformity to the provisions of subsections 4.2(1)(a) to (h), and in effect divides or splits a registered parcel of land, the disposition of such boundary shall be determined by dimensions indicated on the Zoning Map or map appended to an Overlay, or by measurements directly scaled from that Map.

Edmonton Zoning Bylaw 12800

4.3 Street and Highway Boundaries

1. Notwithstanding anything contained in this Bylaw, no Zone shall be deemed to apply to any public roadway and any public roadway may be designed, constructed, widened, altered, redesigned and maintained in such manner as may be determined by Transportation Services.
2. Where any public roadway is closed pursuant to the provisions of the Municipal Government Act, the land contained therein shall thereupon be deemed to carry the same Zone as the Abutting land, even where the Abutting land is designated as a Direct Control Provision.
3. Where such Abutting lands are governed by different Zones, the centre line of the public roadway shall be deemed to be the Zone boundary.
4. Where through the operation of subsection 4.3(2) the boundaries of a Direct Control Provision are extended to include a closed portion of public roadway, the Area of Application for the Direct Control Provision, as set out in the regulations governing that Zone boundary, which are within Part IV of this Bylaw, shall be automatically amended by the Development Officer to include, as part of the Area of Application, reference to the closed portion of public roadway which becomes part of the Direct Control Provision.

7. Use Definitions

*Bylaw 14127
January 11, 2006
Bylaw 17832
November 28, 2016*

7.1 General

1. Uses, as set out in subsections 7.2 through 7.9 inclusive, are grouped according to common functional or physical impact characteristics.
2. Use definitions are used to define the range of Uses, which are Permitted Uses or Discretionary Uses, within the various Zones of this Bylaw.
3. The following guidelines shall be applied in interpreting the Use definitions:
 - a. the typical purposes or activities, which may be listed in the definitions, are not intended to be exclusive or restrictive;
 - b. where specific purposes or activities do not conform to any Use definition or generally conform to the wording of two or more Use definitions, the Development Officer may, at their discretion, deem that the purposes or activities conform to and are included in that Use which they consider to be the most appropriate. In such a case, the Use shall be considered a Discretionary Use, whether or not the Use is listed as a Permitted Use or Discretionary Use within the applicable Zone; and
 - c. the headings such as Residential Uses or Commercial Uses do not mean that the Uses listed under these headings are permitted only in Residential or Commercial Zones of this Bylaw. Reference must be made to the lists of Permitted Uses and Discretionary Uses within each Zone.

- regulations of this Bylaw, or shall refuse an application for development of a Permitted Use if the development does not comply with the regulations of this Bylaw, unless the Development Officer uses discretion pursuant to Sections 11.3 and 11.4 of this Bylaw;
- f. may relax a regulation in a Zone or other Section of this Bylaw in accordance with the regulations contained in that Zone or Section, or may relax regulations in accordance with Sections 11.3 and 11.4, and in such case, the development applied for shall be a Class B Discretionary Development;
 - g. may refuse or approve, with or without conditions, with or without changes in the design of the development, or with or without the imposition of regulations more restrictive than those required by this Bylaw, an application for development of a Discretionary Use, having regard to the regulations of this Bylaw and the provisions of any applicable Statutory Plan;
 - h. may refuse, or approve, with or without conditions, an application for development in a Direct Control Provision, in accordance with the regulations of this Bylaw; and
 - i. shall give notice of their decision on applications for development as follows:
 - i. where an application has been approved, public notification shall be given in accordance with Section 20 of this Bylaw and notice to the applicant shall be given in writing by ordinary mail;
 - ii. where an application has been refused, notice in writing shall be given to the applicant, by ordinary mail, and such notice shall state the reason for refusal; and
 - iii. shall in the case of a Development Permit for a Temporary Sign, specify the length of time that the Development Permit remains in effect in accordance with the time limitations for such Signs set out in Section 59 of this Bylaw.
2. When the Development Officer requires information pursuant to Section 14 of this Bylaw, the Development Officer shall, pursuant to the information received, and to their satisfaction:
 - a. impose any conditions, whether for a Permitted or a Discretionary Use, that are necessary to ensure that the Site is suitable for the full range of Uses contemplated in the Development Permit Application; or
 - b. refuse a Development Permit, whether for a Permitted or Discretionary Use, if the Development Officer determines that the Site is not suitable for the full range of Uses contemplated in the Development Permit Application.

11.3 Variance to Regulations

1. The Development Officer may approve, with or without conditions as a Class B Discretionary Development, an application for development that does not comply with this Bylaw where:

Edmonton Zoning Bylaw 12800

- a. the proposed development would not, in their opinion:
 - i. unduly interfere with the amenities of the neighbourhood; or
 - ii. materially interfere with or affect the use, enjoyment or value of neighbouring properties.
 - b. the proposed development would, in their opinion, conform with the Use prescribed for that land or building in this Bylaw.
2. The Development Officer may approve, with or without conditions as a Class B Discretionary Development, an enlargement, alteration or addition to a non-conforming building if the non-conforming building complies with the Uses prescribed for that land in this Bylaw and the proposed development would not, in their opinion:
 - a. unduly interfere with the amenities of the neighbourhood; or
 - b. materially interfere with or affect the use, enjoyment or value of neighbouring properties.

11.4 Limitation of Variance

1. In approving a Development Permit Application pursuant to Section 11.3, the Development Officer shall adhere to the following:
 - a. a variance shall be considered only in cases of unnecessary hardship or practical difficulties peculiar to the Use, character, or situation of land or a building, which are not generally common to other land in the same Zone;
 - b. except as otherwise provided in this Bylaw, there shall be no variance from maximum Height, Floor Area Ratio or Density regulations; and
 - c. there shall be no variance to the General Purpose of the appropriate Zone or Overlay.

11.5 Maintenance and Inspection of the Zoning Bylaw

1. The Development Officer shall:
 - a. make available to the public during normal office hours copies of this Bylaw and all subsequent amendments thereto; and
 - b. charge the specified fee for supplying to the public copies of this Bylaw.

13. Development Permit Application

13.1 General Conditions

1. For the purposes of subsection 16(1) of this Bylaw, applications for a Development Permit are not received until the applicant has:
 - a. submitted all information required pursuant to Sections 13 and Section 14 of this Bylaw;
 - b. submitted any information specifically required pursuant to the regulations of the applicable Zone or any other Section of this Bylaw; and
 - c. paid the appropriate fee as determined by City Council.
2. Notwithstanding subsection 13.1(1) above, the Development Officer may consider an application if the development is of such a nature as to enable a decision to be made on the application without all of the information required in this Section.
3. The Development Officer may require an applicant to submit such additional information as considered necessary to verify the compliance of the proposed Use or development with the regulations of this Bylaw.
4. The approval of any application, drawing, or the issuing of a Development Permit shall not prevent the Development Officer from thereafter requiring the correction of errors, nor from prohibiting the development being carried out when the same is in violation of this Bylaw.
5. In the event of a discrepancy between any written description and the drawings, the written description shall prevail.
6. Where a Development Permit Application is determined to contain

Edmonton Zoning Bylaw 12800

incorrect information, no Development Permit shall be issued until such information is corrected by the applicant.

7. Unless otherwise specified in this Bylaw, all drawings submitted shall be drawn on substantial standard drafting material to a scale of not less than 1:100 or such other scale as the Development Officer may approve, and shall be fully dimensioned, accurately figured, explicit and complete.

13.2 Class A Permitted Development Excluding Signs

1. The applicant shall submit the appropriate application form fully and accurately completed in accordance with the following requirements.
 - a. the municipal address of land and buildings presently occupying the Site, if any;
 - b. a legal description of the land on which the proposed development is to occur, by lot, block, subdivision and registered plan numbers;
 - c. the applicant's name, address, interest in the land, and confirmation of the owner's authorization to apply for the Development Permit;
 - d. a detailed Site plan, showing the location of the proposed development relative to the boundaries of the Site;
 - e. description of the work to be performed with respect to:
 - i. a change of Use, or a change of intensity of Use;
 - ii. proposed development or building operations;
 - f. identification of the scale of the development with respect to:
 - i. Floor Area of the development, in square metres;
 - ii. Site Coverage, in square metres;
 - iii. Height of the structure, in metres;
 - iv. number of Storeys;
 - v. existing trees on a Site; and
 - g. the estimated value, in dollars, of the proposed work.
2. The applicant shall submit as part of a Development Permit Application within the Mature Neighbourhood Overlay area, as shown in Appendix I to Section 814, or on any Site, at the discretion of the Development Officer, for a Residential Use or an application for a demolition permit of an existing structure, a signed declaration, completed to the satisfaction of the Development Officer, stating that they have reviewed the City's requirements and guidelines for best construction practices.
3. If required by the Development Officer, the applicant shall submit four copies of a Site plan, at a minimum scale of 1:500, showing the following:
 - a. a directional true north arrow with the north point located in such a manner that the true north is in the upper position of the drawing;
 - b. Setbacks and Yard dimensions;

Edmonton Zoning Bylaw 12800

- c. the location of all buildings or structures in relation to property lines; and
 - d. dimensioned layout of existing and proposed Parking Areas, Driveways, entrances and exits, Abutting public roadways, median breaks and auxiliary Lanes.
4. If required by the Development Officer, the applicant shall submit four copies of the following:
 - a. identification of the scale of the development with respect to the number of Dwellings, or establishments for commercial, industrial or other purposes;
 - b. a Site plan of sidewalks, walkways, Separation Spaces, transit stops; and, where applicable, garbage storage and collection areas; parking, loading, storage, outdoor service and display areas; the location of Fences, screening, Retaining Walls, trees, Landscaping, Amenity Areas and other physical features both existing and proposed on the Site and adjoining boulevard, if any;
 - c. floor plans at a minimum scale of 1:100, indicating all Uses or occupancies, storage and garbage holding areas;
 - d. elevations and drawings, indicating sections and the bulk of buildings, at a minimum scale of 1:100; and
 - e. number of parking and loading spaces required and provided.
5. If required by the Development Officer, for a development that is located within the HA Zone, the applicant shall submit four copies of the following:
 - a. an urban design context plan and vicinity map at a minimum 1:500 scale showing the proposed development and its relationship to on-site and surrounding natural physical features, existing development and other factors affecting development, including approximate building Heights and number of Storeys;
 - b. a context building elevation of all of the buildings on the same blockface illustrating the relationship of the Height, number of Storeys, built form, and architectural treatment;
 - c. a description of the exterior finishing materials to be used; and
 - d. a statement describing how the design of the proposed development has responded to the following:
 - i. design quality, including material quality and detailing;
 - ii. style and character of the HA Zone including scale and massing;
 - iii. visual interest at street level;
 - iv. the streetscape of the blockface;
 - v. siting; and
 - vi. distinct architecture/building that is different from others in the area.

Edmonton Zoning Bylaw 12800

6. In addition, the Development Officer may require the applicant to provide a colour and material sample board of the exterior cladding materials.

13.3 Class B Discretionary Development Excluding Signs

1. In addition to the information required for a Class A Permitted Development, the applicant shall submit four copies of the following:
 - a. a plan showing the location of adjacent buildings and structures indicating the approximate Height and number of Storeys;
 - b. a description of the exterior finishing materials to be used; and
 - c. a written statement and other supportive material by the applicant that the proposed development conforms to the policies of any applicable Statutory Plan.
2. If required by the Development Officer, the applicant shall also submit four copies of the following:
 - a. an urban design context plan and vicinity map at a minimum scale of 1:500 showing the proposed development and its relationship to on-site and surrounding natural physical features, existing development and other factors affecting the design of the proposed development, and a statement describing how the design of the proposed development has responded to the following:
 - i. the Uses and amenities of surrounding properties within 100.0 m of the boundaries of the project Site;
 - ii. the physical characteristics and human activity patterns characteristic of the Site, surrounding Uses and development;
 - iii. the urban design statements of any Statutory Plan which are applicable to the Site; and
 - iv. the context of the development, in relation to the type of structure, architectural detailing, and finishing materials prevalent in surrounding development; and
 - b. a Traffic Impact Assessment which shall indicate the effect of the proposed development on the existing and proposed roadway network in terms of additional traffic, and may suggest those roadway improvements necessary to accommodate the development. It shall be prepared by a qualified, registered Professional Engineer, and shall contain the following information:
 - i. trip generation of the development;
 - ii. trip distribution of traffic bound to and from the development;
 - iii. trip assignment of traffic bound to and from the development; and
 - iv. a detailed Site plan showing vehicular circulation, location and geometrics of access points and existing and proposed geometrics for adjacent roadway.

14. Special Information Requirements

14.1 Geotechnical Engineering Information

1. When a Development Permit Application is submitted to the Development Officer for development on a Site within the area of application of the North Saskatchewan River Valley and Ravine System

Last Revised –May 2017

Edmonton Zoning Bylaw 12800

Protection Overlay, the application may include, at the discretion of the Development Officer in consultation with Citizen Services and Integrated Infrastructure Services, information regarding the existing and proposed Grades at 0.5 m contour intervals. The final Grades shall be to the satisfaction of the Development Officer, the said application having been first reviewed by Integrated Infrastructure Services.

2. Notwithstanding anything contained herein, the Development Officer may require a detailed engineering study of the geotechnical engineering conditions prepared to professional standards, by a qualified, registered Professional Engineer prior to the issuance of a Development Permit or the construction of any development within the area of application of the North Saskatchewan River Valley and Ravine System Protection Overlay.
3. The detailed engineering study shall conclude by the registered Professional Engineer certifying that the foundations proposed for the development were designed with full knowledge of the soil conditions and the proposed siting of the development upon this Site.
4. The Development Officer may require the submission of a detailed engineering study as outlined in subsection 14.1(2) of this Bylaw with an application for a Development Permit at any location within the City which in the opinion of the Development Officer may be impacted by slope instability or other geotechnical hazards.
5. The Development Officer, having required a detailed engineering study of the geotechnical engineering conditions, may, in consultation with Integrated Infrastructure Services, apply conditions to the approval of the Development Permit to minimize slope instability or other geotechnical hazards.

14.2 Wind Impact Statement and Study

1. Where warranted, a Wind Impact Statement or Wind Impact Study, or both, may be required to be submitted for a proposed development having Height greater than 20 m, to the satisfaction of the Development Officer.
2. A Wind Impact Statement shall provide a screening-level estimation of potential wind conditions. If the Wind Impact Statement indicates that uncomfortable or unsafe wind conditions may result from the building design, the Development Officer may require the applicant to submit a Wind Impact Study for proposed buildings in order to quantify these conditions or refine any conceptual mitigation measures using physical scale model tests.
3. A Wind Impact Statement or Wind Impact Study shall be prepared by a qualified, registered Professional Engineer, prepared to professional standards.
4. A Wind Impact Study shall be prepared by a qualified, registered Professional Engineer, and shall be based on a scale model simulation analysis, prepared to professional standards.

Edmonton Zoning Bylaw 12800

14.3 Sun Shadow Impact Study

1. Where warranted, a Sun Shadow Impact Study may be required to be submitted for proposed development where such a study is required in a Statutory Plan, or for other applications, to the satisfaction of the Development Officer.
2. The Sun Shadow Impact Study shall be prepared by a qualified, registered Professional Engineer or Architect, to professional standards.
3. The shadow impact shall be evaluated based on the difference in shadow between the allowable three-dimensional building massing and the proposed three-dimensional building massing, during the March equinox. The Development Officer may require changes to the proposed development, may refuse to grant a variance, or approve a Class B Discretionary Development based on that information.

14.4 Floodplain Information

1. When a Development Permit Application is submitted to the Development Officer for the development of a parcel of land partially or wholly contained within the Floodplain Protection Overlay, the Development Officer may require that the applicant submit information regarding the geodetic elevation of the proposed building location and the geodetic elevation of the lowest point of all openings to the proposed building(s).
2. Prior to the issuance of a Development Permit for the construction of any development within the Floodplain Protection Overlay, the Development Officer may require that the applicant submit a certificate from a qualified, registered Professional Engineer or Architect indicating that the following factors have been considered in the design of the building:
 - a. Canada Mortgage and Housing Corporation guidelines for building in flood-susceptible areas;
 - b. the flood-proofing of Habitable Rooms, electrical panel and heating units, and operable windows;
 - c. Basement drainage; and
 - d. Site drainage.

14.5 Environmental Nuisance and Health Impacts Assessment

1. When a Development Permit Application is for industrial activities designated for either approval or registration under the Environmental Protection and Enhancement Act, the Development Officer may require that the applicant submit an Environmental Nuisance and Health Impacts Assessment prepared by a qualified environmental professional such as an engineer, biologist, planner, geologist or hydrogeologist. The Development Officer may impose any conditions necessary to mitigate environmental nuisances and health impacts identified in the assessment.
2. The Environmental Nuisance and Health Impacts Assessment shall:
 - a. identify the nature and quantities of substance releases;

Edmonton Zoning Bylaw 12800

- b. identify the provincial standards for the proposed industrial operation;
- c. identify any sensitive Uses or Zones that could contain sensitive Uses, existing or proposed, which could be detrimentally impacted by the substance releases;
- d. demonstrate what remedial and mitigative measures shall be undertaken; and
- e. identify and recommend any separation distances or other land use planning measures that could be undertaken.

14.6 Assessment of Risk for Industrial Activities

1. When a Development Permit Application is for an activity involving the use, manufacturing or storage of hazardous substances, the Development Officer may require the applicant to submit a risk assessment prepared by a qualified environmental professional such as an engineer, biologist, planner, geologist or hydrogeologist. The Development Officer may impose any conditions necessary to mitigate the risks associated with the use, manufacturing or storage of hazardous substances identified in the assessment.
2. The risk assessment shall:
 - a. identify hazardous substances and their quantities;
 - b. estimate the expected frequency of the occurrence of a hazardous event;
 - c. assess the possible consequences of such an event;
 - d. determine annual individual risk and compare to Major Industrial Accidents Council of Canada risk acceptability criteria;
 - e. identify and recommend risk-based separation distances and other measures to reduce risk;
 - f. demonstrate how the proposed facility and operations shall contribute to the following risk management objectives:
 - i. risk reduction at source (siting of facilities, modifications to processes, conformity to legislation e.g. The Safety Codes Act, the Dangerous Goods Act, monitoring, technical changes, training, etc.);
 - ii. risk reduction through land use planning around industrial Sites, pipelines and dangerous goods corridors;
 - iii. emergency preparedness;
 - iv. emergency response; and
 - v. risk communication and public participation.

14.7 Edmonton Design Committee

1. Prior to rendering a decision on a Development Permit Application, the Development Officer shall refer such applications to the Edmonton Design Committee in accordance with Bylaw 14054 for the Committee to review.

Edmonton Zoning Bylaw 12800

2. Before rendering a decision, the Development Officer shall consider the Edmonton Design Committee's comments.

14.8 Natural Area Management Plan

1. When a Development Permit Application is submitted to the Development Officer for development in the NA Zone, or an application is to rezone an identified Natural Area to the NA Zone, the Development Officer shall require a Natural Area Management Plan be prepared by a qualified environmental professional such as an environmental scientist or biologist.
2. The Development Officer shall impose the requirements outlined in the Natural Area Management Plan.
3. The Natural Area Management Plan shall be prepared in accordance with the current requirements for preparing management plans for Edmonton's Natural Areas at time of application.
4. The Natural Area Management Plan shall include, but not be limited to, the following:
 - a. the boundary for the purpose of zoning the Natural Area, including the buffer;
 - b. a statement of the extent of human and recreational activities permitted within the NA Zone;
 - c. the appropriateness of a building or structure within the Natural Area. If a building or structure is necessary within the Natural Area, then the Natural Area Management Plan shall:
 - i. state the purpose of the building or structure;
 - ii. determine the size and location of the building or structure; and
 - iii. state the impacts of the building or structure on the Natural Area and the necessary mitigating measures to reduce those impacts.

14.9 Environmental and Risk Information

1. The Development Officer may require an applicant for a Development Permit to submit any information, including but not limited to: environmental site assessments, risk assessment studies and risk management plans and/or exposure control plans that, in the opinion of the Development Officer, is required to determine that the Site is suitable for the full range of Uses contemplated in the Development Permit Application.

14.10 Drainage Information

1. The Development Officer may require an applicant for a Development Permit to submit information relating to the proposed drainage from a Site, including but not limited to:
 - a. Lot grading plans;
 - b. Site mechanical plans;

Edmonton Zoning Bylaw 12800

- c. flood control plans;
- d. stormwater management plans and calculations; or
- e. similar plans, drawings or engineering reports that, in the opinion of the Development Officer, are required to determine if the Site is suitable for the full range of Uses contemplated in the Development Permit Application.

*Bylaw 17896
March 20, 2017*

14.11 Parking Information

1. The Development Officer, in consultation with Transportation Services, may require an applicant for a Development Permit to submit a parking impact assessment, parking utilization count, or similar information necessary to determine the land use impact of vehicle parking for the full range of Uses contemplated in the Development Permit Application.
2. The Development Officer, having regard to the information provided in section 14.11(1) may, in consultation with Transportation Services, apply conditions to the approval of the Development Permit to mitigate land use impacts of vehicle parking.
3. When a parking impact assessment is required pursuant to subsection 14.11(1), the parking impact assessment shall be completed by a Professional Engineer registered in Alberta, to the satisfaction of the Development Officer in consultation with Transportation Services.

*Bylaw 17831

15. Conditions Attached to Development Permit

1. The Development Officer may only impose conditions on the approval of a Class A Permitted Development if the power to do so is clearly specified elsewhere in this Bylaw. Nothing in this Section prevents a Development Officer from identifying on the Development Permit certain Sections of this Bylaw that the applicant would have to comply with in any event.
2. If an applicant applies for a Development Permit for a structure or a Use that is intended to be temporary or that is inherently temporary, the Development Officer may impose conditions limiting the duration of the validity of the Development Permit. The Development Officer may exercise this power to add conditions to Permitted and Discretionary Uses.
3. The Development Officer may, with respect to a Class B Discretionary Development or a development in a Direct Control Provision, impose such conditions as they deem appropriate, having regard for the regulations of this Bylaw and the provisions of any Statutory Plan.
4. The Development Officer may, as a condition of issuing a Development Permit, require the applicant to make satisfactory arrangements for the supply of water, electric power, sewer service, vehicular and pedestrian

Edmonton Zoning Bylaw 12800

access, or any of them, including payment of the costs of installation or constructing any such utility or facility by the applicant.

5. The Development Officer may, as a condition of issuing a Development Permit require that an applicant enter into an agreement, which shall be attached to and form part of such Development Permit, to do all or any of the following:
 - a. to construct, or pay for the construction of, a public roadway required to give access to the development;
 - b. to construct, or pay for the construction of:
 - i. a pedestrian Walkway system to serve the development; or
 - ii. pedestrian Walkways that will connect the pedestrian Walkway system serving the development with a pedestrian Walkway system that serves, or is proposed to serve, an adjacent development, or both;
 - c. to specify the location and number of vehicular and pedestrian access points to Sites from public roadways;
 - d. to install, or pay for the installation of, utilities that are necessary to serve the development;
 - e. to construct, or pay for the construction of, off-street or other parking facilities, or loading and unloading facilities; or
 - f. to repair or reinstate, or to pay for the repair or reinstatement, to original condition, any street furniture, curbing, sidewalk, boulevard Landscaping and tree planting which may be damaged or destroyed or otherwise harmed by development or building operations upon the Site.
6. The Development Officer may, as a condition of issuing a Development Permit, require that an applicant enter into an agreement in a form satisfactory to the City, to pay an off-site levy or redevelopment levy, or both, imposed by a bylaw pursuant to the Municipal Government Act.
7. If an applicant applies for a Development Permit for a structure that encroaches on City owned property, the Development Officer may impose conditions requiring the applicant to mitigate the impact of the encroachment, including compensation, indemnities, insurance and a duty to remove the encroaching structure on receipt of notice. If the Development Officer does not impose such a condition on an encroaching structure, this shall not be construed as granting the applicant a right to encroach and the applicant may require a separate encroachment agreement.
8. The Development Officer may require any agreement entered into pursuant to subsections 15(4) and 15(5) to be filed against the title to the Site at the Land Titles Office.
9. The Development Officer may, as a condition of issuing a Development Permit, require that an applicant post a minimum of one Development Permit notification sign on Site in accordance with Section 20.5 of this Bylaw.

17. Validity and Cancellation of a Development Permit

17.1 Validity of a Development Permit

1. When a Development Permit Application has been approved by the Development Officer, the Development Permit shall not be valid unless and until:
 - a. any conditions of approval, except those of a continuing nature, have been fulfilled; and
 - b. the time for filing a notice of appeal to the Subdivision and Development Appeal Board as specified in subsection 21(1) of this Bylaw and the Municipal Government Act has passed.
2. When a Development Permit Application has been approved by the Subdivision and Development Appeal Board, it shall not be valid until any conditions of approval, except those of a continuing nature, have been fulfilled.
3. The Development Officer shall suspend a Development Permit upon receipt of a filed notice of appeal to the City of Edmonton from the Subdivision and Development Appeal Board in accordance with the Municipal Government Act, and subsection 21(1) of this Bylaw. The Development Permit remains suspended until:
 - a. the Subdivision and Development Appeal Board renders a decision and the time for filing a leave to appeal application to the Court of Appeal has passed without a leave to appeal being filed;
 - b. the Alberta Court of Appeal denies leave to appeal and any appeal from that denial has been finally determined;
 - c. the Alberta Court of Appeal has granted leave to appeal, heard the appeal on the merits, made its decision, and any appeal to the Supreme Court of Canada from that determination of the Alberta Court of Appeal has been finally determined; or
 - d. the appeal is otherwise resolved.
4. Any Development Permit issued on the basis of incorrect information contained in the application shall be invalid.

17.2 Cancellation of a Development Permit

1. The Development Officer may cancel a Development Permit following its approval if:
 - a. any person undertakes development, or causes or allows any

- development to take place on a Site contrary to the Development Permit;
- b. the application for the Development Permit contained a material misrepresentation;
 - c. material facts were not disclosed during the application for the Development Permit;
 - d. the Development Permit was issued as a result of a material error;
or
 - e. the landowner requests, by way of written notice to the Development Officer, the cancellation of the Development Permit.
2. Notwithstanding subsection 17.2(1)(a) through (d), the Development Officer shall not cancel a Development Permit that has been appealed to the Subdivision and Development Appeal Board, the Alberta Court of Appeal, the Supreme Court of Canada, or until a decision is rendered or the appeal is otherwise resolved.
 3. Notice of the Development Officer's decision to cancel the Development Permit shall be provided in writing by ordinary mail to the property owner, and to the applicant of the Development Permit. Such notice shall state the reasons for the cancellation of the Development Permit.
 4. Any person who undertakes development, or causes or allows any development after a Development Permit has been cancelled, shall discontinue such development forthwith and shall not resume such development until a new Development Permit has been approved by the Development Officer and is valid pursuant to Section 17.1 of this Bylaw.
 5. All development continuing after the Development Permit has been cancelled shall be deemed to be development without a Development Permit.

18. Resubmission Interval

1. A Development Permit Application for the same purpose and activity within a Use shall not be accepted by the Development Officer from the same or any other applicant for the same Site:
 - a. within six months of the date of a refusal by the Development Officer;
 - b. within six months of the date of a written decision of the Subdivision and Development Appeal Board on a previous application, if the previous application was appealed to, and subsequently refused by, the Subdivision and Development Appeal Board;
 - c. within six months of the date of a written decision of the Alberta Court of Appeal or the Supreme Court of Canada on the previous application, if the application has been appealed to the Alberta Court of Appeal or the Supreme Court of Canada; or
 - d. prior to the written decision of the Subdivision and Development Appeal Board, the Alberta Court of Appeal, or the Supreme Court of

Edmonton Zoning Bylaw 12800

Canada, if the application has been appealed to the Subdivision and Development Appeal Board, the Alberta Court of Appeal, or the Supreme Court of Canada.

2. Subsection 18(1) shall not apply in the case of an application for a Development Permit for a Permitted Use or a Use listed in a Direct Control Provision, if the application complies with all the regulations of this Bylaw.
3. If upon review of any application for a Development Permit, the Development Officer determines that subsection 18(1) applies, then the application shall be returned to the applicant, along with any fees that have been submitted. The application shall not be considered as having been refused, but shall be deemed to have not been submitted.
4. Notwithstanding subsection 18(1), if two or more Development Permit Applications for the same purpose or activity within a Use on the same Site have been refused by the Development Officer, the Subdivision and Development Appeal Board, the Alberta Court of Appeal, the Supreme Court of Canada, or any combination of the above, the third and any subsequent Development Permit Application for the same purpose and activity within a Use on the same Site shall not be accepted by the Development Officer until one year from the date of the most recent refusal, unless that application is for a Class A Permitted Development.

2. A Development Permit Application shall, at the option of the applicant,

Edmonton Zoning Bylaw 12800

be deemed to be refused in accordance with the provisions of Section 16 of this Bylaw, and the applicant shall appeal in writing to the Subdivision and Development Appeal Board as provided in subsection 21(1) above, as though the application has been refused at the end of the time period in Section 16.

*Bylaw 17831
November 28, 2016*

22. Expiry of Permit

1. The date of approval of a Development Permit shall be:
 - a. the date upon which the Development Officer issues the Development Permit;
 - b. in case of an appeal to the Subdivision and Development Appeal Board, the date upon which the Subdivision and Development Appeal Board renders a written decision approving the Development Permit; or
 - c. in the case of an appeal or leave to appeal to the Court of Appeal, the date that the Alberta Court issues its decision and any appeal to the Supreme Court of Canada from the determination of the Alberta Court of Appeal has been finally determined.
2. Once a Development Permit has been issued, it remains in effect until:
 - a. it expires, in cases where the Development Permit was issued for a limited period of time;
 - b. it expires, because of failure to commence development in accordance with subsection 22(3) and subsection 22(4); or
 - c. it is cancelled, in accordance with subsection 17.2(1) or is suspended in accordance with subsection 17.1(3).
3. Where a Development Permit is for a change of Use, or a change of intensity of Use, and no significant construction or reconstruction is necessary:
 - a. development must commence within one calendar year of the date of approval of the Development Permit;
 - b. for the purposes of subsection 22(3), development commences when the Use that was approved by the Development Permit is established or begins operation.
4. Where a Development Permit is for construction, construction combined with a change of Use, or construction combined with a change of intensity of Use:
 - a. development must commence within:
 - i. one calendar year of the date of approval for the Development Permit for Duplex Housing, Garage Suites, Garden Suites, Residential Sales Centre, Secondary Suites, Semi-detached Housing, and Single Detached Housing; or
 - ii. two calendar years of the date of approval for the Development Permit for any other Use;

Edmonton Zoning Bylaw 12800

- b. for the purpose of subsection 22(4), development commences when the Site is altered in furtherance of the development that was approved by the Development Permit. Without restricting the generality of the foregoing, development commences when excavation or Site preparation in anticipation of construction for the approved Development Permit occurs. The Site shall not be deemed to be altered by:
 - i. Fencing a Site where a Development Permit is not required for a Fence, erecting Signs, obtaining permits or conducting minor interior demolition;
 - ii. obtaining information in accordance with Section 14, such as engineering studies, geotechnical investigations, Site surveys, soil analysis, environmental assessments; and
 - iii. any development or construction that occurs without a building permit when a building permit is required for the development or construction.
5. Notwithstanding subsection 22(4)(a)(i) above, if a building permit for the development is applied for and the appropriate building permit fee as determined by City Council is paid within the one calendar year period, the Development Permit issued shall not expire unless and until the building permit so issued is cancelled or allowed to expire by virtue of work not having commenced within the statutory minimum period.
6. Notwithstanding subsection 22(4)(a)(ii) above, if a building permit for the development is applied for and the appropriate building permit fee as determined by City Council is paid within the two calendar year period, the Development Permit issued shall not expire unless and until the building permit so issued is cancelled or allowed to expire by virtue of work not having commenced within the statutory minimum period.
7. Where a Development Permit is issued for a Site where any other Development Permit has been approved, all previous Permits shall expire if the physical aspects of the development conflict, or both could not occur simultaneously upon the Site, in conformity with the regulations of this Bylaw.

 10. Notwithstanding subsection 23.1(2), it is an offence to hardsurface an area within a Front Yard or a flanking Side Yard in a way that contravenes subsection 54.1(4) or subsection 54.1(5) of this Bylaw without a valid and approved Development Permit when a Development Permit is required.
 11. It is an offence not to display a Development Permit notification sign when a Development Permit notification sign is required, whether or not listed as a Development Permit condition.
 12. Notwithstanding section 23.1(2), it is an offence to display a Temporary Sign without a valid and approved Development Permit when a Development Permit is required.
 13. It is an offence not to display the Sign ownership in a visible location on a Temporary Sign. It is an offence to deface, obscure or otherwise render the ownership identification illegible.
 14. It is an offence to display a Temporary Sign without a Development Permit approval tag issued by the City.
 15. It is an offence to have a Sign in an abandoned state.
 16. Notwithstanding subsection 23.1(2), it is an offence to display a Freestanding On-premise and Off-premise Sign, including Digital Sign,

Edmonton Zoning Bylaw 12800

without a valid and approved Development Permit when a Development Permit is required.

17. Notwithstanding subsection 23.1(2), it is an offence to display a Freestanding On-premise and Off-premise Sign, including Digital Sign, in contravention of Development Permit.
18. Notwithstanding subsection 23.1(2), it is an offence to display a Fascia Sign, including Digital Sign, Roof Sign or Projecting Sign, without a valid and approved Development Permit when a Development Permit is required.
19. Notwithstanding subsection 23.1(2), it is an offence to display a Fascia Sign, including Digital Sign, Roof Sign or Projecting Sign, in contravention of Development Permit.

23.2 Enforcement and Violation Notices

1. When a Bylaw Enforcement Officer reasonably believes that an offence has been committed or is occurring, the Bylaw Enforcement Officer may notify either the owner of the land, the building or the structure, the person in possession of the land, building or structure, the person responsible for the violation, including the applicant for the Development Permit, or any or all of them, of the contravention of this Bylaw, by:
 - a. delivering a Violation Notice either in person, by facsimile or by ordinary mail:
 - i. to the owner of the land, building or structure, or the person in possession of the land, building or structure, at the address listed on the tax roll for the land in question; or
 - ii. to the applicant for the Development Permit, at the applicant's address as listed on the Development Permit Application; or
 - iii. to the owner of the Sign, at a location where the owner carries on business.
 - b. notwithstanding subsection 23.2(1)(a), for Temporary Sign offences, the Violation Notice shall be deemed to be delivered when the Bylaw Enforcement Officer provides verbal notification of the Violation Notice to the owner of the Temporary Sign.
2. A Violation Notice shall state the following:
 - a. the nature of the offence;
 - b. the corrective measures required to remedy the offence and comply with this Bylaw;
 - c. the time within which such corrective measures must be performed; and
 - d. any penalty for not complying with the Violation Notice, if the corrective measures are not completed within the time specified.
3. The appearance of the name of any person, organization, corporation or other ownership on a Sign is prima facie proof that the person, organization, corporation or owner named thereon caused or permitted

Edmonton Zoning Bylaw 12800

the Sign to be placed on land, and the person, organization, corporation or owner is responsible for any contravention of the provisions of this Bylaw and the offence.

4. Issuance of a Violation Notice is not required before commencing any other enforcement action under the Municipal Government Act, or this Bylaw, or at all.
5. A person shall not prevent or obstruct a Bylaw Enforcement Officer from carrying out any official duty under this Bylaw or the Municipal Government Act.

23.3 Penalties

1. A person who is guilty of an offence shall pay the applicable penalty amount specified in Section 23A or a minimum penalty of \$1,000.00 for a first offence and \$2,500.00 for any subsequent offence for which a fine is not otherwise established in Section 23A.
2. Where there is a penalty listed for an offence in Section 23A, that amount is the minimum penalty for that offence.
3. A subsequent offence means an offence committed by a person after that person has already been convicted of the same offence or has voluntarily paid a fine for the same offence.

24. Amendments

24.1 Text Amendments

1. Any person applying to amend Part I or Part II of this Bylaw shall apply in writing to the Development Officer including required fees, furnishing reasons in support of the application and requesting that the Development Officer submit the application to City Council.
2. If a person applies to the Council in any manner for an amendment to Part I or Part II of this Bylaw, the Council may require him to submit his application and required fee to the Development Officer in accordance with the provisions of this Section before it considers the amendment proposed by such person.
3. Notwithstanding anything contained in this Section 24, an application for a proposed amendment to Part I or Part II of this Bylaw which has been rejected by City Council within the previous 12 months shall not be accepted.
4. Prior to consideration by City Council of an amendment to Part I or Part II of this Bylaw, the Development Officer shall give such notice as is required by the Municipal Government Act.

Edmonton Zoning Bylaw 12800

24.2 Rezoning Amendments

1. Any person applying to amend Parts III or IV of this Bylaw to rezone any land shall apply in writing to the Development Officer and submit the following to the Development Officer:
 - a. a Certificate of Title which has been issued not later than 30 days prior to the receipt of the Rezoning Amendment application by the Development Officer;
 - b. the applicant's name, address, telephone contact number and interest in the property;
 - c. a signed statement by the applicant stating that they are willing to pay for all costs incurred by the City in processing the proposed amendment, whether it be enacted or not, including, but not limited to, all mapping, printing, reproduction, surveys and advertising costs;
 - d. the appropriate application form; and
 - e. a brief written statement by the applicant in support of their application, and reasons for applying.
2. Upon receipt of an application for a Rezoning Amendment, the Development Officer shall provide a written notice of this application to all relevant parties listed below that are wholly or partially within 60.0m of the boundaries of the Site which is the subject of the Rezoning Amendment:
 - a. each assessed owner of land;
 - b. the President of each Community League; and
 - c. the President of each Business Revitalization Zone association.
3. During any cessation of ordinary mail delivery, the notice of a Rezoning Amendment application may be given by such other alternative means specified by the Development Officer to those described in subsection 24.2(2).
4. Upon receipt of an application for a Rezoning Amendment, the Development Officer shall initiate or undertake an investigation and analysis of the potential impacts of development under the proposed Zone. The analysis shall be based upon the full development potential of the Uses and development regulations specified in the proposed Zone and not on the merits of any particular development proposal. The analysis shall, among other things, consider the following impact criteria:
 - a. relationship to and compliance with approved Statutory Plans and City Council policy. Should the application not conform with an applicable Statutory Plan, the Development Officer shall require the applicant to submit an application to amend the applicable Statutory Plan before the application to amend Parts III or IV of this Bylaw is judged to be complete;
 - b. relationship to and compliance with the Alberta Gaming Licensing Policy, pertaining to licensed casino facilities. Should the application have the effect of adding Casinos and Other Gaming Establishments

Edmonton Zoning Bylaw 12800

to the list of Uses in the Zone, the Development Officer shall require submission of a letter of approval for a casino facility, issued by the Alberta Gaming and Liquor Commission subject to zoning, before the application to amend Parts III or IV of this Bylaw is judged to be completed;

- c. relationship to Statutory Plans in preparation;
 - d. compatibility with surrounding development in terms of Use, function and scale of development;
 - e. traffic impacts;
 - f. relationship to, or impacts on, services such as water and sewage systems, public transit and other utilities and public facilities such as recreational facilities and schools;
 - g. relationship to municipal land, right-of-way or easement requirements;
 - h. effect on stability, retention and rehabilitation of desirable existing Uses, buildings, or both in the area;
 - i. necessity and appropriateness of the proposed Zone in view of the stated intentions of the applicant;
 - j. relationship to the documented concerns and opinions of area residents regarding the application; and
 - k. the potential impacts on municipalities within referral and notification areas as identified in the Municipal Development Plan.
5. Notwithstanding anything contained in this Section 24, an application for a proposed amendment to Part III of this Bylaw which has been rejected by City Council within the previous 12 months shall not be accepted.

24.3 Review and Processing of Amendments

1. The Development Officer shall:
 - a. examine the proposed amendment;
 - b. prepare a written report on the proposed amendment; and
 - c. advise the applicant in writing that:
 - i. they are prepared to recommend the amendment to City Council without further investigation;
 - ii. they are not prepared to recommend the amendment;
 - iii. they require further investigation to make a recommendation;
or
 - iv. they are prepared to recommend an alternative amendment.
2. Upon receiving the advice of the Development Officer, the applicant shall advise the Development Officer if:
 - a. they wish the proposed amendment to proceed to City Council, in which case they must prepay the advertising costs prior to the amendment proceeding to City Council; or

Edmonton Zoning Bylaw 12800

- b. they do not wish to proceed to City Council with the proposed amendment, in which case the application is considered abandoned.
3. If the applicant does not respond to the Development Officer's notification, the application shall be cancelled after one year from the date of the notice of the Development Officer.
4. If requested by the applicant, the Development Officer shall submit the proposed amendment to City Council, accompanied by the report of the Development Officer.
5. The Development Officer, using discretion, may present for the consideration of City Council any proposed amendment to this Bylaw, and the proposed amendment shall be accompanied by the report and recommendations of the Development Officer.
6. Every Rezoning Amendment and Text Amendment application shall be accompanied by the required fee. The schedule of fees for the services provided shall be determined by City Council.
7. When a Development Agreement is to be entered into between the City and the applicant pursuant to a Direct Control Provision, the applicant shall pay to the Development Officer, in addition to any other fee required pursuant to this or any other bylaw, a Development Agreement fee as determined by City Council.

24.4 Notification of Rezoning Amendments

1. Prior to consideration by City Council of a proposed Rezoning Amendment, the Development Officer shall place a notice, complying with the Municipal Government Act, in two separate issues of a newspaper circulating within the City, and dispatch a notice by ordinary mail to all relevant parties listed below that are wholly or partially within 60.0 m of the boundaries of the Site which is the subject of the Rezoning Amendment:
 - a. the applicant;
 - b. the owners of the land subject to the proposed Rezoning Amendment;
 - c. each assessed owner of land, except that the Development Officer may exempt notification for City-initiated Rezoning Amendments:
 - i. for lands incorporated into the City zoned from the pre-annexation municipality's land use bylaw to an equivalent Zone in this Bylaw; or
 - ii. to replace existing Zones with new Zones which are generally consistent with the Uses and regulations of the Zone being replaced;
 - d. the President of each Community League; and
 - e. the President of each Business Revitalization Zone association.
2. During any cessation of ordinary mail delivery, the notice of a rezoning amendment decision may be given by such other alternative means specified by the Development Officer to those described in subsection 24.4(1)(a), (b), (d) and (e), and in a daily newspaper circulating within

Edmonton Zoning Bylaw 12800

the City only to those described in subsection 24.4(1)(c) .

3. Where, in the opinion of the Development Officer, a proposed Rezoning Amendment is likely to affect other owners of land beyond 60.0 m, the Development Officer must notify owners of land at such additional distance and direction from the Site as, in the opinion of the Development Officer, may experience any impact attributable to any development allowed under the proposed Zone or Direct Control Provision.
4. Prior to consideration by Council of an amendment to Parts III or IV of this Bylaw, the Development Officer shall give such notice as is required by the Municipal Government Act.
5. Except as provided hereafter, in order to amend Parts III or IV of this Bylaw to change the Zone governing any land the owner or applicant shall erect a Rezoning Amendment information Sign within 14 days of being directed to do so by the Development Officer. A Rezoning Amendment information Sign is not required for any of the following:
 - a. applications that propose to rezone lands in conformity with a Statutory Plan; and
 - b. City-initiated Rezoning Amendments for land brought into the City through annexation.
6. Where a Rezoning Amendment information Sign is required, the public hearing for such Rezoning Applications before City Council may not take place until a minimum period of 21 days has passed since the date upon which a Rezoning Amendment information Sign complying with the requirements of this Bylaw was erected, unless City Council otherwise directs.
7. The Rezoning Amendment information Sign shall be:
 - a. erected at a prominent location on the Site, or within 4.5 m of the Site between the Site and a public roadway, other than a Lane;
 - b. readable from a distance of 15.0 m; and
 - c. maintained in a reasonable and legible condition until such time as the application to amend Part III or IV is approved or refused by City Council, struck from City Council's agenda, or withdrawn.
8. In addition to subsection 24.4(7), if a Site is bounded by more than one public roadway, other than a Lane, one or more Rezoning Amendment information Signs shall be visible from each public roadway, other than a Lane.
9. Rezoning Amendment information Signs, as erected, shall:
 - a. not exceed 3.0 m in Height, above ground; and
 - b. be a minimum Sign Area of 1.0 m² and a maximum Sign Area of 3.0m².
10. Rezoning Amendment information Signs shall contain the following information:
 - a. the municipal address of the Site;

Edmonton Zoning Bylaw 12800

- b. the present Zone applicable to the Site;
 - c. the Zone proposed for the Site;
 - d. a general description of the Uses that could develop within the proposed Zone, together with a notice that the description may not be exhaustive;
 - e. a reference to the City's website where more information regarding the land development application may be sought;
 - f. the telephone number of the Development Officer at which information regarding the land development application may be sought; and
 - g. a graphic showing the location and boundaries of the subject Site.
11. In addition to the information requirements listed in subsection 24.4(10), the applicant shall, within seven days of the erection of the Rezoning Amendment information Sign, submit to the Development Officer a letter indicating that the Sign has been erected in accordance with the requirements of this Bylaw.
 12. Where the applicant is not the owner of the subject Site, the Development Officer shall authorize an alternative notification, which may not meet all of the requirements of subsection 24.4(7) to subsection 24.4(10), on public property adjacent to the subject Site.
 13. All Rezoning Amendment information Signs shall be removed no later than 30 days following the date of the approval or rejection of the relevant application by City Council.

*Bylaw 17831
November 28, 2016*

25. Compliance Certificate and Fees

1. The applicant for a Compliance Certificate shall provide to the Development Officer a Real Property Report for the Site prepared by a registered Alberta Land Surveyor.
2. The applicant shall pay all costs associated with the preparation of the Real Property Report.
3. In determining whether a Compliance Certificate can be issued for a Site, the Development Officer shall rely on the Real Property Report provided by the applicant. The Development Officer shall not undertake independent Site inspections.
4. The Development Officer may issue a Compliance Certificate when, in their opinion, the buildings located on a Site, and shown on the Real Property Report, are located on the Site in accordance with the Setback regulations of this Bylaw, and the Setbacks specified in any Development Permit which may have been issued for the Site. The Compliance Certificate shall only cover those buildings and structures, or parts thereof, shown on the Real Property Report submitted by the applicant.
5. The Development Officer may refuse to issue a Compliance Certificate when, in their opinion, they do not have sufficient information from the

Edmonton Zoning Bylaw 12800

applicant to determine if buildings located on a Site are located in accordance with the Setback regulations of this Bylaw, or the Setbacks specified in any Development Permit which has been issued for the Site.

6. The Development Officer shall not be liable for any damages arising from the use of a Compliance Certificate containing errors where the errors are the result of incorrect or incomplete information on the Real Property Report.
7. The fee for the provision of Compliance Certificates shall be as determined by City Council.

Edmonton Zoning Bylaw 12800

Development Regulations

40. Applicability

*Bylaw 16859
June 24, 2014*

The General Development Regulations shall apply to all developments on all Sites, and shall take precedence except where the regulations of a Zone, Overlay or Development Control Provision specifically exclude or modify these provisions with respect to any Use.

41. Lot Dimensions and Areas

41.1 Subdivision

1. The Subdivision Authority may approve the subdivision of land in the AG Zone to subdivide from a quarter section:
 - a. parcels which are too small for economic agricultural development because of isolation by natural features such as ravines or water bodies or by man-made features such as roadways or railways; or
 - b. parcels which are to be used for Essential Utility Services.
2. The Subdivision Authority may approve the subdivision of land which includes parcels of a size less than the minimum Site size required in the AGU Zone and in the AGI Zone, if:
 - a. these parcels are to be used for Essential Utility Services;
 - b. these parcels are remnants or other parcels which result from the planned subdivision process where such parcels are likely to be created for a temporary period and shall subsequently be incorporated into a consolidation or another subdivision or development pattern, and zoned in a manner consistent with proposed Land Use Zones prior to development; or
 - c. the AGU or AGI Zoning is to be temporary and is soon to be replaced with another Land Use Zone.

*Bylaw 17116
April 13, 2015*

3. The Subdivision Authority may not approve the subdivision of a Lot zoned RF1, as it existed on March 16, 2015 into more than two lots, notwithstanding the Site Width in the RF1 Zone. Subdivision into more than two Lots may only be approved where the proposed subdivision:
 - a. is supported by one or more City Council approved Statutory Plans or City Council approved Policies; or
 - b. has a Site Width deemed by the Subdivision Authority to be in character with Lots on the same block.

41.2 Minimum Site Area Exceptions for Single Detached, Semi-detached and Duplex Housing

*Bylaw 14750
December 12, 2007*

1. The Development Officer shall not refuse an application for a Development

Edmonton Zoning Bylaw 12800

Permit for Single Detached Housing on a Site with a depth of at least 30.0 m and a width of at least 10.0 m, or Semi-detached Housing or Duplex Housing on a Site with a Site area of at least 470 m² and a width of at least 13.5 m only for the reason that the Site does not meet the minimum area and dimensions set out in this Bylaw, if:

- a. the Site in question is a lot, which was created prior to October 2, 1961;
- b. the Site in question is a lot approved by the Subdivision Authority; or
- c. in the case of Single Detached Housing within the RF4 Zone, the Site is within a Zone Outline Plan area or Area Structure Plan area and the subdivision creating the Site was approved by the Municipal Planning Commission prior to the effective date of Bylaw 6934, that being June 14, 1982.

42. General Regulations for Separation Space, Amenity Area And Setbacks

*Bylaw 16733
July 6, 2015*

1. A Separation Space, or Setback shall not be required below Grade, except that the Development Officer may require that a Yard, or any portion of it, be unobstructed and undisturbed below Grade in order to preserve existing vegetation, or to provide an adequate growing environment for any proposed or required Landscaping.
2. Setback requirements in any Zone apply to Accessory buildings or Structures, except those in Residential Zones, in which case subsection 50.3 applies.

43. Yards on Corner Sites and Double Fronting Sites in Residential Zones

1. In the case of a corner Site, the Front Yard shall be the Yard abutting the Front Lot Line, except:
 - a. in the case of a corner Site comprised of more than one lot, the Front Yard of the Site shall be taken on the same public roadway, other than a Lane, as the Front Yard of the Corner Lot; or
 - b. where the two boundaries of a corner Site are equal, the location of the Front Yard of the Site shall be determined by the Development Officer.
2. Notwithstanding clause (1) above, the Development Officer may require any corner Site to provide an additional Front Yard or Yards other than that required, having regard to the orientation and access of any development, and the Front Yard requirements of adjacent properties.

*Bylaw 17831
November 28, 2016
Bylaw 17832
November 28, 2016*

3. Double Fronting Sites shall have two Front Yards. The Development Officer may exercise their variance powers under Sections 11.2 and 11.3 to allow only one Front Yard on a Double Fronting Site, but may allow fewer than one Front Yard.

Edmonton Zoning Bylaw 12800

4. Double Fronting Sites shall have two Front Yards. The Development Officer may exercise his variance powers under subsection 11.3 and 11.4 to allow only one Front Yard on a Double Fronting Site, but may not allow fewer than one Front Yard.

44. Projection into Setbacks and Separation Spaces

The following features may project into a required Setback or Separation Space as provided for below:

1.
 - a. verandas, porches, eaves, shade projections, unenclosed steps, chimneys, belt courses, sills, together with any other architectural features which are of a similar character, provided such projections do not exceed 0.6 m in the case of Setbacks or Separation Spaces of 1.2 m or greater. Where unenclosed steps extend into Side Setbacks which are not used for vehicular access, such steps shall not exceed a Height of 1.0 m above Grade; and
 - b. eaves or similar architectural features on Accessory buildings provided that such projections do not exceed 0.6 m in the case of Setbacks or Separation Spaces of 1.2 m or greater, and 0.46 m for Setbacks or Separation Spaces of less than 1.2 m
2.
 - a. cantilevered projections with windows, such as bay, oriel or similar windows, or cantilevered projections without windows, provided that such projections do not exceed 0.6 m in the case of Setbacks or Separation Spaces. In all cases, a minimum distance of 0.6 m from the property line to the outside wall of such projection and all other portions of a Dwelling, including eaves, shall be maintained; and
 - b. where a cantilevered projection as specified in subsection 44(2)(a) above is proposed in a Side Setback, the length of any one projection shall not exceed a wall opening length of 3.1 m. In the case of more than one projection, the aggregate total shall not exceed one third of the length of that house side wall excluding attached Garage walls. In the case of a Corner Lot, this restriction is applicable only to the interior Side Setback and not the flanking Side Setback. This restriction shall not apply to projections into the Front or Rear Setback.

*Bylaw 17831
November 28, 2016*

3.
 - a. Platform Structures provided such projections do not exceed 2.5 m into a Front Setback;
 - b. Platform Structures provided such projections do not exceed 2.0 m into any other Setbacks or Separation Spaces with a depth of at least 4.0 m;
 - c. Platform Structures provided such projections do not exceed 0.6 m into any other Setbacks or Separation Spaces with a depth of less than 4.0 m; and
 - d. Notwithstanding subsection 44(3)(b) and subsection 44(3)(c), Platform

Edmonton Zoning Bylaw 12800

Structures 0.6 m or less in Height may be constructed to the Lot lines Abutting an interior Side Yard and Rear Yard.

*Bylaw 17831
November 28, 2016*

4. accessibility ramps may project without limits into a required Setback provided:
 - a. the ramp provides access to the main floor or lower level of the building;
 - b. in a Residential Zone:
 - i. the ramp is not located in a required 3.0 m Side Setback where there is no Lane Abutting the Site;
 - ii. the area of any landing is less than 3.6 m²; and
 - iii. the maximum ramp width is 1.2 m.
5. swimming pools, fish ponds, ornaments, flagpoles, or the like provided that swimming pools shall not be constructed within any Front Setback;
6. any loading space required under the provisions of this Bylaw, provided it shall not be in a Front Setback;
7. a Parking Area required under this Bylaw, provided that no Parking Area in any Zone shall be located within the Front Yard. This shall not prohibit the use of a Front Yard for Driveways; and
8. notwithstanding any other provisions of Section 44, projections and steps shall not be allowed where a minimum Side Setback of 3.0 m is required for vehicular access to the rear of the Site unless a minimum vertical clearance of 3.0 m is maintained from the finished Grade to the lowest point of the projection.

45. Objects Prohibited or Restricted in Residential Zones

*Bylaw 17422
November 16, 2015
Effective Date: December 1, 2015*

1. No person shall keep in any part of a Site in any Residential Zone:
 - a. any commercial vehicle, loaded or unloaded, having a maximum gross vehicle weight (G.V.W.R.) exceeding 4 600 kg;
 - b. more than one commercial vehicle having a maximum gross vehicle weight (G.V.W.R.) of 4 600 kg or less, for longer than is reasonably necessary while loading or unloading such vehicle.
2. For the purpose of subsection 45(1) a commercial vehicle means a vehicle that:
 - a. is intended or designed for commercial purposes; or
 - b. is used for commercial purposes.

*Bylaw 15735
June 20, 2011*

3. No person shall keep, in the Front Yard in any Residential Zone, or in the case of a corner Site, in the Front Yard or the required flanking Side Yard in any Residential Zone, any large Recreational Vehicle for any longer than is reasonably necessary to load or unload such vehicle.

Edmonton Zoning Bylaw 12800

4. Notwithstanding subsection 45.3, from April 1 through October 31 inclusive, on a residential Site with no rear Lane, large Recreational Vehicles may be parked to within 2.0 m of the interior edge of the sidewalk, or within 2.0 m of the curb if there is no sidewalk:
 - a. where vehicular access is solely available through the Front Yard; or
 - b. in the case of a corner Site, where vehicular access is solely available through the Front Yard or through the exterior flanking Side Yard,

*Bylaw 17831
November 28, 2016*

subject to the discretion of the Development Officer, who may exercise their variance power to decrease this minimum Setback requirement on a Site by Site basis, given the proximity and orientation of driveways, parking areas, buildings and other physical features which may affect sight lines and amenities on the subject property and on adjacent properties.

5. For the purposes of subsections 45.3 and 45.4, a "large Recreational Vehicle" shall include any motorhome, travel trailer, or fifth wheel trailer; any camper when it is not mounted on a truck, but placed on the ground, on a stand or otherwise stored; or any similar vehicles.
6. For the purposes of subsections 45.3 and 45.4, a "large Recreational Vehicle" shall not include: small utility trailers; camper van conversions; tent trailers; campers which are mounted in trucks; boats; snowmobiles; all-terrain vehicles; jet skis; or motorcycles and trailers to carry them.

*Bylaw 15634
September 26, 2011*

7. In the Front Yard of any Site in any Residential Zone, or in the case of a corner Site, in the Front Yard or the flanking Side Yard in any Residential Zone:
 - a. vehicles shall not be located on the landscaped portion of the Yard; and
 - b. vehicles shall only be allowed on a Driveway or within an attached or detached Garage.

*Bylaw 16384

residential development; and

- b. with respect to Non-residential Uses, be located and designed to serve as space for the active or passive recreation and enjoyment of the public so as to maximize the accessibility and use of the Area by the public during the hours which the development is open to the public. Access to the Amenity Area shall be at no cost to the public.

3. Amenity Area may include:

*Bylaw 17556
March 14, 2016
Bylaw 17831
November 28, 2016*

- a. with respect to Residential Uses, patios, balconies with a minimum depth of 2.0 m, Rooftop Terraces, communal lounges and Recreational Facilities and other areas within the Site which are of the nature described in clause (2)(a) above; and
- b. with respect to Non-Residential Uses, courtyards, interior landscaped open spaces, arcades, plazas, atriums, public seating areas and other areas within the Site which are of the nature described in clause (2)(b) above.

4. Required Amenity Area may be located:

*Bylaw 15735

Bylaw 17831
November 28, 2016*

- a. with respect to Residential Uses, within any Yard, other than a Front Yard; and
 - b. with respect to Non-Residential Uses, within any Yard.
5. Required Amenity Area may be located within a required Separation Space, but only if it is intended for the private use of the Dwelling for which the Separation Space is provided.

*Bylaw 16733
July 6, 2015*

6. Where landscaped space at Grade on the Site is in excess of 30% of the Site area, the excess may be included in the required residential Amenity Area.

47. Private Outdoor Amenity Area

1. Where required in any Zone, a development shall provide Private Outdoor Amenity Area in accordance with the requirements of the Zone.
2. Private Outdoor Amenity Area shall be designed for the occupants of a specific Dwelling, and shall be provided immediately adjacent to, and with direct access from, the Dwelling it is to serve. It shall be landscaped and surfaced for convenient use for outdoor activities.
3. Private Outdoor Amenity Area shall be screened in a manner which prevents viewing into a part of it from any adjacent areas at a normal standing eye level. When such screening would impair a beneficial outward and open orientation of view, and there is no adverse effect on the privacy of the Private Outdoor Amenity Area, the extent of screening may be reduced.

4. Private Outdoor Amenity Area may be provided above Grade, and may be located within any Yard other than a required Front Yard.
5. Neither the width nor the length of any Private Outdoor Amenity Area shall be less than 4.0 m, except that if it is provided above the first Storey the minimum dimensions shall be 3.0 m.
6. Private Outdoor Amenity Area may be located within a required Separation Space, but only if the Amenity Area is intended for the use of the Dwelling for which the Separation Space is provided.

48. Separation Space

48.1 Separation Space: General

1. Where required in any Zone, any residential or residential-related development shall provide Separation Space in accordance with this Section 48.
2. Except as provided for elsewhere in this Section 48, the Separation Space shall be contained fully within the Site of the proposed development unless otherwise specified in the applicable Land Use Zone.

*Bylaw 17052
July 6, 2015*

3. The minimum Separation Space in front of any windows, entry or similar opening shall be applied along the full length and Height of the exterior wall of the room in which the particular opening or window is located, and it shall be measured horizontally outward from, and at right angles to, that exterior wall.
4. Except as provided for elsewhere in this Section, the specified Separation Space shall be free of buildings and public roadways.

*Bylaw 14934
June 16, 2008*

5. The minimum separating distance between two Dwellings shall be equal to the sum of the minimum Separation Spaces for the opposite windows and openings, except as provided in subsection 48.3(2) and Section 48.4(2).
6. In the event that buildings are not parallel, or diagonal views between opposite windows and openings in different Dwellings become critical, the Separation Space requirements may be increased or reduced by the Development Officer.
7. Notwithstanding these regulations, the Development Officer may exercise variance power to reduce Separation Space where other design solutions offer equivalent daylight, sunlight, ventilation, quiet, visual privacy and views.

*Bylaw 15735
June 20, 2011*

8. A required Separation Space may be provided wholly or partly within a Setback

48.2 Principal Living Room Window

*Bylaw 17052
July 6, 2015*

1. In front of a Principal Living Room Window, a Separation Space, with a minimum depth of 7.5 m or half the Height of any wall opposite the said Window, whichever is greater, to a maximum of 10.0 m shall be provided.

Edmonton Zoning Bylaw 12800

2. The following facilities or activity areas may be located within a required Separation Space adjacent to a Principal Living Room Window where a Privacy Zone of at least 4.5 m is provided between the window and facility/activity area:

*Bylaw 14750
December 12, 2007*

- a. local public roadway including a Lane;

*Bylaw 17973
April 24, 2017*

- b. Walkway;
- c. on-site roadway;
- d. on-site parking area;
- e. on-site Amenity Area; and
- f. Accessory buildings.

This Privacy Zone shall be measured from the window to the nearest edge of the specified activity area. For local public roadways, the Privacy Zone shall be measured from the Window to the edge of the sidewalk or to the space reserved for a future sidewalk.

3. Where the sill of a Principal Living Room Window is at least 2.0 m above the elevation of the exterior area immediately outside the Window for a distance of at least 4.5 m out from the Window, no minimum Privacy Zone is required.

*Bylaw 15036
February 2, 2009*

4. No minimum Privacy Zone is required for Garden Suites or Garage Suites at-Grade.

48.3 Habitable Room Window

*Bylaw 17052
July 6, 2015*

1. In front of a required Habitable Room Window other than the Principal Living Room Window, a Separation Space, with a minimum depth of 5.0 m or half the Height of any wall opposite the said Window, whichever is greater, to a maximum of 7.5 m shall be provided.
2. Where a Habitable Room Window on a building of two Storeys or less directly faces a Blank Wall of an adjacent building also of two Storeys or less, the minimum separating distance may be reduced to 3.0 m.
3. The following facilities or activity areas may be located within a required Separation Space adjacent to a Habitable Room Window where a Privacy Zone of at least 4.5 m is provided between the window and facility/activity area:

- a. local public roadway other than a Lane;

*Bylaw 17973
April 24, 2017*

- b. Walkway;
- c. on-site roadway;
- d. on-site parking area;
- e. on-site Amenity Area; and

f. Accessory buildings.

This Privacy Zone shall be measured from the window to the nearest edge of the specified activity area. For local public roadways, the Privacy Zone shall be measured from the Window to the edge of the sidewalk or to the space reserved for a future sidewalk.

*Bylaw 16733
July 6, 2015*

4. Where Habitable Room Windows face onto exterior corridors or access ways for Dwellings located above Grade, the Development Officer may modify the Privacy Zone requirements of clause (3) above.
5. Where the sill of a Habitable Room Window is at least 2.0 m above the elevation of the exterior area immediately outside the Window for a distance of at least 3.0 m out from the Window, no minimum Privacy Zone is required.

*Bylaw 15036
February 2, 2009*

6. No minimum Privacy Zone is required for Garden Suites or Garage Suites at-Grade.

48.4 Non-habitable Room Windows, Non-required Habitable Room Windows, Entries and Blank Walls

1. In front of a Non-habitable Room Window, a Non-required Habitable Room Window, an Entry or a Blank Wall, a Separation Space with a minimum depth of 1.2 m plus 0.3 m for each additional Storey above the first Storey to a maximum of 3.0 m shall be provided.

*Bylaw 17052
July 6, 2015*

2. Where two Blank Walls face one another, the required minimum Separation Space shall be calculated from only one of the Blank Walls. Where the two Blank Walls are of different Heights, the Separation Space shall be calculated from the Blank Wall having the greater Height.

49. Fences, Walls, Gates and Privacy Screening in Residential Zones

1. Fences, walls and gates
 - a. The regulations contained within Section 49.1 of this Bylaw apply to:
 - i. the Height of the material used in the construction of a Fence, wall, or gate, such as but not limited to boards, panels, masonry, ornamental iron, and chain link, plus any additional elements used for screening, such as, but not limited to, lattice.
 - b. Notwithstanding subsection 49(1)(a), the regulations for Fences, walls, and gates contained within this Section do not apply to the Height of the posts or other supporting material used to anchor the Fence, wall, or gate.
 - c. The Height of a Fence, wall, or gate shall be measured from the general ground level 0.5 m back from the property line of the Site on which the Fence, wall, or gate is to be constructed.

Edmonton Zoning Bylaw 12800

- d. On an Interior Site, the Height of a Fence, wall, or gate shall not exceed:
 - i. 1.2 m for the portion of the Fence, wall, or gate constructed in the Front Yard, and
 - ii. 1.85 m in all other Yards.
 - e. On a Corner Site, the Height of a Fence, wall, or gate shall not exceed:
 - i. 1.2 m for the portion of the Fence, wall, or gate constructed in the Front Yard,
 - ii. 1.2 m for the portion of the Fence, wall, or gate situated between the flanking Side Lot Line and the foremost side Façade of the principal structure, and extending from the Front Lot Line to the Rear Lot Line, and
 - iii. 1.85 m in all other Yards.
 - f. In the case where the permitted Height of a Fence, wall, or gate is 1.2 m, the Development Officer may vary the Height of the Fence, wall, or gate to a maximum of 1.85 m, in order to provide additional screening from public roadways or incompatible adjacent Uses,
 - g. In the case where the permitted Height of a Fence, wall, or gate is 1.85 m, the Development Officer may vary the Height of the Fence, wall, or gate to a maximum of 2.44 m, in order to provide additional screening from public roadways or incompatible adjacent Uses,
 - h. Notwithstanding subsection 49.1(f) and subsection 49.1(g) of this Bylaw, in the case of Double Fronting Sites, the Development Officer may grant a variance to allow a Fence, wall, or gate of up to 1.85 m in Height in one of the Front Yards, and allow a Fence, wall, or gate of up to 2.44 m in Height in the other Front Yard, having regard to the location of Fences, walls, and gates in the surrounding area and the requirement for screening.
2. Privacy Screening
- a. The regulations contained within Section 49.2 of this Bylaw apply to:
 - i. the Height of the material used in the construction of Privacy Screening such as but not limited to lattice, wooden or masonry walls, parapet walls or translucent glass.
 - b. Notwithstanding subsection 49(2)(a), the regulations for Privacy Screening contained within this Section do not apply to the Height of the posts or other supporting material used to anchor the Privacy Screening.
 - c. Privacy Screening, excluding vegetative screening, constructed on a Platform Structure located within a Front Yard, required Side Setback or within 2.5 m of a Rear Lot Line shall not exceed 1.2 m in Height, and 1.85 m in Height in all other Yards, when measured from the surface of a Platform Structure.
 - d. Privacy Screening, excluding vegetative screening, constructed on a Rooftop Terrace shall not exceed 1.5 m in Height, when measured from the surface of a Rooftop Terrace.
 - e. Privacy Screening, excluding vegetative screening, constructed on a Rooftop Terrace shall conform with the Stepback regulations of Section 61 of this Bylaw.

Edmonton Zoning Bylaw 12800

- f. The Height of Privacy Screening constructed at ground level shall be measured from the average ground level 0.5 m back from the Privacy Screening.
- g. On an Interior Site, the Height of Privacy Screening, excluding vegetative screening, constructed at ground level, shall not exceed:
 - i. 1.2 m for the portion of the Privacy Screening constructed in the Front Yard, and
 - ii. 1.85 m in all other Yards.
- h. On a Corner Site, the Height of Privacy Screening, excluding vegetative screening, constructed at ground level, shall not exceed:
 - i. 1.2 m for the portion of the Privacy Screening constructed in the Front Yard,
 - ii. 1.2 m for the portion of Privacy Screening situated between the flanking Side Lot Line and the foremost side Façade of the principal structure, and extending from the Rear Lot Line to the Front Lot Line, and
 - iii. 1.85 m in all other Yards.
- i. In the case where the permitted Height of Privacy Screening is 1.2 m, the Development Officer may vary the Height of Privacy Screening to a maximum of 1.85 m, in order to prevent visual intrusion and provide additional screening from adjacent properties.
- j. In the case where the permitted Height of Privacy Screening is 1.85 m, the Development Officer may vary the Height of Privacy Screening to a maximum of 3.05 m, in order to prevent visual intrusion and provide additional screening from adjacent properties.
- k. Notwithstanding subsection 49.2(i) and subsection 49.2(j) of this Bylaw, in the case of Double Fronting Sites, the Development Officer may grant a variance to allow Privacy Screening, excluding vegetative screening, of up to 1.85 m in Height in one of the Front Yards, and allow Privacy Screening, excluding vegetative screening, of up to 3.05 m in Height in the other Front Yard, having regard to the location of Fences, walls, gates and Privacy Screening in the surrounding area and the requirement for screening.”;

50. Accessory Uses and Buildings

50.1 Accessory Uses and Buildings: General

- 1. A Use shall be Accessory to a Permitted or Discretionary Use which is a principal Use on the Site, if such Use complies with the definition of Accessory in this Bylaw. Notwithstanding the foregoing, Accessory parking may be on the same Site as the principal Use or comply with subsection 54.2(2) of this Bylaw.

*Bylaw 16733

 - b. a roof-mounted Satellite Signal Receiving Antenna shall be allowed where the applicant can demonstrate that a ground-mounted unit would prohibit adequate reception of broadcasts. The impediments to the reception of broadcasts by a typical free-standing, ground-mounted unit shall be clearly identified on a diagram or Site plan, provided in accordance with subsection 13.2 of this Bylaw;

Edmonton Zoning Bylaw 12800

*Bylaw 16945
September 22, 2014*

5. In the case of a roof-mounted Satellite Signal Receiving Antenna allowed pursuant to subsection 50.5(4)(a), an antenna may exceed the Height of the building on which it is mounted, provided that the maximum Height shall not be greater than that provided in the regulations of the Zone governing the Site.

*Bylaw 16945
September 22, 2014*

6. In the case of any roof-mounted Satellite Signal Receiving Antenna which is allowed by the Development Officer pursuant to subsection 50.5(4)(b), a Satellite Signal Receiving Antenna shall:
 - a. if mounted on any other Accessory structure, have a maximum Height of 10.0 m;

*Bylaw 16945
September 22, 2014*

- b. if mounted on the principal building, have a maximum Height of 11.5 m at its highest point, but in no case shall the Height of the antenna exceed the highest point of the principal building; and
 - c. not be visible from the Front Yard of the Site.

50.6 Amateur Radio Antenna and Support Structure

*Bylaw 16945
September 22, 2014*

1. An Amateur Radio Antenna and Support Structure shall:
 - a. be a free-standing, ground-mounted unit;
 - b. be located in a Rear Yard only;
 - c. be located so that no portion is within 0.9 m of any lot line, except that, on a Corner Lot, no portion shall be closer than 4.5 m to any lot line abutting a flanking public roadway, other than a Lane;
 - d. be limited to a maximum Height of 18.0 m at its highest point. For the purpose of this subsection 50.6 only, the Height of a ground-mounted Amateur Radio Antenna and Support Structure shall be determined by measurement from the point at which the support structure enters the typical ground surface, to the top of the antenna at its highest position; and
 - e. not be illuminated, nor shall it have attached to it any advertising, graphics or flags or other elements unrelated to its function as a component of a radio signal transmitting and receiving device.

Effective Date: December 1, 2015

3. Landscaping shall be provided around the base of an Amateur Radio Antenna and Support Structure to screen the base of the structure and reduce the negative visual impact on adjacent properties, to the satisfaction of the Development Officer.

Bylaw 17422

November 16, 2015

Effective Date: December 1, 2015

4. Notwithstanding subsection 50.5(1) of this Bylaw, a roof-mounted unit shall be allowed, where the applicant can demonstrate that a ground-mounted unit would prohibit adequate transmission or reception of radio signals. The Amateur Radio Antenna and Support Structure of a roof-mounted unit shall be installed on the roof of a building to a maximum combined Height of 18.0 m from the typical ground surface to its highest point.

51. Lighting of Sites

Any outdoor lighting for any development shall be located and arranged so that no direct rays of light are directed at any adjoining properties, or interfere with the effectiveness of any traffic control devices.

Bylaw 17062

52. Height and Grade

1. The Development Officer shall calculate building Height by determining the roof type, and applying the following:
 - a. For hip and gable roof types Height shall be determined by measuring from the horizontal plane through Grade to the midpoint of the highest roof. The midpoint is determined to be between the end of the eave (intersection of the fascia board and the top of the roof sheathing, or less, in accordance with Section 44), and the top of the roof; or

Edmonton Zoning Bylaw 12800

- b. For the flat roof type, Height shall be determined by measuring from the horizontal plane through Grade to the midpoint of the highest parapet, provided the resulting top of the parapet is no more than 0.4 metres above the maximum Height allowed in the zone or overlay; or

- c. For mansard and gambrel roof types, Height shall be determined by measuring from the horizontal plane through Grade to the midpoint of the highest roof. The midpoint is determined to be between the deck line and the top of the roof; or

Edmonton Zoning Bylaw 12800

Edmonton Zoning Bylaw 12800

- d. For all other roof types, including saddle, dome, dual-pitch, shed, butterfly or combination roofs, the Development Officer shall determine Height by applying one of the previous three types that is most appropriate for balancing the development rights and the land use impact on adjacent properties.
2. In determining whether a development conforms to the maximum Height permissible in any Zone, the following regulations shall apply:
 - a. in any Zone other than a Residential Zone, the following features shall not be considered for the purpose of Height determination: chimney stacks, either free-standing or roof mounted, steeples, belfries, domes, or spires, monuments, elevator housings, roof stairways, entrances, water or other tanks, ventilating equipment, skylights, fire walls, plumbing stacks, receiving or transmitting structures, masts, flag poles, clearance markers or other similar erections.
 - b. in any Residential Zone, those features specified in subsection 52.2(a) shall not be considered for the purpose of Height determination, except that the maximum Height of receiving or transmitting structures, where these are Satellite Signal Receiving Antennae or Amateur Radio Antennae and Support Structures, shall be calculated in accordance with the regulations of subsections 50.5 and 50.6, respectively, of this Bylaw. The maximum Height for all other receiving or transmitting structures, other than those which may normally be required for adequate local television reception, shall be the maximum Height in the Zone, and not the maximum Height for Accessory buildings in Residential Zones specified in subsection 50.3(2).
 - c. Where the maximum Height as determined by Section 52.1 is measured to the midpoint, the ridge line of the roof shall not extend more than 1.5 m above the maximum permitted building Height of the Zone or overlay, or in the case of a Garage Suite the maximum permitted building Height in accordance with Section 87 of this Bylaw.
3. An applicant shall submit, for any Development Permit to construct, rebuild or increase the Height of a structure, a grading plan that shows the elevation of the Site at each corner of the Site before and after construction;
4. The Development Officer shall determine Grade by selecting, from the methods listed below, the method that best ensures compatibility with surrounding development:
 - a. if the applicant can show by reference to reliable topographical maps that the elevation of the Site varies by no more than one meter in 30 lineal meters, the Development Officer may determine Grade by calculating the average of the highest and lowest elevation on the Site;
 - b. the Development Officer may determine Grade by calculating the average of the elevation at the corners of the Site prior to construction as shown on the applicant's grading plan;
 - c. the Development Officer may determine Grade by calculating the average elevation of the corners of the buildings on all properties abutting the Site or separated from the Site by a Lane;
 - d. for a Site where the highest geodetic elevation at a corner of the front property line is greater than the lowest geodetic elevation at a corner of the rear property line by 2.0 m or more, the Development Officer may

Edmonton Zoning Bylaw 12800

determine Grade by calculating the average elevation of the front corners of the Lot, and along the side property lines a distance equal to the minimum front Setback in the underlying Zone from the front property line. This method is intended for small scale development with a single Principal building and is not intended to be used for Multi-unit Project Developments; or

- e. the Development Officer may use his variance power to determine Grade by a method other than the ones described in subsection 52.4. If so, this shall be a Class B Discretionary Development.
5. The applicant shall submit all information the Development Officer requires to determine Grade by the method the Development Officer chooses.

53. Access to Sites

*Bylaw 16032
March 12, 2012*

1. All access locations and curb crossings shall require the approval of Transportation Services.

*Bylaw 15634
September 26, 2011
Bylaw 16032
March 12, 2012*

2. No person shall construct an access or egress for vehicles from a Site to a public roadway, if the public roadway, in the opinion of Transportation Services, carries or shall carry a heavy traffic volume or such access or egress would create an unnecessary traffic hazard, unless there is no other practical method of vehicular access to the Site and a turning space is provided on the Site connected to the access or egress, so that every vehicle leaving the Site by the egress shall face the public roadway which the access or egress enters.

*Bylaw 16032
March 12, 2012*

3. Where the Site abuts a Lane, vehicular access to the loading space shall be provided from the Lane unless otherwise authorized by Transportation Services.

54. Parking, Loading and Passenger Drop-off

54.1 Off-street Parking and Loading Regulations

1. Applicability and Exceptions
 - a. When any development takes place on any Site, off-street parking and loading facilities for each building type or Use, including Accessory Uses, shall be provided and maintained in accordance with the regulations and standards of this Bylaw.
 - b. Notwithstanding the above, the regulations contained within this Section shall not apply to buildings or Uses existing at the time of the adoption of this Bylaw, except that:
 - i. where any building or structure undergoes an increase in Floor Area due to addition or external renovation, off-street parking, including parking for the disabled and visitors, shall be increased to equal or exceed the off-street parking requirements resulting from application

Edmonton Zoning Bylaw 12800

of the provisions of this Bylaw to the entire building, structure or Use as modified in size:

*Bylaw 17831
November 28, 2016*

- ii. where any building or Use undergoes a change of Use, intensity of Use or capacity and the change results in an increase in the parking requirements, the off-street parking, including parking for the disabled and visitors, shall be increased to equal or exceed the off-street parking requirements resulting from application of the provisions of this Bylaw to the entire building, structure or Use as modified in Use; and
- iii. where off-street parking facilities or loading facilities are provided when not required, the location, design and operation of such facilities shall comply with all the regulations of this Bylaw.
- c. All required parking and loading facilities shall only be used for the purpose of accommodating the vehicles of clients, customers, employees, members, residents or visitors in connection with the building or Use for which the parking and loading facilities are provided, and the parking and loading facilities shall not be used for driveways, access or egress, commercial repair work, display, sale or storage of goods of any kind.

2. General Requirements

*Bylaw 16488
July 2, 2013*

- a. Where provision of off-street vehicular parking, Garage spaces, Bicycle Parking or loading spaces is required by this Bylaw with the exception of Single Detached Housing, Duplex Housing, and Semi-detached Housing, a plan of the proposed Site layout shall be included with the Development Permit Application. The Site plan must be drawn to scale and must clearly illustrate the lot size and configuration, building locations, site access, parking and loading spaces, on-site circulation and any other details relevant to the review of the development proposal.
- b. The number of off-street vehicular parking spaces, Bicycle Parking spaces and loading spaces required for any Use is specified in Schedule 1, Schedule 2 and Schedule 3 respectively.

*Bylaw 17831
November 28, 2016*

- c. Where Schedules 1, 2 and 3 do not clearly define regulations for a particular development, the single Use or combination of Uses most representative of the proposed development shall be used by the Development Officer to determine the vehicular parking, Bicycle Parking and loading requirements.
- d. Where the total number of vehicular parking spaces, Bicycle Parking spaces or loading facilities is determined by reference to a unit such as the number of seats or Floor Area, the next higher whole number shall be required where the calculation results in a fractional number of required spaces.

*Bylaw 15634
September 26, 2011*

- e. Except as otherwise provided for in this Bylaw, parking spaces, not including Driveways, that are required in accordance with the minimum

Edmonton Zoning Bylaw 12800

standards of this Bylaw shall be located in accordance with the following:

- i. parking spaces shall not be located within a Front Yard; and
 - ii. on a Corner Lot in a Residential Zone, parking spaces, in addition to complying with the other provisions of this Bylaw, shall not be located within the Side Yard abutting the flanking public roadway, other than a Lane. Where the amount of parking provided on a Corner Lot is in excess of the minimum requirements of this Bylaw, the Development Officer shall have the discretion to allow such additional spaces within a Side Yard flanking a public roadway, other than a Lane.
- f. Unless otherwise specified in this Bylaw, no required parking spaces shall be provided as Tandem Parking.

*Bylaw 17831
November 28, 2016*

- g. The Development Officer may use their variance power to relax the vehicular parking requirements in Schedule 1, the Bicycle Parking requirements in Schedule 2 and the loading requirements in Schedule 3, however such a variance shall only be considered in cases where the nature of the Use, the size of the Site, or other physical constraints result in a situation where the requirements cannot be met on-site without unnecessary hardship or practical difficulties.
 - h. In the case of the multiple Use of a Site, the Development Officer shall calculate the vehicular parking, Bicycle Parking and total off-street loading requirement for each individual Use and the total shall be deemed to be the required vehicular parking, Bicycle Parking or off-street loading for the Site, unless the applicant can demonstrate that there is complementary use of the parking or loading facilities which would warrant a reduction in the requirements. Where such reduction is made, this shall be considered a variance and the Development Officer shall state the reduction and the reasons for it on the Development Permit.
3. Parking for People with Disabilities
- a. Parking spaces for the disabled shall:
 - i. be provided in accordance with the Alberta Building Code in effect at the time of the Development Permit application, for which no discretion exists;
 - ii. be included, by the Development Officer, in the calculation of the applicable minimum parking requirement; and
 - iii. be identified as parking spaces for the disabled through the use of appropriate signage, in accordance with Provincial standards.

4. The Front Yard of any at Grade Dwelling in any Residential Zone, or in the case of a corner Site, either the Front Yard or the flanking Side Yard in any Residential Zone, may include a maximum of one Driveway. The Driveway shall:

Edmonton Zoning Bylaw 12800

- a. lead directly from the roadway to the Garage or Parking Area;
- b. for a Garage or Parking Area with one parking space, have a maximum width of 4.3 m, or the width of the Garage or Parking Area, whichever is the lesser;
- c. For a Garage or Parking Area with two or more parking spaces, have a maximum width that shall be calculated as the product of 3.7 m multiplied by the total number of adjacent side-by-side parking spaces contained within the Garage or Parking Area, or the width of the Garage or Parking Area, whichever is the lesser; and
- d. for a Site Zoned RF1 and less than 10.4 m wide, have a maximum width of 4.3 m.

*Bylaw 17973

5. For Residential and Residential-Related Uses, a Driveway may be used for parking.

54.2 Required Off-street Vehicular Accessory Parking

1. Number of Vehicular Spaces
 - a. The minimum number of off-street parking spaces required for each Use is specified in Schedule 1.

*Bylaw 15785
June 20, 2011*

- b. Where Apartment Housing, Row Housing or Stacked Row Housing Uses, outside of the Downtown Special Area, contain three or more dwelling units and are located within 400 metres of an existing LRT station, within 400 metres of an existing Transit Centre, or within 100 metres of a Transit Avenue, reduced minimum parking requirements and maximum parking requirements shall apply, as specified in Schedule 1(A). Such distances shall be measured from the nearest point of the LRT station, Transit Centre, or Transit Avenue, to the nearest point of the Site where the building(s) or Use(s) are located.

*Bylaw 15785
June 20, 2011*

- c. Where Apartment Housing, Row Housing or Stacked Row Housing Uses, outside of the Downtown Special Area, contain three or more dwelling units and are located within 400 metres of a future LRT station with a Council-approved Concept Plan, within 400 metres of a future Transit Centre with a Council-approved Concept Plan, or within 100 metres of a Transit Avenue, reduced minimum parking requirements and maximum parking requirements shall apply, as specified in Schedule 1(A). Such distances shall be measured from the nearest point of the LRT station, Transit Centre or Transit Avenue, to the nearest point of the Site where the building(s) or Use(s) are located.

*Bylaw 15785
June 20, 2011*

- d. Notwithstanding sub-section. 54.2.1.b and sub-section 54.2.1.c, where Semi-Detached Housing, Duplex Housing, or Apartment Housing consisting of fewer than three dwelling units, constitutes part of a Multi-Unit Project Development, outside of the Downtown Special Area, and is located within 400 metres of an existing LRT station or a future LRT station with a

Edmonton Zoning Bylaw 12800

Council-approved Concept Plan, within 400 metres of an existing Transit Centre or a future Transit Centre with a Council-approved Concept Plan, or within 100 metres of a Transit Avenue, reduced minimum parking requirements and maximum parking requirements, applicable to Apartment Housing, Row Housing and Stacked Row Housing Uses, shall apply, as specified in Schedule 1(A). Such distances shall be measured from the nearest point of the LRT station, Transit Centre, or Transit Avenue, to the nearest point of the Site where the building(s) or Use(s) are located.

- e. Where the applicant for a Development Permit can demonstrate through a vehicular parking demand study prepared and submitted with respect to the proposed development, that by virtue of the Use, character, or location of the proposed development, and its relationship to public transit facilities and other available parking facilities, the parking requirement for the proposed development is less than any minimum or more than any maximum set out in the Parking Schedule, the Development Officer may allow a reduction from the minimum or an increase from the maximum in the number of parking spaces. The Development Officer shall submit the demand study to Transportation Services for analysis, and the proposed reduction or increase may be approved by the Development Officer with the advice of Transportation Services.

*Bylaw 17831
November 28, 2016*

- f. For mixed Use developments of greater than 28 000 m² of Floor Area, which accommodate restaurant, entertainment and or cinema Uses exceeding 20% of the Floor Area, a shared use parking impact assessment shall be submitted to the Development Officer in order to assist in the determination of the required off-street vehicular parking supply. The Development Officer shall submit the parking study to Transportation Services for analysis, and the proposed reduction or increase may be approved by the Development Officer with the advice of Transportation Services.

2. Location of Vehicular Parking Facilities

- a. For all residential developments, the required parking spaces shall be wholly provided on the same Site as the building.
- b. For all other Uses, parking spaces may be provided on a Site located remotely, but no further than 120.0 m from the Site. Such distance shall be measured along the shortest public pedestrian route from the nearest point of the parking area to the nearest point of the Site where the building or Use is located. Where off-site parking is provided pursuant to this provision, the development shall be considered as Class B Development.
- c. Where required parking spaces are not on the same Site of the development or Use, these parking spaces shall be identified as parking spaces for that development or Use through the use of appropriate signage.

*Bylaw 17831
November 28, 2016*

- d. Notwithstanding the definition of Accessory in this Bylaw, Accessory parking spaces for non-Residential Uses may be located on another Site where:

*Bylaw 17831
November 28, 2016*

- i. the principal Use to which the parking is an Accessory Use is a Permitted or a Discretionary Use on the Site to be used for additional parking; or
- ii. Non-accessory Parking is a Permitted or a Discretionary Use on the Site to be used for parking.

- e. Except as otherwise provided for in this Bylaw, parking spaces, not including Driveways, shall be located in accordance with the following:
 - i. parking spaces shall not be located within a Front Yard; and
 - ii. on a Corner Lot in a Residential Zone, parking spaces, in addition to complying with the other provisions of this Bylaw, shall not be located within the Side Yard Abutting the flanking public roadway, other than a Lane.

3. Landscaped Islands Within Parking Areas

*Bylaw 16733
July 6, 2015
Bylaw 17672
June 27, 2016*

- a. Every off-street parking or loading area designed to accommodate 30 or more vehicles at Grade, shall incorporate landscaped open space within the parking area, calculated on the basis of 2.0 m² of landscaped island area per required parking and loading space. This shall be Landscaped in accordance with Section 55.3 of this Bylaw.
- b. For parking areas containing parking for 40 or more vehicles, a minimum of two landscaped islands shall be required. These islands shall be placed to provide visual relief, to assist vehicular circulation and to organize large areas of parking into smaller cells. The number of islands provided shall be to the satisfaction of the Development Officer.

4. Vehicular Parking Dimensions and Configuration

- a. All required parking spaces shall be clear of any access driveways, aisles, ramps, columns, Signs or other similar obstructions, and shall conform to the following minimum dimensions:
 - i. except as provided below, each required off-street parking space shall be a minimum of 2.6 m width with a minimum clear length of 5.5 m exclusive of access drives or aisles, ramps, columns. Parking spaces shall have a vertical clearance of at least 2.0 m. For parallel parking, the length of the parking spaces shall be increased to 7.0 m, except that an end space with an open end shall be a minimum length of 5.5 m.

Edmonton Zoning Bylaw 12800

*Bylaw 15998

- ii. expanded parking spaces shall be a minimum of 2.9 m in width and 5.5 m in length, and shall be painted with double line markings;
- iii. for parking spaces other than parallel parking spaces, up to 30% of the required parking spaces may be of a length shorter than that required above, to a minimum of 4.6 m . Such spaces shall be clearly signed as small car spaces, easily located and convenient to use;
- iv. where the use of a parking space is limited on both sides by a wall or a column, the unobstructed width from face to face of the obstructions shall be 3.0 m, and if in this case, a building door opens into the parking space on its long side, the unobstructed width shall be 3.3 m.
- v. where the use of a parking space is limited to one side by a wall or a column, the unobstructed width of the parking space shall be 2.7 m, and if in this case, a building door opens into the parking space on its long side, the unobstructed width shall be 3.0 m.
- vi. aisles shall be a minimum of 7.0 m wide for 90° parking, 5.5 m wide for 60° parking, and 3.6 m wide for 45° parking and parallel parking;

*Bylaw 17600
April 4, 2016*

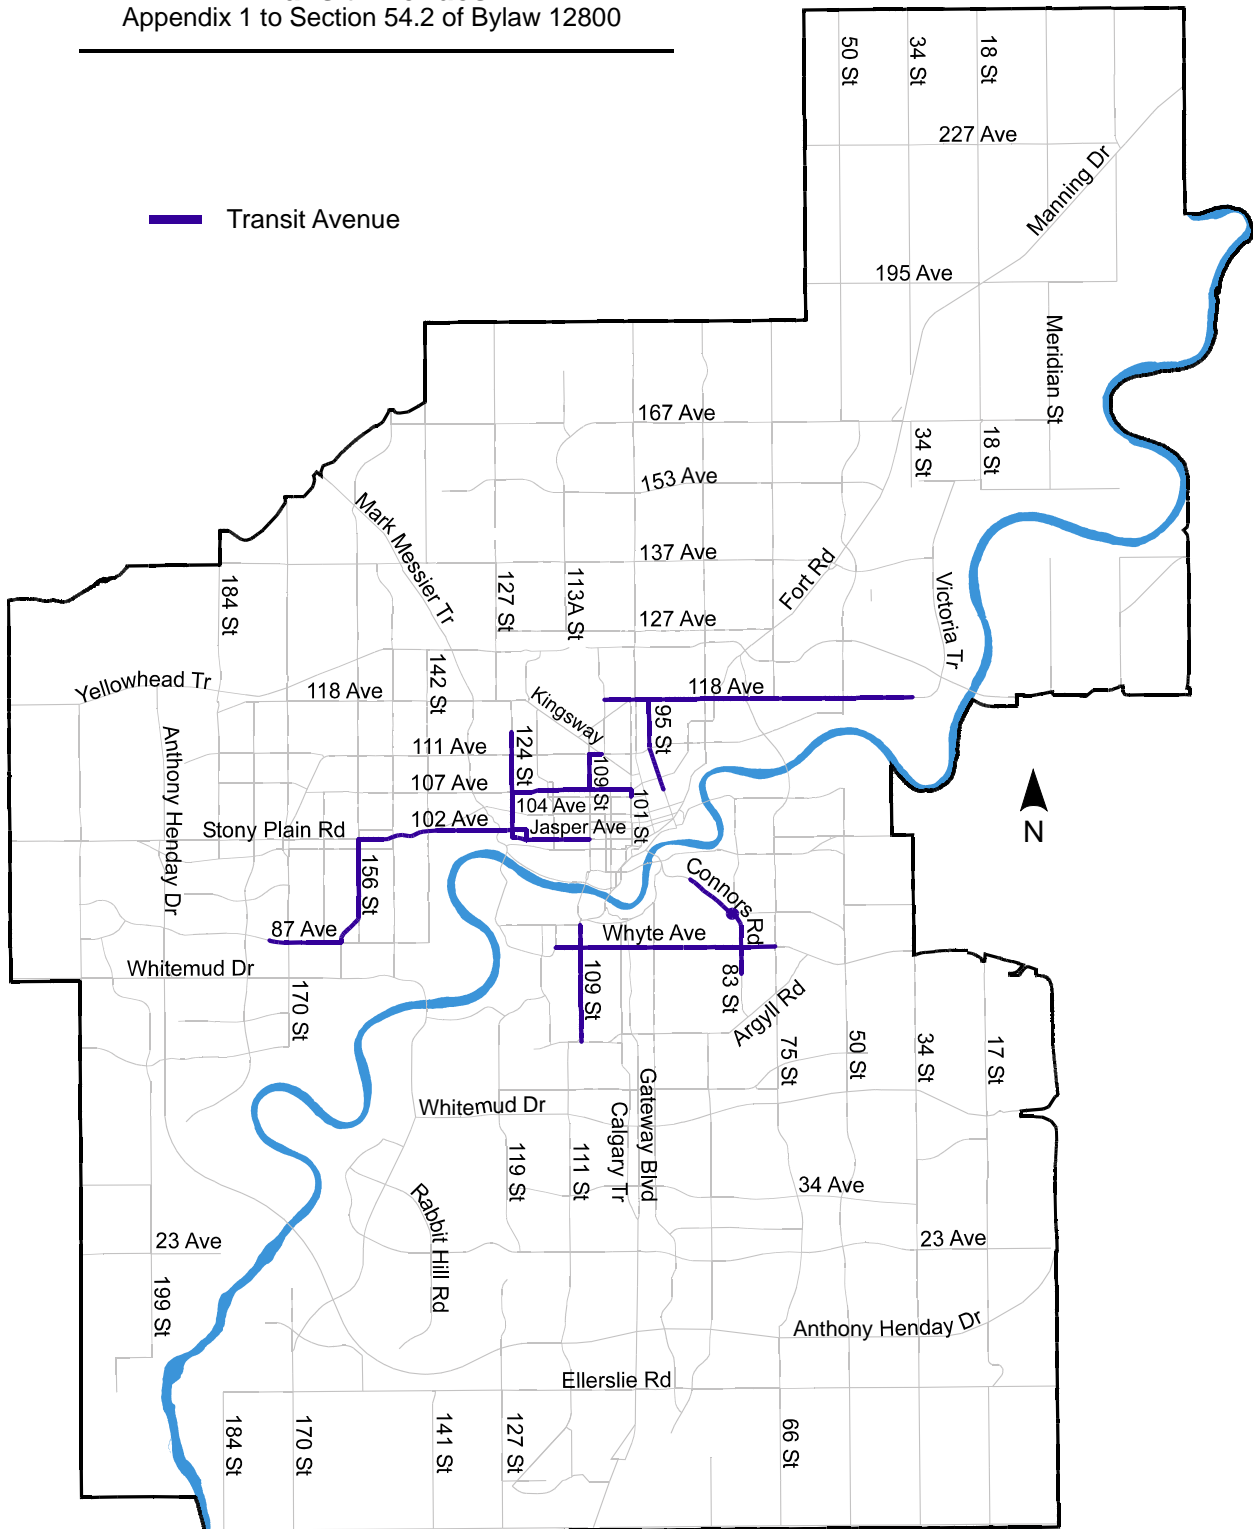

- vii. disabled parking spaces shall:
 - a. be a minimum of 2.4 m in width;
 - b. be a minimum of 5.5 m in length;
 - c. be located adjacent to a 2.4 m wide access aisle where no parking shall be allowed and which shall be marked to indicate no parking is permitted; and
 - d. be located adjoining to or near to a barrier free path of travel leading to a barrier free entrance.
- viii. where parking spaces are located with access directly off a Lane, the required width of the aisle may be reduced by the width of the Lane, but the entire parking space must be provided on the site.

- b. Where an existing school building is to be enlarged to accommodate an increased enrolment of more than 100 students, or of more than 20% of existing student enrolment, whichever is less, the Development Officer shall apply the standards for Passenger Drop-off Spaces, as identified in Schedule 4, to the total school enrolment capacity. Where Site constraints do not feasibly permit the full application of the standards identified in Schedule 4, the Development Officer, may use their variance power to apply a lesser standard, at his discretion.
 - c. Where the calculation of the number of Drop-off Spaces results in a fractional number of spaces, the next highest whole number of Drop-off Spaces shall be required.
 - d. Required on-site parking spaces shall not be used to satisfy the requirements for the provision of Passenger Drop-off Spaces.
 2. Location of Passenger Drop-off Spaces
 - a. Passenger Drop-off Spaces located on-site shall be placed on land other than that used or designated for future use as required on-site parking, and shall be located so as to provide for safe and efficient movement of vehicles.
 - b. Passenger Drop-off Spaces may be located within the roadway plan in accordance with Schedule 4 and subject to the approval of the Transportation and Street Department.

*Bylaw 16032
March 12, 2012
Bylaw 17831
November 28, 2016*

- c. The Development Officer shall consult with Transportation Services and Citizen Services, as well as the applicable School Board, to obtain information relevant to the determination of the number and location of Passenger Drop-off Spaces for school developments.

*Bylaw 17831
November 28, 2016*

- d. Notwithstanding the foregoing, the Development Officer may use their variance power to reduce or eliminate the required number of Passenger Drop-off Spaces for the development of new schools in new subdivisions, in consultation with Transportation Services and Citizen Services, as well as the applicable School Board, where:
 - i. there are demonstrated physical Site constraints for a specific development which shall limit the location and number of on-site Passenger Drop-off Spaces which can be provided; or
 - ii. there are no physical Site constraints, but where all parties are agreed

Edmonton Zoning Bylaw 12800

on alternate solutions to the development of Passenger Drop-off Spaces, and where the Development Officer is satisfied that such alternate solutions are adequate.

- e. The total number of Passenger Drop-off Spaces shall be calculated on the basis of the ultimate Drop-off requirements for all potential future school development on the Site in question, whether contained in a core facility or in attached portable pods.
3. Design of Passenger Drop-off Spaces
 - a. Passenger Drop-off Spaces shall be a minimum of 7.0 m in length and a minimum of 2.6 m in width.
 - b. Passenger Drop-off Spaces shall be oriented parallel to the flow of traffic to accommodate through-movement of vehicles and to eliminate the need for backing or significant turning movements.
 4. Drive-through/Turn Around Route

*Bylaw 16032
March 12, 2012*

When any new school development is proposed, provision must be made, to the satisfaction of Transportation Services, for vehicles that are dropping off or picking up passengers, to safely turn around.

54.5 Schedule 4

Schedule 4 - Passenger Drop-off Spaces for Public and Private Elementary, Junior High School and High Schools

*Bylaw 16032
March 12, 2012*

Use of Building or Site	Total Number of Drop-Off Spaces Required	Number of On-Site Drop-Off Spaces Required
1. Elementary or Junior High School	3 spaces per 100 students, but in no case less than 5 spaces.	1 spaces per 100 students, or 5 spaces, whichever is greater.
2. High School	1.5 spaces per 100 students, but in no case less than 5 spaces.	0.5 spaces per 100 students, or 5 spaces, whichever is greater.
Note: For the purposes of this Schedule, "On-site Drop-off Spaces" means those Drop-off Spaces located on school lands, and "Total Number of Drop-off Spaces" means the total of On-site Drop-off Spaces plus any Drop-off Spaces located on City-owned property within the roadway plan, as approved by Transportation Services.		

54.6 Hardsurfacing and Curbing of Parking and Loading Spaces

1. General Requirements

*Bylaw 17973
April 24, 2017*

- a. Required parking and loading facilities shall provide for, and include, an adequate, safe and convenient arrangement of vehicular points of ingress or egress, driveways, internal roadways, aisles and ramps, loading of motor vehicles all in relation to buildings and entry points to buildings on the Site. Such facilities shall comply with the following design, development and maintenance standards:
 - i. all required parking and loading facilities shall be clearly demarcated,

Edmonton Zoning Bylaw 12800

have adequate storm water drainage and storage facilities, and be Hardsurfaced;

- ii. Notwithstanding Section 54.6(1)(a)(i), parking and loading facilities, and the access thereto, are not required to be Hardsurfaced until the roadway or Lane from which access is provided is Hardsurfaced; and;
- iii. in situations where lighting of off-street parking and loading facilities is to be provided, the lighting shall be arranged, installed and maintained to deflect, shade and focus light away from any adjacent land Uses.

2. Residential Zones

*Bylaw 15634
September 26, 2011
Bylaw 16312
January 21, 2013
Bylaw 17973
April 24, 2017*

- a. Every Driveway, off-street parking or loading space, and access provided or required in any Residential Zone, including the area contained within City-owned land from which access or egress is obtained, shall be Hardsurfaced if access is from a public roadway which is Hardsurfaced or gravelled.
- b. For an on-site Driveway or Parking Area in any Residential Zone, the area required to be Hardsurfaced may be constructed on the basis of separated Hardsurfaced tire tracks.

3. Commercial and Industrial Zones

*Bylaw 16312
January 21, 2013
Bylaw 17973
April 24, 2017*

- a. Every off-street parking or loading space provided or required for any Commercial Use, and the access thereto, including the whole area contained within the City-owned land to which a curb crossing permit applies, shall be Hardsurfaced if the access is from a public roadway which is Hardsurfaced.
- b. Every off-street parking or loading space provided or required for an Industrial Use, and the access thereto, including the whole area contained within the City-owned land to which a curb crossing permit applies, shall be Hardsurfaced if such area lies in front of the principal building. Any area at the rear or the side of the principal building provided or required for off-street parking or loading space need not be Hardsurfaced, but shall be of such a surface that shall minimize the carrying of dirt or foreign matter upon the highway.
- c. Where a Hardsurfaced Parking Area has been provided on a Site to the minimum required, then the type of surface permitted for Parking Areas and Walkways on the balance of the Site shall be of such material approved by the Development Officer, in consultation with Transportation Services. Where a Hardsurfaced Parking Area has been provided on a Site to the minimum required, then the type of surface permitted for Parking Areas and Walkways on the balance of the Site shall be of such material approved by the Development Officer, in consultation with Transportation Services.

Edmonton Zoning Bylaw 12800

- d. In parking areas and similarly congested locations, curbs and other protective measures shall be used to protect adjacent Fences, walls, boulevards, landscaped areas or buildings on the Site or an adjacent Site.
- e. Continuous raised or pre-cast curbing of not less than 100 mm in Height shall be provided adjacent to streets and required landscaped areas, 600 mm from the front of the parking stall. Concrete curb stops shall be placed to ensure that vehicles do not overhang boulevards, sidewalks, or required landscaped areas. Curbing shall also be required to clearly demarcate the required portion of Driveway leading to an internal roadway, aisle, ramp, parking space or loading space.
- f. Where continuing curbs are used as wheel stops, the measured size of parking spaces shall be reduced 1.0 m in length than otherwise required. In such instances, the parking layout should allow for the vehicle to overhang the curb by 1.0 m and such overhang areas must be clear of all obstructions (Signs, shrubs, trees, etc.) and shall not be regarded as a required landscaped area.

54.7 Parking Garages

- 1. Parking Garages shall be developed in accordance with the following:

*Bylaw 16733
July 6, 2015*

- a. in any Commercial Zone, Commercial Uses other than the parking shall be provided at Grade along the street Frontage of Parking Garages when required by the Development Officer to provide continuity of commercial Frontage along the street. In the case of a corner Site the Development Officer shall pay due regard to the nature of the adjacent Uses on the flanking public roadway;

*Bylaw 16032
March 12, 2012*

- b. in any Commercial Zone, a Parking Garage with queuing access shall provide a minimum of 30.0 m for queuing of motor vehicles on-site before any control device is reached. A reduced queuing space may be considered at the discretion of the Development Officer in consultation with Transportation Services;
- c. no dangerous goods, or flammable or combustible liquids, shall be permitted within a Parking Garage, other than as contained within, or permanently installed or connected to the fuel system of a motor vehicle using the Parking Garage;
- d. Parking Garages and interior stairwells shall be designed for visual accessibility. Machine rooms, heating systems, elevators and stairwell shafts, building columns and other major visual obstructions shall be located to enable visual supervision of the parking spaces and stairwells;

*Bylaw 17727
August 22, 2016*

- e. entrapment spots in a Parking Garage shall be eliminated wherever possible. Potential entrapment areas such as storage rooms shall be provided with locking mechanisms. Entrapment areas can be closed with chain link Fence or other types of intrusion resistant material;
- f. clear safety glass panels shall be incorporated in all doors leading to

Edmonton Zoning Bylaw 12800

stairwells, corridors and entrances including elevator lobbies to allow for clear sightlines;

- g. sharp blind corners on stairs or corridors in a Parking Garage shall be eliminated wherever possible. If blind corners cannot be avoided, security mirrors or other devices such as video cameras shall be utilized;
- h. landscaping around the Parking Garage shall be of a type that permits the widest possible view from the street of all pedestrian entry and exit areas; and
- i. directional and information signage consistent in design, colour, symbols and graphics shall be provided to:
 - i. direct patrons to pedestrian exits;
 - ii. direct patrons to vehicular exits;
 - iii. identify areas so that patrons can locate their vehicles;
 - iv. advise patrons to lock their vehicles and remove all valuables;
 - v. direct patrons to the nearest intercom system;
 - vi. advise patrons of the presence of security patrols; and
 - vii. advise patrons of the presence of CCTV security cameras.
2. The Development Officer shall require a Crime Prevention Through Environmental Design (CPTED) assessment prepared by a qualified security consultant for any development which includes a Parking Garage.
3. The Development Officer shall advise the applicant of and strongly encourage compliance with the security management guidelines contained within subsection 3.1 of the Design Guide for a Safer City.

55. Landscaping

55.1 General Purpose

*Bylaw 17672
June 27, 2016*

1. The intent of these Landscaping regulations is to contribute to a reasonable standard of livability and appearance for developments, from the initial placement of the Landscaping through to its mature state, to provide a positive overall image for Edmonton and to encourage good environmental stewardship.

55.2 Landscaping Requirements for Low Density Residential Development

*Bylaw 17672
June 27, 2016*

1. Unless otherwise specified in this Bylaw, or developed as part of a Multi-unit Project Development, all new Single Detached Housing, Semi-detached Housing, Duplex Housing, Row Housing and Stacked Row Housing, shall be Landscaped in accordance with the following:
 - a. Landscaping shall be provided on a Site within 18 months of the

Edmonton Zoning Bylaw 12800

- occupancy of a development or commencement of a Use;
- b. Landscaping shall be maintained on a Site for a minimum of 42 months after the occupancy of a development or commencement of a Use;
- c. all applications for a Development Permit listed in subsection 55.2(1) shall include a Site plan that identifies:
 - i. the number, type and approximate size of existing trees and shrubs;
 - ii. trees and shrubs proposed for preservation;
 - iii. the number, type and approximate size of proposed trees and shrubs; and
 - iv. proposed ground cover;
- d. trees and shrubs shall be provided in accordance with Table 55.2(1)(d), as follows:

Measure	Table 55.2(1)(d) Tree and Shrub Planting Requirements		
	Single Detached Housing	Semi-Detached Housing and Duplex Housing (per Dwelling)	Row Housing and Stacked Row Housing (per Dwelling)
Less than 10.0 m	One deciduous tree, one coniferous tree and four shrubs	One deciduous tree, one coniferous tree and four shrubs	One deciduous tree, one coniferous tree and four shrubs
10.0 m – 13.0 m	Two deciduous trees, one coniferous tree and six shrubs		
Greater than 13.0 m	Two deciduous trees, two coniferous trees and eight shrubs	One deciduous tree, one coniferous tree and six shrubs	

- e. new trees and shrubs shall be provided on the following basis:
 - i. deciduous trees shall be a minimum 50 mm Caliper;
 - ii. coniferous trees shall be a minimum of 2.5 m in Height;
 - iii. deciduous shrubs shall be a minimum of 300 mm in Height; and
 - iv. coniferous shrubs shall have a minimum spread of 450 mm;
- f. trees and shrubs required in Table 55.2(1)(d) may be provided either through the planting of new trees and shrubs, or the preservation of existing trees and shrubs in accordance with Section 55.6;
- g. all Yards visible from a public roadway, other than a Lane, shall be seeded or sodded;
- h. at the discretion of the Development Officer, seeding or sodding may be substituted with alternate forms of ground cover, including hard decorative pavers, washed rock, shale or similar treatments, perennials,

Edmonton Zoning Bylaw 12800

or artificial turf, provided that all areas of exposed earth are designed as either flower beds or cultivated gardens; and

*Bylaw 17832
November 28, 2016*

- i. notwithstanding Section 11.2, a Development Officer may vary the proportion of deciduous to coniferous trees required in Table 55.2(1)(d), in which case the application shall not be a Class B Development.

*Bylaw 17831
November 28, 2016*

55.3 General Planting Requirements

1. Unless otherwise specified in this Bylaw, Landscaping shall be provided in accordance with the following:
 - a. for new Multi-unit Project Development consisting of Single Detached Housing, Semi-detached Housing, Duplex Housing, Row Housing, Stacked Row Housing and Apartment Housing or for new Mobile Homes when developed as part of a Mobile Home Park, the number of trees and shrubs shall be determined on the basis of the following:
 - i. one tree for each 35 m² and one shrub for each 15 m² of Setback;
 - ii. one tree for each 20 m² and one shrub for each 10 m² of parking area islands, as determined by subsection 54.2(3); and
 - iii. in no case shall there be less than one tree per parking area island;

*Bylaw 17831
November 28, 2016*

- b. for new development consisting of Residential-Related Uses, Commercial Uses, Industrial Uses, Basic Services Uses, and Community, Educational, Recreational and Cultural Service Uses, the number of trees and shrubs provided shall be determined on the basis of the following:
 - i. one tree for each 25 m² and one shrub for each 15 m² of Setback;
 - ii. one tree for each 20 m² and one shrub for each 10 m² of parking area islands, as determined by subsection 54.2(3); and
 - iii. in no case shall there be less than one tree per parking area island;
- c. new trees and shrubs shall be provided on the following basis:
 - i. the proportion of deciduous to coniferous trees and shrubs shall be approximately 50:50;
 - ii. approximately 50% of required deciduous trees shall be minimum of 50 mm Caliper and approximately 50% shall be a minimum 70 mm Caliper;
 - iii. approximately 75% of required coniferous trees shall be a minimum of 2.5 m in Height and approximately 25% shall be a minimum of 3.5 m in Height; and
 - iv. minimum shrub size shall be 300 mm in Height for deciduous and a spread of 450 mm for coniferous;

*Bylaw 17831
November 28, 2016*

- d. Notwithstanding Section 11.3, the Development Officer may vary

Edmonton Zoning Bylaw 12800

subsection 55.3(1)(b) and subsection 55.3(1)(c) for a Public Park Use, in consultation with Parks and Biodiversity, in which case the application shall not be a Class B Discretionary Development.

- e. all open space including Front Yards, Rear Yards, Side Yards and Yards, at Grade Amenity Areas, Private Outdoor Amenity Areas, Setback areas and Separation Spaces shall be landscaped with flower beds, grass, ground cover or suitable decorative hardscaping in addition to trees and shrubs. This requirement shall not apply to those areas designated for parking or vehicular circulation.

*Bylaw 17672
June 27, 2016*

55.4 Landscape Plan and Content

- 1. Every application for a development listed in Section 55.3 shall include a Landscape Plan, drawn at a scale of 1:300 or larger, which clearly indicates and accurately identifies the following:
 - a. a key plan with a north arrow;
 - b. the property lines and dimensions of the Site;
 - c. the approximate or estimated location of Uses, building perimeters, and Landscaping on adjacent Sites;
 - d. adjacent public area features, such as streets, Lanes, driveways, vehicular entrances, street furniture and boulevard trees;
 - e. overhead, surface and underground utilities, and limits of easements;
 - f. outlines of all Site structures to include the building footprints at Grade, location and type of underground structures and overhangs within the first two Storeys;

*Bylaw 17727
August 22, 2016
Bylaw 17973
April 24, 2017*

- g. building entrances, porches, decks, steps, Walkways, other Hardsurfacing or hardscaping features, parking areas, curbs, lighting, Fencing, walls, screens, recreational facilities and garbage collection areas. Materials, colours and patterns shall be indicated,
- h. existing grading and final Site grading, including the direction of Site drainage, and berming shown on a grading plan in 0.5 m contours; and the geodetic elevations of proposed catch basin rim, the corners of the Lot(s), the top and bottom of retaining walls, and of the plant material to be retained;

*Bylaw 17727
August 22, 2016*

- i. the Height and materials of all Fencing, screens and walls;
- j. trees and shrubs proposed for preservation;
- k. existing trees and shrubs labelled by common name, botanical name, size, and condition of health;
- l. graphical illustration of the canopy and spread of existing and proposed trees and shrubs;

Edmonton Zoning Bylaw 12800

- m. proposed trees, shrubs, perennials and ground covers labelled by common name, cross-referenced with a plant list identifying botanical name, quantity, size and method of planting; and
 - n. the method of providing water to the proposed Landscaping.
2. The Development Officer may consider an application for a Development Permit that does not provide all the information required by subsection 55.4(1) if, in the opinion of the Development Officer, the information provided is sufficient to show that the Landscaping provisions of the Bylaw shall be met.
 3. The Development Officer shall approve the Landscape Plan as a condition of the Development Permit. Any changes to an approved Landscape Plan require the approval of the Development Officer prior to the Landscaping being installed.

*Bylaw 17672
June 27, 2016*

55.5 General Requirements

*Bylaw 17831
November 28, 2016*

1. Notwithstanding Sections 55.2 and 55.3 referring to new development, the provision of Landscaping, in accordance with this Bylaw, shall also be a condition of the issuance of a Development Permit related to an existing development if the existing development, as a consequence of the work that is the subject of the Development Permit, is substantially enlarged or increased in capacity. This Section shall not apply to developments that consist solely of interior alterations or improvements, or change of Use that does not alter the building shell.
2. The Development Officer may require Landscaping of areas within a Site that are intended for future development if, in the opinion of the Development Officer, the lack of Landscaping creates a potential negative visual impact, given the visibility of these areas from adjacent properties and public roadways.

*Bylaw 17973
April 24, 2017*

3. Hardsurfaced areas such as Walkways and plazas shall be enhanced with Landscaping, at the discretion of the Development Officer.

*Bylaw 17973
April 24, 2017*

4. Provision shall be made for adequate on-site pedestrian circulation. Adequate on-Site pedestrian circulation means Hardsurfaced sidewalks or Walkways connecting the main entrance of all on-Site principal buildings to public sidewalks and Walkways adjacent to roadways or within rights-of-ways Abutting the Site.
5. Any parking lot having eight or more parking spaces that is visible from an Abutting Site in a Residential or Commercial Zone, or from a public roadway other than a Lane, or from a LRT line, shall have perimeter planting. The location, length, thickness and Height of such perimeter planting at maturity shall, in conjunction with a change in Grade or other natural or man-made features, be sufficient to provide substantial interruption of the view of the

Edmonton Zoning Bylaw 12800

parking lot.

*Bylaw 17727
August 22, 2016*

6. Any trash collection area, open storage area, or outdoor service area, including any loading, unloading or vehicular service area that is visible from an Abutting Site in a Residential or Commercial Zone, or from a public roadway other than a Lane, or from a LRT line, shall have screen planting a minimum of 1.85 m in Height. The location, length, thickness and Height of such screen planting at maturity shall, in conjunction with a change in Grade or other natural or man-made features, be sufficient to block the view from any Abutting Residential or Commercial Zone, or from the public roadway or a LRT line. If, in the opinion of the Development Officer, screen planting cannot reasonably be expected to survive, earth berming, masonry walls, wood Fencing or other man-made features may be permitted as a substitution.

*Bylaw 17727
August 22, 2016*

7. If the Height of materials in an outdoor storage area would limit the effectiveness of screen planting required by subsection 55.5(6), a Fence, wall, earth berm, or a combination thereof, may be substituted, subject to the approval of the Development Officer.
8. All planting shall be installed at finished Grade. Where this is not practical in the opinion of the Development Officer, planters may be used. Such planters shall be of adequate design, having sufficient soil capacity and insulation to promote healthy growth.
9. Landscaping that extends onto or over City-owned lands shall be developed in accordance with the Traffic Bylaw 5590 and the City Design & Construction Standards.
10. All plant materials shall be hardy to the Edmonton area and to the Site conditions.
11. All plant materials shall meet the horticultural standards of the most current edition of the "Canadian Standard for Nursery Stock", produced by the Canadian Nursery Landscape Association.
12. The Development Officer may, where the Development Officer considers it appropriate, vary any or all of the Landscaping regulations of this Bylaw. Before granting a variance to the Landscaping standards of this Bylaw, the Development Officer may require the applicant to submit a report from a qualified landscape professional, such as a horticulturist, or landscape architect, explaining and justifying the variance.

*Bylaw 17672
June 27, 2016*

55.6 Incentives for Preserving Existing Trees and Shrubs

1. Existing vegetation should be preserved and protected unless removal is demonstrated to be necessary or desirable to efficiently accommodate the proposed development.
2. The requirement to provide trees and shrubs may be satisfied either through planting new or preserving existing trees and shrubs.
3. At the discretion of the Development Officer, an existing tree may satisfy the

Edmonton Zoning Bylaw 12800

requirement to provide one tree where:

- a. an existing deciduous tree with a minimum Caliper of 100 mm; or
 - b. an existing coniferous tree with a minimum Height of 4.0 m is preserved.
4. At the discretion of the Development Officer, an existing tree may satisfy the requirement to provide two trees where:
- a. an existing deciduous tree has a minimum Caliper of 200 mm; or
 - b. an existing coniferous tree has a minimum Height of 7.0 m is preserved.
5. Preserved shrubs may, at the discretion of the Development Officer, be credited towards the Landscaping requirements.

*Bylaw 17672
June 27, 2016*

55.7 Additional Landscaping Regulations for Specific Land Uses

1. The Development Officer may require Landscaping in addition to that specified in Section 55 if:
 - a. there is a likelihood that the proposed development will generate undesirable impacts on surrounding Sites and between Uses within the development, such as poor appearance, excessive noise, light, odours, traffic, litter or dust;
 - b. such additional Landscaping is warranted due to combinations of Uses including, but not limited to the following:
 - i. Row Housing or Stacked Row Housing development, where the Private Outdoor Amenity Area for the Row Housing or Stacked Row Housing faces Single Detached Housing or a Site zoned to allow Single Detached Housing as a Permitted Use, public roadways other than a Lane, or a LRT line;
 - ii. Low Rise Apartments, where developed on an infill basis, Abutting existing Single Detached Housing or a Site zoned to allow Single Detached Housing as a Permitted Use;
 - iii. Religious Assembly where developed on a Site Abutting an existing Residential Use or a Site zoned to allow Single Detached Housing as a Permitted Use;
 - iv. any Non-accessory Parking; or
 - v. Vehicle-Oriented Uses where developed on a Site adjacent to an existing Residential Use, or a Site zoned to allow Single Detached Housing as a Permitted Use.
2. Additional Landscaping required by the Development Officer may include, but is not limited to, the following:
 - a. additional Separation Space between incompatible Use Classes;

*Bylaw 17727
August 22, 2016*

- b. the use of trees, shrubs, Fences, walls and berms to buffer or screen Use Classes that generate negative impacts; and
- c. the use of trees, shrubs, planting beds, street furniture and surface treatments to enhance the appearance of a proposed development.

Edmonton Zoning Bylaw 12800

3. The Development Officer may consult with a qualified landscape professional, such as a horticulturist or landscape architect, in determining if additional Landscaping requirements are to be imposed, and the type of additional Landscaping required.

Bylaw 17422

November 16, 2015

Effective Date: December 1, 2015

55.8 Guaranteed Landscape Security

1. The Development Officer may require, as a condition of Development Permit approval, a guaranteed Landscaping security, from the property owner, to ensure that Landscaping is provided and maintained for two growing seasons. Only the following forms of security are acceptable:
 - a. cheque to a value equal to 100% of the landscaping cost; or
 - b. an irrevocable letter of credit in the amount of 100% of the Landscaping cost.
2. The estimated cost of the Landscaping shall be calculated by the owner or the owner's representative and shall be based on the information provided on the Landscape Plan. If, in the opinion of the Development Officer, these estimated costs are inadequate, the Development Officer may establish a higher Landscaping cost figure for the purposes of determining the value of the Landscaping security.
3. If the Landscaping security is offered in the form of a cheque it shall be cashed and held, by the City, without interest payable, until, by confirmation through inspection by the Development Officer, the Landscaping has been installed and successfully maintained for two growing seasons. Partial refund after installation of the Landscaping or after one growing season shall be considered upon request of the owner, at the sole discretion of the Development Officer.
4. If a letter of credit is offered as the Landscaping security, it shall be in a form satisfactory to the Development Officer. The initial term of the letter of credit shall be one year. The letter of credit shall be renewed by the owner 30 days prior to expiry and delivered to the Development Officer until such time as the Landscaping has been installed and maintained for two growing seasons.
5. Upon application by the owner or the owner's representative, a letter of credit may be amended to a reduced amount, for attachment to the original letter of credit, at the discretion of the Development Officer, when any of the following events occur:
 - a. the required Landscaping has been properly installed; and
 - b. the required Landscaping has been well maintained and is in a healthy condition after one growing season.
6. Upon application by the owner or the owner's representative, a letter of credit shall be fully released if the required Landscaping has been well maintained and is in a healthy condition after two growing seasons.
7. Any letter of credit shall allow for partial draws by the City if the Landscaping is not completed in accordance with the approved Landscape Plan(s) within one growing season after completion of the development; or the Landscaping is not well maintained and in a healthy condition two growing seasons after completion of the Landscaping. The City may draw on a cashed security or a

Edmonton Zoning Bylaw 12800

letter of credit and the amount thereof shall be paid to the City for its use absolutely. All expenses incurred by the City, to renew or draw upon any letter of credit, shall be reimbursed by the owner to the City by payment of invoice or from the proceeds of the letter of credit.

8. In the event the owner does not complete the required Landscaping, or fails to maintain the Landscaping in a healthy condition for the specified periods of time, and the value of the cashed cheque or the proceeds from the letter of credit are insufficient for the City to complete the required work should it elect to do so, then the owner shall pay the deficiency to the City immediately upon being invoiced. The City shall provide an accounting to the owner indicating how the proceeds of the letter of credit were applied, within 60 days of completing or maintaining the landscaping.

55.9 Inspections

Upon receipt of a written request from the parties involved in the development, including but not limited to the property owner, condominium association or the issuer of the Letter of Credit, an inspection of the finished Landscaping shall be completed by the Development Officer. Inspections shall be made during the normal growing season, between May 01 and September 30. All reasonable effort shall be made by the Development Officer to perform the inspection within 20 working days of receipt of the inspection request.

*Bylaw 17973
April 24, 2017*

55.10 Impermeable Material in Low Density Residential Development

1. Except where developed as part of a Multi-unit Project Development, for Single Detached Housing, Semi-detached Housing and Row Housing, the area covered by Impermeable Material shall not exceed 70 percent of the total Lot area.
2. Notwithstanding subsection 55.3(1), for Row Housing where vehicular access is not provided from a Lane, the area covered by Impermeable Material shall not exceed 75 percent of the total Lot area.
3. Notwithstanding the definition of Impermeable Material, the area of building coverage developed with a Green Roof shall not be included in the calculation of Impermeable Material.

56. Excavation, Stripping and Grading

*Bylaw 17422
November 16, 2015
Effective Date: December 1, 2015*

1. For the purpose of this Section, excavation shall mean excavation other than for construction or building purposes, including but not limited to, sand and gravel mining, top soil stripping, and construction of artificial bodies of water.

*Bylaw 17831
November 28, 2016*

2. A person wishing to undertake Site excavation, stripping, or grading of land shall provide the following details in the application for a Development Permit:
 - a. the location and area of the Site on which the excavation, stripping or grading is to take place;

Edmonton Zoning Bylaw 12800

- b. the existing land Use and vegetation;
- c. the type and dimensions of the excavation to be made, and the effect on existing drainage patterns; and
- d. the condition in which the excavation is to be left when the operations are complete, or the final disposition to be made of the area from which the topsoil is to be removed, including the action that is to be taken for restoring the condition of the surface of the land to be affected, for preventing, controlling or lessening the creation of erosion or dust from the land, and for preventing any siltation or erosion into any surrounding water courses.

*Bylaw 17831
November 28, 2016*

3. The Development Officer shall consider every application for a Permit to excavate land, and shall not issue a Permit unless they are satisfied that:
 - a. the operation shall be carried out so as to create a minimum of dust and environmental disturbance;
 - b. the operation is one that, in the opinion of the Development Officer, is reasonably necessary for the Use and development of the land in question, considering the need for preservation of prime agricultural land, the need for natural preservation, and the future need for soil on the site;
 - c. the operation shall not destroy, disturb, or alter any historical resource designated in accordance with the Alberta Historical Resources Act; and
 - d. the operation shall not sterilize the Site for future development.
4. The Development Officer may require, as a condition of issuing a permit to excavate land, that the applicant take the precautions and follow the methods prescribed by the Development Officer for the prevention or control of dust or any other nuisance caused by the proposed operation, and for the reclamation of the Site if required.

*Bylaw 16032
March 12, 2012*

5. A person who reclaims a Site must obtain a letter of completion from Transportation Services.

57. General Performance Standards

*Bylaw 14127
January 11, 2006*

57.1 General Performance Standards for Industrial Developments

Any development or Site used for any Permitted or Discretionary Use in the IB, IL, IM or IH Zones shall comply with the performance standards of this Section.

Bylaw 17643

May 25, 2016

1. Any Use or activity in the IB or IL Zones shall comply with the following standards:
 - a. all Uses and activities, except those noted in clauses (b) and (c) below, shall be located and carried on within an enclosed building and there shall

Edmonton Zoning Bylaw 12800

be no outdoor display areas, except for Automotive and Minor Recreational Vehicle Sales/Rentals and Convenience Vehicle Rentals;

*Bylaw 17727
August 22, 2016*

- b. all loading, service, trash collection and Accessory storage areas, and trucking yards shall be located to the rear or sides of the principal building, and shall be screened from view from any public roadway other than a Lane, and from adjacent Sites, by building walls, landscape materials, berms, Fences or a combination of these;
- c. the Development Officer may require that exposed projections outside the building such as mechanical and electrical equipment, transformer ducts, cooling towers and materials handling equipment be screened from view from any public roadway other than a Lane, and from adjacent Sites if such projections are inconsistent with the character and appearance of surrounding development or the intended visual qualities of this Zone; and
- d. all buildings shall be constructed and finished with durable materials designed to maintain the initial appearance of the development throughout the life of the project. The Development Officer may require that the appearance of metal, or concrete block walls exposed to public view from beyond the Site be improved where such walls are inconsistent with the finishing materials or appearance characteristic of surrounding development.

*Bylaw 17643
May 25, 2016*

- e. for Child Care Services uses, the applicant shall provide a Site plan that mitigates the risk of interference between pedestrian and vehicular traffic, to the satisfaction of the Development Officer.

*Bylaw 17422
November 16, 2015
Effective Date: December 1, 2015*

- 2. Any Use or activity in the IM or IH Zones shall comply with the following appearance standards:
 - a. all outdoor service, assembly, trash collection and storage areas including the trucking yards associated with such activities shall be located to the rear or sides of the principal building;
 - b. loading and trash collection facilities serving office, warehouse and similar developments, where the handling or assembly of goods is carried on within a building, shall be allowed to the rear, sides or front of the principal building;
 - c. all outdoor service, assembly, trash collection and storage areas including the trucking yards associated with such activities shall be screened from view from any public roadway other than a Lane, and from adjacent Sites, unless the public roadway is a local road serving only Sites in an IM or IH Zone, or the adjacent Site is Zoned IM or IH;
 - d. notwithstanding the above, trash collection areas located to the front of the principal building shall be screened from view from any public roadway, including a Lane, and from any adjacent Site; and
 - e. outside display areas are allowed to be located to the side or front of the

Edmonton Zoning Bylaw 12800

principal building, provided that such displays are limited to examples of equipment or material related to the industry or business located on the Site.

57.2. General Performance Standards for Non-industrial Developments

1. In all non-industrial developments, the design and use of exterior finishing materials shall be to the satisfaction of the Development Officer who shall ensure, as far as reasonably practicable, that materials shall be used that ensure that the standard of the proposed buildings and structures shall be similar to, or better than, the standard of surrounding development.

58. General Performance Standards for a Safe Physical Environment

The Development Officer shall encourage the inclusion of design elements that readily allow for casual surveillance, particularly for commercial, industrial, multi-unit residential Uses and parkade structures. These elements may include, but are not limited to, large window areas, high quality interior and exterior lighting, physical layout that reduces the vulnerability of pedestrians (avoiding long public corridor spaces, stairwells, or other movement predictors), the placement and use of Landscaping that limits areas of concealment, and the location of parking areas close to building access points. The Development Officer shall require a Crime Prevention Through Environmental Design assessment prepared by a qualified security consultant for multi-unit residential/commercial/institutional/industrial developments that, in the opinion of the Development Officer, requires such an assessment. The Development Officer shall advise applicants of the approved crime prevention design guidelines contained in the Design Guide for a Safer City, such as the layout and design of buildings and associated parking and loading areas, yards and landscaped areas, to promote a safe, well-lit physical environment. In addition, the Development Officer shall apply the requirements of subsection 54(7) to Parking Garages.

59. Sign Regulations

59.1 Applicability

Any person applying to erect any Sign, or to change or relocate any existing Sign shall comply with the provisions of this Section and the applicable Sign Schedule, unless exemption from the regulations of this Section has been granted elsewhere in this Bylaw.

59.2 General Provisions

*Bylaw 15892
October 11, 2011*

1. No Sign shall be erected, operated, used or maintained that:
 - a. due to its position, shape, colour, format or illumination obstructs the view of, or shall be confused with, an official traffic Sign, signal or device, as determined by the Development Officer in consultation with the Transportation Services;
 - b. displays lights resembling the flashing lights usually associated with danger or those used by police, fire, ambulance and other emergency vehicles; and
 - c. uses spot or reflector lights directed at on-coming traffic or displays travelling or flashing messages that create a hazard to traffic on a public

Edmonton Zoning Bylaw 12800

roadway from which the Sign is visible.

2. Major Digital Signs, Minor Digital On-premises Signs, Minor Digital Off-premises Signs, and Minor Digital On-premises Off-premises Signs shall be located such that the Sign does not obscure a driver decision point. The Development Officer and Transportation Services shall be satisfied that each Copy Area:
 - a. does not physically obstruct the sightlines or view of a traffic control device or traffic control signal for oncoming vehicle traffic;
 - b. is not located in the field of view near or past the traffic control device or traffic control signal in the sightlines of oncoming vehicle traffic;
 - c. is not located in the field of view near or past other traffic conflict points such as intersections, merge points, exit ramps, or curved roadways; and
 - d. illumination does not compete with or dull the contrast of the traffic control device or traffic control signal for oncoming vehicle traffic.

*Bylaw 17831
November 28, 2016*

3. Major Digital Signs, Minor Digital On-premises Signs, Minor Digital Off-premises Signs, and Minor Digital On-premises Off-premises Signs shall be located or constructed such that Sign illumination shall not project onto any surrounding residential premises, shall not face an abutting or adjacent Residential Use, shall not face an abutting or adjacent Residential-Related Use, and shall not face the Extended Medical Treatment Services Use to the satisfaction of the Development Officer.
4. The intensity of exposed bulbs on a Sign, excluding Digital Signs, shall not exceed 1100 lumens.
5. Major Digital Signs, Minor Digital On-premises Signs, Minor Digital Off-premises Signs, and Minor Digital On-premises Off-premises Signs shall use automatic light level controls to adjust light levels at night, under cloudy and other darkened conditions to reduce light pollution, in accordance with the following:
 - a. ambient light monitors shall automatically adjust the brightness level of the Copy Area based on ambient light conditions. Brightness levels shall not exceed 0.3 footcandles above ambient light conditions when measured from the Sign face at its maximum brightness, between sunset and sunrise, at those times determined by the Sunrise / Sunset calculator from the National Research Council of Canada;
 - b. Brightness level of the Sign shall not exceed 400 nits when measured from the sign face at its maximum brightness, between sunset and sunrise, at those times determined by the Sunrise/Sunset calculator from the national research Council of Canada; and
 - c. Signs abutting or adjacent to Natural Areas or Public Parks shall be de-energized daily between 12:00 AM – 5:00 AM.

*Bylaw 16313
January 21, 2013*

6. For all Sign Applications, the Development Officer shall have regard for the scale and architectural character of the building and the land use characteristics of surrounding development. The Development Officer shall

Edmonton Zoning Bylaw 12800

refuse any Sign Application that may adversely impact the amenities or character of the Zone.

7. For all Sign Applications for Major Digital Sign, Minor Digital On-premises Signs, Minor Digital Off-premises Signs, and Minor Digital On-premises Off-premises Signs, the Development Officer shall review the application in context with the surrounding development, such as (but not limited to): the architectural theme of the area; any historic designations; the requirements of any Statutory Plan; any streetscape improvements; proximity to residential development; driver decision points; and traffic conflict points. The Development Officer may require application revisions to mitigate the impact of a proposed Sign, and may refuse a permit that adversely impacts the built environment.

Bylaw 16313

January 21, 2013

Bylaw 17831

November 28, 2016

8. All Temporary Signs shall have a Development Permit approval tag issued by the City of Edmonton.
9. The Development Officer shall not approve an application for an On-premises Sign for a business that does not have a valid development approval to operate from the Site.
10. An approved Sign is not an approval for development on the Site.
11. The Development Officer may attach conditions to any Sign permit to ensure compliance to the regulations and to mitigate any effect that a Sign may have on surrounding properties. Conditions may include the duration that a permit is valid, the landscaping associated with a Sign, the maximum size of a Sign, the appearance of a Sign, the lighting of a Sign, and require applicants to at any time mitigate safety concerns identified by Transportation Services near traffic conflict points in accordance with 59.2(2).

Bylaw 16313

January 21, 2013

12. All Freestanding Signs, Temporary Signs, Major Digital Signs, Minor Digital On-premises Signs, Minor Digital Off-premises Signs, and Minor Digital On-premises Off-premises Signs shall be located so that all portions of the Sign and its support structure are completely located within the property and no part of the Sign may project beyond the property lines unless otherwise specified in a Sign Schedule.
13. Unless otherwise stated on an application, all Signs are permanent.
14. Photovoltaic cells, solar panels, or solar collectors and ancillary equipment may be part of the Sign structure in order to provide electrical power solely to the Copy Area. Photovoltaic cells, solar panels, or solar collectors and ancillary equipment may extend above the maximum Sign Height to the satisfaction of the Development Officer. It must be demonstrated that the additional Height is required to achieve sufficient solar exposure to provide electrical power to the Sign.

Bylaw 16032

March 12, 2012

15. Major Digital Signs, Minor Digital On-premises Signs, Minor Digital Off-premises Signs, and Minor Digital On-premises Off-premises Signs shall not be

Edmonton Zoning Bylaw 12800

Roof Signs, Projecting Signs or Temporary Signs.

*Bylaw 16313
January 21, 2013*

16. The maximum duration of display for each Temporary On-premises Sign shall be 365 days, unless otherwise specified in the Sign Schedule. Temporary On-premises Signs shall be removed on or before the date that the Development Permit expires.

*Bylaw 16313
January 21, 2013*

17. The maximum duration of display for each Temporary Off-premises Sign shall be 30 days, unless otherwise specified in the Sign Schedule. Temporary Off-premises Signs shall be removed on or before the date that the Development Permit expires.

59.3 Comprehensive Sign Design Plan

1. An applicant may submit a Comprehensive Sign Design Plan for Sign development that shall comply with the regulations of the applicable Sign Schedule. A Comprehensive Sign Design Plan is subject to the provisions of this subsection and subsection 13.4. A Comprehensive Sign Design Plan may be applied for in any Zone.
2. Comprehensive Sign Design Plans shall be consistent with the overall intent of this Bylaw and the provisions of the applicable Sign Schedule with respect to the type of allowable Signs listed in the land use Zones and the maximum Sign Area regulations.

*Bylaw 17831
November 28, 2016*

3. The Development Officer shall assess the merits of the Comprehensive Sign Design Plan and may use their variance power to grant exceptions to the Sign Schedule to permit the Comprehensive Sign Design Plan if the Plan complies with the following requirements:
 - a. the Comprehensive Sign Design Plan is consistent with the Sign development intended in the Sign Schedule which applies to the Zone in that it is proposed; and
 - b. the Comprehensive Sign Design Plan results in a greater degree of visual harmony between the proposed Sign and the building or Site than would be possible through the provisions of the applicable Sign Schedule having regard for the factors listed in clause (a) above.

- e. Side Setbacks shall be established on the following basis:
Notwithstanding Section 50.3.4(b), a Garage or Accessory building or structure may be located not less than 0.6 m from the Side Lot Line, where the vehicle doors of the Garage face a Lane Abutting the Site.
9. On-Site parking shall be located in accordance with Section 50 of this Bylaw. On-Site parking shall be provided by means of one of the following options:
 - a. on-Site parking may be provided within a Garage. A mutual Garage may be constructed on the common property line to the satisfaction of the Development Officer;
 - b. on-Site parking may be provided by means of a Garage pad. A Garage pad shall not be constructed over a common property line; or
 - c. on-Site parking may be provided by means of a Parking Area, the dimensions of which shall conform to the off-street parking space requirements of subsection 54.2(4) of this Bylaw. The Parking Area shall include an underground electrical power connection with outlet on a post approximately 1.0 m in Height, located within 1.0 m of the Parking Area.

*Bylaw 17973
April 24, 2017*

A hard surface Walkway is required between the Garage, Garage pad, or Parking Area and an entry to the Dwelling.

10. General Site Landscaping shall be developed in accordance with the following:
 - a. one deciduous tree or one coniferous tree, and two shrubs shall be required in the Front Yard for each Dwelling, except where the Front Setback is 4.5 m or less, and a landscaped boulevard is provided in accordance with subsection 150.4(6)(b)(i) of this Bylaw, the tree may be placed within the Rear or Side Yard, rather than the Front Yard;
 - b. all applications for a Development Permit shall include a Site plan that identifies the location, species and size of Landscaping required in subsection 150.4(10)(a) of this Bylaw; and

*Bylaw 17672
June 27, 2016*

- c. all required Landscaping shall be consistent with the relevant requirements of subsection 55 of this Bylaw.
11. Separation Space shall be provided in accordance with Section 48 of this Bylaw, except that it shall not be required:
 - a. between a Garage Suite or a Garden Suite and the associated principal Dwelling on the same Site; or
 - b. where side walls of abutting buildings face each other and habitable windows are not located directly opposite each other, such that privacy

Edmonton Zoning Bylaw 12800

is not impacted and:

- i. in the case of Dwellings on separate Sites, each development complies with the minimum Side Setback requirements for each Dwelling; and
 - ii. in the case of Dwellings on the same Site, the separation distance between Dwellings is at least equal to the total of the minimum Side Setback requirements for both Dwellings.
12. Private Outdoor Amenity Area shall be provided on Site in accordance with Section 47 of this Bylaw.
13. The maximum number of Dwellings per Site shall be as follows:
 - a. where Semi-detached Housing and Duplex Housing are allowed in this Zone, a maximum of two Dwellings per Site shall be allowed; and
 - b. where Single Detached Housing is developed in this Zone, a maximum of one Dwelling per Site, and, where the provisions of this Bylaw are met, up to one Secondary Suite, Garage Suite or Garden Suite shall be allowed.
14. Notwithstanding subsection 150.4(13) of this Bylaw, for Multi-unit Project Development on Sites 750 m² or greater, the maximum number of Dwellings shall be 34 Dwellings/hectare.
15. Each Dwelling within Semi-detached Housing shall be individually defined through a combination of architectural features that may include variations in the rooflines, projection or recession of the façade, porches or entrance features, building materials, or other treatments.
16. On Corner Sites the façades of a principal building abutting the Front Lot Line and flanking Side Lot Line shall use consistent building materials and architectural features, and shall include features such as windows, doors, or porches.
17. Each Dwelling that has direct access to Grade shall have an entrance door or entrance feature facing a public roadway, other than a Lane. On Corner Sites, the entrance door or entrance feature may face either the Front Lot Line or the flanking Side Lot Line.
18. Secondary Suites shall comply with Section 86 of this Bylaw.
19. Notwithstanding the other regulations of this Zone, where a Multi-unit Project Development abuts a Site zoned to allow Single Detached Housing as a Permitted Use or the RF5 Row Housing Zone, the following regulations shall apply along the said property line:
 - a. a minimum Setback of 7.5 m shall be required. The Development Officer may reduce this Setback to a minimum of 3.0 m only where the proposed façade is a flanking wall and where an acceptable landscaped buffer is provided;
 - b. no outdoor parking, garbage collection, common amenity areas, or outdoor storage areas shall be developed within 3.0 m;
 - c. a solid screen Fence, 1.83 m in height, shall be installed, except for

 - ii. a 0.60 m footing encroachment easement; and
 - iii. permission to access the easement area for maintenance of the properties.
 - e. except for Sites proposed for a Zero Lot Line Development of Single Detached Housing, the owner of the Site proposed for the Zero Lot Line Development shall register on all titles within the Zero Lot Line Development Site as well as all titles on the adjacent Site a restrictive covenant and easement that:
 - i. requires a drainage swale constructed to City of Edmonton Design and Construction Standards; and
 - ii. provides for the protection of drainage of the Site, including the right for water to flow across Lots and the requirement not to inhibit the flow of water across Lots.
 - f. except for Sites proposed for a Zero Lot Line Development of Single Detached Housing, the owner of the Site proposed for the Zero Lot Line Development shall register a utility easement(s) on, where necessary, all Lots within the Zero Lot Line development and the Abutting Lots to ensure adequate access for utility maintenance.
22. The Site Side Setback for a Garage in a Zero Lot Line Development may only be reduced to zero where:

Edmonton Zoning Bylaw 12800

- a. a 1.5 m private maintenance easement identical to that registered for the principal building is provided; and
 - b. all roof leaders from Accessory buildings are connected to the individual storm sewer service for each Lot or directed to drain directly to an adjacent Lane; and
 - c. no roof leader discharge shall be directed to the maintenance easement.
23. On-Site parking shall be provided in accordance with the following regulations:
- a. Where a Site has primary vehicular access not from a Lane, the following regulations shall apply:
 - i. a front or side attached Garage shall be provided;
 - ii. two parking spaces per Dwelling that may be in tandem and may include one Garage space shall be provided; and
 - iii. where a driveway provides access to a parking space that is not within the Front Yard, the Development Officer may consider the driveway as a second parking space that is in tandem to the parking space.
 - b. Where a Site has primary vehicular access from a Lane, the following regulations shall apply:
 - i. a Garage, or a Hardsurfaced parking pad shall be provided;
 - ii. the minimum distance from the Rear Lot Line to a Garage or Hardsurfaced parking pad shall be 2.75 m;
 - iii. a Hardsurfaced Walkway between the Garage or Hardsurfaced parking pad and an entry to the Dwelling shall be provided;
 - iv. where no Garage is proposed, a Hardsurfaced parking pad to support a future Garage with a minimum width of 4.88 m and depth of 6.10 m shall be constructed a minimum distance of 2.75 m from the Rear Lot Line;
 - v. for Semi-detached Dwellings or Row Housing, where no Garage is proposed, a Hardsurfaced parking pad to support a future Garage with a minimum width of 4.88 m and depth of 5.49 m shall be constructed a minimum distance of 2.75m from the Rear Lot Line; and
 - vi. any Hardsurfaced parking pad shall include an underground electrical power connection with an outlet on a post approximately 1.0 m in Height, located within 1.0 m of the Hardsurfaced parking pad.
24. For Abutting Lots with Semi-detached Housing and Row Housing an Accessory building or structure shall be located not less than 0.60 m from the Side Lot Line, except where a Garage may be erected on the common property line to the satisfaction of the Development Officer.

September 22, 2014*

- a. between a Garage Suite or a Garden Suite and the associated principal Dwelling on the same Site; or
- b. where side walls of abutting buildings face each other and habitable windows are not located directly opposite each other, such that privacy is not impacted and:

Edmonton Zoning Bylaw 12800

- i. in the case of Dwellings on separate Sites, each development complies with the minimum Side Setback requirements for each welling;
 - ii. in the case of Dwellings on the same Site, the separation distance between Dwellings is at least equal to the total of the minimum Side Setback requirements for both Dwellings.
9. Minimum Private Outdoor Amenity Areas, shall be provided as follows:
 - a. a minimum of 30 m² per Dwelling unit, at Grade, shall be provided;
 - b. the Outdoor Amenity Area shall be permanently retained as open space, unencumbered by an Accessory building or future additions; and
 - c. notwithstanding Sections 46 and 47 of this Bylaw and 160.4(9)(a) above, where a rear attached Garage is provided and where:
 - i. a minimum outdoor communal recreational space of not less than 50 m² is provided in accordance with 160.4(10) below, whether or not the development has Frontage on a public roadway and whether or not the development has less than 20 Dwellings; or
 - ii. a public Park is adjacent to the Dwelling or where the Dwelling is not separated from the Park by a roadway, other than a Lane;
 - A. a maximum of 50 percent of the required minimum Private Outdoor Amenity Area may be provided in the Front Yard, provided that the Private Amenity Area is setback a minimum of 1.0 m from the Front Property Line. In this case, this area shall be defined either through a decorative Fence, or through landscaped elements such as hedges;
 - B. a maximum of 50 percent of the required Private Outdoor Amenity Area may be provided above Grade, provided that it shall be at least 10 m² in area, with neither the width nor the depth less than 2.0 m.
10. Except for developments where all Dwellings have Frontage on a public roadway, or those which contain less than 20 Dwellings, a minimum of 2.5 m² of Amenity Area per Dwelling shall be provided as outdoor communal recreational space, and be aggregated into areas of not less than 50 m².
11. Dwellings shall be Family Oriented, in accordance with the requirements of this Bylaw.
12. Maintenance and/or drainage and utility easement(s) may be required between abutting buildings and/or through private yards of one or more Dwellings to ensure adequate access for property, drainage and utility maintenance.

Site Coverage – Multi-unit Project Developments	Site Coverage for Project Site
(f) Bare Land Condominium Projects	The Development Officer will calculate Site Coverage for individual Units at the standards indicated in Table 165.4(5)(a) to (e) above.
(g) Standard Condominium Project (not Bare Land)	The Development Officer will calculate on a project basis: the maximum total shall not exceed 40%, with maximum of 28% for the principal buildings and 15% for Accessory buildings. Where parking is provided in an attached Garage, or parking is provided below Grade, the maximum for the principal building shall be 40%.

9. On-Site parking shall be accessed from a rear or side Lane only, in accordance with subsection 165.4(10), except as follows:
 - a. where there is no Lane access, parking may be located at the rear of the building, provided that where three or more Dwellings are attached, access from the public roadway shall be via a single common driveway;
 - b. where there is no Lane access and the Dwelling has a width of 6.5 m or greater, a front attached Garage may be developed in accordance with subsection 165.4(11);
 - c. notwithstanding 165.4(9)(a) and (b) above, in no case shall parking be accessed directly from a collector roadway, or accessed via the front of lots or Dwellings that front onto a road located directly across from or adjacent to a school or public park Site.

10. Where the required off-street parking spaces are located at the rear of any Dwelling the following requirements apply:

*Bylaw 16312
January 21, 2013
Bylaw 17973
April 24, 2017*

- a. one Garage, or Site for one Garage shall be clearly demarcated both on the Site and on the plan accompanying any application for a principal building, located in accordance with the regulations of this Bylaw. A Hardsurfaced Walkway is required between the Garage or Garage Site and an entry to the Dwelling;
- b. where detached rear parking Garages are developed, the maximum width of the building containing the Garage(s) shall not exceed:
 - i. 24 m, provided that the building does not contain more than four separate Garages, outside of neighbourhoods located within the boundaries of the Mature Neighbourhood Overlay (MNO), unless exempted under subsection 165.5(5) of this Zone;
 - ii. 12 m, provided that the building does not contain more than two separate Garages, in neighbourhoods located within the boundaries of the Mature Neighbourhood Overlay (MNO);"
- c. parking area shall be developed in accordance with the following:

Edmonton Zoning Bylaw 12800

Bylaw 16312
January 21, 2013

- i. where no Garage is developed, a Hardsurfaced parking area to accommodate required parking to a minimum depth of 4.88 m, and otherwise in accordance with the requirements of subsection 54.2 and Schedule 55.4 of this Bylaw, shall be constructed at the rear of each Lot;
 - iii. Tandem parking shall be allowed in accordance with Section 54.2 Schedule 1, provided that at least one tandem parking space has a minimum depth of 5.5 m;
 - iii. Such Hardsurfaced parking area shall include an underground electrical power connection with outlet on a post 1.0 m in Height, located within 1.0 m of the parking area.
11. Where a front attached Garage is allowed in accordance with subsection 165.4(9)(b), it shall be developed in accordance with the following regulations:
- a. the width of the Garages shall be developed in accordance with Table 165.4(11):

Table 165.4(11) Maximum Front or Side Garage widths	
Width of front of Dwelling at ground-level:	Maximum width front or side attached Garage
(i) $\geq 6.5\text{m} < 8.0\text{ m}$	3.7 m, except that it may be increased, provided that it does not exceed 50 percent of the width of the front of the Dwelling
(ii) $\geq 8.0\text{m} < 9.2\text{ m}$	4.2 m, provided that it does not to exceed 50 percent of the width of the front of the Dwelling
(iii) $\geq 9.2\text{ m}$	6.0 m, provided that it does not to exceed 45 percent of the width of the front of the Dwelling

- b. the Garage may protrude a maximum of 1.5 m beyond the front wall of the Dwelling and a maximum of 1.5 m beyond the front entry, or, where there is a front porch, a maximum of 1.5 m beyond the extent of the front porch;
- c. in the case of a side attached Garage, the Garage may protrude a maximum of 1.5 m beyond the side wall of the Dwelling;
- d. the maximum Height of a front or side attached Garage Door shall be 2.45 m.
- e. front attached Garages must be designed such that the Garage is attached to a shared common wall and includes adjoining shared driveway aprons, unless, in the case of a Row Housing or Stacked Row Housing end unit, the abutting Dwelling already has a driveway shared with another abutting Dwelling;
- f. driveway widths, including abutting Walkways, shall be no wider than

Bylaw 17973

the width of the Garage, and subject to the following additional limitations:

- i. single wide Garage: the width of the driveway including abutting Walkway where it meets a public or private roadway shall not exceed 3.1 m;
 - ii. double Garage: the width of the driveway including abutting Walkway where it meets a public or private roadway shall not exceed 5.2 m.
12. Separation Space shall be provided in accordance with Section 48 of this Bylaw, except that Separation Space shall not be required where side walls of abutting buildings face each other and habitable windows are not located directly opposite each other, such that privacy is not impacted and:
 - a. in the case of Dwellings on separate Sites, each development complies with the minimum Side Yard requirements for each Dwelling;
 - b. in the case of Dwellings on the same Site, the total separation distance between Dwellings is the total of the minimum Side Yard requirements for both Dwellings.
13. Minimum Private Outdoor Amenity Areas, at Grade, directly accessible to each Dwelling, shall be provided in accordance with Section 47 of this Bylaw, and as follows:
 - a. Row Housing Dwelling: 30 m² per Dwelling;
 - b. Stacked Row Housing Dwelling: 30 m² per Dwelling with livable floor space on the first floor; 15 m² per Dwelling with all livable floor space contained above the first floor;
 - c. Semi-detached Housing Dwelling: 45 m² per Dwelling;
 - d. the Outdoor Amenity Area shall be permanently retained as open space, unencumbered by an Accessory building or future additions;
 - e. notwithstanding the above and Sections 46 and 47 of this Bylaw, in the case of a Row Housing Dwelling with a rear attached Garage:
 - i. a maximum of 50 percent of the required Private Outdoor Amenity Area may be located within the Front Yard, including a front veranda, provided that it is setback a minimum of 1.0 m from the Front Property Line. In this case, this area shall be defined either through a decorative Fence, or through landscaped elements such as planters, hedges and hard and soft surface treatments;
 - ii. a maximum of 50 percent of the required Private Outdoor Amenity Area may be provided above Grade, provided that it shall be at least 10 m² in area, with neither the width nor the depth less than 2.0 m.
14. Site Landscaping shall be developed in accordance with the following:
 - a. Row Housing, Stacked Row Housing attached horizontally (front to back as well as to the side) and Semi-detached Housing: one deciduous tree or one coniferous tree, and two shrubs shall be

*Bylaw 17727

required in the Front Yard of each Dwelling, except where the Front Yard is 4.5 m or less, and a Treed Landscaped Boulevard is provided in accordance with Table 165.4(3), the tree may be placed within the rear or Side Yard, rather than the Front yard;

- b. Stacked Row Housing attached vertically (two deep, where Dwellings are placed over others): one deciduous tree or one coniferous tree, and two shrubs shall be required for each 6 m of linear Site Frontage, except where the Front Yard is 4.5 m or less, and a Treed Landscaped Boulevard is provided in accordance with Table 165.4(3), the trees may be placed within the rear or Side Yard, as applicable, rather than the Front yard;

*Bylaw 17672
June 27, 2016*

- c. all applications for a Development Permit shall include a Landscape Plan in accordance with the requirements of subsection 55.4 of this Bylaw that identifies the location, species and size of Landscaping required in subsection 165.4(14)(a) or (b) as applicable; and
- d. all required Landscaping shall comply with the relevant requirements of Section 55 of this Bylaw.

15. Urban Outdoor Farms shall comply with Section 98 of this Bylaw.

16. Urban Gardens shall comply with Section 98 of this Bylaw.

165.5 Multi-unit Project Development Regulations

Where a Multi-unit Project Development is proposed within this Zone, it must adhere to all the regulations in the following subsection, as well as all other regulations within this Zone, unless exempted within this subsection, as follows.

1. All Dwellings must front onto a public roadway.
2. Notwithstanding Table 165.4(2), the minimum Site Area for individual Bare Land Condominium Units may be reduced, provided that the Multi-unit Project Development complies with the density regulations contained in subsection 165.4(1) of this Zone.
3. Notwithstanding Table 165.4(2), the minimum Site Depth may be reduced to not less than 22.5 m for Bare Land Condominium Units.

*Bylaw 15735
June 20, 2011*

4. Notwithstanding the Setback regulations of this Zone, where a Multi-unit Project Development abuts a Site Zoned to allow Single Detached Housing as a Permitted Use, or the RF5 Row Housing Zone, any increased Setback requirements in subsection 160.4(14) of the RF5 Zone shall apply.

*Bylaw 17727
August 22, 2016*

5. Where a Multi-unit Project Development abuts a Site zoned to allow Single Detached Housing as a Permitted Use or the RF5 Row Housing Zone, a solid screen fence, a minimum of 1.83 m in Height, shall be installed along all shared property lines, except for common flanking Front Yard boundaries.

Edmonton Zoning Bylaw 12800

6. Notwithstanding Section 165.4(10)(b)(i), a building containing rear detached Garages may exceed the maximum width and total number of Garages specified outside of the boundaries of the Mature Neighbourhood Overlay (MNO).
7. Notwithstanding Section 165.4(14), the Landscape Plan shall address the entire Multi-unit Site Project Development, including individual Bare Land Condominium Units and common areas in accordance with the regulations of Section 55 of this Bylaw.

165.6 Additional Regulations for Specific Uses

1. Row Housing, Stacked Row Housing and Semi-detached Housing shall be developed in accordance with the following regulations:
 - a. each Dwelling shall have individual front door access to a public roadway, except in the case of Stacked Row Housing access to Dwellings above the first Storey may be shared by two Dwellings;
 - b. each Dwelling shall be oriented toward the street such that front and flanking facades and yards include design elements such as windows, covered porches, varied building articulation and landscaping as the dominant elements facing the public streetscape;
 - Bylaw 17727
August 22, 2016*
c. a transition area between the public street and semi-private area in front of dwellings should be defined using landscape features such as decorative Fencing, change in Grade, shrub beds or rock gardens and/or built elements such as stairs, private entrance features and verandas or porches;
 - Bylaw 15735
June 20, 2011*
d. notwithstanding subsection 44(1)(a) of this Bylaw, unenclosed steps leading to a front entry way may project into a Front Setback, up to the Front Lot Line.
2. Row Housing and Stacked Row Housing shall be developed in accordance with the following regulations:
 - a. the maximum width of the front façade of a building containing Row Housing shall be 48 m, with no more than eight attached Dwellings along any one block face;
 - b. the maximum width of the frontage of the front façade of a building containing Stacked Row Housing shall be 48 m;
 - c. a generally similar unit form and design shall not be repeated more than six times on a block face;
 - d. design techniques including, but not limited to, the use of sloped roofs, variations in building Setbacks, articulation of building façades, and varied architectural designs shall be employed in order to minimize the perception of massing of the building when viewed from adjacent residential areas and roadways;
 - e. building finishes shall be compatible with the exterior finishing materials and colours typical of adjacent development;

Edmonton Zoning Bylaw 12800

- f. maintenance and/or drainage and utility easement(s) may be required between abutting buildings and/or through private yards of one or more Dwellings to ensure adequate access for property, drainage and utility maintenance.
3. Semi-detached Housing shall be developed in accordance with the following regulations:
 - a. Dwellings within a single building may include symmetrical and asymmetrical designs, provided that a consistent architectural style applies to both Dwellings;
 - b. where there are more than two buildings along a block face, design elements such as varied roof lines, articulation of building facades, and variations of window and door treatments shall be employed so as to prevent more than two identical building facades.
4. Signs shall comply with the regulations found in Schedule 59A.

370.4 Development Regulations

*Bylaw 17831
November 28, 2016*

- 1. Residential, Residential Related and Basic Service Uses shall only be allowed:
 - a. where they are located primarily above Grade; and
 - b. as part of a mixed Use development combined with Commercial or Community, Educational, Recreational and Cultural Service Uses.
- 2. Dwellings and Sleeping Units may be located at Grade provided they are developed:
 - a. at the rear of the building, adjacent to a Lane; or
 - b. in the case of a corner Site, at the rear of the building or on the flanking public roadway.
- 3. If Apartment Housing contains two or more Dwellings, a minimum Amenity Area of 7.5 m² per Dwelling shall be provided.
- 4. Restaurants and Bars and Neighbourhood Pubs shall not exceed a capacity of 417 Occupants or 500 m² of Public Space, and shall be located on and oriented toward a public roadway where practical, other than a Lane.

Edmonton Zoning Bylaw 12800

5. Specialty Food Services shall not exceed a capacity of 167 Occupants or 200 m² of Public Space, and shall be located on and oriented toward a public roadway where practical, other than a Lane.
6. Nightclubs shall not exceed a capacity of 250 Occupants or 300 m² of Public Space, and shall not share a Site with, or a Site that is abutting, adjacent to, or across a Lane from, a Residential Zone.
7. General Retail Stores or Warehouse Sales shall not exceed a Floor Area of 2000 m². The Development Officer must consider, among other factors, building massing and scale as well as the pedestrian-oriented nature of an area when considering any request to vary the maximum Floor Area.

*Bylaw 16224
September 10, 2012
Bylaw 17831
November 28, 2016*

8. Any development with a drive-through service window shall conform to the following regulations:
 - a. the drive-through component shall form part of a mixed Use building and shall not be located in a freestanding building onto itself;
 - b. the location, orientation and Setback of drive-through service windows shall be to the satisfaction of the Development Officer and shall minimize the on-site and off-site traffic impacts and have regard for safety and the pedestrian environment of local shopping streets;
 - c. drive-through service windows shall be oriented away from the Front Yard and placed, wherever possible, at the rear of the building;
 - d. the design, finishing and siting of such development shall achieve a compatible relationship with surrounding development and a high standard of appearance when viewed from adjacent roadways;
 - e. a minimum of six in-bound queuing spaces shall be provided for vehicles approaching the drive-through service window. One out-bound queuing space shall be provided on the exit side of each service position and this space shall be located so as not to interfere with service to the next vehicle;
 - f. Landscaping shall be used to screen and soften the impact of the drive-through service window.

*Bylaw 17831
November 28, 2016*

9. Floor Area Ratio:

The maximum Floor Area Ratio for non-Residential Uses shall be 4.0, and the maximum Floor Area Ratio for Residential and Residential-Related Uses shall be 6.0. In mixed Use buildings, the total Floor Area Ratio for all Uses shall not exceed 7.0.

10. Building Height:

*Bylaw 16733
July 6, 2015*

- a. The maximum building Height shall not exceed 6.0 m;
- b. Notwithstanding the above, the Development Officer may increase the building Height to a maximum of 45.0 m if the additional Height

Edmonton Zoning Bylaw 12800

accommodates Residential or Residential-Related Uses and:

- i. Adjacent buildings abut the Lot line to form a pedestrian-oriented shopping street; or
- ii. the development consists of a podium that forms part of an existing or future pedestrian-oriented shopping street; or
- iii. the Site is located on a Transit Avenue.

Adverse environmental impacts such as sun shadow and wind shall be minimized in accordance with Section 14 of this Bylaw. Any development exceeding 36.0 m or ten Storeys in Height shall become a Class B Development.

11. Building Setback:

A minimum Setback of 3.0 m shall be required from all Lot lines except that there shall be no Setback from the Front or Side Lot Lines where:

- a. adjacent buildings abut the Lot line to form a pedestrian-oriented shopping street; or
- b. the development consists of a podium that forms part of an existing or future pedestrian-oriented shopping street; or
- c. the Site is located on a Transit Avenue.

If any of the criteria in 12(a), (b), or (c) above are met, the Development Officer may allow a maximum Setback of 2.5 m on the Front or Side Lot Lines to accommodate street related activities, such as sidewalk cafes, architectural features and Landscaping that contribute to the pedestrian-oriented shopping character of the area. Where no Setback is provided, development shall be subject to an encroachment agreement in accordance with Section 15(7) of this Bylaw.

12. A minimum Setback of 7.5 m shall be provided where the Rear Lot Line or Side Lot Line abuts a Zone that allows Single Detached Housing as a Permitted Use. This Setback may be reduced to 3.0 m where the new development consists of a commercial podium that forms part of a pedestrian-oriented shopping street and adverse environmental impacts such as sun shadow and wind are minimized, in accordance with Section 14 of this Bylaw.
13. Signs shall comply with the regulations of Schedule 59F.
14. Wherever feasible, vehicular access shall be from the flanking roadway or abutting Lane. In the event there is no abutting Lane or flanking roadway, the vehicular access shall be designed in a manner that has minimal impact on abutting public roadways.
15. Vehicular parking, loading and facilities shall be located at the rear of the building.
16. On Sites where surface parking is provided, a concept plan shall be provided demonstrating how a minimum Floor Area Ratio of 0.8 could be achieved through future phases of development. Such concept plans are intended to illustrate how future densification could be accommodated without prejudicing future development, and shall not imply a commitment or obligation to such future development.

Edmonton Zoning Bylaw 12800

*Bylaw 17831
November 28, 2016*

17. Non-accessory parking shall not be located at Grade, and shall not interfere with a pedestrian-oriented, mixed-Use area.
18. No parking, loading, storage, trash collection, outdoor service or display area shall be permitted within a Setback area.

*Bylaw 17672
June 27, 2016*

19. Loading, storage and trash collection areas shall be located to the rear or sides of the principal building and shall be screened from view from any adjacent Sites, public roadways or LRT line in accordance with the provisions of subsection 55.4 of this Bylaw. If the rear or sides of a Site are used for parking or an outdoor service or display area and abut a Residential Zone or a Lane serving a Residential Zone, such areas shall be screened in accordance with the provisions of 5 of this Bylaw.
20. Service function areas, such as loading docks, truck parking, and utility meters, shall be incorporated into the overall design theme of the building and/or landscape.

*Bylaw 17403

Effective Date: February 1, 2016*

21. Urban Outdoor Farms shall comply with Section 98 of this Bylaw.
22. Urban Gardens shall comply with Section 98 of this Bylaw.

370.5 Urban Design Regulations

1. Any development with a Floor Area greater than 3000 m² or a single wall length greater than 25.0 m visible from a public road, shall comply with the following criteria:
 - a. the roof line and building façade shall include design elements that reduce the perceived mass of the building and add architectural interest; and
 - b. Landscaping adjacent to exterior walls shall be used to minimize the perceived mass of the building and to create visual interest.
2. Where a building exceeds 14.0 m or four Storeys and abuts a Zone that allows Single Detached Housing as a Permitted Use, a minimum stepback of 1.0 m per Storey, to a maximum of 6.0 m, shall be required for that portion of the building exceeding 14.0 m or four Storeys.
3. Any development with a building Height greater than 23.0 m or six Storeys shall address massing and building articulation in accordance with the following regulations:
 - a. Podium

*Bylaw 17062
July 6, 2015*

- i. A podium shall be required, the maximum Height of which shall not exceed 3 Storeys or 13.0 m.
- ii. The podium shall include design elements that create a pedestrian oriented built form, such as but not limited to articulation around

Edmonton Zoning Bylaw 12800

- entrance ways, roof treatment, setbacks and stepbacks in the building mass, building articulation, and the architectural treatment of the facades.
- iii. The podium shall incorporate weather protection in the form of a wide canopy or any other architectural element on façades wherever active commercial frontages exist.
- b. Tower
 - i. The tower shall be differentiated from the podium, but should reinforce some of the design details, materials, and architectural expression from the podium.
 - ii. Towers shall stepback from the front podium wall a minimum of 3.0 m.
 - iii. The minimum distance between non-residential towers shall be 20.0 m.
 - iv. The minimum distance between a residential tower and any other tower shall be 25.0 m
 4. All mechanical equipment, including roof mechanical units, shall be concealed by screening in a manner compatible with the architectural character of the building or concealed by incorporating it within the building.
 5. Where the Site is part of a pedestrian oriented shopping street or a Transit Avenue, the following regulations shall apply, at the discretion of the Development Officer:
 - a. The architectural treatment of the building shall include features such as:
 - i. Entrance features;
 - ii. Canopies; and
 - iii. Features that lend visual interest and create a human scale.
 - b. A minimum of 60% of ground floor commercial façades fronting onto a public roadway other than a Lane shall have clear glazing on the exterior.
 - c. Building entrances and windows shall be oriented toward a public roadway, other than a Lane.
 - d. On corner Sites, the façade treatment shall wrap around the side of the building to provide a consistent profile.
 6. Principal building entrances for any Use shall be designed for universal accessibility. Level changes from the sidewalk to entrances of buildings shall be minimized. Sidewalk furniture and other elements shall be located out of the travel path to ensure they are not obstacles to building access.
 7. Residential and Residential-Related Uses shall have a separate entrance at Grade from non-Residential Uses. Entrances shall be differentiated through distinct architectural treatment.

6. Notwithstanding the other regulations of this Zone, where this Zone abuts a residentially zoned Site with a maximum Height of 14 m or less, the following regulations shall apply:

*Bylaw 15735
June 20, 2011*

- a. a minimum Setback of 7.5 m shall be required from any building to any property line common with a residential Zone. No surface parking or loading facilities shall be located within this Setback area. The Development Officer may use variance power to reduce this Setback to a minimum of 3.0 m where an acceptable combination of screening and berming is provided to screen the parking and loading area from the abutting site;

*Bylaw 16224
September 10, 2012*

- b. no outdoor parking, trash collection or outdoor storage areas shall be developed within 3.0 m of any property line that abuts a residential Zone;

*Bylaw 16224
September 10, 2012
Bylaw 17727
August 22, 2016*

- c. a solid screen Fence, 1.83 m in Height, shall be installed along all property lines that abut a residential Zone, except for common flanking Front Yard boundaries; and
- d. design techniques including, but not limited to, the use of sloped roofs, variations in building setbacks and articulation of building façades, shall be employed in order to minimize the perception of massing of the building when viewed from adjacent residential areas and roadways.

*Bylaw 17831
November 28, 2016*

7. Convenience Retail Stores and Specialty Food Services shall not be allowed in any freestanding structure that is separate from a principal building and must be integrated with, and Accessory to, a Permitted or Discretionary Use within

5. Off-street Vehicular Loading Facilities shall be provided in accordance with Section 54 of the Zoning Bylaw, except that:
 - a. A centralized loading facility shall be provided with a minimum of 4 off-street loading spaces.
 - b. For new building construction, or the expansion of existing structures, vehicular loading requirements may be assessed at the Development Permit stage at the request of the Development Officer. Where the applicant for a Development Permit can demonstrate through a vehicular loading demand study prepared and submitted with respect to the proposed development, that by virtue of the Use and capacity of existing loading facilities, the vehicular loading requirement for the proposed development is less than any minimum set out in Section 54.4, the Development Officer may allow a reduction from the minimum number of loading spaces. The Development Officer shall submit the demand study to Transportation Services for analysis, and the proposed reduction may be approved by the Development Officer in consultation with Transportation Services.
6. Landscaping shall be provided in accordance with Section 55 of the Zoning Bylaw, except that:
 - a. Within the required Setback along 104 Avenue NW, a minimum 2.5 m sidewalk with flanking rows of deciduous boulevard trees shall be provided. These shall be coordinated with sidewalk and tree planting within the adjacent public right-of-way. The overall intent is to develop and maintain the tree-lined esplanade as a continuous pedestrian open space between 105 Street NW and 112 Street NW.
 - b. The proportion of deciduous to coniferous trees and shrubs shall be approximately 3:1.
 - c. One tree for each 25 m² shall be required in a Yard or Setback at Grade.
7. Where the street vista of 106 Street NW, 107 Street NW, 108 Street NW or 111 Street NW terminates on a building, special architectural design of the building shall be provided on axis to the satisfaction of the Development Officer.
8. Direct, major north-south pedestrian connections shall be provided through the site at 106 Street NW, 107 Street NW, 108 Street NW and 111 Street NW to the satisfaction of the Development Officer. The Owner shall enter into appropriate public access agreements with the City of Edmonton, where applicable.
9. A north-south shared use path connection shall be provided through the site from 104 Avenue NW to 105 Avenue NW between 109 Street NW and 112 Street NW, to the satisfaction of the Development Officer and Transportation Services. The specific route of this connection shall be determined with consideration for the ability of pedestrians and cyclists to cross 104 Avenue NW.
10. Where applicable, the Site Plan submitted with a Development Permit application shall indicate the coordination between development on the

subject Site and the adjacent 105 Avenue NW corridor, in accordance with the 105 Avenue Corridor Study.

*Bylaw 16733
July 6, 2015*

11. A minimum of 30% of the building Façade abutting 105 Avenue NW shall step back a minimum of 3.0 m above the fourth storey. Such Stepback space may be utilized to create outdoor above-Grade Amenity Area.
12. Where a Commercial Use is provided at ground level Abutting 105 Avenue NW, the principal entrance to the unit shall have direct external access to the adjacent public sidewalk.
13. A minimum of 50% of the ground floor level portion of the Façade abutting 105 Avenue NW shall be comprised of clear, non-reflective glazing to promote pedestrian interaction and safety.

*Bylaw 17831
November 28, 2016*

14. All new buildings located along 105 Avenue NW shall be designed to strengthen the pedestrian character of the street through Uses and spaces at the ground floor that allow viewing into the building, passive surveillance of the street and/or direct pedestrian access to the street. This shall be achieved by a combination of any or all of the following:
 - a. Retail uses that open to the street rather than an internal atrium;
 - b. Building entrances and atria;
 - c. Hallways and circulation spaces;
 - d. Administrative offices;
 - e. Teaching spaces; and
 - f. Any other suitable design strategies or Uses, at the discretion of the Development Officer.
15. Development abutting 105 Avenue NW shall incorporate functional and decorative lighting to enhance the appearance of the building during the winter months, and to provide additional lighting for the 105 Avenue NW Corridor. Main building entrances for any Use shall be designed for universal accessibility. Level changes from the sidewalk to entrances of buildings shall be minimized. Sidewalk furniture and other elements shall be located out of the travel path to ensure they are not obstacles to building access.

4. Environmental Site Assessment and Risk Management Regulations

1. For Sub-Area 1, as depicted on Maps 2a and 2b, the following regulations shall apply:
 - a. A Risk Management Plan for Polycyclic Aromatic Hydrocarbons shall be submitted, reviewed and approved to the satisfaction of the Development Officer in consultation with the Environmental Planning Unit prior to the issuance of any Development Permit within the sub-area.

700 Direct Control Provisions

710 (DC1) Direct Development Control Provision

710.1 General Purpose

*Bylaw 17831
November 28, 2016*

The purpose of this Provision is to provide for detailed, sensitive control of the Use, development, siting and design of buildings and disturbance of land where this is necessary to establish, preserve or enhance:

- a. areas of unique character or special environmental concern, as identified and specified in an Area Structure Plan or Area Redevelopment Plan; or
- b. areas or Sites of special historical, cultural, paleontological, archaeological, prehistorical, natural, scientific or aesthetic interest, as designated under the Historical Resources Act.

710.2 Application

1. This Provision shall only be applied:
 - a. where specified by an Area Structure Plan or Area Redevelopment Plan; or
 - b. to those historical resources that have been designated by the Minister or by Council, in accordance with the Historical Resources Act.

710.3 Uses

1. A Development Permit may be issued for those Uses prescribed for the land, in an approved Area Redevelopment Plan or Area Structure Plan, or those Uses consistent with its designation under the Historical Resources Act.

710.4 Development Regulations

1. All developments shall comply with the development regulations contained in an approved Area Redevelopment Plan or Area Structure Plan, except that any regulations or conditions applying as a result of designation of a historical resource under the Historical Resources Act, shall take precedence.
2. In the case of designated historical resources, any application to demolish, alter, restore or repair a building or structure, or to excavate or otherwise disturb land, shall require prior written authority, in accordance with the Historical Resources Act.
3. A development may also be evaluated with respect to its compliance with:
 - a. the objectives and policies of an applicable Statutory Plan;
 - b. the General Regulations and Special Land Use Provisions of this Bylaw; and
 - c. the regulations of abutting Zones.
4. Signs shall comply with the regulations found in Schedule 59H.

*Bylaw 17831
November 28, 2016*

5. All regulations in this Bylaw shall apply to development in the Direct

Edmonton Zoning Bylaw 12800

Development Control Provision, unless such regulations are specifically excluded or modified in a Direct Development Control Provision.

710.5 Information Requirements

1. In addition to the information normally required for a Development Application under this Bylaw, the applicant shall submit all information specified in an applicable Area Redevelopment Plan or Area Structure Plan and a narrative explaining how the proposed Use or development would be consistent with the intent of the Provision.
2. If the Development Application concerns a historical resource designated under the Historical Resources Act, a Copy of the Minister's written approval or Council's written approval, as may be required, shall be submitted with the application.

*Bylaw 17831
November 28, 2016*

3. The Development Officer may request any additional information they deem appropriate in order to determine whether the proposed Use or development is consistent with an approved Statutory Plan.

720 (DC2) Site Specific Development Control Provision

720.1 General Purpose

The purpose of this Provision is to provide for direct control over a specific proposed development where any other Zone would be inappropriate or inadequate.

720.2 Application

1. The Provision shall only be applied to a Site to regulate a specific proposed development under the following circumstances:
 - a. the proposed development exceeds the development provisions of the closest equivalent conventional Zone;

*Bylaw 17831
November 28, 2016*

- b. the proposed development requires specific/comprehensive regulations to ensure land Use conflicts with neighbouring properties are minimized;
- c. the Site for the proposed development has unique characteristics that require specific regulations; or
- d. the ongoing operation of the proposed development requires specific regulations.

720.3 Contents

1. The applicant shall provide a proposed Direct Control Provision that must contain the following:
 - a. the legal description of the Site to which the proposed Provision shall apply;
 - b. Use Class Opportunities; and
 - c. Development Regulations for Use Class Opportunities.

Edmonton Zoning Bylaw 12800

*Bylaw 16488
July 2, 2013*

2. The applicant shall submit a Site plan. The Site plan shall be appended to the Bylaw that adopts this Provision, and all development in the Provision shall be in accordance with the Site plan. Building elevations may also be required. The Site plan will illustrate the issues that necessitated the use of Direct Control and may include:
 - a. location on the Site of specific Uses, including any accessory Uses and activities;
 - b. details or elements necessary to better achieve land Use compatibility, such as Urban Design and architectural treatment of structures, increased separation spaces, Landscaping, and the like; and
 - c. any staging of the development.

The Site Plan will not restrict other provisions of the Zoning Bylaw that were not at issue at the time of the application of the Direct Control Provision.
3. All Regulations in the Zoning Bylaw shall apply to development in the Direct Control Provision, unless such Regulations are specifically excluded or modified in a Direct Control Provision.
4. Signs shall comply with the regulations found in Schedule 59H.

720.4 Information Requirements

1. In addition to the requirements of Section 24, the applicant shall:
 - a. submit the proposed Direct Control Provision;
 - b. submit a narrative explaining why the Direct Control Provision is warranted, having regard for the criteria specified in subsection 720.2;

*Bylaw 13228
December 5, 2002*

- c. contact the affected parties, being each assessed owner of land wholly or partly located within a distance of 60.0 m of the Site of the proposed development and the President of each affected Community League and the President of each Business Revitalization Zone Association operating within the distance described above, at least 21 days prior to submission of a Rezoning Application;
- d. outline to the affected parties, the details of the application and solicit their comments on the application;
- e. document any opinions or concerns, expressed by the affected parties, and what modifications were made to address their concerns; and
- f. submit the documentation as part of the Rezoning Application.

800 Overlays

800 City-Wide Master Overlay

800.1 General Purpose

The purpose of this Overlay is to provide a means to alter or specify regulations for Permitted and Discretionary Uses in otherwise appropriate Zones, in order to achieve the local planning objectives in specially designated areas, throughout the City of Edmonton, as provided for in the Edmonton Municipal Development Plan.

800.2 Application

1. This Master Overlay shall only be applied to Zones where specified through an amendment to the Zoning Bylaw in the form of an Overlay other than an Industrial Plan Overlay, which shall include:
 - a. the name of any applicable Statutory Plan and its boundaries;
 - b. a map of the location(s) or neighbourhood(s) affected by the Overlay at an appropriate scale, which may indicate the designation, location and boundaries of each underlying Zone; and
 - c. every Regulation specified or changed by the Overlay.
2. The Overlay shall not be used:
 - a. in conjunction with a Direct Control Provision;
 - b. to alter Permitted or Discretionary Uses, Floor Area Ratio or Density except in accordance with subsection 800.4;
 - c. where the proposed regulations or changes to the regulations of an underlying Zone:
 - i. are significant enough to be inconsistent with the general purpose of that Zone and the designation of another Zone would be more appropriate;
 - ii. are not merely related to local planning objectives but would have sufficient general application to warrant an amendment to the text of the underlying Zone itself; or
 - iii. are intended to provide such detailed or Site specific discretionary control over the design and siting of development that the use of a Direct Control Provision would be more appropriate;
 - d. to allow more than one Single Detached Dwelling on a lot;
 - e. to alter the following Sections of this Bylaw:
 - i. Sections 1 through 10, inclusive;
 - ii. Sections 11 through 25, inclusive, except that new fees may be established for new Uses and new Zones, with respect to rezoning and Development Permit Applications;
 - iii. Section 41;
 - iv. Sections 56 and 57, inclusive;

*Bylaw 17831
November 28, 2016*

Edmonton Zoning Bylaw 12800

- v. Sections 710 and 720, inclusive; and
- vi. Section 900.

800.3 Uses

The Permitted Uses specified in the underlying Zones are permitted and the Discretionary Uses specified in the underlying Zone are discretionary, subject to the regulations concerning land Use, as specified in the Overlays.

800.4 Development Regulations

1. The regulations provided in the Overlay shall be substituted for the specified regulations of the underlying Zone. Where there appears to be a conflict between the provisions of the Overlay and those of the underlying Zone, the provisions of the Overlay shall take precedence and effect.

*Bylaw 16859
June 24, 2014*

2. Notwithstanding clause (1), above, the provisions of the Floodplain Protection Overlay shall take precedence over the provisions of any other Overlay.
3. The Overlay may change or specify regulations and submission requirements, as provided below, and may specify the conditions under which such changed or specified regulations would apply:
 - a. the total residential Density;
 - b. Site dimensions and Area;
 - c. the building Height;

*Bylaw 17831
November 28, 2016*

- d. the size and Floor Area Ratio for each Use;

Development Permit Application.

811 North Saskatchewan River Valley and Ravine System Protection Overlay

811.1 General Purpose

*Bylaw 17767
September 17, 2016*

The purpose of this Overlay is to provide a development Setback from the North Saskatchewan River Valley and Ravine System.

811.2 Application

1. This Overlay applies to:
 - a. all lands within the North Saskatchewan River Valley and Ravine System, as shown on Appendix I to this Overlay; and
 - b. all lands within 7.5 m of the North Saskatchewan River Valley and Ravine System as shown on Appendix I to this Overlay.

*Bylaw 17767
September 19, 2016*

2. Notwithstanding the boundary, as referenced in subsection 811.2.1, the boundary is a general boundary and is subject to more precise location where such location is established through the approval of Plans of Subdivision or survey plans of the top of bank. In such cases, the Development Officer will amend the map to reflect the more precise boundary.

811.3 Development Regulations

1. All developments shall maintain a minimum 7.5 m Setback from the North Saskatchewan River Valley and Ravine System, as shown on Appendix I to this Overlay.

2. The Development Officer may allow a variance to the Setback requirements of subsection 811.3.1, under the provisions of Sections 11.2 and 11.3 of this Bylaw. In considering a variance, the Development Officer shall require a letter from the registered owner of a property indicating that a variance is being requested and that a survey line has been staked. The Development Officer shall then notify staff from Sustainable Development, Integrated Infrastructure Services and Citizen Services who shall, together with the owner of the land or his representative and the surveyor, field check the line and advise the Development Officer on the merits of the variance being requested. Any variance granted shall be recorded on the survey and filed with the Development Permit Applications affecting the Site.

3. Any development permit application on a Site that Abuts or is partially or wholly contained within the North Saskatchewan River Valley and Ravine System, as shown in Appendix I to this Overlay, shall be accompanied by a report prepared by a registered Professional Engineer, and as set out in subsection 14.1 of this Bylaw, and that also details:
 - a. the minimum Setback for structures on the Site; and
 - b. any development conditions for the property required to prolong the stability of the bank.
4. Notwithstanding subsection 811.3.3, any development permit application for an accessory building or structure, or for the removal of an accessory building or structure, on a Site that Abuts or is partially or wholly contained within the North Saskatchewan River Valley and Ravine System, as shown in Appendix I to this Overlay may require a report prepared by a registered Professional Engineer as set out in subsection 14.1 of this Bylaw. The Development Officer shall seek the advice of Integrated Infrastructure Services with respect to these applications to determine if a report is necessary for the proposed Site.
5. Notwithstanding subsection 800.2.2.b, Water Retention Structures on a Site zoned residential that Abuts or is partially or wholly contained within the North Saskatchewan River Valley and Ravine System Protection Overlay, as shown in Appendix I to this Overlay, shall be a Class B Discretionary development.
6. Notwithstanding subsection 800.2.2.b, the following developments on a Site zoned residential that Abuts or is partially or wholly contained within the North Saskatchewan River Valley and Ravine System Protection Overlay, shall be prohibited:
 - a. above or underground sprinklers or irrigation systems; and
 - b. roof leaders, downspouts and sump pump discharge spouts that discharge into or onto the ground.
7. A Rear Yard or a Side Yard on a Site zoned residential that Abuts or is partially or wholly contained within the North Saskatchewan River Valley and Ravine System Overlay, as shown in Appendix I to this Overlay:
 - a. shall be generally landscaped with permeable landscaping materials; and

*Bylaw 17973
April 24, 2017*

- b. shall not contain Impermeable Materials in either the Rear Yard or the Side Yard that exceed a total area of greater than 12 m² respectively.
8. The Development Officer, having regard to the detailed engineering study required in 811.3.3 or 811.3.4 and in consultation with Integrated Infrastructure Services, may apply conditions of approval to any Development Permit issued on a Site that Abuts or is partially or wholly contained within the North Saskatchewan River Valley and Ravine System, as shown in Appendix 1 to this Overlay, including but not limited to, any conditions required to minimize erosion and stabilize soil conditions as well as, when applicable, requirement to comply with subsection 811.3.7, or may refuse the application.

812 (FPO) Floodplain Protection Overlay

812.1 General Purpose

*Bylaw 16733
July 6, 2015*

The purpose of this Overlay is to provide for the safe and efficient use of lands which may be within the defined floodplains of the North Saskatchewan River and its tributaries within the City of Edmonton. The Overlay regulates building Height, the location and geodetic elevation of openings into buildings, the Use in portions of buildings, the design Grade of the Site, and Landscaping, to mitigate the potential negative effects of a flood event.

812.2 Application

1. This Overlay applies to those lands identified on the Appendices to this Overlay.

812.3 Development Regulations and Submission Requirements

1. For all developments situated within a Floodplain Protection Overlay, subsection 14.4 of this Bylaw shall apply.
2. Submission of a certificate from a Professional Engineer or Architect shall be required in accordance with the guidelines of the Floodplain Management Policies of the applicable plan, as follows:
 - a. North Saskatchewan River Valley Area Redevelopment Plan;
 - b. Cloverdale Area Redevelopment Plan;
 - c. Rossdale Area Redevelopment Plan; and
 - d. Riverdale Area Redevelopment Plan.

813 Major Commercial Corridors Overlay

813.1 General Purpose

The purpose of this Overlay is to ensure that development along Major Commercial Corridors is visually attractive and that due consideration is given to pedestrian and traffic safety.

813.2 Application

1. This Overlay applies to those lands identified as Major Commercial Corridors in the Appendices to this Overlay Schedule.
2. Where the provisions of this Overlay are in conflict with regulations of any other Section of this Bylaw, the more restrictive provisions shall take precedence. Where there is no conflict, the provisions of this Overlay shall be applied in conjunction with the regulations of the underlying Zone(s) and other Sections of the Zoning Bylaw.

813.3 Definitions

1. For the purposes of this Overlay, the following definitions shall apply:
 - a. Major Arterial Roads: those portions of the following roads shown on the Appendices to this Overlay:

Edmonton Zoning Bylaw 12800

- i. St. Albert Trail;
 - ii. 137 Avenue;
 - iii. 127 Street;
 - iv. Stony Plain Road;
 - v. 100 Avenue;
 - vi. 170 Street;
 - vii. Anthony Henday Drive;
 - viii. Calgary Trail, Calgary Trail Northbound and Calgary Trail Southbound;
 - ix. 103 Street;
 - x. 103A Street;
 - xi. 104 Street;
 - xii. Whitemud Drive;
 - xiii. Fort Road; and
 - xiv. Manning Drive.
- b. Arterial Roads: - those roads, shown on the Appendices to this Overlay, other than those listed in clause (a), above, which are defined as arterial roads in the City of Edmonton Transportation System Bylaw.

813.4 Development Regulations

1. All development on a Site shall be constructed using similar architectural themes. An exception may be made to this general requirement where the function of an individual business dictates a specific style or image associated with a company. In such cases, the development shall maintain harmony in terms of overall project design and appearance.
2. All mechanical equipment, including roof mechanical units, shall be concealed by screening in a manner compatible with the architectural character of the building or shall be concealed by incorporating it within the building roof.
3. Any business premises or multiple occupancy building having a Floor Area greater than 3 000 m² or a single wall length greater than 40.0 m that is visible from an adjacent Arterial Road or Major Arterial Road shall comply with the following development regulations:
 - a. the roof line and building façade shall include design elements that reduce the perceived mass of the building and add architectural interest;
 - b. the exterior wall finishing materials shall be predominantly composed of muted colours, with strong colours limited to use as an accent, so as to minimize the perceived mass of the building; and
 - c. Landscaping adjacent to exterior walls visible from an adjacent Arterial Road or Major Arterial Road shall be used to minimize the perceived mass of the building and to create visual interest.

*Bylaw 15735
June 20, 2011*

4. A minimum building Setback of 14.0 m shall be provided adjacent to the Major

Edmonton Zoning Bylaw 12800

Arterial Roads and the intersecting Arterial Roads within the Major Commercial Corridors. The Development Officer may use variance power to reduce this minimum building Setback to the minimum applicable width of the Setback required by this Overlay where:

- a. the proposed development or the proposed development in conjunction with any existing development, does not exceed a Floor Area of 1 000 m², nor 7.0 m in Height; or
 - b. the proposed development lies adjacent to an existing service road;
provided that the Landscaping and building treatments minimize the perception of massing and create a high standard of building appearance.
5. For buildings greater than 3 000 m² in Floor Area and with a Height greater than 8.0 m, the Development Officer shall require that the building Setbacks required in subsection 813.4(4), above be increased to minimize the perceived mass of the building and to ensure a high standard of appearance. The maximum building Setback required by the Development Officer shall not exceed one-half of the length of the building wall located next to the property line from which the Setback is measured. For the purpose of determining Height in this subsection, an architectural feature, such as a tower or peak, which is proposed to reduce the perceived mass of the building or to add architectural interest, as required by subsection 813.4(3)(a), above, shall be excluded from the calculation of the Height of the building.

*Bylaw 15735
June 20, 2011*

6. a) Setbacks with a minimum Width of 7.5 m shall be provided adjacent to Major Arterial Roads within the Major Commercial Corridors and adjacent Arterial Roads that directly intersect such Major Arterial Roads. However, the Development Officer may use variance power to reduce this Setback requirement to a minimum Width of 4.5 m, provided that:
 - i. the average Width of the Setback is not less than 6.0 m; and
 - ii. this Setback width relaxation is required to allow for a more efficient utilization of the Site and the relaxation shall result in an articulation of the Setback width that shall enhance the overall appearance of the Site.

*Bylaw 17672
June 27, 2016*

- b) within the Setback areas specified above, a minimum of five deciduous trees (with a minimum Caliper of 6 cm), three coniferous trees (with a minimum Height of 3.0 m), and 20 shrubs shall be required for each 35.0 m of lineal Yard Frontage. A continuous screen, an average of 0.75 m in Height, shall be provided within the required Setback area, through a combination of berming and shrub planting.

*Bylaw 15735
June 20, 2011*

7. a) Where:
 - i. the proposed development, or the proposed development in

Edmonton Zoning Bylaw 12800

conjunction with any existing development, does not exceed a Floor Area of 1 000 m² nor 7.0 m in Height; and

- ii. the architectural treatment of the building façades, as well as the juxtaposition of the buildings on the Site minimizes the perceived massing of the development when viewed from the adjacent arterial roads,

The Development Officer may use variance power to reduce the required minimum Setback Width specified in subsection 813.4(6) above to 4.5 m or to the minimum Setback Width specified in the underlying Zone, whichever is greater, adjacent to those Arterial Roads that directly intersect the Major Arterial Roads. This Setback Width of 4.5 m may be further reduced to that specified by the underlying Zone, for that portion of the Site beyond a distance of 15.0 m from the adjacent intersecting Major Arterial Roads.

- b) The berming provision specified by subsection 813.4(6) above shall not be required in this reduced Setback area; however, the planning treatment specified by subsection 813.4(6) shall apply.

*Bylaw 15735
June 20, 2011
Bylaw 16488
July 2, 2013*

8. An application for a new development or for an addition to existing building(s) shall be accompanied by a Site plan that shows the location of easement area(s) for all existing and proposed servicing infrastructure on the Site. The Development Officer, in consultation with the affected utility departments, shall require that the minimum building Setbacks and the minimum Width of Setbacks specified in this Overlay, be varied where such adjustments may be necessary to ensure:
 - a. that proposed buildings do not conflict with existing or proposed servicing infrastructure; and
 - b. that the type, amount and location of Landscaping, including berms, can be provided in a manner that does not conflict with existing or proposed servicing infrastructure.
9. Conceptual Landscape Plans shall be submitted, with the initial Development Permit Application, for review by the Development Officer. Prior to the issuance of the Development Permit, detailed Landscaping Plans shall be submitted to and approved by the Development Officer. All Landscaping Plans shall comply with the requirements specified by this Overlay to ensure a high standard of appearance and a sensitive transition for the surrounding land Uses.
10. Vehicular entrances and exits, as well as on-site and off-site traffic and pedestrian routes, shall be located and designed in a manner that provides a clearly defined, safe, efficient and convenient circulation pattern for both on-site and off-site vehicular traffic and pedestrian movements, including handicapped movements. Loading bays shall be located in such a manner as not to impede the safe and efficient flow of traffic and pedestrian movement and to minimize impacts on adjacent land Uses.

Edmonton Zoning Bylaw 12800

*Bylaw 17831
November 28, 2016*

11. Adjoining Sites shall be integrated by direct on-site access connections to facilitate convenient, efficient and free flowing vehicular traffic and pedestrian movements between Sites, wherever such access is not prohibitive due to such factors as Grade, Site configurations and the location of existing development, including utility services, and where integration is desirable due to the existing or potential type of adjacent Use. The Development Officer shall waive this requirement if the applicant for the Development Permit can show that after reasonable effort, exercised over a period of no less than 60 days, the applicant has been unable to obtain the required consent from the adjacent property owner(s) for integration and inter-site connections.
12. All on-site services for power, telephone and C.A.T.V. shall be underground. Underground power services shall also be provided for Signs requiring such services.
13. Notwithstanding any other provisions of the Zoning Bylaw, individual business identification signs located on the facades of buildings, shall be similar in proportion, construction materials and placement. The Sign shall be designed and located so as to ensure that the signage does not detract from the overall appearance of the development and is not obtrusive, having regard to the scale of the buildings on the Site and to the distance of the building Setback.
14. Gas Bars, Minor and Major Service Stations and Rapid Drive-through Vehicle Services shall be developed in accordance with the following additional criteria: in addition to the requirements of Section 72, any canopy located over the gas pump islands shall be designed and finished in a manner consistent with the design and finishing of the principal building, such that the canopy is not obtrusive and maintains consistency with the eave line of the principal building.

814 Mature Neighbourhood Overlay

814.1 General Purpose

The purpose of this Overlay is to ensure that new low density development in Edmonton's mature residential neighbourhoods is sensitive in scale to existing development, maintains the traditional character and pedestrian-friendly design of the streetscape, ensures privacy and sunlight penetration on adjacent properties and provides opportunity for discussion between applicants and neighbouring affected parties when a development proposes to vary the Overlay regulations.

814.2 Area of Application

1. This Overlay applies to all Sites zoned RF1, RF2, RF3, RF4 and RF5 within the areas shown on the Appendix to this Overlay.

814.3 Development Regulations

*Bylaw 16271
March 18, 2013
Bylaw 17556
March 14, 2016*

1. The Front Setback shall be a minimum of 3.0 m and shall be consistent within 1.5 m of the Front Setback on Abutting Lots and with the general context of the blockface. Separation Space and Privacy Zone shall be reduced to accommodate the Front Setback requirement where a Principal Living Room

Edmonton Zoning Bylaw 12800

Window faces directly onto a local public roadway, other than a Lane. However, on a Corner Site, in the (RF3) Small Scale Infill Development Zone, where Row Housing, Stacked Row Housing or Apartment Housing faces the flanking Side Lot Line, the following regulations shall apply:

- a. For Lots where the Front Setback of the Abutting Lot is 9.0 m or less, the Front Setback shall be a maximum of 6.0 m.
 - b. For Lots where the Front Setback of the Abutting Lot is greater than 9.0 m and less than 11.0 m, the Front Setback shall be a maximum of 7.0 m and shall be within 3.0 m of the Front Setback of the Abutting Lot.
 - c. For Lots where the Front Setback of the Abutting Lot is 11.0 m or greater, the Front Setback shall be within 4.0 m of the Front Setback of the Abutting Lot.
2. Where the Site Width is less than 18.3 m, the Side Setback requirements of the underlying Residential Zone shall apply.
 3. Where the Site Width is 18.3 m or greater:
 - a. Side Setbacks shall total 20% of the Site Width but shall not be required to exceed 6.0 m in total;

*Bylaw 17556
March 14, 2016*

- b. the minimum interior Side Setback shall be 2.0 m, except if the requirements of the underlying Zone are greater, the underlying Zone requirements shall apply; and
- c. on a Corner Site, the Side Setback requirements on the flanking public roadway, other than a Lane, shall be in accordance with the requirements of the underlying Zone.

*Bylaw 17727
August 22, 2016*

4. Where a structure is two or more Storeys and an interior Side Setback is less than 2.0 m, the applicant shall provide information regarding the location of windows and Amenity Areas on Abutting properties, and the windows of the proposed development shall be located to minimize overlook into Abutting properties or the development shall incorporate design techniques such as, but not limited to, incorporating vegetative Privacy Screening, translucent window treatment or raised windows to minimize overlook into Abutting properties, to the satisfaction of the Development Officer.
5. The minimum Rear Setback shall be 40% of Site depth. Row Housing not oriented to a public roadway is exempt from this Overlay requirement.
6. Notwithstanding Section 44 of this Bylaw, a single Storey Platform Structure may project a maximum of 2.0 m into a Front Setback from the first Storey of a Dwelling, provided that a minimum of 3.0 m is maintained between the Front Lot Line and the Platform Structure.
7. Notwithstanding Section 44 of this Bylaw, a single Storey Platform Structure may project a maximum of 2.0 m from the first Storey of a Dwelling into a Side Setback abutting a flanking public roadway other than a Lane, providing there is at least 1.5 m between the property line and the Platform Structure.
8. Platform Structures greater than 1.0 m above Grade shall provide privacy

Edmonton Zoning Bylaw 12800

screening to prevent visual intrusion into adjacent properties.

9. Principal buildings shall face a public roadway other than a Lane.
10. Regardless of whether a Site has existing vehicular access from the front or flanking public roadway, there shall be no such access where an abutting Lane exists, and
 - a. a Treed Landscaped Boulevard is present along the roadway adjacent to the property line;
 - b. the Site Width is less than 15.5 m; or
 - c. fewer than 50% of principal Dwellings on the blockface have vehicular access from the front or flanking roadway.
11. If vehicular access is provided from a public roadway other than a Lane, a Garage may only protrude beyond the front wall of the principal building a distance that is characteristic of the majority of existing Garages on the blockface. The Garage may have a width that does not exceed the width of the majority of existing Garages on the blockface.
12. The maximum width of a façade of Row Housing, Stacked Row Housing or Apartment Housing that faces a public roadway shall be 48.0 m.
13. The maximum Height shall not exceed 8.6 m in accordance with Section 52.
14. The Floor Area of the upper half Storey of a 2 1/2 Storey building shall not exceed 50% of the structure's second Storey Floor Area.
15. When a structure is more than 7.5 m in Height, the width of any one dormer shall not exceed 3.1 m. In the case of more than one dormer, the aggregate total width shall not exceed one third of the length of the building's wall in which the dormers are located, excluding attached Garage walls.
16. The Basement elevation of structures of two or more Storeys in Height shall be no more than 1.2 m above Grade. The Basement elevation shall be measured as the distance between Grade level and the floor of the first Storey.
17. The minimum distance from the Rear Lot Line to a detached Garage where the vehicle doors face the Lane shall be 1.2 m.
18. Rear attached Garages shall not be allowed, except on Corner Sites where the Dwelling faces the flanking public roadway.
19. For Single Detached Housing, Duplex Housing and Semi-detached Housing with no Lane access, with a front or side attached Garage, the Garage shall be developed in accordance with the following:
 - a. The Garage shall be constructed to accommodate a maximum of two vehicles;
 - b. Front attached Garages for Semi-detached Housing and Duplex Housing shall be designed so that the Garage is attached to a shared common wall and includes a shared driveway apron;
 - c. Building mass shall be articulated through features such as recessions or off-sets, architectural treatments, and landscaping; and

*Bylaw 16733
July 6, 2015*

Edmonton Zoning Bylaw 12800

- d. Each Dwelling shall have an entrance door or entrance feature at the front of the structure and oriented toward the roadway.
- 20. A rear detached Garage shall be fully contained within the rear 12.8 m of the Site.
- 21. For Stacked Row Housing and Row Housing the maximum width of a rear detached Garage shall be 12.0 m. Rear detached Garages for Row Housing on Corner Sites oriented towards the flanking street shall have a maximum width of 14.0 m. Garages shall be separated by a minimum of 1.8 m.
- 22. A principal building shall be separated from a rear detached Garage by a minimum of 3.0 m.

*Bylaw 17832
November 28, 2016*

- 23. The Development Officer shall have regard for any applicable Statutory Plan and may, where a Statutory Plan specifies, notwithstanding Section 11.3 of this Bylaw, vary the regulations of both this Overlay and the underlying Zone as they affect Height, Density and Floor Area Ratio. In all cases, the variances shall be within the ranges specified in the Statutory Plan. In all such cases, the application shall be a Class B Development Permit and the pre-application consultation provisions of subsection 814.3(24) shall apply.
- 24. When a Development Permit application is made and the Development Officer determines that the proposed development does not comply with the regulations contained in this Overlay:
 - a. the applicant shall contact the affected parties, being each assessed owner of land wholly or partly located within a distance of 60.0 m of the Site of the proposed development and the President of each affected Community League;
 - b. the applicant shall outline, to the affected parties, any requested variances to the Overlay and solicit their comments on the application;
 - c. the applicant shall document any opinions or concerns, expressed by the affected parties, and what modifications were made to address their concerns; and
 - d. the applicant shall submit this documentation to the Development Officer no sooner than twenty-one calendar days be replaced after giving the information to all affected parties.

814.4 Additional Development Regulations for Specific Areas

- 1. The following regulations shall apply to row housing development abutting 109 Street between the north side of 62 Avenue and the south side of 69 Avenue:

*Bylaw 15735
June 20, 2011*

- a. the minimum Setback abutting 109 Street shall be 3.0 m; and

*Bylaw 17973
April 24, 2017*

- b. a pedestrian Walkway system shall be provided along the adjacent portion of 109 Street with the following features:
 - i. a sidewalk with an unobstructed walking width of 2.0 m;

Edmonton Zoning Bylaw 12800

- ii. a landscaped boulevard 2.0 m wide separating the sidewalk from 109 Street; and
- iii. boulevard trees at a 6.0 m spacing.

*Bylaw 17973
April 24, 2017*

The pedestrian Walkway system should maintain continuity with the design that has been constructed for other new developments along 109 Street. Utility relocation which may be required to construct the pedestrian Walkway system shall be at the expense of the developer.

815 Medium Density Residential Overlay

815.1 General Purpose

The purpose of this Overlay is to accommodate the development of medium density housing in established areas of the City that is compatible, in mass and scale, with existing forms of lower and medium density development and that maintains the pedestrian-friendly character and streetscape of these established areas.

*Bylaw 15786
July 18, 2011*

815.2 Application

This Overlay applies to lands zoned RA8 in the areas shown on the Appendices to this Overlay.

2. The maximum Height shall not exceed 14.5 m for flat, mansard and gambrel roofs, or 16.0 m for a roof type with a pitch of 4/12 (18.4 degrees) or greater, in accordance with Section 52. The Floor Area of the fourth Storey shall be Stepback a minimum of 2.0 m from the front wall of the building. In the case of a Corner Lot, this Stepback shall apply to both street facing Façades. Where the development abuts a property where Single Detached Housing is a Permitted Use, the entire fourth Storey shall be Stepback a minimum of 2.0 m adjacent to the property where Single Detached Housing is a Permitted Use.

*Bylaw 16733
July 6, 2015*

3. Any habitable Basement development shall be counted as a Storey of development. Where the Basement consists of non-habitable development, the

Edmonton Zoning Bylaw 12800

floor of the first Storey shall not be constructed more than 1.2 m above Grade.

4. Vehicular access to parking shall be from the abutting Lane. Where there is no Lane, parking access shall be designed to minimize disruption to the yard, sidewalk and existing trees.
5. There shall be a regular pattern of front entrances along an abutting public roadway, other than a Lane. This may be achieved through such means as:
 - a. all ground floor Dwellings, with street frontage, shall have an entrance that fronts onto the street; or
 - b. all Dwellings shall have direct access to a front entrance hall. A front entrance hall shall serve only those units on either side of the entrance, with each front entrance serving no more than 12 Dwellings.

*Bylaw 15735
June 20, 2011*

6. One Storey features, such as bay windows, front porches, entrance features, etc., shall be allowed to project into a Front Setback or Side Setback abutting a flanking roadway to a maximum of 2.0 m, provided that a minimum Setback of 3.0 m is maintained between the property line and the projection. Separation Space shall be reduced to accommodate these projections.
7. Architectural treatment of all façades of the building shall create a unified building exterior. The building shall include the following design elements to reduce the perceived mass and add architectural interest:
 - a. articulation of the façade;
 - b. creation of architectural pattern;
 - c. the use of recessions and projections, such as porches, bay windows and entrance features; and
 - d. the use of a variety of exterior building cladding materials and colours.

*Bylaw 16733
July 6, 2015*

8. Where the Basement consists of non-habitable development, that portion of the Basement above Grade, which faces onto a public roadway, other than a Lane, shall be concealed through such means as extension of the façade treatment, use of planters and Landscaping.
9. Balconies shall not comprise more than 50% of a façade facing a public roadway, other than a Lane. Balconies facing a public roadway, other than a Lane, shall appear to be recessed or partially recessed.

*Bylaw 12808
May 30, 2001

June 20, 2011*

10. The minimum Side Setback shall be 1.5 m. This Side Setback requirement shall also apply to Apartments or Stacked Row Housing located adjacent to a Site where Single Detached Housing is a Permitted Use. Where the Side Yard abuts an arterial public roadway other than a lane, the minimum Side Setback shall be 4.5 m. Separation Space shall be reduced to accommodate these Side Setback requirements, except where a Principal Living Room Window faces an interior Side Yard.

11. The Development Officer shall have regard for any applicable Statutory Plans and may, where a Statutory Plan specifies, notwithstanding Section 11.3 of this Bylaw, vary the regulations of both this Overlay and the underlying Zone as they affect Height, Density and Floor Area Ratio. In all cases the variances shall be within the ranges specified in the Statutory Plan. In all such cases, the application shall be a Class B Discretionary Development and the pre-application consultation provisions shall apply.
12. Where an application for a Development Permit does not comply with the regulations contained in this Overlay:
 - a. the applicant shall contact the affected parties, being each assessed owner of land wholly or partly located within a distance of 60.0 m of the Site of the proposed development and the President of each affected Community League, at least 21 days prior to submission of a Development Application;
 - b. the applicant shall outline, to the affected parties, any requested variances to the Overlay and solicit their comments on the application;
 - c. the applicant shall document any opinions or concerns, expressed by the affected parties, and what modifications were made to address their concerns; and
 - d. the applicant shall submit this documentation as part of the Development Application.

*Bylaw 17831

The purpose of this Overlay is to accommodate the development of high density housing in established areas of the City that is compatible, in mass and scale, with existing forms of lower and medium density development and maintains the pedestrian friendly character and streetscape of these established areas.

816.2 Application

This Overlay applies to Sites zoned RA9 in the areas shown on Appendices to this Overlay.

816.3 Development Regulations

*Bylaw 15735
June 20, 2011*

1. The Front Setback shall be consistent, within 1.0 m, with the Setback of development on adjacent Sites and with the general context of the block face but shall not be less than 5.0 m.

*Bylaw 16733
July 6, 2015*

2. The maximum Height shall not exceed 23.0 m in accordance with Section 52.
3. Any habitable Basement development shall be counted as a Storey of development. Where the Basement consists of non-habitable development, the floor of the first Storey shall not be constructed more than 1.2 m above Grade.
4. Vehicular access to parking shall be from the abutting Lane. Where there is no Lane, parking access shall be designed to minimize disruption to the yard, sidewalk and existing trees.
5. Architectural treatment of all façades of the building shall create a unified building exterior. The building shall include the following design elements that shall reduce the perceived mass and add architectural interest:
 - a. articulation of the façade;
 - b. creation of architectural pattern;
 - c. the use of recessions and projections, such as porches, bay windows and entrance features; and
 - d. the use of a variety of exterior building cladding materials and colours.

*Bylaw 16733
July 6, 2015*

6. Where the Basement consists of non-habitable development, that portion of the Basement above Grade, which faces onto a public roadway, other than a Lane, shall be concealed through such means as extension of the façade treatment, use of planters and Landscaping.
7. Balconies shall not comprise more than 50% of a façade facing a public roadway, other than a Lane. Balconies facing a public roadway, other than a Lane, shall be recessed or the building shall be articulated to provide some privacy to the balcony areas.

Edmonton Zoning Bylaw 12800

*Bylaw 15735
June 20, 2011*

8. One Storey features, such as bay windows, front porches, entrance features, etc., shall be allowed to project into a Front Setback or Side Setback abutting a flanking roadway, other than a Lane, to a maximum of 2.0 m, provided that a minimum Setback of 3.0 m is maintained between the property line and the projection. Separation Space requirements shall be reduced to accommodate these projections.

*Bylaw 15735
June 20, 2011*

9. A minimum Side Setback of 2.0 m shall be required. Where the Side Yard abuts a flanking public roadway, other than a Lane, a minimum Side Setback of 3.0 m shall be required. Where the Side Yard abuts an arterial roadway, a minimum Side Setback of 4.5 m shall be required. Separation Space shall be reduced to accommodate these Side Setback requirements, except where a Principal Living Room Window faces an interior Side Yard.

*Bylaw 17832
November 28, 2016*

10. The Development Officer shall have regard for any applicable Statutory Plan and may, where a Statutory Plan specifies, notwithstanding Section 11.3 of this Bylaw, vary the regulations of both this Overlay and the underlying Zone as they affect Height, Density and Floor Area Ratio. In all cases, the variances shall be within the ranges specified in the Statutory Plan. In all such cases, the application shall be a Class B Discretionary Development and the pre-application consultation provisions shall apply.
11. Where an application for a Development Permit does not comply with the regulations contained in this Overlay:
 - a. the applicant shall contact the affected parties, being each assessed owner of land wholly or partly located within a distance of 60.0 m of the Site of the proposed development and the President of each affected Community League, at least 21 days prior to submission of a Development Application;
 - b. the applicant shall outline, to the affected parties, any requested variances to the Overlay and solicit their comments on the application;
 - c. the applicant shall document any opinions or concerns, expressed by the affected parties, and what modifications were made to address their concerns; and
 - d. the applicant shall submit this documentation as part of the Development Application.

818 Secondhand Stores and Pawn Stores Overlay

818.1 General Purpose

The purpose of this Overlay is to supplement the regulations of Commercial Zones regarding Secondhand Stores and Pawn Stores in order to require parties interested in developing such Uses to consult with surrounding property owners, prior to applying for a Development Permit.

Edmonton Zoning Bylaw 12800

818.2 Application

1. This Overlay applies additional regulations to Secondhand Stores and Pawn Stores when contained in the underlying Commercial Zones of those lands identified in the Appendices to this Overlay.
2. Notwithstanding that a Secondhand Store or Pawn Stores does not conform to this Overlay, where a Development Permit was issued for the development prior to the adoption of this Overlay, such development shall be deemed to conform to the regulations contained within this Overlay.

818.3 Development Regulations

When there is a Development Application for Secondhand Stores and Pawn Stores:

1. the applicant shall contact the affected parties, being each assessed owner of land wholly or partly located within a distance of 60.0 m of the Site of the proposed development and the President of each affected Community League and the President of each Business Revitalization Zone Association operating within the distance described above, at least 21 days prior to submission of a Development Application;
2. the applicant shall outline, to the affected parties, the details of the application and solicit their comments on the application;
3. the applicant shall document any opinions or concerns, expressed by the affected parties, and what modifications were made to address their concerns; and
4. the applicant shall submit this documentation as part of the Development Application.

819 Pedestrian Commercial Shopping Street Overlay

819.1 General Purpose

The purpose of this Overlay is to maintain the pedestrian-oriented character of commercial areas, comprised of shopping streets in close proximity to residential areas of the City.

819.2 Application

This Overlay applies to all Commercial Zones on those lands shown in the Appendices to this Overlay.

819.3 Development Regulations

1. Where the underlying Zone allows Specialty Food Services, Restaurants, Bars and Neighbourhood Pubs, or Nightclubs as a Permitted or Discretionary Use, these Uses shall not exceed an occupant load of 200 nor 240 m² of Public Space. Notwithstanding subsections 11.3 and 11.4, and that larger facilities may be listed as Discretionary Uses, variances shall not be granted to this regulation unless otherwise specified by a Statutory Plan applicable to the Site
2. The maximum Frontage for Sites abutting a commercial shopping street shall be 10.06 m or consistent with the Frontage of other Sites abutting the shopping street and, where the Frontage for Sites abutting the commercial shopping street exceeds 10.06 m or the consistent development pattern for the

Edmonton Zoning Bylaw 12800

street, the front façade of the building shall be designed to break the appearance into 10.06 m sections or modules consistently sized with other buildings on the shopping street.

3. Buildings shall be built to the front and side property lines. The Development Officer may allow building Setbacks up to 2.5 m to accommodate street related activities, such as sidewalk cafes, architectural features and Landscaping that contribute to the pedestrian-oriented shopping character of the area.

*Bylaw 16733
July 6, 2015*

4. The maximum Height for Hotel and Apartment Hotel developments shall not exceed 23.0 m in accordance with Section 52 for buildings fronting onto an arterial roadway, and shall not exceed 15.0 m nor four Storeys for buildings fronting onto a collector or local roadway.
5. At Grade Frontage shall be developed for Commercial Uses and, where a Hotel is to be developed, a maximum 30% of the first Storey Frontage shall be used for lobbies, with the remaining floor space used for Commercial Uses.
6. The minimum Setback of the principal front wall of a residential development, above the second Storey, for buildings on all Sites not fronting onto an arterial roadway, shall be 4.5 m.
7. Vehicular access to properties from a public roadway shall be restricted to the abutting Lanes to preclude breaks in the street façade and strengthen the pedestrian-oriented character of the area. Where there is no abutting Lane, vehicular access shall be provided from a flanking public roadway.
8. The minimum number of off-street parking spaces required shall be in accordance with the provisions of Section 54, Schedule 1 of this Bylaw, except that:

*Bylaw 16591
September 16, 2013
Bylaw 16733
July 6, 2015*

- a. for Professional, Financial and Office Support Services at Grade, parking shall be provided on the basis of 1 parking space per 90.9 m² of Floor Area and no parking spaces shall be required for this Use on upper floors;

*Bylaw 17600
April 4, 2016*

- b. for Specialty Food Services, Restaurants, Bars and Neighbourhood Pubs, and Nightclubs, parking shall be provided on the basis of one parking space per 4.8 m² of Public Space, except for when the proposed development is on a Lot within the boundaries described in Section 54.2 Appendix II - Boundaries for Reduced Parking Requirement, the parking requirements in Section 54.2 Schedule 1(A) shall apply;

*Bylaw 16945

822. Edmonton-Strathcona County Joint Planning Study Area Secondary, Garage and Garden Suites Overlay

822.1 General Purpose

*Bylaw 17831
November 28, 2016*

The purpose of this Overlay is to limit the expansion of Secondary Suites and to limit the creation of any Garage and Garden Suites within a portion of the Edmonton-Strathcona County Joint Planning Study Area to the Use opportunity that existed prior to the adoption of Bylaw 14750, in order to limit residential intensification in proximity to Industrial Uses until such time as more definitive criteria may be established to prescribe residential development within the Study Area, at which time this Overlay may be subject to amendment.

822.2 Application

Notwithstanding any provisions of the Zoning Bylaw respecting the area of application of Overlays, this Overlay applies to all Zones on those lands shown in Appendix 1 to this Overlay.

822.3 Development Regulations

*Bylaw 14757
March 10, 2008*

1. Notwithstanding Secondary Suites being listed as Permitted or Discretionary Uses within the following zones, Secondary Suites shall be allowed within the portion of the proposed Edmonton-Strathcona County Joint Planning Area contained within the City of Edmonton, representing a buffer area 1.5 km wide, as shown in Appendix 1, only in accordance with the following:
 - a. Secondary Suites shall be Discretionary Uses within the RF1, RF2 and RSL Zones where the Side Lot Line abuts a lot in an Industrial, Commercial, Row Housing, or Apartment Zone, or is not separated from it by a public roadway more than 10.0 m wide.
 - b. Secondary Suites shall be a Permitted Use within the RF3 Zone where the Side Lot Line abuts a lot in an Industrial, Commercial, Row Housing, or Apartment Zone, or is not separated from it by a public roadway more than 10.0 m wide. In all other cases, Secondary Suites shall be a Discretionary Use in the RF3 Zone.
 - c. Secondary Suites shall be a Discretionary Use within the RF4 Zone.
 - d. Secondary Suites shall not be allowed within the RPL and RR Zones.
 - e. Notwithstanding 86(1), the minimum Site size for a Secondary Suite in any Zone shall be 100 m² in addition to the minimum required Site size for the principal Dwelling.

*Bylaw 15036

2. Building Design

- a. All ground Storey Apartment Dwellings adjacent to a public roadway other than a Lane shall have a private exterior entrance that fronts onto the roadway. Sliding patio doors shall not serve as this entrance.
- b. The principal entrance of each Stacked Row Housing Dwelling shall front onto a public roadway other than a Lane. Sliding patio doors shall not serve as this entrance.
- c. Architectural treatment of all facades of the building shall create a unified building exterior. The building shall incorporate design elements to reduce the perceived mass and add architectural interest, including but not limited to:
 - i. clear articulation of the façade, using a defined pattern of projections and recessions;
 - ii. the use of a variety of exterior building cladding materials and colours; and
 - iii. a prominent front entrance for Apartment Housing.
- d. Building components such as windows, doors, trim, columns, balconies, stairs, and roofline features should be in proportion to one another and to the overall mass of the building.
- e. Individual Stacked Row Housing Dwellings shall be defined through the use of a combination of architectural features such as, but not limited to, individual rooflines or roofline features, projection or recession of the façade, individual porches or entrance features, and building materials.
- f. To maximize integration with the surrounding neighbourhood, development should:
 - i. be sympathetic to fundamental design elements, proportions, and building materials found within the neighbourhood; and
 - ii. be constructed with durable, quality materials.
- g. Elements of the development and of individual dwellings such as windows, doors, balconies, Amenity Areas and Private Outdoor Amenity Areas should be sited, oriented and designed to minimize their impact on adjacent dwellings, considering such things as daylight, sunlight, ventilation, quiet, visual privacy, shadowing, views, and noise.
- h. Except as provided in Section 823.3(3)(a), features that span either the first Storey or the first and second Storeys, such as bay windows, porches and entrance features, shall be allowed to project into a Front Yard or Side Yard abutting a flanking roadway to a maximum of 2.0 m, provided that a minimum Setback of 3.0 m is maintained between the property line and the projection. Separation Space shall be reduced to accommodate these projections.
 - i. Where the Basement consists of Non-Habitable Rooms, the portion of the Basement located above Grade shall be concealed through means

such as but not limited to extending the facade treatment or creative Landscaping including planters.

- j. The length of balconies shall not comprise more than 50% of any building facade. Balconies shall be designed as integral components of buildings and shall be recessed or partially recessed.

3. Amenity Area

- a. A minimum Private Outdoor Amenity Area of 7.5 m² shall be provided for each Apartment Housing Dwelling except that for ground Storey Dwellings a minimum of 15.0 m² of Private Outdoor Amenity Area shall be provided.
- b. Notwithstanding Section 47 of this Bylaw, the Private Outdoor Amenity Area for Apartment Housing Dwellings shall have a minimum width and length of 2.0 m and may be located within a Front Setback provided that a minimum Setback of 1.0 m is maintained between the property line and the Private Outdoor Amenity Area.
- c. Development containing ten (10) to nineteen (19) Apartment Housing Dwellings shall provide a minimum of 2.5 m² of common Amenity Area per Dwelling in addition to the 7.5 m of Private Outdoor Amenity Area required under Section 823.3(3)(a). Common Amenity Area shall be designed to facilitate active or passive recreational activities and shall:
 - i. be located outdoors at ground level,
 - ii. be aggregated into areas of not less than 25.0 m²,
 - iii. have a minimum width and length of 4.0 m,
 - iv. have access to sunlight,
 - v. include seating and artificial lighting, and
 - vi. be directly accessible from the building.
- d. Development containing twenty (20) Apartment Housing Dwellings or more shall provide a minimum of 2.5 m² of common Amenity Area per Dwelling in addition to the Private Outdoor Amenity Area required in Section 823.3(3)(a). A minimum of 50 m² of common Amenity Area shall be provided outdoors at Grade. Any remaining area required may be provided indoors or outdoors or a combination thereof, but shall be aggregated into areas of at least 25.0 m².
 - i. Where provided outdoors, the common Amenity Area shall be designed to facilitate active or passive recreational activities and shall:
 - 1. have a minimum width and length of 5.0 m,
 - 2. be within clear view of several residential units when provided at ground level,
 - 3. be designed to minimize overlook into abutting Sites when provided on a rooftop or building terrace,

Edmonton Zoning Bylaw 12800

4. have access to sunlight,
 5. include seating and artificial lighting, and
 6. be directly accessible from the building.
- ii. Where provided outdoors, the common Amenity Area should:
1. be located between buildings to break up the massing of development along the block face when a development contains two or more buildings.
- iii. Where provided indoors, common Amenity Area shall:
1. be separate from a building's common utility areas (e.g. lobbies, corridors, and vestibules),
 2. include furniture and fixtures that accommodate small social gatherings and/or active recreational pursuits (e.g. tables and chairs, kitchen facilities, exercise or play equipment), and
 3. provide access to other public areas within the building and to any outdoor communal recreation space.
- e. Notwithstanding any other regulation of this Bylaw, the common Amenity Area or Private Outdoor Amenity Area may be located within any Yard. A minimum Setback of 1.0 m is required between an Amenity Area or Private Outdoor Amenity Area and any property line that abuts a public street.

4. Landscaping

- a. In addition to the requirements of Section 55 of this Bylaw, the required Landscape Plan shall demonstrate:

*Bylaw 17727
August 22, 2016*

- i. the use of vertical landscaping features (e.g. hedges, decorative Fences, low walls, shrubs or other plant material) between surface parking areas and ground Storey Apartment Dwellings or ground Storey Stacked Row Housing Dwellings that look onto these areas,

*Bylaw 17727
August 22, 2016*

- ii. entry transitions including features such as steps, decorative Fences, gates, hedges, low walls, and planting beds between the public roadway and Dwellings that front or flank onto the public roadway, and

Bylaw 17973
April 24, 2017*

- a. Upgrading of public pedestrian Walkway systems, roads, or lanes adjacent to the Site may be required to the satisfaction of the Development Officer and Transportation Services. Such upgrading shall be incorporated into the Landscape Plan where the public pedestrian Walkway system includes a sidewalk and a landscaped boulevard.
- b. Vehicular access to parking shall be from the abutting Lane. Where there is no Lane, parking access shall be designed to minimize disruption to the Yard, sidewalk, existing trees, and existing streetscape and where possible, should be provided from the street which has the lowest vehicle volume.
- c. Where the frontage of a Site exceeds 46.0 m, surface parking areas (including stalls and drive aisles) shall not cover more than 15% of the Site.
- d. Any surface parking shall be located at the rear of the building.

6. Variance

*Bylaw 17832
November 28, 2016*

- a. The Development Officer shall have regard for any applicable Statutory Plans and may, where a Statutory Plan specifies, and notwithstanding Section 11.3 of this Bylaw, vary the regulations of both this Overlay and the underlying Zone as they affect Height, Density and Floor Area Ratio. In all cases the variances shall be within the ranges specified in the Statutory Plan. In all such cases, the application shall be a Class B Discretionary Development and shall comply with subsection 6(b) of this Overlay.
- b. Where an application for a Development Permit does not comply with the regulations contained in this Overlay:
 - i. the applicant shall contact the affected parties, being each assessed owner of land wholly or partly located within a distance of 60.0 m of the Site of the proposed development and the President of each affected Community League, at least 21 days prior to submission of a Development Application;
 - ii. the applicant shall outline, to the affected parties, any requested variances to the Overlay and solicit their comments on the application;
 - iii. the applicant shall document any opinions or concerns expressed by the affected parties, and what modifications were made to address their concerns; and
 - iv. the applicant shall submit this documentation as part of the Development Application.

shall be incorporated into the Landscape Plan where the public pedestrian walkway system includes a sidewalk and a landscaped boulevard.

- b. Vehicular access to parking shall be from the abutting Lane. Where there is no Lane, parking access shall be designed to minimize disruption to the Yard, sidewalk, existing trees, and existing streetscape and where possible, should be provided from the street which has the lowest vehicle volume.
- c. Where the frontage of a Site exceeds 46.0 m, surface parking areas (including stalls and drive aisles) shall not cover more than 15% of the Site.
- d. Any surface parking shall be located at the rear of the building.

10. Variance

- a. The Development Officer shall have regard for any applicable Statutory Plans and may, where a Statutory Plan specifies, and notwithstanding subsection 11.4 of this Bylaw, vary the regulations of both this Overlay and the underlying Zone as they affect Height, Density and Floor Area Ratio. In all cases the variances shall be within the ranges specified in the Statutory Plan. In all such cases, the application shall be a Class B Discretionary Development and shall comply with subsection 6(b) of this Overlay.
- b. Where an application for a Development Permit does not comply with the regulations contained in this Overlay:
 - i. the applicant shall contact the affected parties, being each assessed owner of land wholly or partly located within a distance of 60.0 m of the Site of the proposed development and the President of each affected Community League, at least 21 days prior to submission of a Development Application;
 - ii. the applicant shall outline, to the affected parties, any requested variances to the Overlay and solicit their comments on the application;
 - iii. the applicant shall document any opinions or concerns expressed by the affected parties, and what modifications were made to address their concerns; and
 - iv. the applicant shall submit this documentation as part of the Development Application.

823.4 Development Regulations for Permitted and Discretionary Uses, Except Stacked Row Housing and Apartment Housing

- 1. Development shall comply with the regulations contained in the Mature Neighbourhood Overlay.

823.5 Additional Development Regulations for Specific Areas

Bylaw 17422

November 16, 2015

- 1. The following additional regulations shall apply to residential development abutting 109 Street between the north side of 69 Avenue and the east west

Last Revised –May 2017

Edmonton Zoning Bylaw 12800

Lane between 81 Avenue and Whyte Avenue, as shown in Appendix 2 109 St Corridor to this Overlay:

- a. the Front Setback abutting 109 Street shall be a minimum of 3.0 m.
- b. the minimum Side Setback abutting 109 Street shall be 3.0 m;

*Bylaw 17973
April 24, 2017*

- c. a pedestrian Walkway system shall be provided along the adjacent portion of 109 Street with the following features:
 - i. a sidewalk with a clear walking width of 2.0 m;
 - ii. a landscaped boulevard 2.0 m wide separating the sidewalk from 109 Street; and
 - iii. boulevard trees at a 6.0 m spacing.

*Bylaw 17973
April 24, 2017*

The pedestrian Walkway system should maintain continuity with the design that has been constructed for other new developments along 109 Street. Utility relocation which may be required to construct the pedestrian Walkway system shall be at the expense of the developer.

2. The following additional regulation shall apply to residential development within the 'mixed low and medium density residential area' as defined in the Strathcona Area Redevelopment Plan, and shown in Appendix 3 Mixed Low and Medium Density Residential Area, Strathcona to this Overlay:

*Bylaw 16733
July 6, 2015*

- a. The maximum Height shall not exceed 11.0 m in accordance with Section 52.
 - b. Any Basement or attic development which contains a Habitable Room shall be deemed a Storey of development.
3. The following regulations shall apply to residential development within the 'walk up apartment area' as defined in the Strathcona Area Redevelopment Plan, and shown in Appendix 4 – Walk Up Apartment Area, Strathcona to this Overlay:

*Bylaw 16733
July 6, 2015*

- a. The maximum Height shall not exceed 14.5 m for flat, mansard and gambrel roofs, or 16.0 m for a roof type with a pitch of 4/12 (18.4 degrees) or greater, in accordance with Section 52. The front façade of the fourth storey shall be stepped back from the third storey by at least 2.5 m. In the case of a Corner Lot, this Stepback shall apply to both street facing façades.

850. Industrial Plan Overlays

850.1 General Purpose

*Bylaw 17831
November 28, 2016*

The purpose of this Overlay is to provide a means to alter Use and to alter or specify regulations for Uses and Use activities, in order to achieve the local planning objectives of an Industrial Statutory Plan.

850.2 Application

*Bylaw 17831
November 28, 2016*

1. This Overlay shall only be applied to Zones, Uses, Use activities or geographic areas where specified in an Industrial Statutory Plan.
2. This Overlay shall only be applied, through an amendment to the Zoning Bylaw, in the form of a schedule to this Overlay, which shall include:
 - a. the name of the applicable Statutory Plan and its boundaries;
 - b. a map at an appropriate scale, which indicates the designation, location and boundaries of each underlying Zone with altered or specified regulations, as provided for by this Overlay; and

*Bylaw 17831
November 28, 2016*

- c. every Use and regulation that is specified or altered by the Overlay, in accordance with the provisions of this Section.
3. This Overlay shall not be used:
 - a. to alter Part I of this Bylaw, except as provided for in this Section or to alter Part IV of this Bylaw;
 - b. in conjunction with a Direct Control provision; or
 - c. to allow more than one Single Detached Dwelling on a lot.

850.3 Development Regulations

1. Where this Overlay is applied, the regulations provided in its schedules shall be substituted for the specified regulations of the underlying Zone. Where there appears to be a conflict between the provisions of this Overlay and those of the underlying Zone, the provisions of this Overlay shall take precedence and effect.

*Bylaw 17831
November 28, 2016*

2. Where an Overlay for a Sub-Area Plan or Industrial Statutory Plan is applied, the regulations provided in its schedules shall replace those of the underlying Zone. Where the direction provided in a Sub-Area Plan departs from or enhances the direction, regarding Use or regulations as directed by the Industrial Statutory Plan, the appropriate substitution of specific regulations shall occur.
3. A schedule to this Overlay may establish development classes, may change or specify regulations and submission requirements and may specify the conditions under which such altered or specified regulations would apply, and,

Edmonton Zoning Bylaw 12800

without limiting the generality of this clause, may include:

- a. regulations pertaining to environmental considerations, which may include such things as geotechnical, flood protection, noise or emissions attenuation and servicing requirements;
- b. regulations pertaining to application requirements, public consultation or notification;
- c. regulations pertaining to parking and signage requirements;
- d. regulations pertaining to Landscaping, screening, architectural and Site design requirements; and
- e. regulations pertaining to Accessory Uses, activities or Structures.

*Bylaw 16859
June 24, 2014*

4. Notwithstanding clause (1), above, the provisions of the Floodplain Protection Overlay shall take precedence over the provisions of this Overlay.

Edmonton Zoning Bylaw 12800

860 The Quarters Overlay

*Bylaw 15037
April 15, 2009*

860.1. General Purpose

The purpose of this Overlay is to apply common regulations to a number of underlying Direct Control Provisions in order to achieve the objectives of The Quarters Area Redevelopment Plan and The Quarters Urban Design Plan.

860.2. Area of Application

Notwithstanding Section 800 of the Zoning Bylaw respecting the area of application of Overlays, this Overlay applies to the lands shown in Appendix I to this Overlay, except for those sites as noted.

860.3. Variance and Interpretation

1. The Development Officer may vary requirements such as building setbacks and building stepbacks, tower separation, built form and podium design, parking, glazing, and application of The Quarters Downtown Sustainable Development Standard Checklist as contained in Appendix IV provided consideration is given to the character of the built form, and its visual, shadow and other microclimatic impacts on adjacent development, and to the objectives of The Quarters Downtown Urban Design Plan and principles of Crime Prevention Through Environmental Design (CPTED).
2. The Development Officer may vary the minimum distance between individual high-rise developments in consideration of the following:
 - a. The visual, sun/shadowing, and other microclimatic impacts on adjacent residential development; and
 - b. The recommendations and mitigative measures specified in any required technical studies.

*Bylaw 17831
November 28, 2016*

3. The Development Officer may approve a residential or any non-Commercial Use for a maximum period of five years for any active commercial frontage as specified in Appendix II.

*Bylaw 16032

5. Development exceeding 23.0 m in accordance with Section 52 is considered a Tower to which the Urban Design Regulations for Towers shall apply.

*Bylaw 16733
July 6, 2015*

6. The Development Officer shall not vary maximum Floor Area Ratios, nor maximum building Heights specified in the underlying Direct Development Control Provisions or this Overlay.

*Bylaw 17828
January 23, 2017*

7. Notwithstanding Section 11.4.2 limitation of Variance, the Development Officer may consider reducing the minimum Floor Area Ratios or minimum building heights provided consideration is given to the character of the surrounding built form and the objectives of The Quarters Downtown Urban Design Plan.
8. Bicycle storage areas shall be exempted from Floor Area calculations.
9. The number of storeys noted in association with minimum and maximum Building Heights in this Overlay and the underlying Direct Control Provisions are provided for descriptive purposes only.

860.4. Development Regulations

1. General Provisions
 - a. The Development Officer shall have regard for The Quarters Downtown Urban Design Plan in applying the regulations of this Overlay.

4. Entrances
 - a. Where a Dwelling unit is developed at ground level abutting a public roadway, other than a lane, the principal entrance to the unit shall have direct external access to the abutting public sidewalk and feature doorways, terraces and / or patios and windows at ground level.
 - b. Residential and Residential Related Uses developed above ground level Commercial Uses shall have separate access at Grade.
 - c. Where a Commercial Use is developed at ground level abutting a public roadway other than a lane, the principal entrance to the unit shall have direct external access to the abutting public sidewalk.
 - d. Main building entrances for Apartment Housing and Commercial Uses shall be designed for universal accessibility.
 - i. Level changes from the sidewalk to entrances of buildings shall be minimized.
 - ii. Sidewalk furniture and other streetscape elements shall be located such that they do not obstruct a travel path and building entrances.

*Bylaw 17831
November 28, 2016*

- e. Entrances for all ground level Uses shall be placed not more than 15.0 m apart.
5. Weather protection in the form of a canopy, colonnade, galleria or any other method suitable to the architectural style of the sub-area, building or street theme shall be provided to support year-round use.
6. Architectural Control
 - a. All exposed building facades shall be architecturally treated to create a unified building exterior.

*Bylaw 17828
January 23, 2017*

- b. Architectural diversity and visual interest shall be created through:
 - i. the use of distinctive treatments at the main entrance of the development; and
 - ii. the articulation and incorporation of other design elements in the facades and rooflines.
 - c. A minimum of 70% of the ground floor level portion of the commercial façade abutting a public roadway, other than a lane, shall be comprised of clear, non-reflective glazing to promote pedestrian interaction and safety.
 - d. All mechanical equipment, including roof mechanical units, shall be integrated into the total building design.
 - e. Perceived massing shall be minimized through design elements such as building setback variations, building orientation, window placement, awnings, articulation around entrance ways, roof treatment, and the choice of exterior materials and colours.

*Bylaw 15498
July 19, 2010*

- f. All mid and high rise buildings should display a distinct base, middle and

Edmonton Zoning Bylaw 12800

top, except the areas known as The Armature Areas 1 and 2.

- g. The upper floors of high rise buildings shall provide distinctive shaping or sculpting of the roof line to contribute to a unique and interesting skyline.
- h. Dwellings and other elements of the development should be sited and oriented to minimize their impact on other dwellings, considering such things as daylight, sunlight, ventilation, quiet, visual privacy, shadowing and views.
- i. Overhangs will be permitted within the space of the setback and within public road right-of-ways at the discretion of the Development Officer in accordance with the guidelines provided in The Quarters Downtown Urban Design Plan.

*Bylaw 16733
July 6, 2015*

- j. Towers shall form one comprehensive architectural whole, both in form, building mass, and articulation. Podiums for towers shall include design elements that create a pedestrian oriented/scale built form where adjacent to circulation routes on public or private property. This can be created in various ways through setbacks and stepbacks in the building mass, building articulation, and through the architectural treatment of the façades.

*Bylaw 15498
July 19, 2010
Bylaw 16733
July 6, 2015*

- i. The tower base building shall integrate Residential and Commercial Uses, except the areas known as The Armature Areas 1 and 2, to provide a pedestrian-scaled building edge and complement adjacent buildings or open space. The base building should define street and open space edges.
- ii. The tower shall be designed and oriented to the site in a way that complements the base building, minimizes shadows and maximizes views for existing development.

*Bylaw 15498
July 19, 2010*

- iii. The average floor plate for the tower zone shall not exceed 750 m², except the areas known as The Armature Area 1 and 2.
- iv. The minimum separation space between any two Towers shall be 15.0m.

*Bylaw 16733
July 6, 2015*

- v. Development on the site shall provide gardens or patios on the top of the base building to improve rooftop aesthetics and provide additional amenity space, where physically and economically feasible.
- vi. Where property configuration permits, the longest axis of a tower shall be in the north/south direction in order to preserve view corridors and allow sunlight to reach street level.

*Bylaw 15498
July 19, 2010*

- vii. No side of a tower shall be more than 35.0 m long, except the areas known as The Armature Area 1 and 2.

Edmonton Zoning Bylaw 12800

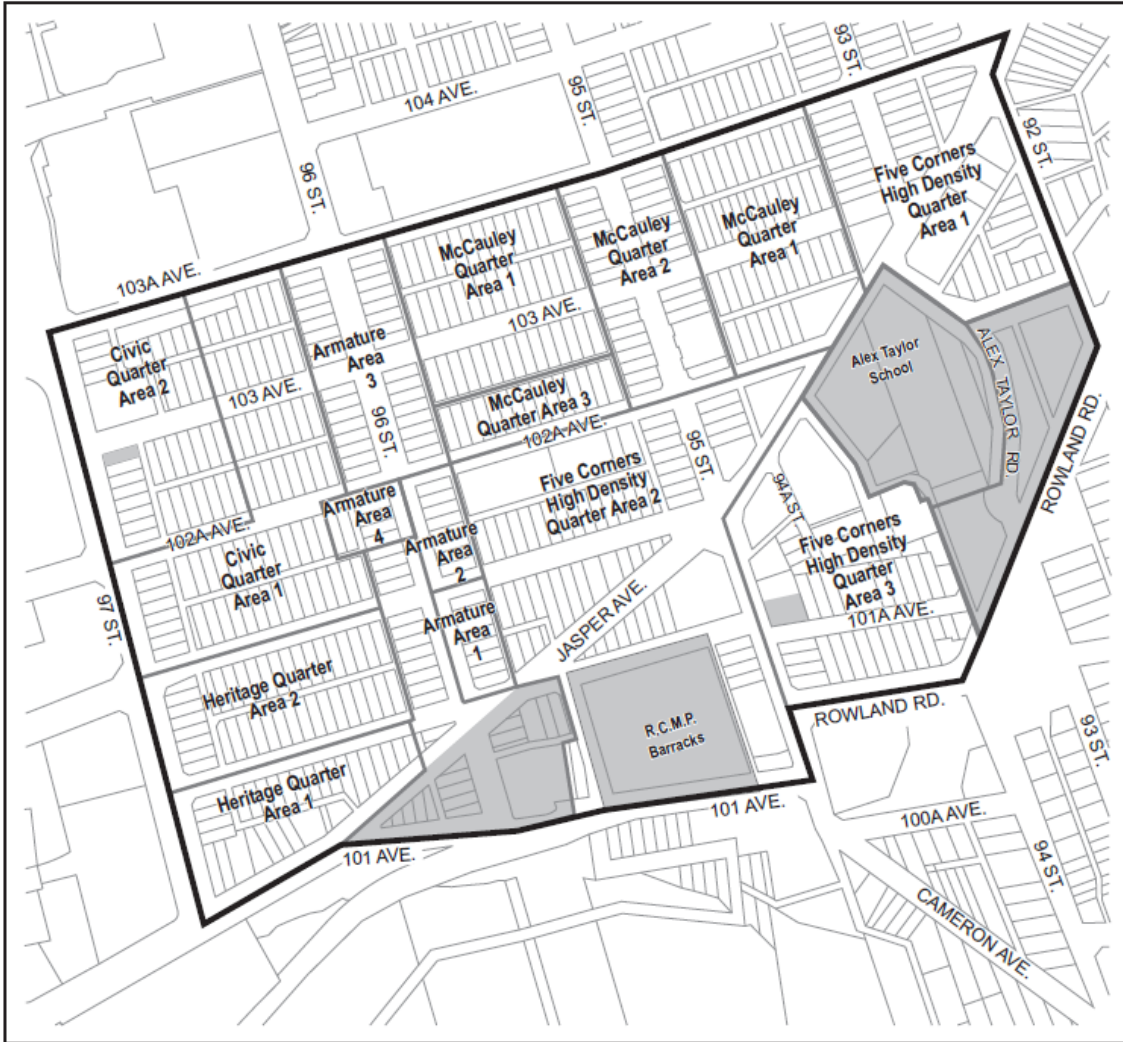

7. Public Art shall be incorporated into publicly accessible open spaces and provide a signature feature to the development. Public art may also be incorporated in the architecture, architectural facades and the facades of a building and landscaped areas.
8. Technical Study Requirements
 - a. Technical studies not required to accompany Development Permit applications for base level and Incentive Levels 1 or 2, as per Appendix IV include the following;
 - i. Sun Shadow Impact Study;
 - ii. Traffic Impact Assessment;
 - iii. Park Impact Assessment;
 - iv. Parking Impact Assessment;
 - v. Conceptual Site Servicing Report.
 - vi. Loading / Unloading and Waste Management

The above noted technical studies may be required to accompany Development Permit applications for Incentive Level 3 as per Appendix IV to the satisfaction of the Development Officer.

- b. Additional technical studies that may be required to accompany Development Permit Applications to the satisfaction of the Development Officer include, but are not limited to:
 - i. Wind Impact Statement or Study
 - ii. Slope and Soil Information;
 - iii. Environmental Site Assessment;
 - iv. A Letter prepared by a qualified, registered, Professional Architect or Engineer ensuring that building designs, through their massing and location, would avoid adverse microclimatic effects such as wind tunnelling, snow drifting, and rain sheeting, and would minimize shadowing and loss of sunlight both on and off-site.
 - v. A Crime Prevention Through Environmental Design (CPTED) Assessment that shall be reviewed and accepted by the Development Officer prior to the issuance of a Development Permit to ensure that development on the Site provides a safe urban environment in accordance with the guidelines and principles established in the Design Guide for a Safer City (City of Edmonton, 1995), which may be amended from time to time.

Floor Area Ratio (FAR) and Height Incentives

*Bylaw 17062
July 6, 2015*

1. The Floor Area Ratio and Height Incentives shall be calculated as additional FAR and Height, up to the maximum achievable FAR and height as provided in Table 1, based on points earned according to the sustainable development initiatives added to the development as per Appendix V provided in this provision.
2. To secure the Floor Area Ratio and Height Incentives shall be submitted along with the Development Permit application with the information required as per Appendices IV and V.
3. Floor Area Ratio and Height Incentives
 - i. The maximum achievable FAR and Height as per the incentives for each Area shown in Appendix I shall be as stated in Table 1. Incentive Level 1 can be achieved by accumulating 15 points, Incentive Level 2 can be achieved by accumulating 30 points and Incentive Level 3 can be achieved by accumulating 50 points as per Appendix V provided in this provision. Some points must be accumulated in each of the 8 categories.

*Bylaw 17062
July 6, 2015*

- ii. Development sites may be developed up to the base allowable FAR and Height in each Area shown in Appendix I without providing any sustainable development incentives listed on Appendix V. All development shall still conform to all other provisions in the Zone where the development is located in the Zoning Bylaw.
- iii. In order to develop above the base FAR and Height, developments may pursue the FAR Incentive Level 1 or the FAR Incentive Level 2 as defined in Appendix V.

1. Storeys indicated are approximate and are included for illustrative purposes only.

4. Sustainable Development Standard Checklist

a. Incentive Rates:

*Bylaw 17062
July 6, 2015*

1. In order to be granted the FAR and Height Incentive Level 1, as per Table 1, the development shall provide all required sustainable development initiatives and achieve 15 points in Appendix V. If the development achieves less than 15 points, no additional FAR or additional Height shall be granted.
2. In order to be granted the FAR and Height Incentive Level 2, as per Table 1, the development shall provide all required sustainable development initiatives and achieve 30 points in Appendix V. If the development achieves 15 or more points, but less than 30 points, and should the applicant choose to proceed, the development shall be granted additional FAR and additional height according to FAR and Height Incentive Level 1 in Table 1.
3. The points assigned to each of the sustainable development initiatives are summarized in Appendix V:
4. The applicant shall provide evidence to the Development Officer, as requested in Appendix V, as to how the sustainable development initiatives will be implemented.

Edmonton Zoning Bylaw 12800

b. Contents

1. All developments pursuing FAR and Height Incentives consistent with Table 1 shall submit supporting documentation describing the commitment and compliance path.
2. Documentation shall include signature(s) of the responsible parties and shall provide a detailed description of the design strategy and/or plan of action as it relates to the chosen sustainable building feature.
3. Applications to secure FAR and Height Incentives shall be submitted along with the Development Permit application.

c. FAR and Height Incentives Submittal Requirements

Appendix V: The Quarters Downtown Sustainable Development Standard Checklist identifies submittal requirements, to the satisfaction of the Development Officer, for each of the FAR and Height Incentives. The scope of these submittal requirements are as follows:

1. Site Plan and Associated Narrative:

Provide a site plan detailing the following:

- A. Building footprint
- B. Solar orientation and description of how the building responds to this for passive heating and cooling
- C. Surface parking area as a percentage of total site area
- D. Location of bicycle storage and/or end-of-trip facilities
- E. Context plan
- F. 3-D view of building
- G. How universal accessibility requirements have been met
- H. Landscaping areas
- I. Exterior lighting locations
- J. Green roof area as a percentage of total roof area
- K. Recycling / waste storage and treatment areas

2. Floor Plans:

Provide floor plans detailing the following:

- A. Natural ventilation, daylight penetration and other passive design systems
- B. Universal accessibility requirements
- C. Wheelchair radius requirements in accessible dwelling

Edmonton Zoning Bylaw 12800

- D. Recycling / waste storage and treatment areas
- 3. Elevation Drawings:
 - Provide elevation drawings detailing the following as necessary:
 - A. Natural ventilation, daylight penetration and other passive design systems
 - B. Universal accessibility requirements
- 4. Lighting Plan:
 - Detail the lighting strategy for the site. Demonstrate compliance with the requirements of the Illuminating Engineering Society of North America (IESNA RP-33-99).
- 5. Parking Plan:
 - Provide a parking plan detailing the following as necessary:
 - A. Universal accessibility requirements
 - B. Recycling / waste storage and treatment areas
 - C. Location of bicycle storage and/or end-of-trip facilities
 - D. Location of unbundled parking spaces
 - E. Location and number of car-share vehicles relative to the total number of stalls
- 6. Simpson's Diversity Index:
 - Use the following equation to calculate your score:
Score = $1 - \sum (n/N)^2$
 - Where n = the total number of dwellings in a single category, and N = the total number of dwellings in all categories
 - Housing categories in The Quarters Downtown are defined as:
 - A. Bachelor large – greater than 46 m²
 - B. Bachelor small – less than 46 m²
 - C. One-bedroom large – greater than 65 m²
 - D. One-bedroom small – less than 65 m²
 - E. Two-bedroom large – greater than 84 m²
 - F. Two-bedroom small – less than 84 m²
 - G. Three or more bedroom
 - H. Live-work
- 7. Energy Management Plan:
 - Describe the energy management strategy and active and passive systems being employed to meet the targeted reduction in energy use. Describe the results of energy modelling and the percentage performance improvement over the Model National Energy Code for Buildings. The assessment is to be prepared by a professional engineer or architect.

Edmonton Zoning Bylaw 12800

8. Energy Modelling Screening Tool:

Present the results of the energy modelling screening tool from CBIP or other modelling software. The assessment is to be prepared by a professional engineer.

9. Letter of Commitment:

Provide a letter of commitment from the developer and/or owner and/or professional architect and/or engineer declaring that the requirements will be met.

10. Affordable Housing Agreement:

The owner will execute an agreement with the City of Edmonton to address the contribution to affordable housing.

11. Water Management Plan:

Provide a water management plan (to be prepared by a professional engineer) describing the overall water management strategy and how potable water use will be reduced and water will be reused. Detail the following as necessary:

- A. A system to collect, store and treat (if necessary) rainwater
- B. How collected rainwater will be utilized
- C. Flow rates on water efficient fixtures to be used
- D. Mechanisms to be employed in order to reduce potable water for sewage conveyance by 50% when compared to a typical baseline building.
- E. A system to collect and treat grey water for reuse on site

12. Landscape Plan:

*Bylaw 17828
January 23, 2017*

Provide a detailed landscape plan (to be prepared by a professional landscape architect) including the overall landscaping strategy and a list of plant materials to be used.

13. Construction Waste Management Plan:

Provide a construction waste management plan describing the overall waste management strategy and how waste will be diverted from landfill toward recycling and/or salvage reuse. Provide a list of the materials to be collected for recycling and salvage. The plan is to be prepared by a professional engineer or architect.

14. Air and Dust Emissions Control Plan:

Provide an air and dust emissions control plan describing how air quality will be maintained and dust controlled during construction and demolition. Replace all filtration media immediately prior to occupancy, with a Minimum Efficiency Reporting Value of 13. Meet or exceed the recommended Design Approaches of the Sheet Metal and Air Conditioning Contractor's National Association IAQ Guideline for Occupied Buildings Under Construction, 1995, Chapter 3. Protect all absorptive material from moisture damage. Use filtration media with a Minimum Efficiency Reporting Value of 8 at each return air grill if air handlers must be used during construction. The plan is to be prepared by a professional engineer or architect.

15. Car-Share Plan or contract with car cooperative:

Describe the terms of use of the project's car-share program. Detail the number of cars to be provided, membership criteria, booking mechanisms, and management plan. A minimum of 1 car for every 50 units shall be provided. If a contract is signed with an existing car

Edmonton Zoning Bylaw 12800

cooperative to supply a car on the property provide a copy of the contract.

900 Special Areas

900 Special Areas General Provisions

900.1 General Purpose

The purpose of these Provisions is to provide a means to regulate the Use, design and extent of development within specific geographic areas of the City in order to achieve the planning objectives of an Area Structure Plan or Area Redevelopment Plan for those areas with special or unique attributes, which cannot be satisfactorily addressed through conventional land Use zoning.

900.2 Application

1. A Special Area can only be established if the following conditions are satisfied:
 - a. an approved Area Structure Plan or Area Redevelopment Plan states that a Special Area shall be established in order to achieve clearly stated objectives; and
 - b. the approved Area Structure Plan or Area Redevelopment Plan explains why conventional zoning or other land Use control techniques, applied through this Bylaw, could not appropriately or adequately deal with the special or unique attributes of the specified geographic area.
2. Special Areas shall only be applied through an amendment to the Zoning Bylaw and shall include the following:
 - a. the applicable Special Area and its boundaries;
 - b. a map at an appropriate scale, of the affected location(s) or neighbourhood(s) that indicates the designation, location, and boundaries of:
 - i. all conventional Zones, with or without varied regulations, within the Special Area;
 - ii. all Direct Control Provisions within the Special Area; and
 - iii. all unique Zones within the Special Area.
 - c. detailed text describing the content of:
 - i. the General Purpose of the Special Area and its provisions;
 - ii. all conventional Zones with varied regulations, in the Special Area; and
 - iii. all unique Zones within the Special Area.
3. If conventional Zones are to be modified for application within a Special Area, the modified regulations shall be in accordance with subsection 900.4 and shall include a statement of rationale for use in the modified regulations.
4. If Direct Control Provisions are to be used within a Special Area, such Direct Control Provisions shall be established in accordance with the provisions of Sections 710 and 720 of this Bylaw.
5. If unique Zones are to be created for use within the Special Area, the section in this Bylaw, establishing the Special Area must:

Edmonton Zoning Bylaw 12800

- a. specify a unique Zone name that shall not be confused with any conventional Zone;
- b. include a statement describing the General Purpose of the unique Zone;
- c. contain Permitted and Discretionary Uses;

*Bylaw 17831
November 28, 2016*

- d. contain regulations pertaining to the Permitted and Discretionary use opportunities; and
 - e. contain any additional regulations that may be deemed necessary, pertaining to Discretionary use opportunities.
6. All unique Zones created through the provisions of Section 900, for use within a Special Area, are only to be used within a Special Area.

900.3 Permitted and Discretionary Uses

1. Permitted and Discretionary Uses specified in any conventional Zone, within a Special Area, shall be those of that conventional Zone.
2. Any unique Zones may specify any Permitted and Discretionary Uses deemed to be in accordance with the approved Area Structure Plan or Area Redevelopment Plan for that area.
3. Any Direct Control Provision within a Special Area may specify those major or minor developments that shall be considered as Permitted or as Discretionary Uses deemed to be in accordance with the approved Area Structure Plan or Area Redevelopment Plan for that area and in accordance with Section 12 of the Zoning Bylaw.

900.4 Development Regulations

1. Where the regulations of a conventional Zone are varied, those regulations of the Special Area shall be substituted for the specified regulations of the underlying Zone. Where there appears to be a conflict between the provisions of this Overlay and those of the underlying Zone, the Special Area Provisions shall take precedence and effect.

*Bylaw 16859
June 24, 2014*

2. Notwithstanding clause (1), above, the provisions of the Floodplain Protection Overlay shall take precedence over the provisions of any Special Area.
3. Special Area provisions shall not be used:
 - a. to alter Permitted or Discretionary Uses, Floor Area Ratio or Density in any underlying conventional Zone;
 - b. where the proposed regulations or changes to the regulations of an underlying conventional Zone:
 - i. are significant enough to be inconsistent with the General Purpose of the underlying Zone and the designation of another Zone would be more appropriate;
 - ii. are not merely related to local planning objectives, but would have sufficient general application to warrant an amendment to the text of the underlying Zone itself; and

Edmonton Zoning Bylaw 12800

- iii. are intended to provide such detailed or Site specific discretionary control over the design and siting of development that the use of a Direct Control Provision would be more appropriate.
- c. to allow more than one Single Detached Residential Dwelling on a lot; or
- d. to alter the following regulations of the Zoning Bylaw:
 - i. Sections 1 through 6, inclusive;

*Bylaw 17831
November 28, 2016*

- ii. Section 7, except that new Uses may be added to Section 7 and listed in newly created Zones or Direct Control Provisions within Special Areas;
- iii. Sections 11 through 25 inclusive, except that new fees may be established for new Uses and new Zones, with respect to rezonings and Development Permit Applications;
- iv. Section 41;
- v. Sections 56 and 57;
- vi. Sections 710 and 720;
- vii. Section 800
 - 811. North Saskatchewan River Valley and Ravine System Protection Overlay

iv. Public Amenity Area

*Bylaw 15735
June 20, 2011*

A. Yards, including useable outdoor spaces, shall continue the public sidewalk paving materials, finish, and pattern. In addition, soft landscaping may be required at the Discretion of the Development Officer.

b. Street Wall Design

*Bylaw 17062
July 6, 2015*

i. The building façade that comprises a portion of the Street Wall shall range in Height from 9m to 26m. The Development Officer may vary street wall Heights in consideration of the following:

A. The visual, sun/shadowing, and other microclimatic impacts on adjacent residential development; and

B. The recommendations, and mitigative measures specified in any required technical studies.

ii. Infill developments shall ensure that the Height of the building façade or podium base is within 7m of the adjacent buildings façade or podium.

c. Entrances and Corners

*Bylaw 17831
November 28, 2016*

i. Ground level retail Uses shall open to the street rather than an internal atrium.

*Bylaw 16733
July 6, 2015
Bylaw 17831
November 28, 2016*

ii. In mixed-Use buildings, Residential Uses shall have access at Grade that is separate from the commercial premises.

iii. Buildings at corners shall provide courtyards, major entry ways or distinctive architectural features consistent with the style of the building or influences on the other corners of the intersection to enhance pedestrian circulation and, where applicable, enhance axial views.

iv. Buildings shall be designed and oriented to face the front property line with entrances that are clearly visible, except on double fronting streets where the building shall be designed to front both the street and the avenue.

d. Tower Floor Plate, Stepbacks, and Spacing

i. Buildings greater than 26m in Height shall be allowed in the form of a podium plus Tower composition or other configuration that

Edmonton Zoning Bylaw 12800

ensures design treatments are compatible with the façades of adjacent buildings in the immediate area.

- ii. The mid-level of Towers shall employ building Stepback, Tower spacing and sculpting to reduce building mass and augment views, light and privacy.
 - A. Towers shall Stepback from the front podium wall a minimum of 4.5m.
 - B. The minimum space between non-residential Towers shall be 20m.
 - C. The minimum space between a residential Tower and any other Tower shall be 25 m.
 - D. The Development Officer may vary the Tower spacing in consideration of the following:
 - 1. The visual sun/shadowing, and other microclimatic impacts on adjacent residential development; and
 - 2. The recommendations, and mitigative measures specified in any required technical studies.
- iii. Towers, whether in the form of freestanding independent structures, or a number of associated structures within a complex shall be designed, oriented and constructed to maximize views, articulate the downtown skyline, and allow sunlight penetration at the street level, in public spaces, plazas, parks and amenity areas.
- iv. Developments less than 26m in Height on sites 700m² or less, may not be required to provide Floor Plate reduction.
- e. **Building Façade, Materials, and Exterior Finishing**
 - i. Building façades shall incorporate architectural design details or features that recognize the predominant urban character of the street, as identified in the Urban Design Framework for Downtown Streets within the Capital City Downtown Plan, Bylaw 15200.
 - ii. Building façades must be strongly articulated at regular increments to add variety, rhythm, and a human scaled dimension along the block face.
 - iii. Building design and façades shall incorporate treatments such as awnings, canopies, window openings, reveals, offsets, multiple entrances, arcades, columns, quality materials, interesting design, fenestrations, double Height entrances, parks, plazas, appropriate landscaping, colour, and other architectural features.
 - iv. Buildings shall emphasize horizontal and vertical elements as well as finer grain elements including windows, balconies, shadow lines and textures to distinguish between residential and non-residential buildings.
 - v. Building materials shall be sustainable, durable, high quality and appropriate for the development within the context of the Commercial Cultural Core district. The contextual fit, design,

Edmonton Zoning Bylaw 12800

proportion, quality, texture and application of various finishing materials shall be to the satisfaction of the Development Officer.

- vi. All exposed building facades shall have consistent and harmonious exterior finishing materials,
- vii. Infill developments shall be sensitive to the rhythm, articulation, design character, scale, façade and materials colours and textures of the block face.

f. **Roof Tops and Skyline Effects**

- i. The top level(s) of Towers shall contribute to the 'signature' of the building and the City's skyline through sculpting of the upper floors and roofs.
- ii. Rooftops of Towers shall be designed with penthouses to accommodate mechanical penthouses, reduce the heat island effect, facilitate energy efficiency and contribute to a distinctive and unique Downtown skyline. The design of the roof may include a combination of green roofs, solar panels, patios, and public or private open spaces.
- iii. All minor mechanical equipment on a roof of any building shall be concealed by screening in a manner compatible with the architectural character of the building, or concealed by incorporating it within the building.
- iv. Wherever podium roofs are visible from adjacent developments, the development shall provide enhancements to improve rooftop aesthetics. Enhancements may include patios, gardens, green roofs or additional Amenity Area.

*Bylaw 17832
November 28, 2016*

- v. The Tower Floor Plate(s) of the top 4 floors shall be reduced a further 10% to 15%, to the satisfaction of the Development Officer, through Stepbacks to create the articulation, visual interest, and reduced massing effects.

6. Additional Development Regulations for Specific Uses and Streets

*Bylaw 16733
July 6, 2015
Bylaw 17488
January 25, 2016*

- a. For new buildings, Residential Uses shall not exceed 90% of gross Floor Area and shall not be developed as stand-alone buildings or at grade.

*Bylaw 16224
September 10, 2012*

- b. Notwithstanding the requirements of subsection 910.5(4)(a), Hotels shall be allowed an additional Floor Area Ratio of 4.0 where the Development Officer is satisfied that new developments fit within the urban context of the area and that adverse environmental impacts, such as sun shadow and wind are minimized.

4. Development Regulations for Permitted and Discretionary Uses

The following regulations shall apply to Permitted and Discretionary Uses.

- a. Floor Area Ratio (FAR):
 - i. the maximum Floor Area Ratio east of 109 Street shall be 7.0. An additional Floor Area Ratio of 3.0 may be allowed where the Development Officer is satisfied that new developments are compatible with the urban context of the area and that adverse environmental impacts, such as sun shadow and wind are minimized. In such cases, the application shall be processed as a Class B application; and
 - ii. the maximum Floor Area Ratio west of 109 Street shall be 4.0.
- b. Building Height:
 - i. the maximum Height east of 109 Street and north of 100 Avenue shall be 70.0 m. An additional Height of 15m may be allowed where the Development Officer is satisfied that new developments are compatible with the urban context of the area and that adverse environmental impacts, such as sun shadow and wind are minimized. In such cases, the application shall be processed as a Class B application.
 - ii. The maximum Height east of 109 Street and south of 100 Avenue shall not exceed 50m except that, for sites with an area over 3,716 m² an additional Height of 10 m may be allowed where the Development Officer is satisfied that new developments are compatible with the urban context of the area and that adverse environmental impacts, such as sun shadow and wind are minimized. In such cases, the application shall be processed as a

*Bylaw 17062

Edmonton Zoning Bylaw 12800

Class B application.

iii. The maximum Height west of 109 Street shall be 20.0m.

c. Building Setbacks:

i. Buildings shall have a front Setback of 1.5m, except that the front Setback shall be:

A. 1.5 to 4.0m along the east side of 109 Street;

B. 0.0m Setback along the west side of 109 Street; and

C. 3.0m along 108 Street, all to the satisfaction of the Development Officer.

ii. The Development Officer may allow building Setbacks up to 2.5 m to accommodate street related activities, such as sidewalk cafes, architectural features and Landscaping.

iii. Buildings shall be built to the side property lines; and

iv. Notwithstanding the above, the Development Officer shall have regard for the existing block face Setback and consideration of the Urban Design Framework for Downtown Streets within the Capital City Downtown Plan, Bylaw 15200 in determination of the front Setback.

d. Amenity Areas:

*Bylaw 17831
November 28, 2016*

i. An minimum amenity area of 3% of gross floor area of Residential Uses, to a maximum of 6%, shall be required for buildings over 2000m² to the satisfaction of the Development Officer. Amenity areas may include meeting rooms, fitness facilities, outdoor space, and shall be exempt from FAR calculations. The Development Officer will review amenity area provision to ensure it meets the intent.

ii. Non-residential buildings on sites of less than 1350m² shall not be required to provide amenity area.

iii. Non-residential or mixed-Use buildings on sites greater than 1350m² shall provide a minimum amenity area of 3% on the non-Residential Uses, to a maximum of 6%. Amenity areas may include interior landscaped open spaces, arcades, atriums, plazas and gardens and shall be exempt from FAR calculations.

iv. Developments on sites larger than 3000m² shall provide:

*Bylaw 16733
July 6, 2015*

A. An additional 5% of the site area developed as open space in the form of parks, plazas, atriums and publicly accessible spaces at Grade for the benefit of residents or tenants; and

*Bylaw 17973
April 24, 2017*

B. In large developments, mid block breaks and access shall be provided to facilitate pedestrian access to other Walkways, laneway or interior courtyards.

Edmonton Zoning Bylaw 12800

e. Vehicular Parking

*Bylaw 17831
November 28, 2016*

- i. Parking shall be in accordance with Section 54 of the Zoning Bylaw except for conversions to Residential Uses where there is existing parking, additional parking shall not be required.

*Bylaw 15735
June 20, 2011*

f. Landscaping

- i. Landscaping shall be in accordance with Section 55 of the Zoning Bylaw, except that:

*Bylaw 16733
July 6, 2015
Bylaw 17672
June 27, 2016
Bylaw 17831
November 28, 2016*

- A. Trees shall be provided in accordance with subsection 55.3. For development consisting of Residential Uses, the number of trees provided shall be one tree for each 25 m² of any Yard at Grade; and
- B. For tree requirements, only deciduous species shall be allowed on any Yard abutting a Public Roadway, other than a lane.

g. Signs shall comply with the regulations found in Schedule 59F.

*Bylaw 17403
October 19, 2015
Effective Date: February 1, 2016*

- h. Urban Indoor Farms shall comply with Section 98 of this Bylaw.
- i. Urban Gardens shall comply with Section 98 of this Bylaw.

5. Urban Design Regulations

a. Street Interface

- i. Developments in this zone shall reflect the street types identified in the Urban Design Framework for Downtown Streets within the Capital City Downtown Plan, Bylaw 15200.

*Bylaw 17831
November 28, 2016*

- ii. Developments shall be designed to accommodate office, institutional, retail and service Uses to strengthen the area as a pedestrian oriented shopping area through the following:
- A. The ground Storey shall have a minimum Height of 3.5m;
- B. Buildings located along identified shopping streets shall provide and maintain a rhythm of fine-grained retail establishments with direct access to the street and contain numerous shop fronts, entrances, variety of textures and building materials to enhance the pedestrian environment;
- C. A minimum of 50 % at Grade Frontage shall be developed for Commercial Uses; and

Edmonton Zoning Bylaw 12800

*Bylaw 16733
July 6, 2015*

- D. The geodetic elevation of the top of the floor on the level that is directly above Grade shall not exceed the geodetic elevation of the abutting public sidewalk by more than 0.3 m.
- iii. The development of the abutting public realm shall be in accordance with the standards outlined in the Urban Design Framework for Downtown Streets within the Capital City Downtown Plan, Bylaw 15200.

*Bylaw 15735
June 20, 2011*

- iv. Public Amenity Area
 - A. Yards, including useable outdoor spaces, shall continue the public sidewalk paving materials, finish, and pattern. In addition, soft landscaping may be required at the Discretion of the Development Officer.

b. Street Wall Design

- i. The building façade that comprises a portion of the Street Wall shall range in Height from 9m to 26m. This Height may be reduced at the discretion of the Development Officer to respect building Height proportionality or to accommodate podium gardens, restaurants/cafes or natural slope of the site.

*Bylaw 16733
July 6, 2015*

- ii. At Grade residential developments shall provide separate, individual access at Grade and feature identifiable doorways, landscaped terraces, pedestrian lighting, and patios. They shall ensure adequate privacy through the provision of screening and at least a 0.75m grade separation above the adjacent City sidewalk.
- iii. The building façade that comprises a portion of the Street Wall shall ensure that the Height of the building façade or podium base is within 7m of the adjacent block face.
- iv. The maximum building frontage for Sites abutting a commercial shopping street shall be 15.24 m or consistent with the building frontage of other Sites abutting the shopping street and, where the building frontage for Sites abutting the commercial shopping street exceeds 15.24 m or the consistent development pattern for the street, the front façade of the building shall be designed to break the appearance into 15.24 m sections or modules consistently sized with other buildings on the shopping street.
- v. All new development and major renovations shall create a pedestrian-friendly environment on the shopping street, which may include such things as entrance features, outdoor sitting areas, canopies, landscaping and other features that lend visual interest and a human scale to development along the street.
- vi. Architectural treatment of new developments and substantial renovations shall ensure that each Storey has windows on the front façade of the building, and that the placement and type of windows

Edmonton Zoning Bylaw 12800

shall allow viewing into the building to promote a positive pedestrian-oriented shopping street.

c. **Entrances and Corners**

- i. On Corner Lots the façade treatment shall wrap around the side of the building to provide a consistent profile facing both public roadways.
- ii. In mixed-Use buildings, Residential Uses shall have access at Grade that is separate from the commercial premises.
- iii. Commercial or institutional entrances shall address the street in a prominent manner.
- iv. Buildings at corners shall provide courtyards, major entryways or distinctive architectural features consistent with the building or Influences on the other corners of the Intersection to enhance pedestrian circulation and, where applicable, enhance axial views.
- v. Buildings shall be designed and oriented to face the front property line with entrances that are clearly visible, except on double fronting streets where the building shall be designed to front both the street and the avenue.

*Bylaw 16733
July 6, 2015
Bylaw 17831
November 28, 2016*

d. **Tower Floor Plate, Stepbacks, and Spacing**

- i. Towers, whether in the form of freestanding independent structures, or a number of associated structures within a complex shall be designed, oriented and constructed to maximize views, articulate the downtown skyline, and allow sunlight penetration at the street level, in public spaces, plazas, parks and amenity areas.
- ii. For buildings greater than 26m in Height, the maximum residential Floor Plates shall not exceed 900m², but in no case shall it exceed 80% of the podium floor plate, to the satisfaction of the Development Officer.
- iii. Developments less than 26m may not be required to provide Floor Plate reduction.
- iv. Developments taller than 26m shall be stepped back at least 3.0m from the front podium wall to maintain human scaled buildings and to allow for solar access at the sidewalk level.
- v. The mid-level of Towers shall employ building setback, Tower spacing and sculpting to reduce building mass and augment views, light and privacy.
- vi. The minimum space between Towers shall be 25m. The Development Officer may vary Tower spacing in consideration of the following:
 - A. The visual, sun/shadowing, and other microclimatic impacts on

*Bylaw 17062
July 6, 2015*

Edmonton Zoning Bylaw 12800

- adjacent residential development; and
- B. The recommendations, and mitigative measures specified in any required technical studies.
- vii. Towers on the south side of 100 Avenue and adjacent to 108 streets shall be narrower in width to accentuate views of the Legislature and promote sunlight penetration at the ground level, to the satisfaction of the Development Officer.
- e. **Building Façade, Materials, and Exterior Finishing**
- i. Building façades shall incorporate architectural design details or features that recognize the predominant urban character of the Street, as identified in the Urban Design Framework for Downtown Streets within the Capital City Downtown Plan, Bylaw 15200.
- ii. Building design and façade shall incorporate treatments such as awnings, canopies, window openings, reveals, offsets, multiple entrances, arcades, columns, quality materials, interesting design, fenestrations, double Height entrances, parks, plazas, appropriate landscaping, colour, and other architectural features.
- iii. Buildings taller than 26m shall be allowed in the form of a podium plus Tower composition that ensures design treatments are compatible with the façades of adjacent, older institutional or historic buildings in the immediate area; and that maintain a human scale environment.
- iv. Buildings shall emphasize the architectural treatment of the horizontal and vertical elements as well as finer grain elements such as windows, balconies, shadow lines and textures shall be used to distinguish residential buildings from office Towers.
- v. All exposed building Tower faces shall have consistent and harmonious exterior finishing materials,
- vi. Building materials must be sustainable, durable, high quality and appropriate for the development within the context of the Capital City District. The contextual fit, design, proportion, quality, texture and application of various finishing materials shall be to the satisfaction of the Development Officer.
- vii. Infill developments shall be sensitive to the rhythm, articulation, design character, scale, façade and materials colours and textures of the block face.
- f. **Roof Tops and Skyline Effects**
- i. For the area north of 100 Avenue, the following regulations shall apply:
- A. The top level(s) of Towers shall contribute to the 'signature' of the building and the City's skyline through sculpting of the upper floors and roofs.
- B. Rooftops of Towers shall be designed with penthouses to accommodate mechanical penthouses, reduce the heat island effect, facilitate energy efficiency and contribute to a distinctive and unique Downtown skyline. The design of the roof may

Edmonton Zoning Bylaw 12800

include a combination of green roofs, solar panels, patios, and public or private open spaces.

- C. All minor mechanical equipment on a roof of any building shall be concealed by screening in a manner compatible with the architectural character of the building, or concealed by incorporating it within the building.
 - D. Wherever podium roofs are visible from adjacent developments, the development shall provide enhancements to improve rooftop aesthetics. Enhancements may include patios, gardens, green roofs or additional Amenity Area.
 - E. The Tower Floor Plate(s) of the top 4 floors shall be reduced a further 10% to 15%, to the satisfaction of the development officer, through Stepbacks to create the articulation, visual interest, and reduced massing effects.
- ii. For the area south of 100 Avenue, the following regulations shall apply:
- A. All mechanical equipment on a roof of any building shall be concealed by screening in a manner compatible with the architectural character of the building, or concealed by incorporating it within the building.
 - B. The roof design may include a combination of green roofs, solar panels, patios or private or public open spaces.

6. Additional Development Regulations for Specific Uses and Streets

*Bylaw 17488
January 25, 2016
Bylaw 17831
November 28, 2016*

- a. For new buildings, Residential Uses shall not exceed 85% of gross Floor Area in mixed-Use buildings.

*Bylaw 16733
July 6, 2015*

- b. Buildings fronting onto 109 Street and 100 Avenue shall provide at least 60% of at-Grade street frontage for retail and other commercial and service Uses.
- c. Business Frontage for establishments located at grade shall not exceed 30m along 109 Street and 100 Avenue.

*Bylaw 16224
September 10, 2012*

- d. Notwithstanding the requirements of subsection 910.6(4)(a), Hotels shall be allowed an additional Floor Area Ratio of 4.0 where the Development Officer is satisfied that new developments fit within the urban context of the area and that adverse environmental impacts, such as sun shadow and wind are minimized.

*Bylaw 17062
July 6, 2015
Bylaw 17832
November 28, 2016*

- e. Notwithstanding Section 11.3 and the requirements of subsection 910.6(4)(b) and having regard for 910.6(6)(e), additional Height may

Edmonton Zoning Bylaw 12800

be allowed to accommodate the additional Floor Area Ratio for Hotel Uses where the Development Office is satisfied that new developments fit within the urban context of the area and that adverse environmental impacts, such as sun shadow, wind and massing are minimized. In such cases, the application shall be processed as a Class B application.

910.7 (HA) - HERITAGE AREA ZONE

1. General Purpose

The purpose of this Zone is to establish a special heritage character Zone, in which the existing concentration of historical resources shall be preserved, rehabilitated and reused, and to ensure new developments are pedestrian friendly and compatible in scale, function, built form and design continuity with the historical, architectural and urban village character of the area.

The following regulations shall apply to Permitted and Discretionary Uses.

- a. Floor Area Ratio (FAR):
 - i. the maximum Floor Area Ratio north of 102 Avenue shall be 8.0; and
 - ii. the maximum Floor Area Ratio south of 102 Avenue shall be 10.0.
- b. Building Height:

*Bylaw 16859
June 24, 2014*

- i. the maximum Height shall not exceed 115.0 m.
- c. Setbacks:
 - i. buildings shall be built to the front and side property lines. The Development Officer, in consultation with the Heritage Officer, may allow building Setbacks up to 2.5 m to accommodate street related activities such as sidewalk cafes, architectural features and Landscaping that contribute to the historical character of the area. The Development Officer may allow a building Setback of 3.0 m for

Edmonton Zoning Bylaw 12800

residential buildings and may allow the required Private Outdoor Amenity Area to be within the 3.0 m building Setback.

- d. Amenity Areas:
 - i. a minimum Amenity Area of 3% of the non-residential Floor Area shall be provided and such Amenity Area shall be exempted from Floor Area calculations to a maximum of 6% of the Floor Area of the development. Such Amenity Areas may include courtyards, interior landscaped open space, arcades, plazas, atriums and seating areas;
 - ii. non-residential buildings of less than 1,394 m² shall not be required to provide the 3% Amenity Area; and
 - iii. Amenity Area for Apartment Housing shall not be required.
- e. Vehicular Parking
 - i. Parking shall be in accordance with Section 54 of the Zoning Bylaw except additional parking shall not be required when existing and designated historical buildings are being rehabilitated or converted to Residential Uses.

*Bylaw 15735
June 20, 2011*

- f. Landscaping
 - i. Landscaping shall be in accordance with Section 55 of the Zoning Bylaw, except that:

- A. Trees shall be provided in accordance with subsection 55.3. For development consisting of Residential Uses, the number of trees provided shall be one tree for each 25 m² of any Yard at Grade; and
- B. For tree requirements, only deciduous species shall be allowed on any Yard abutting a Public Roadway, other than a lane.

- g. Signs shall comply with the regulations found in Schedule 59H.

*Bylaw 17831
November 28, 2016*

- h. For all Sign applications, the Development Officer, in consultation with the Heritage Planner, shall review the application in context with the surrounding development, such as, but not limited to, the architectural theme of the area; any historic designations; the requirements of any Statutory Plan; and any streetscape improvements. The Development Officer may require revisions to the application to mitigate the impact of a proposed Sign, and may refuse an application for a Development Permit that adversely impacts the built environment.

Edmonton Zoning Bylaw 12800

*Bylaw 15953
November 13, 2012*

- i. Fraternity and Sorority Housing, Limited Group Homes, Group Homes, and Lodging Houses shall comply with Section 96 of this Bylaw.

*Bylaw 17403
October 19, 2015
Effective Date: February 1, 2016*

- j. Urban Indoor Farms shall comply with Section 98 of this Bylaw.

5. Urban Design Regulations

- a. Street Interface
 - i. Public Amenity Area

*Bylaw 15735
June 20, 2011*

- A. Yards, including useable outdoor spaces, shall continue the public sidewalk paving materials, finish, and pattern. In addition, soft landscaping may be required at the Discretion of the Development Officer.

*Bylaw 15735
June 20, 2011*

- b. Tower Floor Plate, Stepbacks, and Spacing
 - i. Building Setback, Tower spacing and sculpting shall be used to reduce building mass and augment views, light and privacy.

*Bylaw 17062
July 6, 2015*

- A. For buildings greater than 20m in Height, the maximum residential Floor Plate shall not exceed 900m², but in no case shall it exceed 80% of the podium Floor Plate, to the satisfaction of the Development Officer.
- B. Towers Stepback from the Street Wall shall be a minimum of 4.5m.
- C. The minimum space between Towers shall be 25m. The Development Officer may vary the Tower spacing in consideration of the following:
 - 1. The visual, sun/shadowing, and other microclimatic impacts on adjacent residential development; and
 - 2. The recommendations, and mitigative measures specified in any required technical studies.

- c. Roof Tops and Skyline Effects
 - i. The top level(s) of Towers shall contribute to the 'signature' of the building and the City's skyline through sculpting of the upper floors and roofs.
 - ii. Rooftops of Towers shall be designed with penthouses to accommodate mechanical penthouses, reduce the heat island effect, facilitate energy efficiency and contribute to a distinctive and unique Downtown skyline. The design of the roof may include a combination of green roofs, solar panels, patios, or public or private open spaces.

Edmonton Zoning Bylaw 12800

- iii. All minor mechanical equipment on a roof of any building shall be concealed by screening in a manner compatible with the architectural character of the building, or concealed by incorporating it within the building.
- iv. Wherever podium roofs are visible from adjacent developments, the development shall provide enhancements to improve rooftop aesthetics. Enhancements may include patios, gardens, green roofs or additional Amenity Area.
- v. The Tower Floor Plate(s) of the top 4 floors shall be reduced a further 10% to 15%, to the satisfaction of the Development Officer, through Stepbacks to create the articulation, visual interest, and reduced massing effects.

Bylaw 17832
November 28, 2016

d. Other Regulations

- i. New buildings or additions shall recognize the scale, architecture and the built form of the existing historical structures within the general area, particularly those on the same block face.
Developments on larger consolidated parcels should break up their façades facing public roadways to be reflective of the original plot widths or widths of the surrounding historic warehouses.

Explanatory Note

Buildings that are designed with regard for, or to recognize, the scale, architecture and general characteristics of the surrounding built form - so that they fit into the physical landscape around them - contribute to the overall good urban design of the community. The following graphic representation provides a possible conceptual application of this regulation for interpretive purposes.

- ii. Any front elevation abutting a public roadway other than a lane shall be no greater than 5 Storeys or 20.0 m in Height. Any portion of the building Height greater than this shall be stepped back from the property line. Any buildings taller than 5 Storeys shall have a minimum of 3 Storeys where the building façade is built to the property line abutting the street. The Development

Edmonton Zoning Bylaw 12800

Officer may allow a greater building Height and number of podium Storeys for the podium provided that the Height fits contextually with adjacent buildings.

Explanatory Note

A 4.5 m Setback between the front of the building and upper building Storeys is a common technique used to reduce the perceived mass of a building and promote the pedestrian scale of the street. The following graphic representation provides a possible conceptual application of this regulation for interpretive purposes.

- iii. No portion of an above Grade Parking Garage on the ground (first) floor shall be allowed for a minimum depth of 10.0 m from any building façade facing a public roadway, other than a lane.
- iv. No portion of an above Grade Parking Garage above the ground (first) floor up to 5 Storeys shall be allowed for a minimum depth of 6.0 m from any building façade facing a public roadway, other than a lane.

Explanatory Note

Community identity, stability of ownership, and residential character all require that a relationship be developed between residents, businesses, and the neighbourhood. Minimum setbacks for useable space, separating above-ground parking from the front of a building, provides an opportunity for a range of building uses that bind people more fully to the community and thereby contribute to the character and identity of an area. The following graphic representation provides a possible conceptual application of these regulations [iii) and iv)] for interpretive purposes.

Edmonton Zoning Bylaw 12800

Bylaw 16733
July 6, 2015

- v. The geodetic elevation of the floor that is directly above Grade shall not exceed the geodetic elevation of the abutting public sidewalk by more than 0.75 m, for a minimum of 80% of the building Frontage.
- vi. Balconies shall not be allowed within the first 5 Storeys of a building on those portions of the building facing a public roadway, other than a lane.

Explanatory Note

The building façade is pronounced by not allowing balconies to break up and obscure building features and the building fits in to the surrounding urban fabric. The following graphic representation provides a possible conceptual application of this regulation for interpretive purposes.

- e. Architectural Treatment:
 - i. The building shall include the following design elements to reduce the perceived mass and add architectural interest. These requirements shall apply consistently to all building façades within the first 5 Storeys or 20.0 m that face a public roadway, other than a lane:
 - A. All exposed building façades shall be architecturally treated to create a unified building exterior; and
 - B. Building façades shall incorporate architectural design details or features that recognize the heritage character of the area.

Explanatory Note

4. Development Regulations for Permitted and Discretionary Uses

The Development Officer shall ensure that new developments and major renovations reflect the Urban Design Policies of the Capital City Downtown Plan and the following Regulations. Where a conflict arises, the AED zoning regulations shall prevail.

The following regulations shall apply to all Permitted and Discretionary Uses:

a. Floor Area Ratio

- i. The maximum Floor Area Ratio (FAR) shall be 12.0.
- ii. Notwithstanding the above, Hotels and Apartment Housing shall be allowed an additional Floor Area Ratio of 4.0 where the Development Officer is satisfied that new developments fit within the urban context of the area and that adverse environmental impacts such as sun shadow and wind are minimized.

b. Building Height

*Bylaw 16973
November 3, 2014
Bylaw 16733
July 6, 2015
Bylaw 17642
May 25, 2016*

The maximum building Height shall be as follows and in accordance with Section 52:

- i. 180 m for land north of 104 Avenue NW;
- ii. 195 m for land south of 104 Avenue NW; and
- iii. Notwithstanding Section 910.12(4)(b)(ii), above, one development, including a Tower, with a Height not exceeding 275 m, shall be allowed abutting the north side of 103 Avenue NW between 102 Street NW and 103 Street NW.

*Bylaw 16859
June 24, 2014*

c. Building Setbacks

*Bylaw 16584
December 9, 2013*

- i. Buildings shall have a zero to 2.5 m Setback where abutting a public roadway, excepting lanes and:
 - 1. Buildings shall have a zero to 4.5 m Setback along 104 Avenue. The Development Officer, however, may increase the Setback for the purposes of public realm improvements. The Setback shall not be used for roadway widening.
 - 2. Buildings shall not be required to provide a setback along 105 Avenue between 102 and 104 Street.
- ii. Buildings shall be built to the side property lines south of 104 Avenue.

Edmonton Zoning Bylaw 12800

- iii. Notwithstanding the above, a greater setback may be provided to accommodate a particular architectural style or to provide opportunities for such features as sidewalk cafes, patios or a piazza.
- iv. Where a setback is provided, architectural features and structures, including the building envelope and weather protection features including awnings, canopies and arcades may project to the property line.

d. Amenity Areas

*Bylaw 17831
November 28, 2016*

- i. A minimum amenity area of 3% of the gross floor area of Residential Uses to a maximum of 10% shall be required for buildings over 2000m² to the satisfaction of the Development Officer. Amenity areas may include meeting rooms, fitness facilities, outdoor space, and shall be exempt from FAR calculations.
- ii. Non-residential buildings on sites of less than 1350m² shall not be required to provide Amenity Area.

*Bylaw 17831
November 28, 2016*

- iii. Non-residential or mixed Use buildings on sites greater than 1350m² shall provide a minimum Amenity Area of 4% of the gross floor area on the non-Residential Uses to a maximum of 10% and may be aggregated on the whole site. Such Amenity Area may include, but is not limited to, interior and exterior landscaped open spaces, arcades, roof top patios/gardens, atriums and plazas, and shall be exempt from FAR calculations.

*Bylaw 16733
July 6, 2015*

- iv. Required open space shall achieve design excellence and may be located at or above Grade or on rooftops. Parking areas, driveways and service access shall not be included as open space.
- v. A diversity of open space shall be provided throughout the development, designed to accommodate year-round use. Open space shall include, but is not limited to: space devoted to public gatherings, pedestrian movement and other social and recreational functions.
- vi. Public spaces shall support a variety of outdoor activities such as standing, sitting, strolling, conversing and dining.

e. Vehicular Parking

Parking shall be in accordance with Section 54 of the Zoning Bylaw; except that:

*Bylaw 17831
November 28, 2016*

- i. At such time as a Shared Use Parking Impact Assessment is submitted, the applicant for a Development Permit may apply for a reduction to the minimum number of parking spaces. The

Edmonton Zoning Bylaw 12800

applicant must demonstrate through a Shared Use Parking Impact Assessment that by virtue of the use, character, or location of the proposed development, and its relationship to public transit facilities and any other available parking facilities, the parking required for the proposed development may be less than any minimum set out in Schedule 1 (B) of Section 54 of the Zoning Bylaw.

f. Landscaping

Landscaping shall be in accordance with Section 55 of the Zoning Bylaw except that:

*Bylaw 16733
July 6, 2015
Bylaw 17831
November 28, 2016*

i. For development consisting of Residential Uses, the number of trees provided shall be a minimum of one tree for each 25m² of any required Setback at Grade.

*Bylaw 15735
June 20, 2011*

ii. For tree requirements, only deciduous species shall be allowed on any Yard abutting a Public Roadway, other than a lane.

iii. Within the required Setback along 104 Avenue, a 2.5 m sidewalk with flanking rows of deciduous shade trees shall be provided. Where an arena building abuts 104 Avenue, a 2.5 m sidewalk shall be maintained within road right of way, with shade tolerant plantings. A flanking row of deciduous trees shall not be required.

iv. Landscaping on the Site shall consider the use of plant materials and architectural features that provide colour, texture and visual interest throughout the year to enhance the appearance of the development and create comfortable, attractive and sustainable environments for the benefit and enjoyment of its many stakeholders.

*Bylaw 16032
March 12, 2012
Bylaw 17831
November 28, 2016*

v. At each Development Permit stage, a detailed Landscape Plan for the subject Development Permit stage shall be submitted. The Landscape Plan must be completed by a registered landscape architect registered to practice in the Province of Alberta and must be to the satisfaction of the Development Officer in consultation with Sustainable Development and the City of Edmonton Parks and Biodiversity prior to approval of any Development Permit. The landscape plans shall incorporate all previous development permit stages, resulting in an overall landscape plan at the final development permit stage. The plans shall include, but are not limited to:

- A. all existing and proposed utilities within any road right-of-way;
- B. pavement materials;

Edmonton Zoning Bylaw 12800

- C. exterior lighting;
- D. street furniture elements;
- E. pedestrian seating areas;
- F. gathering places;
- G. pedestrian linkages and connections;
- H. sizes and species of new tree plantings; and
- I. other landscaping elements as applicable.

*Bylaw 16032
March 12, 2012
Bylaw 17831
November 28, 2016*

- vi. The Landscape Plan submitted with each Development Permit stage must show proposed off-site landscaping on public property adjacent to the site, to the satisfaction of the Development Officer in consultation with Sustainable Development, City of Edmonton Parks and Biodiversity and Transportation Services. The streetscape improvements may include, but are not limited to, new sidewalks, streetlights, boulevard landscaping, boulevard trees, street furniture, and/or the relocation of utilities underground.

g. Signage

Signage within the Arena and Entertainment District Zone is intended to consist of an array of high-quality, expressive signage that serves a primary role in establishing the character of the district as a unique place in the city, promotes and supports activities fostering a sense of arrival and excitement, and serving a wayfinding function. Large-format signage is imagined as an integral component of the district's design and character.

Signs shall comply with the regulations found in Section 59 and Schedule 59H of the Zoning Bylaw, except that:

*Bylaw 17831
November 28, 2016*

- i. At each Development Permit stage, a Comprehensive Sign Design Plan and Schedule for the subject Development Permit stage shall be submitted in support of the land use concept and design that are integral in establishing the special character and ambiance associated with major destination sports, retail and entertainment Uses for approval of the Development Officer. The sign plans shall be designed to contribute to the special character envisioned for each sub-area through the use of innovative, unique and high quality signage that contribute to a lively, colourful and exciting pedestrian environment. The sign plans shall incorporate all previous Development Permit stages, resulting in an overall sign plan at the final Development Permit stage.
- ii. Signage shall be designed as an integral built form component and contribute to urban design objectives for the Zone.
- iii. Landmark signage shall be located at key visual sites such as corners and view terminus sites, and shall be of the highest architectural quality and design.
- iii. Gateway signage shall be located at key entry points to the district to strengthen the district identity and to function as wayfinding

Edmonton Zoning Bylaw 12800

elements.

*Bylaw 17062
July 6, 2015*

- iv. The size, Height, placement, animation, illumination and number of signs shall be in accordance with the required Comprehensive Sign Design Plan, to the satisfaction of the Development Officer.
- v. Illuminated signs shall be designed, located or screened so as to reduce visual and light impacts on adjacent off-site residential units.

*Bylaw 16584
December 9, 2013*

- vi. Theatrically Programmed Environment (TPE System) signage can be incorporated into publicly-accessible open space, the facades and/or roof structures of buildings within the AED Zone as a Sign Use Class, most notably Major and Minor Digital Signs. The TPE System may include, but is not limited to, features such as:
 - A. Full running video;
 - B. Projection systems on architectural surfaces;
 - C. LED lighting embedded into structures/buildings (i.e. nightscaping);
 - D. Interactive multi-media technologies; and
 - E. Environmental effects (i.e. special effects with the use of water and light).

5. Urban Design

a. General Design Regulation

- i. Developments in this zone shall reflect a coherent architectural style and urban character emphasizing design excellence, quality materials and sustainable features, consistent with planning and urban design principles approved in the Capital City Downtown Plan to enhance the Arena and Entertainment District.

b. Street Interface

The interface between buildings and streets is important in achieving street environments that are welcoming to pedestrians and encourage increased activity at the sidewalk level.

- i. Buildings, shall generally reflect the street types identified in the Urban Design Framework for Downtown Streets within the Capital City Downtown Plan, emphasizing specific boulevard treatments to enhance the pedestrian oriented character of the Arena and Entertainment District.
- ii. Pedestrian linkages and crossings shall be identifiable through decorative paving, stamping, patterned concrete or brick.
- iii. Pedestrian oriented streetscape elements such as pedestrian level street lighting, landscaping, benches and street furniture shall be provided throughout the site.

Edmonton Zoning Bylaw 12800

*Bylaw 16584
December 9, 2013*

- iv. Buildings designed to accommodate Commercial Uses shall strengthen the pedestrian-oriented shopping experience by:
 - A. Designing the ground Storey to a minimum Height of 3.5m;

*Bylaw 16733
July 6, 2015*

- B. Developing major shopping complexes and large-format stores over 3000m² to contain smaller scale retail spaces with at-Grade street Frontage as to establish a rhythm of fine-grained street oriented retail establishments. Large format stores over 2000m² shall be an integral part of a comprehensive design and not developed as a stand-alone building;
 - C. Individual Commercial Uses shall not have a greater frontage than 70 m for each blockface;

*Bylaw 16733
July 6, 2015
Bylaw 17831
November 28, 2016*

- D. Providing a minimum of 60% at Grade street Frontage for retail, services, and other Commercial Uses. The frontage of the arena building shall be exempt from the calculation of this requirement; and

*Bylaw 16733
July 6, 2015
Bylaw 17831
November 28, 2016*

- E. Ensuring that above Grade parking structures are screened from public roadways at Grade in a way that does not disrupt the continuity of the street wall and the character of the zone. Screens may include, but are not limited to, public art, street fronting retail Uses or other mechanisms or Uses satisfactory to the Development Officer.

c. Public Amenity Area

- i. The development of the abutting public realm shall be in accordance with the standards outlined in the Urban Design Framework for Downtown Streets within the Capital City Downtown Plan.
- ii. Building setback areas shall improve the public realm and may include, among other amenities, appropriate seating areas, distinctive paving materials, fountains or public art.

d. Pedestrian Circulation

*Bylaw 16032
March 12, 2012*

- i. In addition to the public right-of-way, a setback shall be provided to ensure safe pedestrian stacking room and convenient movement through the District. This setback shall be determined at the Development Permit stage through the submission of a pedestrian circulation study, to the satisfaction of the Development Officer, in consultation with Transportation Services. The study shall

Edmonton Zoning Bylaw 12800

recommend appropriate setbacks based on:

- A. Location of public entrances to major traffic generators within the District;
 - B. Location of street crossings; and
 - C. Pattern and intensity of pedestrian movement at peak times.
- ii. Pedestrian connections and linkages shall be provided to Light Rail Transit entrances.

*Bylaw 16733
July 6, 2015*

- ii. Pedestrian connections and linkages shall be provided through the site from 104 Avenue to 105 Avenue. Pedestrian connections may be provided at or above Grade, or a combination of both.

*Bylaw 17973
April 24, 2017*

- iv. In large developments, through access shall be provided to facilitate pedestrian access to other Walkways, linkages or interior courtyards.

e. Street Wall Design

- i. The façade of commercial and residential buildings, excluding the arena building, that comprise a portion of the Street Wall shall range in Height from 9m to 26m. The Development Officer may vary the street wall heights in consideration of the following:
- A. The visual, sun/shadowing, and other microclimatic impacts on adjacent residential development;
 - B. The recommendations and mitigative measures specified in any required technical studies;
 - C. Respect of building Height proportionality;
 - D. The accommodation of podium gardens, restaurants/cafes; and
 - E. Consistency with the design of the District.

*Bylaw 17062
July 6, 2015*

f. Entrances and Corners

- i. Ground level retail Uses shall open to the street rather than exclusively to an internal atrium.

*Bylaw 17831
November 28, 2016*

*Bylaw 16733
July 6, 2015
Bylaw 17831
November 28, 2016*

- ii. In mixed-Use buildings, Residential Uses shall have access at Grade that is separate from the commercial premises.

Edmonton Zoning Bylaw 12800

- iii. Buildings at corners shall provide courtyards, major entry ways or distinctive architectural features consistent with the style of the building or influences on the other corners of the intersection to enhance pedestrian circulation and, where appropriate, enhance axial views.
- iv. Buildings shall be designed and oriented to face the front property line with entrances that are clearly visible, except on double fronting streets where the building shall be designed to front both the street and the avenue.

g. Tower Floor Plate, Stepbacks, and Spacing

- i. Buildings containing Uses other than Spectator Sports Establishments greater than 26m in Height shall be allowed in the form of a podium plus Tower composition or other configuration that ensures design treatments are compatible with the façades of other buildings in the District.
- ii. The mid-level of tall buildings or Towers shall employ building stepbacks, tower spacing and sculpting to reduce building mass and augment views, light and privacy.
- iii. Towers shall stepback from the front podium wall a minimum of 4.5 m.
- iv. The minimum space between non-residential Towers shall be 20m.
- v. The minimum space between a residential Tower and any other Tower shall be 25 m.
- vi. Notwithstanding the regulations on Spacing, the Development Officer may vary the Tower spacing in consideration of the following:
 - A. The visual sun/shadowing and other microclimatic impacts on the adjacent residential development; and
 - B. The recommendations and mitigative measures specified in any required technical studies.
- vii. The Tower Floor Plate(s) of the top 4 floors shall be reduced a further 10% to 15%, to the satisfaction of the Development Officer, through Stepbacks to create articulation, visual interest and reduced massing effects.

*Bylaw 16584
December 9, 2013*

- viii Notwithstanding 5(g)(vii) the reduction of the tower floor plates of the top 4 floors may be reduced or removed where the Tower top is visually articulated through techniques such as architectural features, variation of materials/colour or other means and shall be to the satisfaction of the Development Officer.

*Bylaw 17642
May 25, 2016*

- ix Notwithstanding the above (5(g)(i), (ii) and (iii)) the Development

Edmonton Zoning Bylaw 12800

Officer may use discretion in approving a Tower which does not include Stepbacks or reduced tower floor plates.

- x. High rise structures, whether in the form of point Towers, multiple developments or an entire complex shall be designed, oriented and constructed to maximize views, articulate the downtown skyline, and allow sunlight penetration at the street level, in public spaces, plazas, parks and amenity areas.

h. Building Façade, Materials and Exterior Finishing

- i. Building façades shall incorporate architectural design details or features that recognize the predominant urban character of the street, as identified in the Urban Design Framework for Downtown Streets within the Capital City Downtown Plan.
- ii. A façade shall not extend greater than 10m without some manner of articulation at street-level, with the exception of the 105 Avenue façade for which articulation at least approximately every 15m is required. Articulation may be provided in the form of arcades, variations in building materials, colour changes, signage, building breaks or setbacks, or other methods suitable to the architectural style of the building which provide visual interest.
- iii. Building design and façade shall incorporate treatments such as awnings, canopies, window openings, reveals, offsets, multiple entrances, arcades, columns, quality materials, interesting design, fenestrations, double Height entrances, parks, plazas, appropriate landscaping, colour and other architectural features.
- iv. Where practical, weather protection in the form of a canopy at least 2.0 m wide or any other method suitable to the architectural style of the building or street theme shall be provided one Storey above sidewalk level to provide protection from inclement weather.
- v. Buildings shall emphasize horizontal and vertical elements as well as finer grain elements including windows, balconies, shadow lines and textures to distinguish between residential and non-residential buildings.
- vi. Building materials shall be sustainable, durable, high quality and appropriate for the development within the context of the Arena and Entertainment District.

i. Roof Tops and Skyline Effects

- i. The Towers shall contribute to the 'signature' of the building and the City's skyline through treatment of the upper floors and roofs. The Tower shall provide articulation, visual interest and reduced massing effects by combination of sculpting of the building,

*Bylaw 16584
December 9, 2013*

variation of materials/colour or other means and shall be to the satisfaction of the Development Officer.

j. Exterior Lighting

*Bylaw 16733
July 6, 2015
Bylaw 17831
November 28, 2016*

- i. Enhanced lighting at Grade shall be provided to improve the pedestrian environment and address the long night associated with a winter city. Detailed lighting plans shall be submitted with each Development Permit stage.
- ii. Large-scale architectural lighting:
 - A. Shall be used to highlight or accentuate vertical, horizontal or other architectural elements of buildings; and
 - B. May change hues and mark special seasons, weather and events with unique colour arrangements, and may make use of dramatic lighting elements in order to create a dynamic and exciting event atmosphere.
- iii. Exterior lighting associated with the development shall be designed such that illumination is minimized beyond the boundaries of the development site, thereby limiting or preventing light pollution and intrusion.

6. Additional Development Regulations for Specific Uses and Streets

- a. The following regulations shall apply to Automotive and Minor Recreational Vehicle Sales/Rentals and Convenience Vehicle Rentals:
 - i. There shall be no servicing, except for exterior and interior washing and detailing, and repair operations; and
 - ii. All sales, display and storage shall be contained within the building.

*Bylaw 16224
September 10, 2012*

- b. Notwithstanding Section 91 of the Zoning Bylaw, the following regulations shall apply to Flea Markets:
 - i. No minimum distance from residential development shall be required;
 - ii. No additional parking shall be required;
 - iii. No direct vehicular access to arterial roadways shall be required; and
 - iv. May be of a temporary nature.

*Bylaw 16584
December 9, 2013*

- v. May be located outdoors.
- c. The following regulations shall apply to Bars and Neighbourhood Pubs and Nightclubs:

Edmonton Zoning Bylaw 12800

- i. Where Bars and Neighbourhood Pubs and Nightclubs are located within the same building as residential, consideration shall be given to the adverse effects of Bars and Neighbourhood Pubs and Nightclubs. Design techniques to mitigate the effects of noise and light shall be provided, to the satisfaction of the Development Officer.

*Bylaw 16584
December 9, 2013*

- ii. Nightclubs shall not be located within 10 m of an existing Residential Use.

- l. The maximum building Height shall not exceed 18.0 m, in accordance with Section 52, provided that no eave line shall have a Height greater than 14.0 m from Grade. In cases where dormers or other windows are proposed, the development shall be considered a Discretionary Development.
- m. Commercial development, excluding Hotels, along the loop road will be primarily limited to the first two storeys with residential development above.
- n. The maximum Floor Area for a permitted or discretionary Commercial Use, excluding Hotels, shall be 1000 m² except that the maximum Floor Area for no more than two Commercial Uses in this GVC Zone shall be 2500 m² and that the maximum Floor Area for one additional Commercial Use in this GVC Zone shall be 5000 m².
- o. Any business premises or multiple occupancy building having a Floor Area greater than 2000 m² or a single wall length greater than 25.0 m visible from a public road, shall comply with the following criteria:
 - i. the roof line and building façade shall include design elements that reduce the perceived mass of the building and add architectural interest; and
 - ii. landscaping adjacent to exterior walls shall be used to minimize the perceived mass of the building and to create visual interest.
- p. All mechanical equipment, including roof mechanical units, shall be concealed by screening in a manner compatible with the architectural character of the building or concealed by incorporating it within the building.
- q. Signs shall comply with the regulations found in Schedule 59E of this Bylaw, with the intent to complement the pedestrian-oriented commercial environment, except that:
 - i. the maximum Height of a Freestanding Sign shall be 6.0 m;

- iii. Buildings and entrances should generally be located closer to the street to enhance pedestrian interest and activity.
- iv. Organize the site such that buildings frame and reinforce pedestrian circulation or to create view corridors between pedestrian destination within and adjacent to the site including building entrances, transit stops or public amenities.
- v. In larger multiple building projects, amenity areas should be grouped to create at least one central "Commons" to serve as a central gathering place or focal points for the residents. Such spaces may be developed for active or passive recreation, for more formal courtyards or plazas or left in its natural state.

b. Building Design and Architectural Standards

Bylaw 17062

July 6, 2015

- i. The design of multifamily developments should reflect the use of appropriate high quality materials and architectural expressions to reduce the impact of Height, bulk and density on adjacent lower density development and contributes to the visual enhancement of the streetscape.

Edmonton Zoning Bylaw 12800

- ii. Building facades shall include design elements, finishing materials and variations that will reduce any perceived mass and linearity of large buildings and add architectural interest.
- iii. The roof line of buildings shall consist of either sloped roofs of varying pitches and may include gable-ends, dormers or steeples, and be finished in any roofing material selected from metal, wood shakes, architectural asphalt shingles or clay tiles; OR flat roofs where such roofs are concealed by parapet walls that include articulation and use of design elements that are in harmony with the principal architectural theme of the project.
- iv. All mechanical equipment, including roof mechanical units, shall be concealed by screening in a manner compatible with the architectural character of the building, or concealed by incorporating it within the building framework.
- v. The predominant exterior finishing materials shall be applied consistently on all sides of a building and may be any combination of brick, siding, stucco, stone or other masonry materials having a similar character, with wood or metal trim limited as an accent, to ensure the overall development is consistently of a high quality compatible with surrounding residential areas.
- vi. Low-rise apartment housing on corner lots or visible from public amenities such as stormwater management facilities, parks and dedicated major Walkways must incorporate architectural detailing and style consistent with the front elevation, as well as features and or elements to balance the overall massing in these highly visible locations. Elements may include setback of the upper floor, projections for relief in wall plane and intentional roof lines between ground and upper floors, appropriate wall Heights window placement consistent with the front elevation.

c. Pedestrian Environment

- i. Development within this zone shall ensure that the design of the pedestrian environment is comfortable, convenient, visually attractive and safe for human activity.
- ii. Buildings and site amenities should be scaled to enhance the pedestrian environment.
- iii. Provide safe and direct pedestrian connections to unify urban design and landscape elements on site and to other neighbourhood facilities and amenities.

d. Access, Circulation and Parking

- i. Entrances to the Site from public roadways shall provide an enhanced feature in the form of public art, on-site amenity or architectural

Edmonton Zoning Bylaw 12800

feature consistent in design, material and construction with the overall project.

- ii. Convenient, safe and attractive access to the building's entrances should be provided through appropriate lighting and security measures.
- iii. Internal circulation within project oriented multifamily developments should be designed to facilitate access to building clusters, take advantage of views or amenities and to reduce conflict with pedestrians.
- iv. Underground parking is recommended for low rise apartments on smaller sites to allow for more useable landscaped open space and amenities at Grade.
- v. For multiple projects on a site, surface parking should be screened from view of adjacent low density residential development, stormwater management facilities, open space amenity areas, corridors or adjacent roadways. If surface parking areas are covered (Parking Garages), then such areas shall be integrated into the overall architectural theme of the associated residential buildings through the use of similar roof lines, materials, colours and roof pitch.
- vi. Parking and loading facilities shall be located a minimum 3.0 metres from any public or pedestrian corridor and the setback must be landscaped and screened to the satisfaction of the Development Officer.

e. Landscaping

*Bylaw 17727
August 22, 2016
Bylaw 17831
November 28, 2016*

- i. A detailed Landscaping plan shall be submitted in accordance with Section 55 of the Zoning Bylaw prior to the approval of any Development Permit. This plan shall include pedestrian connection and Fencing details, exterior lighting and street furniture elements, pedestrian seating areas, varied sizes and species of new plantings for the entire Site, and including special treatment to clearly delineate between the public and private realm and access to the public open spaces or pedestrian linkages.
- ii. All Fencing located on property lines adjacent to commercial and open space amenity areas, stormwater management facilities, and pedestrian corridors shall be consistent in design, materials, finishes and colours with the Fencing styles established for the neighbourhood

f. Signage

- i. Signs shall be designed to complement the architectural features of the building(s), identify specific addresses and act as wayfinding on multiple unit sites.

Edmonton Zoning Bylaw 12800

g. CPTED and Accessibility

- i. CPTED principles shall be used to design all public and private spaces and facilities, focusing on natural surveillance and access control to lessen the likelihood of crime within the precinct.
- ii. All buildings and public facilities shall be designed to be accessible to persons in wheelchairs, motorized scooters and strollers.

5. Design Regulations

*Bylaw 17831
November 28, 2016*

The Development Officer shall ensure that the following architectural and site design regulations are incorporated in all developments within this zone to ensure that the design and distribution of land Use activities associated with large format commercial operations support a pedestrian friendly, aesthetically pleasing and functional environment and reduce the visual impact from public roadways.

a. Site Planning and Design

- i. Large format buildings should be located at the perimeter of this commercial precinct, specifically adjacent to 170 Street and Anthony Henday Drive, and oriented or grouped to frame views, constructed amenities, public streets, or entrance corridors, where practical. Variable building setbacks, and the placement and design of the rear façade of structures should minimize long expanses of walls, a monotonous appearance or exposed service areas.
- ii. Unless part of a larger complex or mixed Use development, small format or single use sites should be oriented toward the primary interior access roads and designed to complement adjacent developments to maintain (or establish) a clear building edge. Parking will typically be in the interior of the block or behind the buildings. If designed as a shopping street or multi-bay unit, some parallel or angled parking may be allowed in front of the commercial building.
- iii. Building orientation at the intersection of access streets along the south edge of the commercial precinct shall be arranged to frame the corner of the intersection to create a "sense of place", using building design, decorative architectural wall, landscaping and other focal points and site amenities, and arrival into the commercial centre.
- iv. A diversity of Site Amenities and pedestrian landscaping facilities such as public art, seating areas, street furniture, small parks, squares, plazas and greens should be encouraged to create an inviting image for the development.
- v. The design of the project shall establish an architectural theme with complementary design elements, finishing materials and colours being

*Bylaw 17831
November 28, 2016*

Edmonton Zoning Bylaw 12800

applied to each building regardless of the staging sequence of the project.

- vi. Site amenities may be constructed as focal points, with complementary materials to the architecture of the development and within walking distance to transit stops and major tenants in the complex.
- vii. Parking should not dominate street frontages or access entry areas. Off-street parking should be provided as surface parking lots in interior lots. To reduce the scale of parking and walking distance, parking may be located at the rear or sides of buildings not flanking access streets.
- viii. The storage of materials and the piling of snow on parking surface lots shall be in a location away from the public roadway to improve safety and visibility.

*Bylaw 17973
April 24, 2017*

- ix. No part of the site shall be developed as an enclosed shopping mall. The primary means of pedestrian circulation shall be outdoor Walkways.

b. Building Design and Architectural Standards

- i. Buildings and site amenities should emphasize architectural elements and façade enhancements, particularly to the first and second levels of a project to create a pedestrian friendly environment. Lower floors should be strongly articulated to add variety, interest and a human scale dimension. Design elements may include placement of windows to allow for viewing into the building by pedestrians; entrance features; street furniture; canopies; features that lend visual interest and create a human scale.
- ii. Smaller buildings are required to incorporate a similar level of architectural quality, materials and detailing as the larger format developments.
- iii. Development adjacent to Anthony Henday Drive and 170th Street / Terwillegar Drive shall ensure appropriate and high quality architectural and landscape design elements to ensure an attractive interface providing visual interest and relief.
- iv. Design techniques including, but not limited to, variations in building setbacks and articulation of building facades shall be employed in order to minimize the perception of massing of the building when viewed from adjacent Sites and public roadways.
- v. Building facades (all sides) shall include design elements, finishing materials and variations that will reduce any perceived mass and linearity of large buildings and add architectural interest.
- vi. The roof line of buildings shall consist of: sloped roofs of varying pitches which may be finished in any combination of metal, wood shakes, asphalt shingles, clay tiles, or roof materials having a similar texture and appearance; OR flat roofs where they are concealed by parapet walls that include articulation and use of design elements that are in harmony with the principal architectural theme that reduce any perceived mass and linearity of large buildings and add architectural interest;

Edmonton Zoning Bylaw 12800

- vii. To reduce any perceived mass and linearity of large buildings and add architectural interest, the exterior finishing materials shall incorporate combinations of brick, stone or other masonry materials, concrete, stucco, glazing or siding, having a similar character, with wood or metal trim, having regard to the objective of ensuring that the development is of a high quality, complementary theme.
- viii. Buildings are encouraged to incorporate exterior and decorative lighting to enhance building architecture, landscaping elements and focal points.

c. Pedestrian Environment

- i. Development within this zone shall ensure that the design of the pedestrian environment is comfortable, convenient, visually attractive and safe for human activity.
 - ii. A diversity of Site Amenities and pedestrian oriented facilities such as public art, seating areas, street furniture, small parks, squares, plazas and greens should be provided to create an inviting image for the development.
 - iii. Building facades should have pedestrian friendly features including transparency, decorative windows, wall niches, seating areas and entrances to complement an interesting pedestrian streetscape.
 - iv. Pedestrian pathways to building entrances, amenities and transit should be convenient, safe and well lit, with special paving or landscaping to define the connections.
- Bylaw 17973
April 24, 2017*
- v. Pedestrians should be protected by weather protection or building entrances in the form of awnings, canopies, overhang, or covered Walkways where practical.

d. Access, Circulation and Parking

- i. Access to developments within this zone from public roadways or primary internal access routes shall provide safe, convenient vehicular and pedestrian access and circulation patterns between parking, shopping and amenity areas.
- Bylaw 17973
April 24, 2017*
- ii. Establish pedestrian friendly corridors and linkages connecting the adjacent designated UVCa areas to shopping and amenities through the utilization of clearly demarcated walkways, lighting and signage systems to reduce pedestrian conflict and create a more pedestrian friendly image.
- Bylaw 17973
April 24, 2017*
- iii. All developments shall provide adequate Walkways along primary buildings, as well as pedestrian connections to parking areas, site amenities, public perimeter sidewalks and bus stops.
 - iv. Parking areas should be designed for a safe and orderly flow of traffic as well as pedestrians to avoid pedestrian/vehicular conflict and to include

Edmonton Zoning Bylaw 12800

appropriate landscaping to reduce the visual impact from public roadways, amenity areas and pedestrians.

- v. Allow vehicular and pedestrian cross lot access and circulation within the commercial precinct to facilitate direct access to shopping.
- vi. A range of parking options should be explored including shared, multilevel and underground parking.

e. Landscaping

*Bylaw 17727
August 22, 2016*

- i. Coordinated and complementary streetscape enhancements should be applied through out the commercial precinct, including street trees, Fencing, pedestrian scaled lighting, street furniture and other amenities.
- ii. Landscaping should be used to highlight major circulation patterns, pedestrian pathways and the overall development.
- iii. Landscaping in both the public and private realm should be coordinated to provide a cohesive appearance.
- iv. Along 170 Street and Anthony Henday Drive, the rear of private properties shall reflect a more formalized-landscape treatment to enhance views or screen parking lots and service areas from the traveling public.

f. Signage

- i. Signs shall be designed to reflect an aesthetically pleasing and cohesive approach to complement the architectural features of all buildings and create a unique and identifiable image for the entire precinct.
- ii. Directional signage is encouraged to provide information at critical locations relating to primary tenants, parking lots, loading zones and pick up areas, entrances, exits and amenity areas.

g. CPTED and Accessibility

- i. CPTED principles shall be used to design all public and private spaces and facilities, focusing natural surveillance and access control to lessen the likelihood of crime within the precinct.
- ii. All buildings and public facilities shall be designed to be accessible to persons in wheelchairs, motorized scooters and strollers.

960.6 (UVCa) Ambleside Urban Village Commercial Zone

5. Design Regulations

The Development Officer shall ensure that the following architectural and site design guidelines are incorporated in all developments within this zone to establish a street oriented and pedestrian friendly retail /entertainment development and improve the livability and viability of in Ambleside.

a. Site Planning and Design

- i. The design of this mixed use commercial precinct shall establish an appropriate Town Centre architecture with complementary use, design elements, finishing materials and colours being applied to each building regardless of the staging sequence of the project.
- ii. A diversity of Site Amenities and pedestrian oriented facilities such as public art, seating areas, street furniture, small parks, squares, plazas and greens should be provided to create an inviting image for the development.
- iii. Site amenities may be constructed as focal points, with similar materials to the architectural theme of the development and within walking distance to transit stops and major tenants in the complex.
- iv. Unless part of a larger complex or mixed use development, stand alone or single use buildings should be oriented toward the primary interior roads and designed to complement adjacent developments, to maintain or establish a clear building edge. Parking will typically be in the interior of the block, behind the buildings, although some parallel or angled parking may be allowed in a shopping street format.
- v. Building orientation at the intersection of access streets along the south edge of the commercial precinct shall be arranged to frame the corner of the intersection to create a "sense of place", using building design,

Edmonton Zoning Bylaw 12800

decorative architectural wall, landscaping and other focal points and site amenities, and arrival into the commercial centre.

- vi. The storage of materials and the piling of snow on parking surface lots shall be in a location away from the public roadway to improve safety and visibility.

*Bylaw 17973
April 24, 2017*

- vii. No part of the site shall be developed as an enclosed shopping mall. The primary means of pedestrian circulation shall be outdoor Walkways.

b. Building Design and Architectural Standards

*Bylaw 15735
June 20, 2011*

- i. Design techniques including, but not limited to, the use of sloped roof, variations in building Setbacks and articulation of building facades shall be utilized in order to minimize the perception of massing of the building when viewed from adjacent Sites and public roadways.
- ii. Building facades (all sides) shall include design elements, finishing materials and variations that will reduce any perceived mass and linearity of large buildings and add architectural interest.
- iii. The roof line of buildings shall consist of sloped roofs of varying pitches which may be finished in any combination of metal, wood shakes, asphalt shingles, clay tiles, or roof materials having a similar texture and appearance OR flat roofs where they are concealed by parapet walls that include articulation and use of design elements that are in harmony with the principal architectural theme that reduce any perceived mass and linearity of large buildings and add architectural interest;
- iv. To reduce any perceived mass and linearity of large buildings and add architectural interest, the exterior finishing materials shall incorporate vertical elements using a combinations of brick, stone or other masonry materials, concrete, stucco, glazing or siding, having a similar character, with wood or metal trim, having regard to the objective of ensuring that the development is of a high quality and complementary theme. Abrupt and excessive differences in scale of adjacent buildings should be minimized through transitional building treatment.
- v. Primary emphasis shall be placed on design elements and façade enhancements, particularly to the first and second levels of buildings to create a pedestrian friendly environment. Lower floors should be strongly articulated to add variety, interest and a human scale dimension. Design elements may include placement of windows to allow for viewing into the building by pedestrians; entrance features; street furniture; canopies and features that lend visual interest and create a human scale.
- vi. Smaller buildings shall incorporate complementary materials and architectural detailing as the larger format developments.

Edmonton Zoning Bylaw 12800

- vii. Buildings are encouraged to incorporate exterior and decorative lighting to enhance building architecture, landscaping elements and focal points.

c. Pedestrian Environment

- i. The development shall create a pedestrian friendly environment, focused on a shopping street, which may include such things as entrance features, pedestrian signage, outdoor sitting areas, canopies, landscaping, convenient parking and other features that lend visual interest and a human scale to development along the street.
- ii. Development within this zone shall ensure that the design of the pedestrian environment is comfortable, convenient, visually attractive and safe for human activity.
- iii. A diversity of site amenities and pedestrian oriented facilities such as public art, seating areas, street furniture, small parks, squares, plazas and greens should be provided to create an inviting image for the development.
- iv. Building facades should have pedestrian friendly features including transparency, decorative windows, wall niches, seating areas and entrances to complement an interesting pedestrian streetscape.
- v. Pedestrian pathways to building entrances, amenities and transit should be convenient, safe and well lit, with special paving or landscaping to define the connections.

*Bylaw 17973
April 24, 2017*

- vi. Pedestrians should be protected by weather protection or building entrances in the form of awnings, canopies, overhang, or covered Walkways where practical.

d. Access, Circulation and Parking

- i. Internal and perimeter streets shall be tree lined and lit with appropriate lighting.
 - ii. The internal street system and pedestrian linkages should be designed to foster connectivity to the urban village core and various amenities and facilities within the neighbourhood.
- Bylaw 17973
April 24, 2017*
- iii. All developments shall provide adequate Walkways along primary buildings, as well as pedestrian connections to parking areas, site amenities, public perimeter sidewalks and bus stops.
 - iv. Parking areas should be designed for a safe and orderly flow of traffic as well as pedestrians to avoid pedestrian/vehicular conflict and to include appropriate landscaping to reduce the visual impact from public roadways, amenity areas and pedestrians
 - v. Site entrances and edges should receive special design attention to help ensure that the development provides an attractive and inviting face to surrounding areas.

Edmonton Zoning Bylaw 12800

- iv. The majority of off-street parking will be provided as surface parking in interior lots. To reduce the scale of parking and walking distance, parking should be located to the rear and side of buildings. Parking should not dominate street frontages or access entry areas.

*Bylaw 17973
April 24, 2017*

- v. Pedestrian friendly corridors and linkages connecting the adjacent designated CSCa areas to shopping and amenities through the utilization of clearly demarcated Walkways, lighting and signage systems should be provided to reduce pedestrian conflict and create a more pedestrian friendly image.
- vi. A range of parking options should be explored including shared, multilevel and underground parking. However, parking lots should not be adjacent to "Main Street", or any village greens or commons.

e. Landscaping

- i. Landscaping, both hard and soft, shall be used to tie developments together in this precinct.
- ii. Open space should feature high quality landscape architecture intended to make spaces comfortable and enjoyable including such features as trees, street furniture, public art and water features.

*Bylaw 17727
August 22, 2016*

- iii. Coordinated and complementary streetscape enhancements should be applied through out the commercial precinct, including street trees, Fencing, pedestrian scaled lighting, street furniture and other amenities.
- iv. Landscaping should be used to highlight major circulation patterns, pedestrian pathways and the overall development.

*Bylaw 17973
April 24, 2017*

- v. A minimum 1.5 m pedestrian Walkway shall be provided along the internal loop road.

f. Signage

- i. Signs shall be designed to reflect an aesthetically pleasing and cohesive approach to complement the architectural features of all buildings.
- ii. Directional signage is encouraged to provide information at critical locations relating to primary tenants, parking lots, loading zones and pick up areas, entrances, exits and amenity areas.

g. CPTED and Accessibility

- i. CPTED principles shall be used to design all public and private spaces and facilities focusing natural surveillance and access control to lessen the likelihood of crime within the precinct.

Edmonton Zoning Bylaw 12800

- ii. All buildings and public facilities shall be designed to be accessible to persons in wheelchairs, motorized scooters and strollers.

Bylaw 16942
October 20, 2014

970. SPECIAL AREA EDMONTON ENERGY AND TECHNOLOGY PARK

970.1 General Purpose

The purpose of this Section is to designate Edmonton Energy and Technology Park Area Structure Plan as shown on Appendix 1 to this Section, as a Special Area and to adopt appropriate land use regulations to achieve the principles, objectives, and policies of the Edmonton Energy and Technology Park Area Structure Plan, adopted by Bylaw 15093, as amended.

970.2 Application

The designation, location, and boundaries of each underlying Land Use Zone affected or created through Section 970 shall apply as indicated on Appendix I to this Section.

970.3 Land Use Zones Created by Special Area Provisions

Zones, as contained in Section 970.6, 970.7, 970.8, 970.9, and 970.10 have been created in accordance with Section 900 of this Bylaw.

970.4 Land Use Classes

For the sole purpose of the special land use zones contained in Section 970.6, 970.7, 970.8, 970.9, and 970.10, the following Use Classes have been created:

1. **Heavy Industrial** means activities involved in the manufacturing processing, fabrication, storage, transportation, distribution or wholesaling of the heavy industrial goods and raw materials and in the processing and manufacturing of petrochemicals, which, in the opinion of the Development Officer may emit a significant level of noise, smoke, dust, odour, fumes, flares, vibration, etc and which may require mitigation with the surrounding land use.
2. **Industrial Logistics** means a manufacturing industrial activity which does not create an adverse environmental impact beyond its immediate Site, and may be carried on indoors and/or outdoors and may include but is not limited to the storage, manufacturing, fabricating, dismantling, assembling of semi-finished, or finished goods, products or equipment, food products, distribution, wholesaling, testing, repairing or salvaging of goods and materials, cleaning, servicing, repairing or testing of materials, goods and equipment normally associated with industrial developments.
3. **Industrial Manufacturing** means a manufacturing industrial activity which does not create an adverse environmental impact beyond its immediate site, does not produce significant toxic or noxious by-products and is compatible with other industrial and commercial uses in a concentrated setting. This use includes only those developments where activities and uses may be carried on indoor and/or outdoors where no significant nuisance factor is created or apparent beyond the boundaries of the site, and involves the storage, manufacturing, fabricating, dismantling, assembling of semi-finished or finished goods, products or equipment, food products; distribution, wholesaling, testing, repairing or salvaging of goods and materials, cleaning, servicing, repairing or testing of materials, goods and equipment normally associated with industrial developments.

Edmonton Zoning Bylaw 12800

4. **Laboratories** means industrial business uses that conduct their operations such that no means the use of premises not providing service directly to the public for the provision of analytical, research, or testing services including biotechnologies and energy and environmental technologies, but does not include photofinishing or photography laboratory.
5. **Light Industrial Business** means industrial business uses that conduct their operations such that no nuisance factor is created or apparent outside an enclosed building that would make the use incompatible with adjacent non-industrial uses. These uses are generally *low risk prone activities* meaning those activities that are permitted in buffer areas surrounding plant sites.
 - a. the cleaning, servicing, repairing or testing of materials, goods and equipment normally associated with industrial or commercial businesses or cleaning, servicing and repairing operations to goods and equipment associated with personal or household use;
 - b. the storage or transshipping of materials, goods and equipment; or
 - c. the training of personal in general industrial operation.
6. **Research and Development Facilities** means premises used for the purpose of conducting research and developing products or services, but does not include retail or wholesale of those products or services. Businesses locating in a building or part thereof are generally used by raw material development and testing firms; processed products development and testing firms; and chemical and biological products development and testing firms.
7. **Specified Industrial Facility** means a processing facility for a heavy industrial operation that includes storage tanks, processing equipment, processing ponds, waste or product storage, loading areas, staging areas, and power sub-stations.

970.5 Edmonton Energy and Technology Regulations and Information Requirements

The following Information Requirements and Plans shall be submitted prior to the approval of any development permit.

1. Eco-Industrial Design Plan

An eco-industrial design plan will be required for each development within the Edmonton Energy and Technology Park to address green performance standards and industrial efficiency and ecology. The eco-industrial design plan shall provide a detailed description of how the development will incorporate and implement some or all of the following:

- a. Construction of high performance Green buildings addressing the following:
 - i. water conservation and management;
 - ii. energy conservation and management;
 - iii. Site environment;
 - iv. resources and materials;

*Bylaw 16733
July 6, 2015*

Edmonton Zoning Bylaw 12800

- v. health and indoor environment;
 - vi. LEED certification or other third party certification green building rating may waive detailed descriptions of the above elements; and
 - vii. Green Roofs.
- b. A Statement of confirmation that the applicant has proposed and consulted with neighbouring properties in order to establish shared use agreement to ensure Eco-Industrial Networking between properties to create a corridor for the transshipment of goods and by-products, raw materials through private pipe, rail and /or road above or below the ground for some or all of the following:
- i. waste collection and recycling initiatives
 - ii. information business intelligence and technologies
 - iii. infrastructure
 - iv. joint site access and service lanes
 - v. consolidated logistics areas
 - vi. coordinate and share material/resource input and output shipping
 - vii. loading facilities
 - viii. ground source (geothermal) heat systems
 - ix. loading facilities
 - x. options to recover water, specifically rainwater (rooftop, on-lot), stormwater (street, off-lot); grey water; and black water (sanitary)
 - xi. district energy systems; or
 - xii. parking
 - xiii. ecological network

2. Landscaping Plan

A "Landscape Plan" shall be submitted as per Section 55 of the Edmonton Zoning Bylaw and shall also include the following:

- a. consistency with recommendations and objectives identified in the applicable Natural Area Management Plan.
- b. the location of new and existing landscape areas. Proposed landscaping shall be integrated with adjacent ecological features and be designed to support ecological network.
- c. arterial or freeway frontages which include additional landscaping.
- d. landscape areas which are connected to those landscaped areas with adjacent parcels, and park and natural areas.
- e. tree trunk protection from winter snow clearing equipment and designated snow clearing and storage areas.
- f. the planting of native species and use of alternatives to pesticides and herbicides to ensure the reduction in the spread of invasive species.
- g. canopy trees along all walking routes.

Edmonton Zoning Bylaw 12800

- h. landscaping coordinated with the street right-of-way and adjacent lands to create a seamless transition between public and private space.
- i. tree and shrub plantings located in strategic areas to provide shading, climate protection, and windbreaks.
- j. low water demand plants to reduce or eliminate the need for Site watering and improving survivability;
- k. the following Low Impact Development elements:
 - i. preserving natural Site features
 - ii. Minimizing and disconnecting impervious areas
 - iii. permeable paving surfaces and light coloured materials in hard landscaped areas to improve ground water recharge, reduce storm water runoff, and reduce heat radiation;
 - iv. use of a rain garden is a landscape feature that is planted with native perennial plants used to slow down the stormwater runoff from impervious surfaces and allow it to infiltrate back into the soil;
 - v. bio-retention areas;
 - vi. bioswales;
 - vii. or Green Roofs.
- l. storm water runoff from Site and roofs is quality-controlled through the use of best environmental practices in on-site retention, collection, conveyance, and treatment, prior to discharging into receiving watercourses or storm sewers.
- m. use of natural areas as defining elements of the lot, such as using the buffered edges of watercourse corridors, forest patches or wetlands to delineate rear or side lot lines, to reinforce the role and function of the ecological network in shaping the area's built form. These edges shall be established through the applicable Natural Area Management Plan.
- n. green vegetated buffer areas between the edge of protected natural areas and adjacent buildings, parking lots, aisles, and service areas. The dimensioning of these buffered areas must be to the satisfaction of the Development Officer.
- o. storm water wetlands are incorporated for holding and treatment of storm water runoff.
- p. Determination of Crown bed and shore claims prior to Site clearing or preparation.

3. Natural Area Management Plan

When an application for a Development Permit is for activity on lands zoned (NA) Natural Area, or is to rezone an identified Natural Area Site to the NA Zone, the Development Officer shall require a Natural Area Management Plan as per Section 14.8 of this Bylaw.

Edmonton Zoning Bylaw 12800

4. Drainage Servicing Report

*Bylaw 17831
November 28, 2016
Bylaw 17832
November 28, 2016*

An applicant for a Development Permit on a Site in the Petrochemical Precinct shall submit a Site specific drainage servicing report to the satisfaction of the Development Officer in consultation with Drainage Services. The drainage servicing report shall include but not be limited to waste water and storm water discharge rates, quality and quantity and a geotechnical report for the location of any storm water management facilities and outfalls. The drainage servicing report may, at the discretion of the Development Officer, include a bird hazard mitigation plan for any planned storm water management facilities.

5. Risk Management Plan

*Bylaw 17831
November 28, 2016*

1. An applicant for a Development Permit on a Site in or adjacent to the Petrochemical Cluster Precinct shall submit a risk management plan, including a risk assessment plan pertaining to catastrophic events, to the satisfaction of the Development Officer in consultation with the Industrial Planning Unit, Fire Rescue Services & Emergency Response to ensure all Site and building designs within all Edmonton Energy and Technology Park Zones are designed for ease of evacuation and provide protection to building occupants specific to the potential for industrial accidents.

The risk management plan must include the following:

- a. Cumulative effects of multiple risk management Sites must be included in all risk assessments undertaken in the plan area where applicable. A cumulative risk analysis refers to the cumulative risks of facilities, pipelines, corridors, dangerous goods roads, and dangerous goods rail.
 - b. Quantitative risk using accepted risk analysis methods shall be provided.
 - c. The risk assessment plan will determine any on-site production, processing, handling, storage, use or disposal of dangerous goods in excess of the quantities identified under the Alberta Fire Code, with reference to small quantity exemptions for Dangerous Goods. The risk assessment plan will also determine the risk of an industrial accident and the potential for additional risk resulting from the cumulative quantities of dangerous goods located at other surrounding facilities.
2. Notwithstanding 970.5(5)(1), risk management plans may be conducted for and shared by multiple adjoining Sites provided development is in conjunction with one another and must include the following information requirements:
 - a. Identify the source(s) of risk– a description of the land use, Facilities, activities and operations proposed through Sites zoned

Edmonton Zoning Bylaw 12800

Edmonton Energy and Technology Park Petrochemical Cluster Zone or other Edmonton Energy and Technology Park Zoning that allows uses that may generate risk, or existing within 1.5 km of a Site proposed for an incompatible use. Similarly, identify all incompatible uses within 1.5 km. of a Site proposed to be designated or zoned for heavy industrial uses.

- b. Identify and assess the potential hazards – hazardous substances, quantities, their use, transportation, storage, and transfer points.
- c. Indicate the likelihood of a catastrophic incident occurring. Frequency analysis may be based on a historical review of the operation of the facility, other typical examples and/or research on industrial or transportation accidents. Information sources must be documented.
- d. Describe and analyze the consequences of an incident. Analysis may include: the type of failure, description of event (e.g., gas release, explosion, fire), scale of event, area of impact, whether an uncontrolled release may occur, extent of exposure to hazardous materials, the routes through which risk exposure occurs, characterization of harm, the number of people affected, expected property damage, impact on environment, mitigating factors, duration of event.
- e. Identify information limitations, and the assumptions that were made in the preparation of a risk management plan.
- f. Assessment of Risk and proposed risk mitigation measures. These might include but are not limited to buffers, building design, Site layout, operating procedures, evacuation routes, and a description of how such measures will be implemented.
- g. A description of emergency planning and response provisions.
- h. Effective communication plan to inform potentially affected parties about the potential and type of risk and means to deal with it.

6. Parking Plan

*Bylaw 17831
November 28, 2016*

To encourage green development in parking standards applicants for a Development Permit shall submit a parking plan with the following elements to the satisfaction of the Development Officer in consultation with Transportation Services:

- a. required parking based on parking demand objectives to avoid requiring more parking than is actually needed. A parking demand assessment may be a requirement of each development application to determine the parking needs of each development.
- b. multi-leveled, structured parking shall be integrated into multi-use buildings, where large parking volumes are unavoidable.
- c. Incorporate Green Parking Lot criteria where feasible.

Edmonton Zoning Bylaw 12800

7. Transportation Impact Analysis

*Bylaw 17831
November 28, 2016*

An applicant for a Development Permit may be required to submit a Transportation Impact Analysis that details the traffic impacts and any related network improvements needed to support the proposed development, at the discretion of the Development Officer, in consultation with Transportation Services.

8. Design

The Development Officer shall ensure that the following architectural and Site design regulations are incorporated in all developments within Sections 970.6 (EETB) Edmonton Energy and Technology Park Business Park Zone, 970.8 (EETL) Edmonton and Technology Park Logistics Zone, 970.10 (EETM) Edmonton Energy and Technology Park Manufacturing Zone to ensure that the land uses support a pedestrian friendly, aesthetically pleasing and functional environment and reduce the visual impact from Public roadways:

a. Site Planning and Design

*Bylaw 17973
April 24, 2017*

- i. An on-Site system of Walkways must provide direct access and connections to:
 - A. primary buildings entrances;
 - B. Walkways from abutting Sites and from perimeter Walkways;
 - C. parking areas and structures;
 - D. Site amenities and gathering places;
 - E. transit facilities; and
 - F. existing trail networks.

b. Building Design and Architectural Standards

- i. Developments may incorporate visible green technology into facades, such as photovoltaic cells, and/or recycled material.
- ii. High quality building materials must be used in buildings located along arterial and freeway frontages, including where any building is adjacent to or facing any residential building
- iii. Create visual interest through articulation of building walls adjacent to pedestrian access routes. One or more of the following methods may be used: changes to materials, textures, colours, and patterns, façade modulation; substantial clustered landscape elements, and fenestration providing a sense of transparency.
- iv. All mechanical equipment, including roof mechanical units, shall be concealed by screening in a manner compatible with the architectural character of the building or concealed by incorporating it within the building.

Edmonton Zoning Bylaw 12800

- v. All mechanical, electrical, pollution control or waste handling equipment ancillary to a building must be screened from view from public rights of way. Such screening may be achieved through landscaping or by using materials identical to, or structurally and visually compatible with, the principal building (s).
 - vi. At the discretion of the Development Officer, equipment and facilities that are intended to provide educational or aesthetic benefit, such as alternative water treatment facilities, renewable energy devices, innovative recycling systems, etc. may be exempt from this requirements.
 - vii. Blank walls facing public roadways are not permitted.
- c. Signage
- i. Signs shall comply with the regulations found in Schedule 59G.
 - ii. Notwithstanding the title of Section 59G.3, regulations for discretionary signs, as well as the regulations for permitted signs, listed shall apply for all permitted Sign Use Classes.
 - iii. Signs may be designed to reflect an aesthetically pleasing and cohesive approach to complement the architectural green features of all buildings and enhance the unique and identifiable image for the entire zone.
 - iv. Directional signage shall provide information at critical locations relating to primary tenants, parking lots, loading zones and pick up areas, entrances, exits and amenity areas.

9. Additional Development Regulations

- a. The applicant for a development permit within the heliport approach and bird hazard zone as shown in Appendix II shall be required to consult with the Department of National Defence to ensure that the proposed development is consistent with applicable federal regulations regarding, but not limited to, Height and storm water management facilities.

*Bylaw 17831
November 28, 2016*

- b. Renewable Energy Devices that are characterized as free standing solar and/or wind turbine structures require a Development Permit and shall comply with the following regulations:
 - i. Signs on the Renewable Energy Devices shall be limited to:
 - A. Those needed to identify the property, and the owner and warn of any danger; and
 - B. Educational signs providing information on the technology and renewable energy usage.
 - ii. The maximum Height requirement of this Bylaw shall not apply to Renewable Energy Devices as a utility.
 - iii. The minimum distance from the base of any structure, or tower to any property line, habitable structure, business or

Edmonton Zoning Bylaw 12800

institutional use shall be equal to 1.2x the total Height of structure to the highest point.

- iv. Building mounted micro wind structures shall be Sited so that all parts of the system are located within the yard setbacks or a minimum of 1 m from any property line whichever is greater.
- v. The Development Officer may require that equipment necessary for the monitoring and operation of the Renewable Energy Device be screened from view from any public roadway other than a Lane, and from adjacent Sites if such protections are inconsistent with the character and appearance of surrounding development or the intended visual qualities of this Zone.

*Bylaw 17831
November 28, 2016*

- c. If a non-conforming building is damaged or destroyed to the extent of more than 75% of the value of the building above its foundation, a building permit may be issued, within six (6) months of the building being damaged or destroyed, under an existing valid Development Permit in order to allow the building to be repaired or rebuilt in its original form.

970.6 (EETB) Edmonton Energy and Technology Park Business Park Zone

1. General Purpose

The purpose of this Zone is to provide for the development of a business park to accommodate office, research and development, and other business activities that support and complement the development of other precincts as defined in the Edmonton Energy and Technology Park Area Structure Plan. Development in this Zone shall be designed and constructed with a high standard of appearance, urban design, and with regard to the environment through the use of green building technology and green design. Commercial uses are to be located along the periphery of the precinct as defined in the Edmonton Energy and Technology Park Area Structure Plan, and adjacent to highways, arterial or collector roads.

2. Permitted Uses

- a. Business Support Services
- b. Convenience Retail Store
- c. Fleet Services
- d. Laboratories

- b. The maximum building Height shall be 14.0 m.
- c. A minimum Setback of 6.0m shall be required where any lot line abuts a public roadway, other than a Lane.
- d. Outdoor storage of any kind is not permitted.

Edmonton Zoning Bylaw 12800

- e. No parking, loading, trash collection, outdoor services or display shall be permitted within a required yard. Loading and trash collection areas shall be located to the rear or sides of the principal buildings and shall be screened from view from any adjacent Sites, public roadways or Light Rail Transit Lines, in accordance with the provision of subsection 55.4 of the Zoning Bylaw.
- f. Where Use Classes, that may in the opinion of the Development Officer, create negative impacts such as noise, light or odours which may be noticeable on adjacent properties, and where the Site containing such Use Classes is directly adjacent to Sites used or zoned for Religious Assembly, the Development Office will require that these potential impacts be minimized or negated. This may be achieved through a variety of measures including: landscaping; berming or screening, and building setback, which may exceed the requirements of Section 55 of this Bylaw; noise attenuation measures such as structural soundproofing; downward direction of all exterior lighting on to the proposed development; and any other measures as the Development Officer may deem appropriate.
- g. Restaurants shall be limited to less than 200 occupants and 240m² of Public Space.
- h. Commercial Schools shall be permitted only when accessory to a Permitted Use.
- i. Commercial Uses shall only be located:
 - i. On a Site abutting a highway, arterial, service or collector road; and
 - ii. On a Corner Site; or
 - iii. On a Site where a minimum of one side lot line abuts an existing commercial use.
- j. Urban Gardens shall comply with Section 98 of this Bylaw.
- k. Urban Indoor Farms shall comply with Section 98 of this Bylaw.
- l. Urban Outdoor Farms shall comply with Section 98 of this Bylaw.

Bylaw 17403

October 19, 2015

Effective Date: February 1, 2016

5. Design

The Development Officer shall ensure that the following architectural and site design regulations are incorporated in all developments within this zone to ensure that the design and distribution of land use activities associated with the Energy and Technology Park operations support a pedestrian friendly, aesthetically pleasing and functional environment and reduce the visual impact from public roadways.

a. Site Planning and Design

- i. Clear direct vehicle routes to main buildings and parking areas must be established and shown in the Site Plan.

Edmonton Zoning Bylaw 12800

*Bylaw 17973
April 24, 2017*

- ii. An on-site system of Walkways must provide direct access and connections to:
 - a. primary buildings entrances;
 - b. Walkways from abutting Sites and from perimeter Walkways;
 - c. parking areas and structures;
 - d. site amenities and gathering places;
 - e. transit facilities; and
 - f. existing trail networks.

b. Building Design and Architectural Standards

- i. Developments should be encouraged to incorporate visible green technology into façades, such as photovoltaic cells, and/or recycled material.
- ii. High quality building materials must be used in buildings located along arterial and freeway frontages.
- iii. Create visual interest through articulation of building walls adjacent to pedestrian access routes. One or more of the following methods may be used: changes to materials, textures, colours, and patterns, façade modulation; substantial clustered landscape elements, and fenestration providing a sense of transparency.
- iv. All mechanical equipment, including roof mechanical units, shall be concealed by screening in a manner compatible with the architectural character of the building or concealed by incorporating it within the building.
- v. All mechanical, electrical, pollution control or waste handling equipment ancillary to a building must be screened from view from public rights of way. Such screening may be achieved through landscaping or by using materials identical to, or structurally and visually compatible with, the principal building(s).
 - A. At the discretion of the Development officer, equipment and facilities that are intended to provide educational or aesthetic benefit, such as alternative water treatment facilities, renewable energy devices, innovative recycling systems, etc. may be exempt from this requirement.
- vi. Blank walls facing public roadways are not permitted.

c. Signage

- i. Developments shall incorporate visible green technology into signage, such as photovoltaic cells, or recycled materials.
- ii. Signs shall be designed to reflect an aesthetically pleasing and cohesive approach to complement the architectural green features of all buildings and enhance the unique and identifiable image for the entire Zone.

Edmonton Zoning Bylaw 12800

- iii. Directional signage shall provide information at critical locations relating to primary tenants, parking lots, loading zones and pick up areas, entrances, exits and amenity areas.
- iv. All signs must be architecturally compatible with the other buildings and structures on Site.
- v. A comprehensive sign design or multiple tenant sign is required to ensure harmony and reduce sign clutter.

970.7 (EETC) Edmonton Energy and Technology Park Chemical Cluster Zone) Edmonton Energy and Technology Park Chemical Cluster Zone

1. General Purpose

The purpose of this Zone is to provide opportunity for the development of a petrochemical cluster precinct as defined in the Edmonton Energy and Technology Park Area Structure Plan.

2. Permitted Uses

- a. Heavy Industrial
- b. Industrial Manufacturing
- c. Industrial Logistics
- d. Major Impact Utility Services
- e. Minor Impact Utility Services
- f. Recycled Materials Drop-off Centre
- g. Specified Industrial Facility
- h. Temporary Storage

- k. Freestanding On-premises Signs
- l. Minor Digital On-premises Signs
- m. Projecting On-premises Signs
- n. Roof On-premises Signs

3. Development Regulations

- a. The minimum Site Area shall be in 1 ha.
- b. A minimum Setback of 3.0 m shall be required where any lot line of a Site abuts a public roadway, other than a Lane.
- c. Notwithstanding 970.7(3) (b), the Development Officer may require a greater Setback for those components of an industrial development that may

Edmonton Zoning Bylaw 12800

interfere with the safety or amenity of developments upon abutting lands, having particular regard to any Separation Spaces required by Alberta Environment.

- d. All outdoor services, assembly, trash collection and storage areas including the trucking yards associated with such activities shall be located to the rear or side of the principal building. Loading and trash collection facilities servicing, warehouse and similar developments, where the handling or assembly of goods is carried out within a building, shall be allowed to the rear, sides or front of the principal building. The areas and facilities referred in this clause shall be screened from view from any public roadway other than a Lane, and from adjacent Sites, unless the public Roadway is a local road servicing only the Energy and Technology Park. Notwithstanding the above, trash collection areas located to the front of the principal building shall be screened from view from any public roadway, including a Lane, and from any adjacent Site.
- e. Outside display areas are allowed to be located to the side or front of the principal building, provided that such displays are limited to examples of equipment or material related to the industry or business located on the Site.
- f. Industrial Manufacturing is permitted only in areas within the 1.5 km Risk Buffer adjacent to the Manufacturing Precinct as shown in Appendix II.
- g. Industrial Logistics is permitted only in areas within the 1.5 km Risk Buffer adjacent to the Logistics Precinct as shown in Appendix II.
- h. Major Impact Utility Services does not include sanitary landfills Sites or nuclear power facilities.
- i. Temporary Storage is permitted only if accessory to the Heavy Industrial, Industrial Manufacturing and Industrial Logistics Uses.
- j. Heavy Industrial shall not be permitted within the 1.5 km Risk Buffer area as shown on Appendix II.

970.8 (EETL) Edmonton Energy and Technology Park Logistics Zone

1. General Purpose

The purpose of this Zone is to provide opportunity for the development of logistic hubs within the Edmonton Energy and Technology Park Area Structure Plan area to support the petrochemical cluster precinct as well as the manufacturing segments as defined in the Edmonton Energy and Technology Park. Commercial uses are to be located along the periphery of the precinct as defined in the Edmonton Energy and Technology Park Area Structure Plan, and adjacent to highways, arterial or collector roads.

2. Permitted Uses

- a. Convenience Retail Stores
- b. Equipment Rentals
- c. General Industrial
- d. Industrial Logistics

- c. For Single Detached Housing, the Site Width on an irregular shaped Lot shall be measured 9.0 m into the Site from the Front Lot Line, except that:
 - i. The Site Width on an irregular shaped Lot shall be measured 3.5 m into the Site from the Front Lot Line, where the Side Lot Line is less than 30.0 m.
- d. Notwithstanding Section 6.1(38), the Front Lot Line may be the property line separating a Lot from an abutting pipeline corridor, stormwater management facility or public park. In the case of a Corner Lot, the Front Lot Line shall be the shorter of the property lines abutting a pipeline corridor, public park, or public roadway other than a Lane. In the case of a Corner Lot formed by a curved corner, the Front Lot Line shall be the shorter of the two segments of the property line lying between the point determined to be the actual corner and the two points at the extremities of that property line.
- e. The minimum Site depth shall be 30.0 m, except that:
 - i. the minimum Site depth shall be 33 m where the principal building is not fronting on to a public roadway.
 - ii. the minimum Site depth may be reduced to 28 m for Single Detached Housing, where the Site Width is 11 m or greater and primary vehicular access is not from a Lane.
- f. The total number of Row Housing Dwellings shall not exceed 25% of the total estimated number of Dwellings within each contiguous area of this Zone, and shall be limited to five Dwellings per structure.

*Bylaw 16733
July 6, 2015*

- g. The maximum building Height shall be 12.0m in accordance with Section 52.
- h. The maximum total Site Coverage shall be in accordance with Table 3 as follows:

i. Front Setbacks shall be as follows:

i. The minimum Front Setback shall be 5.5 m where primary vehicular access is not from a Lane.

*Bylaw 17973
April 24, 2017*

ii. The minimum Front Setback shall be 4.5 m where primary vehicular access is from a Lane, except that the Setback may be reduced to 3.0 m where: separate Walkways and landscaped boulevards are provided; or the principal building is not fronting on to a public roadway.

j. The Rear Setback shall be in accordance with Table 4 as follows:

Edmonton Zoning Bylaw 12800

k.

Table 4 - Minimum Setback from the Rear Lot Line	
Single Detached Housing - Lane access Dwellings	4 m
Single Detached Housing or Duplex Housing	7.5 m, except in the case of a Corner Site it shall be 4.5 m.
Single Detached Housing - one Side Setback reduced to 0 m	
Semi-detached Housing	
Semi-detached Housing - one Side Setback reduced to 0 m	
Single Detached Housing – Site depth less than 30 m	6 m
Row Housing - internal Dwelling	7.5 m, except that the Setback may be reduced to 5.5 m where an attached rear garage is provided
Row Housing - end Dwelling	

*Bylaw 17931
April 10, 2017*

- I. Notwithstanding Table 4, where the Front Lot Line separates a lot from an abutting pipeline corridor, stormwater management facility or public park, the minimum Rear Setback shall be 5.5 m.
- m. Side Setbacks shall be provided as follows:

- i. The minimum interior Side Setback shall be 1.2 m, except where the Side Setback of an adjacent Lot has been reduced to 0 m, the minimum interior Side Setback shall be increased to 1.5 m to allow for a shared maintenance easement, in accordance with section 980.5(m).
- ii. On a Corner Site where the building fronts onto a public roadway, the minimum Side Setback abutting the flanking public roadway other than a Lane shall be 2.4 m. In addition, where a Garage is attached to the principal building and the vehicle doors of the Garage face the flanking public roadway, the distance between any portion of the Garage doors and the public roadway shall not be less than 4.5 m.

*Bylaw 17931
April 10, 2017*

- iii. The minimum Side Setback for a side of the principal building, may be reduced to 0 m provided that the owner complies with section 980.5(m).
- n. The minimum Side Setback for one side of the principal building of Single Detached Housing or a side of the principal building that is not a Party Wall of Semi-detached Housing, may be reduced to 0 m where:

Edmonton Zoning Bylaw 12800

- i. The owner of the Site proposed for development and the owner of the adjacent Site shall register, on both titles, a 1.5 m private maintenance easement that provides:
 - A. a 0.30 m eave encroachment easement with the requirement that the eaves shall not be closer than 0.90 m to the eaves of the building on an adjacent parcel;
 - B. a 0.60 m footing encroachment easement;
 - C. a drainage swale, constructed as per the City of Edmonton Design and Construction Standards; and
 - D. permission to access the easement area for maintenance of both properties.

*Bylaw 17931
April 10, 2017*

- ii. all roof leaders from the Dwelling are connected to the individual storm sewer service for each lot;
- iii. No roof leader discharge shall be directed to the maintenance easement; and
- iv. Where a Lot abuts a pipeline right-of-way, the principal building shall be Setback a minimum of 7.5 m from the pipeline right-of-way.

*Bylaw 17931
April 10, 2017*

- o. In addition to the requirements of Section 980.5(m), where a Side Setback for one side of a principle building that is not a Party Wall of Semi-detached Housing is reduced to 0 m:
 - i. the owner of the Site proposed for Zero Lot Line Development shall register on all titles within the Zero Lot Line Development Site as well as all titles on the adjacent Site a restrictive covenant and easement that:
 - A. requires a drainage swale constructed to City of Edmonton Design and Construction Standards; and
 - B. provides for the protection of drainage of the Site, including the right for water to flow across Lots and the requirement not to inhibit the flow of water across Lots
 - ii. the owner of the Site proposed for the Zero Lot Line Development shall register a utility easement(s) on, where necessary, all lots within the Zero Lot Line development and the Abutting Lots to ensure adequate access for utility maintenance.
- p. For the development of Row Housing the following regulations shall apply:
 - i. The maximum Density for Multi-unit Project Developments shall be 42 Dwellings/ha; except this shall be increased by 1 Dwelling/ha for every 6 required resident parking spaces and associated maneuvering aisles which are provided underground, up to a maximum density of 54 Dwellings/ha. For the purpose of this clause, underground parking

Edmonton Zoning Bylaw 12800

shall be covered so as to provide useful Site area that would not otherwise be available. Any projection above the Grade of the surface covering such parking shall be less than 1.0 m; shall not be located in a required Front Setback and shall be integrated with the design of buildings and landscaping so as to be unobtrusive.

- ii. Dwellings shall meet the following criteria:
 - A. a minimum of two bedrooms;
 - B. individual and private access to Grade; and
 - C. direct access to a Private Outdoor Amenity Area.
- iii. Maintenance and/or drainage and utility easement(s) may be required between abutting buildings and/or through a private Yard of one or more Dwellings to ensure adequate access for property, drainage and utility maintenance.
- iv. Notwithstanding the other regulations under this Section, in the case of Multi-unit Project Developments:
 - A. the minimum Site Area and Site depth for individual Dwellings that are Bare Land Condominium Units may be reduced, provided that the density of the development does not exceed the density as prescribed in subsection 980.5(o)(i) of this Zone; and
 - B. a building with rear detached Garages may exceed the maximum Site Width and total number of Garages allowed as specified under subsection 980.5(p)(iv) of this Zone.
- q. On Site Parking requirements shall be developed in accordance with the following:
 - i. Where primary access is not from a Lane:
 - A. Dwellings shall include a front attached Garage; and
 - B. 2 parking spaces per Dwelling shall be provided, may be in tandem and may include 1 Garage space.
 - ii. where primary vehicular access is from a Lane:
 - A. one Garage, or a Parking Area shall be clearly demarcated on the Site Plan accompanying a Development Permit application for the principal building;
 - B. notwithstanding Section 50, where the principal buildings faces a public roadway, other than a lane, and the vehicle doors of the detached garage face a Lane abutting the Site;

- f. A detailed Landscaping plan shall be submitted prior to the approval of any Development Permit. This plan shall include pedestrian connection and fencing details, exterior lighting and street furniture elements, pedestrian seating areas, and varied sizes and species of new plantings in accordance with Section 55 of the Zoning Bylaw.
- g. A landscaped Yard of minimum 4.5 m shall be provided along James Mowatt Trail, 26 Avenue SW, 119 Street SW, and 30 Avenue SW.
- h. No parking, loading, storage, trash collection, outdoor service or display area shall be permitted within a required Yard. Loading, storage and trash collection areas shall be located to the rear or sides of the principal building and shall be screened from view from any adjacent Sites, public or internal roadways, and Light Rail Transit lines, in accordance with the provisions of subsection 55.4 of the Zoning Bylaw. Loading areas shall not encroach onto public right-of-ways. If the rear or sides of a Site are used for parking, an outdoor service or display area, or both, and abut a Residential Zone or a Lane serving a Residential Zone, such areas shall be screened in accordance with the provisions of subsection 55.4 of the Zoning Bylaw.
- i. All mechanical equipment, including roof mechanical units, shall be concealed from street level view by screening in a manner compatible with the architectural character of the building or by incorporating it within the building.
- j. A minimum Amenity area of 1.0 m² shall be provided for every 10 surface parking spaces in the form of landscaped parking islands.
- k. An additional Amenity area of 1.0 m² shall be provided for every 100m² of commercial floor space.
- l. Barrier-free Design principles shall be used to guide the design of all buildings and public facilities, ensuring a high degree of accessibility to persons with disabilities.
- m. CPTED principles shall be used to guide the design of all public and private spaces and facilities, focusing on natural surveillance and access control.

*Bylaw 17403
October 19, 2015
Effective Date: February 1, 2016*

- n. Urban Indoor Farms shall comply with Section 98 of this Bylaw.

3.2 Design Regulations

Site Planning and Design

- a. Buildings shall generally be designed to:
 - i. frame the corners of prominent intersections bordering the Site;

Edmonton Zoning Bylaw 12800

- ii. frame major vehicular and pedestrian access points into the Site; and

*Bylaw 17973
April 24, 2017*

- iii. permit views into the Site along the axis of roadways and Walkways intersecting the abutting perimeter public roadways.

- b. Private internal roadways shall be provided through the Site. These roadways shall provide vehicular and pedestrian connections between James Mowatt Trail and 119 Street, and between 26 Avenue and 30 Avenue. The alignment of the roadways shall be confirmed at the Development Permit stage.

*Bylaw 16120
June 18, 2012*

- c. A Common Amenity area, intended to create a “sense of place” and an inviting image of the development, shall be provided within the area shown in Appendix II. This Amenity area may include design features including but not limited to: public art (this may include a water feature); public seating areas and street furniture; and ornamental planting beds.
- d. Buildings adjacent to the Common Amenity area shall be oriented and designed to frame and enhance the Amenity area and provide opportunity for passive surveillance.

*Bylaw 17973
April 24, 2017*

- e. No part of the Site shall be developed as a fully enclosed shopping mall. The primary means of pedestrian circulation shall be outdoor Walkways and/or sidewalks.

Building Design and Architectural Standards

- a. Buildings shall be of high quality and be designed in an aesthetically pleasing manner. Chain architecture should generally be limited to corporate logos and signage, and identifiable building features.
- b. The massing of building walls greater than 20 m in length shall be reduced through architectural elements such as columns, ribs, pilasters or piers, changes in plane (e.g., recesses and projections), changes in building finishes, materials and textures, or features that create an identifiable pattern and sense of human scale.

Architecturally enhanced massing

Edmonton Zoning Bylaw 12800

*Bylaw 17831
November 28, 2016*

- c. Building façades (all sides) shall include design elements, finishing materials and variations that will reduce any perceived mass and linearity of buildings and add architectural interest. At the Development Permit stage, coloured elevation plans and a detailed materials list is to be submitted consistent with the purpose of this Zone and the Heritage Valley Town Centre NASP.

*Bylaw 17973
April 24, 2017*

- d. Buildings located along Amenity areas and major pedestrian Walkways shall emphasize architectural elements and façade enhancements, particularly to the first and second levels of a project to create a pedestrian-friendly environment. Design elements may include the placement of windows to allow for viewing into the building by pedestrians; entrance features; street furniture; canopies, features that lend visual interest and a human scale.
- e. Building(s) located at the corner of 30 Avenue and 119 Street shall be enhanced architecturally in consideration of this prominent location close to MU LRT 2 and LRT corridor. These buildings should be placed such that they allow for a strong pedestrian connection from the intersection into the Site.
- f. Buildings shall incorporate decorative exterior lighting to enhance building architecture, landscaping elements and the Amenity area.
- g. Building entries shall be readily identifiable and use recesses, projections, columns and distinctive materials and colours to distinguish them from other parts of the façade.

Pedestrian Circulation

- a. A strong landscaped pedestrian connection through the Site, linking James Mowatt Trail and 119 Street, shall be provided to facilitate pedestrian movement towards the LRT station, transit stops, and the Main Street Retail area.

*Bylaw 17973
April 24, 2017*

- b. Enhanced parking islands with Walkways shall be provided to facilitate safe pedestrian movement from the parking areas to the buildings. Remedial treatments such as raised pedestrian crossings, decorative landscaping, special paving, light or bollards shall be provided at significant points of pedestrian and vehicular crossings.
- c. Attractive landscaped sidewalks in front of buildings and main entrances shall be developed to a minimum 2 m width, to reduce pedestrian conflict and facilitate pedestrian movement and activities.

Roadways and Parking

- a. A minimum 1.5 m wide sidewalk with boulevard landscaping shall be provided on at least one side of the Private internal roadway to help connect parking lots, building entrances, external public sidewalks, amenity areas and transit stops. It is recognized that the sidewalk will be interrupted at multiple points to accommodate drive aisles.
- b. On-street parking shall be permitted along Private internal roadways.
- c. Private internal roadways shall provide high-quality urban street furniture at appropriate intervals. This street furniture may include, but is not limited

Edmonton Zoning Bylaw 12800

to: benches, lighting, pedestrian-level lighting, banners, waste receptacles, bicycle racks, bollards, and way-finding signage.

*Bylaw 17973
April 24, 2017*

- d. Large parking areas shall be "broken up" by means of landscaped islands, on-Site private roads, amenity spaces, and/or pedestrian Walkways.

*Bylaw 16120
June 18, 2012*

- e. A maximum of 40 percent of the frontages abutting the landscaped Yard along the public roadways may be developed with surface parking, except that a maximum of 25 percent of the frontages abutting the landscaped Yard within Area A and along 119 Street SW may be developed with surface parking.
- f. Notwithstanding Section 54 of the Zoning Bylaw, a parking reduction shall be permitted in the provision of off-street parking spaces, with the submission and approval of a Parking Impact Assessment
- g. Notwithstanding Section 54 of this Bylaw, bicycle parking spaces shall be provided at the rate of 5% of the number of vehicular parking spaces required, 5 Bicycle Parking spaces being the minimum.

*Bylaw 16120
June 18, 2012*

- h. Private internal roadways, as shown on Appendix II, will function as access and service corridors within the Town Centre Commercial Zone. Private internal roadways are intended to replace common functions of local roadways. Multiple access points will be provided along their lengths to accommodate access to parking drive aisles as well as to provide a variety of options for service delivery, such as garbage collection, delivery vehicles, loading zones, etc.
- i. A Public Access Easement shall be registered on the Site to ensure public access.

Open Space and Landscaping

*Bylaw 17831
November 28, 2016*

- a. A high quality landscape plan prepared by a registered landscape architect shall be submitted prior to the approval of any Development Permit. This plan shall illustrate landscaping internal to the Site, amenity areas and pedestrian linkages. Outdoor amenity spaces shall be landscaped for the purpose of achieving pedestrian connectivity, opportunities for play and social interaction. In addition to landscaping, this shall be achieved through the use of park benches, pedestrian level lighting, waste receptacles and other means integrated with the landscaping and placed along public walking routes through the Site.
- b. Site entrances and landscaped edges along James Mowatt Trail and 28 Avenue shall receive special design attention to ensure that the development presents an attractive and inviting face to surrounding areas, while allowing views of buildings/building signs within the Site.

Edmonton Zoning Bylaw 12800

*Bylaw 17727
August 22, 2016*

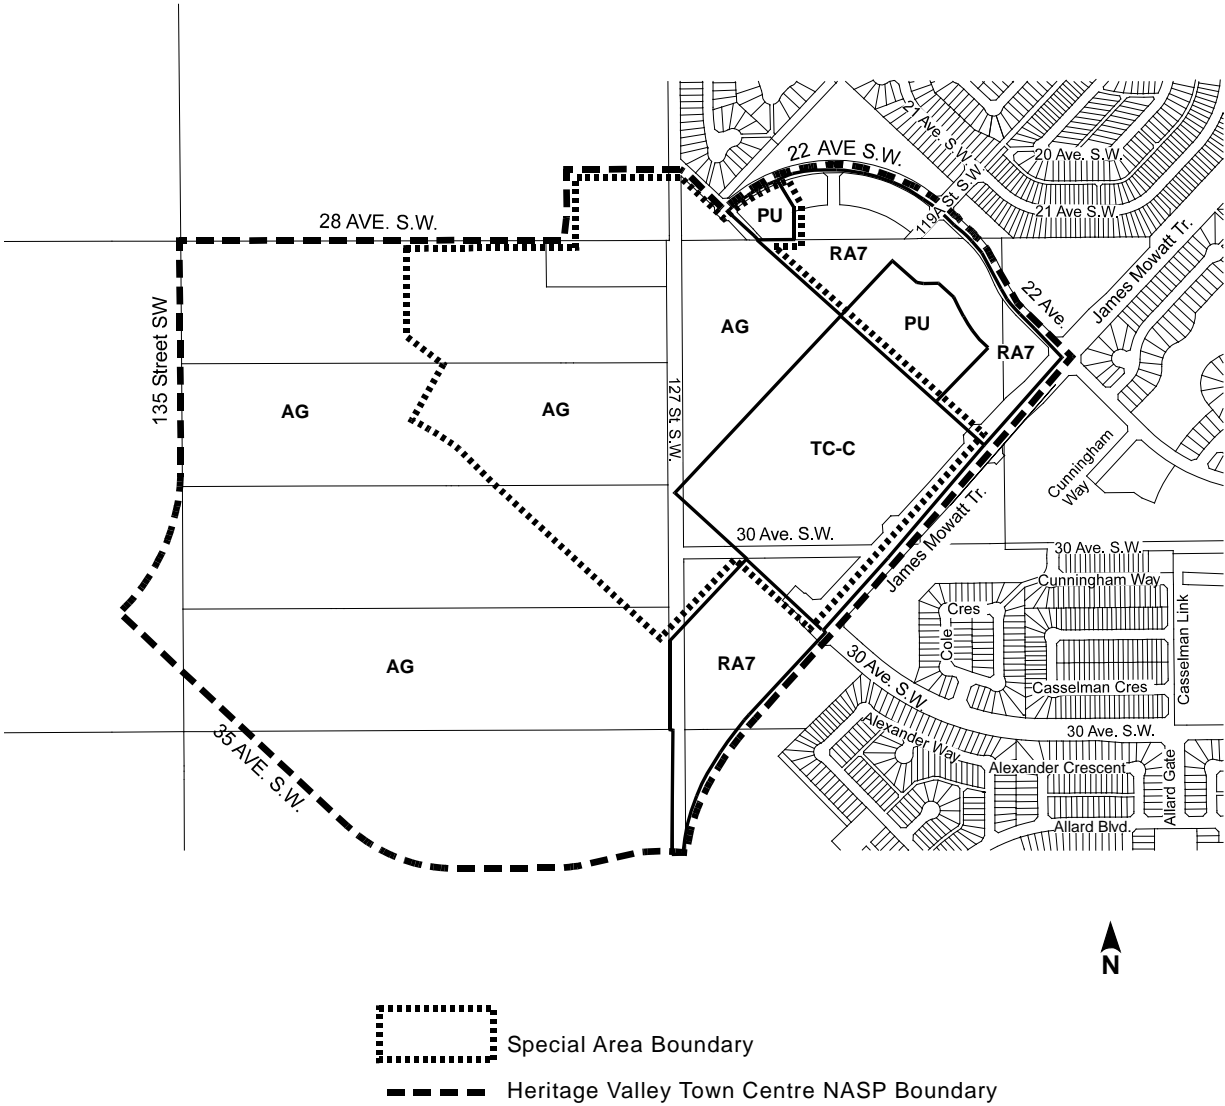

- c. Coordinated and complementary streetscape enhancements shall be developed through the Site, including street trees, Fencing, pedestrian-scale lighting, street furniture and other elements.
- d. Landscaping shall be used to highlight major circulation patterns, pedestrian linkages, and the overall development.
- e. The required Amenity areas may be developed as courtyard, interior landscaped open space, arcade, plaza, parkette, square, or outdoor seating area. The amenity areas may be developed with landscaping, planting beds, public art, street furniture, water features, or other enhancing features. Amenity areas shall be located in more accessible areas of the Site.

3.3 Signage

- a. Signs shall comply with the regulations found in Schedule 59E.
- b. Signs shall be designed in an aesthetically pleasing manner and in harmony with the architecture theme of the respective building.
- c. Directional signage is encouraged to provide information at critical locations relating to primary tenants, parking lots, loading zones and pick up areas, entrances, exits and amenity areas.

- iii. 5.5 m for Row Housing:
 - A. where access to required off-street parking is provided to the rear or flanking part of the Lot except that it shall be a minimum of 3.0 m where a treed landscaped boulevard is provided; or
 - B. where a front attached Garage forms an integral part of the Dwelling, except in the case of a private roadway, the minimum shall be 6.0m .

- k. The minimum Setback from the Rear Lot Line shall be:
 - i. 7.5 m , except in the case of a Corner Site it shall be 4.5 m , for Single Detached - front drive Dwellings, zero lot line Dwellings, Semi-detached or Duplex Dwellings.
 - ii. 4.0 m for Single Detached - Lane access Dwellings.
 - iii. 7.5 m for Row Housing, except that the Setback may be reduced to 5.5 m where an attached rear garage is provided.

- l. The Setback from a Side Lot Line shall be established on the following basis:

- i. For Single Detached - front drive Dwellings, Single Detached - Lane access Dwellings, - Semi-detached, and Row Housing:
 - A. The minimum Setback shall be 1.2 m.
 - B. On a Corner Site where the building fronts on the Front Lot Line, the minimum Setback abutting the flanking public roadway other than a lane shall be 2.4 m. The minimum Setback abutting a Lane shall be 1.2 m.
 - C. On a Corner Site where the building fronts on a flanking public roadway other than a Lane, the minimum Setback abutting the flanking public roadway shall be 4.5 m.
- ii. For Semi-detached Dwellings or Duplex Dwellings:
 - A. The minimum Setback shall be 1.2 m.
 - B. On a Corner Site where the building fronts on the Front Lot Line, the minimum Setback abutting the flanking public roadway other than a lane shall be 2.4 m. The minimum Setback abutting a Lane shall be 1.2 m.
 - C. On a Corner Site where the building fronts on a flanking public roadway other than a Lane, the minimum Setback abutting the flanking public roadway shall be 4.5 m.

- iii. For zero lot line Dwellings:

- A. one Side Setback may be reduced to 0.0 m where:
 - 1. the other Side Setback is a minimum of 1.5 m.
 - 2. Notwithstanding (1) above, the other Side Setback may be 1.2 m where Abutting a Lot on which there is not a zero lot

line Dwelling.

3. all roof leaders from the Dwelling are connected to the storm sewer service.
4. all roof leaders from Accessory buildings are connected to the storm sewer service or directed to drain directly to an adjacent Lane.
5. no roof leader discharge shall be directed to the maintenance easement.
6. the site and the adjacent site are both Single Detached Dwellings.
7. the owner of the adjacent Site has registered against title a private maintenance easement a minimum of 1.5 m wide that provides for:
 - I. a 0.30 m eave encroachment easement with the requirement that the eaves must not be closer than 0.90 m to the eaves on the adjacent building.
 - II. a 0.60 m footing encroachment easement.
 - III. a drainage swale, constructed as per the City of Edmonton Design and Construction Standards.
 - IV. permission to access the easement area for maintenance of both properties.

iv. For Row Housing:

- A. The minimum Setback shall be 1.2 m.
- B. On a Corner Site where the building fronts on the Front Lot Line, the minimum Setback abutting the flanking roadway other than a lane shall be 4.5 m , except that this may be reduced to 3.0m where:
 1. There is a treed landscaped boulevard along the flanking roadway;
 2. A reduced depth is necessary to be consistent with other development on the flanking block face; and
 3. The flanking side of the building is not a Blank Wall, and is articulated through architectural elements such as recesses or projections, including but not limited to windows, a side entrance, a porch, or other architectural elements that would be compatible with adjacent development.
- C. The minimum Setback abutting a Lane shall be 1.2 m.

m. For the development of Row Housing under this Section the following regulations shall apply:

- i. The maximum Density for Multi-unit Project Developments shall be 42 Dwellings/ha; except that this shall be increased by 1 Dwelling/ha for every 6 required resident parking spaces and associated maneuvering

aisles which are provided underground, up to a maximum density of 54 Dwellings/ha. For the purpose of this clause, underground parking shall be covered so as to provide useful Site area that would not otherwise be available. Any projection above the Grade of the surface covering such parking shall be less than 1.0 m; shall not be located in a required Front Setback and shall be integrated with the design of buildings and landscaping.

ii. Dwellings shall meet the following criteria:

A. A minimum of two bedrooms;

B. Individual and private access to Grade; and

C. Direct access to a Private Outdoor Amenity Area.

iii. Maintenance and/or drainage and utility easement(s) may be required between abutting buildings and/or through private yards of one or more Dwellings to ensure adequate access for property, drainage and utility maintenance.

iv. Notwithstanding the other regulations under this Section, in the case of Multi-unit Project Developments, a building containing rear detached Garages may exceed the maximum width and total number of Garages allowed as specified under 995.4 Development Regulations subsection n(iii)C.

n. On-Site parking shall be provided in accordance with the following requirements:

i. Single Detached - front drive Dwellings shall include a front attached garage.

ii. For Semi-detached or Duplex Dwellings, if it includes a front attached Garage or a Garage that is an integral part of the Dwelling, the following shall apply:

A. in cases where the Site Width is less than 8.6 m ; and access is provided from a fronting public roadway, the Garage may protrude a maximum of 4.0 m beyond the front wall and entry of the Dwelling and have a maximum width of 5.6 m . There shall be a minimum of 1.8 m Frontage of the first storey of the principal building, other than a Garage, such that the front entry to the Dwelling is exposed to the public roadway; and

B. front attached Garages must be designed such that the Garage is attached to a shared common wall and includes a shared driveway apron.

iii. For Single Detached - Lane access Dwellings, zero lot line Dwellings, Semi-detached or Duplex Dwellings, and Row Housing where the required off-street parking space is provided from a Lane the following requirements apply:

A. one garage, or Site for one Garage shall be clearly demarcated both on the Site and on the plan accompanying any application for a principal building.

*Bylaw 16733
July 6, 2015*

Edmonton Zoning Bylaw 12800

B. the minimum distance from the Rear Lot Line to a Garage or Garage site shall be 2.75 m.

*Bylaw 17973
April 24, 2017*

C. hard surface Walkway is required between the Garage or Garage Site and an entry to the Dwelling; except that:

*Bylaw 17062
July 6, 2015*

1. where no Garage is proposed, a hard surface parking pad, located a minimum distance of 2.75 m from the Rear Lot Line, and a minimum of 6.1 m wide and a minimum of 4.88m deep, shall be constructed at the rear of each lot. Such hard surface parking pad shall include an underground electrical power connection with outlet on a post 1.0 m in Height, located within 1.0 m of the parking pad; except that:

I. for Semi-detached or Duplex Dwellings where no Garage is proposed, a hard surface parking pad, located a minimum distance of 2.75 m from the Rear Lot Line, and a minimum of 5.49 m wide and a minimum of 4.88m deep shall be constructed at the rear of each lot.

D. In addition to (A) and (B) above, requirements for zero lot line Dwellings, Semi-detached or Duplex Dwellings also include:

*Bylaw 16733
July 6, 2015*

1. An Accessory building or structure shall be located not less than 0.60 m from the Side Lot Line, except where it is a mutual Garage erected on the common property line; and
2. Hard surface parking pads may be attached between two lots.

E. For Row Housing where detached rear parking Garages are proposed, the maximum width of the building containing the Garage(s) shall not exceed 30 m, and the building shall not contain more than five separate Garages;

o. Site Landscaping shall be developed in accordance with the following:

- i. For Single Detached - front drive Dwellings, Single Detached - Lane access Dwellings and zero lot line Dwellings: one deciduous tree, one coniferous tree and four shrubs shall be required for each Dwelling;
- ii. For Semi-detached or Duplex Dwellings or Row Housing: one deciduous tree or one coniferous tree, and two shrubs shall be required in the Front Yard for each Dwelling, except where the Front Yard is 4.5 m or less, and a landscaped boulevard is provided in accordance with j(ii), the tree may be placed within the Rear or Side Yard, rather than the Front yard;
- iii. All applications for a Development Permit shall include a site plan that identifies the location, species and size of landscaping required; and
- iv. All required Landscaping shall be in accordance with Subsection 55.4 of this Bylaw.

Edmonton Zoning Bylaw 12800

- p. For Single Detached - Lane access Dwellings:
 - i. Each proposed lot shall be serviced by both a public roadway and a Lane; and
 - ii. All roof drainage shall be directed away from buildings and to a public roadway, including a Lane, or to a drainage work.

- q. For zero lot line Dwellings:

*Bylaw 17866
January 23, 2017*

- i. Where access is from a Lane, access from a Dwelling to a local roadway shall be provided at a distance no greater than 125 m from any point in a Lane.
 - ii. All roof leaders from the principal building shall be connected to the foundation drain which connects to the storm sewer.
- r. Development Permit applications shall be reviewed in terms of compatibility with existing structures on the block face, having consideration for the intent of the subdivision design, and taking into account proposed development Setbacks, Dwelling entrances and orientation, massing, roof-lines, the location of windows and other openings in walls and elevational treatment of wall openings, building façades, and finishing materials.

997 SPECIAL AREA BLATCHFORD

997.1 General Purpose

To designate portions of the Blatchford Neighbourhood, as shown on Appendix I to this Section, as a Special Area and to adopt appropriate land use regulations for this Special Area in order to achieve the objectives of the City Centre Area Redevelopment Plan, as adopted by Bylaw 16033.

997.2 Application

The designation, location, and boundaries of each underlying Land Use Zone affected or created through Section 940 shall apply as indicated on Appendix I to this Section.

997.3 Zones Created by Special Area Provisions

Specific zones, as contained in Sections 997.7, 997.8, 997.9 and 997.10 have been created in accordance with Section 900 of the Zoning Bylaw.

Where a discrepancy exists between the Special Area regulations and general zoning regulations, the Special Area regulations shall prevail.

997.4 Blatchford Street Classifications

The following street classifications are referenced within the Special Area Zones and are shown on Appendix I:

Primary Active Street

Primary Active Streets serve the most intensive residential and commercial land uses and carry the majority of motorized traffic in Blatchford. Primary Active Streets take priority over Secondary Active Streets and Quiet Streets for the purposes of determining the front lot lines of abutting parcels.

Secondary Active Street

Secondary Active Streets are high traffic streets serving a mix of higher-intensity land uses. Secondary Active Streets take priority over Quiet Streets for the purposes of determining the front lot lines of abutting parcels.

Primary Quiet Street

Primary Quiet Streets are low traffic residential streets that prioritize safety and comfort for residents over convenience for people travelling through. Primary Quiet Streets take priority over Secondary Quiet Streets for the purposes of determining the front lot lines of abutting parcels. Primary Quiet Streets may be designed for non-vehicular access only.

Secondary Quiet Street

Secondary Quiet Streets are low traffic residential streets. Active Streets and Primary Quiet Streets take priority over Secondary Quiet Streets for the purposes of determining the front lot lines of abutting parcels. Secondary Quiet Streets may be designed for non-vehicular access only.

997.5 Blatchford-Specific Use Classes

1. **Blatchford Townhousing** means development consisting of a building containing a row of three or more Dwellings joined in whole or in part at the side only with no principal Dwelling being placed over another in whole or in part. Individual Dwellings are separated from one another by a Party Wall. Each Dwelling has separate, individual, and direct access to Grade. Where Blatchford Accessory Suites or Blatchford Lane Suites are a Permitted or Discretionary Use Class in a Zone, a building which contains Blatchford Townhousing may also contain either a Blatchford Accessory Suite or Blatchford Lane Suite. This Use Class does not include Row Housing or Stacked Row Housing.
2. **Blatchford Accessory Suite** means development consisting of a Dwelling located within, and Accessory to, a structure in which the principal use is Blatchford Townhousing. A Blatchford Accessory Suite has cooking facilities, food preparation, sleeping and sanitary facilities which are physically separate from those of the principal Dwelling within the structure. A Blatchford Accessory Suite also has an entrance separate from the entrance to the principal Dwelling, either from a common indoor landing or directly from the front, side or rear of the structure. This Use Class includes the Development or Conversion of Basement space to a separate Dwelling. This Use Class does not include Apartment Housing, Garage Suites, Garden Suites, Row Housing, Secondary Suites, Stacked Row Housing or Lodging Houses, or Blatchford Lane Suites.
3. **Blatchford Lane Suite** means an Accessory Dwelling located above a detached Garage. A Blatchford Lane Suite is Accessory to a building in which the principal Use is Blatchford Townhousing. A Blatchford Lane Suite has cooking facilities, food preparation, sleeping and sanitary facilities which are separate from those of the principal Dwelling located on the Site. A Blatchford Lane Suite has an entrance separate from the vehicle entrance to the detached Garage, either from a common indoor landing or directly from the exterior of the structure. This Use Class does not include Garage Suites, Garden Suites, Row Housing, Secondary Suites, Stacked Row Housing, or Blatchford Accessory Suites.

Edmonton Zoning Bylaw 12800

- h. Limited Group Homes and Lodging Houses shall comply with Section 96 of this Bylaw.
- i. Separation Space shall be provided in accordance with Section 48 of the Zoning Bylaw except that it shall not be required:
 - ii. for the podium portion of a building, as defined in 997.9.4(g);
 - iii. in the case of Dwellings on separate Sites, where each development complies with the minimum Side Setback requirements for each Dwelling and when the side walls of abutting buildings face each other and habitable windows are not located directly opposite each other, such that privacy is not impacted; and
 - iv. in the case of Dwellings on the same Site, where the separation distance between Dwellings is at least equal to the total minimum Side Setback requirements for both Dwellings and when the side walls of abutting buildings face each other and habitable windows are not located directly opposite each other, such that privacy is not impacted.
- j. Amenity Areas
 - i. Notwithstanding Section 47 of this Zoning Bylaw, where Private Outdoor Amenity Area is provided the minimum dimension shall be 2 m.
 - ii. Where a Dwelling has an individual external access at grade, and no communal outdoor Amenity Area is provided on the Site, a minimum of 30 m² of Private Outdoor Amenity Area shall be provided. This Private Outdoor Amenity Area may be provided in the Front Yard where the minimum depth of the Front Yard is 2 m.
 - iii. Where a Dwelling has an individual external access at grade, and outdoor communal Amenity Area is provided on the Site, a minimum of 15 m² of Private Outdoor Amenity Area shall be provided. This Private Outdoor Amenity Area may be provided in the Front Yard where the minimum depth of the Front Yard is 2 m.
 - iv. For Dwellings located above the ground Storey of a building a minimum Amenity Area of 7.5 m² per Dwelling unit on the Site shall be provided.
 - v. Except for developments which contain less than 20 Dwelling units, a minimum of 2.5 m² of Amenity Area per Dwelling unit shall be provided as outdoor communal Amenity Area which shall not be located in any required Setback unless the Setback directly abuts a Site zoned BP and shall be aggregated into areas of not less than 50 m².
 - vi. Notwithstanding the above, where an Apartment Building contains 20 or more Dwelling units and has commercial uses located on the ground floor,

Edmonton Zoning Bylaw 12800

except for Live Work Units, a minimum of 2.5 m² of Amenity Area per Dwelling unit shall be provided as indoor and/or outdoor communal Amenity Area(s) on the Site. Where outdoor communal Amenity Area is provided at grade it shall not be located in any required Setback, unless the Setback directly abuts a Site zoned BP and shall be aggregated into areas of not less than 50 m².

- vii. Amenity Area may be provided on rooftops in the form of gardens or patios.
- k. The maximum Floor Area of any Religious Assembly or individual business premises shall not exceed 275 m², excluding Live Work units.
- l. The following Uses shall be limited to Sites fronting onto Active Streets, shall not be in any free standing structure separate from a structure containing Residential Uses, and shall not be developed above the ground floor: Bars and Neighbourhood Pubs, Convenience Retail Stores, Creation and Production Establishments, General Retail Stores, Health Services, Indoor Participant Recreation Services, Minor Alcohol Sales, Personal Service Shops, Private Clubs, Professional, Financial and Office Support Services, Religious Assembly, Restaurants, Second Hand Stores, and Specialty Food Services.
- m. Where Use Classes, that may in the opinion of the Development Officer, create negative impacts such as noise, light or odours which may be noticeable on adjacent properties or within the same Building, and where the Site containing such Use Classes is directly adjacent to Sites used or zoned for residential activities, the Development Officer may, at the Development Officer's discretion, require that these potential impacts be minimized or negated. This may be achieved through a variety of measures including: Landscaping and screening, which may exceed the requirements of Section 55 of the Zoning Bylaw; noise attenuation measures such as structural soundproofing; and downward direction of all exterior lighting on to the proposed development.
- n. Vehicular-oriented Uses, including but not limited to drive through operations and Accessory drive through pick up services, shall not be permitted in this Zone.
- o. Live Work Units shall only be permitted where they front onto a Primary Active Street or Secondary Active Street, and shall have individual front entrances at grade.
- p. Parking shall comply with Section 54 of this Bylaw. Notwithstanding Section 54 the following regulations apply:
 - i. Stacked Row Housing and Apartment Housing shall meet the Dwelling unit parking space requirements and visitor parking requirements as specified for Transit Oriented Developments (TOD) in Section 54 Schedule 1 (A);
 - ii. Parking for Residential-Related and Commercial Use Classes shall be provided on the basis of 50% of the requirements identified in Section 54 Schedule 1(A);
 - iii. Resident Bicycle Parking spaces for Apartment Housing shall be provided in an amount equal to at least 50% of the number of Dwelling units

located on the Site and shall be in a weather protected, well-lit, and secure area; and

- iv. Visitor Bicycle Parking for Residential and Residential-Related Use classes of 20 Dwelling units or more, and all Non-residential Use Classes, shall be provided in an amount equal to at least 10% of the number of Dwelling units located on the Site, to a maximum of 50 Bicycle Parking spaces, with 5 Bicycle Parking spaces being the minimum to be provided. Visitor Bicycle Parking shall be located adjacent to a high-traffic area such as a building entrance.
- q. Vehicular access to Sites from public streets shall be restricted to the abutting Lanes. Where there is no abutting Lane, vehicular access shall be provided from a Secondary Quiet Street. Where there is no abutting Secondary Quiet Street or the Secondary Quiet Street does not provide for vehicle access, vehicular access shall be provided from a Primary Quiet Street. Where there is no Primary Quiet Street or the Primary Street does not provide for vehicle access, then the street access shall be provided from a Secondary Active Street. Street access shall be limited to one shared access point per block face. In no case shall off-street parking be accessed from a Primary Active Street. Where a Site is more than 0.5 ha in size, more than one Site access may be developed, provided that street access shall be limited to one shared access point per block face.
- r. Resident Parking for Apartment Housing and mixed use developments shall be provided in underground parking structures.
- s. Parking for Stacked Row Housing, non-residential Uses, and visitor Parking is permitted at grade and in underground parking structures. Where parking is provided at grade, it shall be located such that it is not seen from the street and is accessed from an abutting Lane or a private on-site road. Surface parking shall not comprise more than 15% of the total site area.
- t. No parking, loading, storage, or trash collection area shall be permitted within any Setback other than the Rear Setback. Loading, storage and trash collection areas shall be screened from view in accordance with the provisions of subsection 55.4 of the Zoning Bylaw. If Parking abuts a Residential Zone or a Lane serving a Residential Zone, parking areas shall be screened in accordance with Section 55.4 of the Zoning Bylaw. Notwithstanding the above, no parking, loading, storage or trash collection shall be permitted within any Site Setback abutting a Site zoned BP.
- u. Notwithstanding Section 54.4 Schedule 3, only 1 off-street vehicular loading space shall be required for any building. Where the building contains less than 20 Dwelling units, and does not contain any non-residential uses, no off-street vehicular loading space shall be required.
- v. Landscaping shall comply with Section 55 of this Bylaw. In addition to Section 55, landscaping shall be as follows:
 - i. Landscape plans shall be prepared by a professional landscape architect or horticulturalist; and
 - ii. Landscape design shall consider appropriate plant material for horticultural zone 3a.

w. Where any Site has a length or width of 160 m or greater a pedestrian connection shall be provided through the Site, perpendicular to the 160 m or greater length or width. A pedestrian connection is a publicly-accessible private pedestrian corridor, distinct from a public Walkway. The following regulations apply to pedestrian connections:

i. The pedestrian connection shall be generally located at the middle of the block and connect to public sidewalks adjacent to the Site;

*Bylaw 17973
April 24, 2017*

ii. The pedestrian connection shall be a minimum 6 m in width and shall incorporate a minimum 2.5 m wide hard surfaced Walkway with soft Landscaping such as shrub planting, ornamental grasses and/or tree planting, and shall include pedestrian scaled lighting. When a width of 10 m or greater is provided for the pedestrian connection, it may be applied towards the required Amenity Area for the Site;

iii. The facades of ground floor Dwellings abutting the pedestrian connection shall be articulated by a combination of recesses, windows, projections, change in building materials, colours, and/or physical breaks in building mass;

iv. Ground floor Dwellings abutting the pedestrian connection that do not front onto a public street or a Site zoned BP shall provide an entrance facing the pedestrian connection; and

v. The owner(s) shall register a Public Access Easement for the pedestrian connection to ensure public access through the Site. Easements shall make the private property owner(s) responsible for maintenance and liability. The areas having Public Access Easements shall be accessible to the public at all times. Such an easement shall be a required condition of a Development Permit.

x. Row Housing shall only be permitted as part of a comprehensive site development that includes development of two or more different Dwelling types. Comprehensive site development may or may not include non-residential uses.

y. Signs shall comply with Schedule 59B of the Zoning Bylaw. Notwithstanding this schedule, the following regulations apply:

i. There shall be no exterior display or advertisement for Live Work Units other than an identification plaque or sign which is a maximum of 20 cm x 30.5 cm in size located on the ground floor building face, where appropriate; and

ii. A Comprehensive Sign Design Plan in accordance with the Provisions of Section 59.3 may be required at the discretion of the Development Officer.

z. Child Care Services fronting onto Quiet Streets shall consider the presence of other Child Care Services Uses within the same block to ensure that the approval of additional Child Care Services Uses does not unduly restrict on-street parking availability.

- aa. Professional, Financial and Office Support Services shall not include loan offices.

5. Urban Design Regulations

- a. Where non-residential uses, excluding Live Work Units, are developed fronting onto a public street, not including a Lane, or a Site zoned BP, the following regulations shall apply:
 - i. At least 70% of each individual store Frontage and the flanking side of a store located on a corner shall have clear non reflective glazing on the exterior on the ground floor. Transparency is calculated as a percent of linear metres at 1.5 m above the finished Grade; and
 - ii. Each unit shall have an external entrance at grade that shall be universally accessible.
- b. Building façade(s) abutting a Site zoned BP, or a public street, shall be articulated by a combination of recesses, entrances, windows, projections, change in building materials, colours, or physical breaks in building mass, to create attractive streetscapes and interfaces. A continuous building façade without recess, balcony or other form of articulation shall not exceed 18 m in horizontal direction. The following illustration provides a possible conceptual application of this regulation for interpretive purposes.

- c. For any Dwelling fronting a public street or a Site zoned BP, an individually articulated entrance at grade facing the public street or Site zoned BP shall be provided. In addition, features such as porches, stoops, landscaped terraces, pedestrian lighting and patios, decks or gardens shall be provided. Where a Dwelling abuts both a public street and a Site zoned BP, the entrance shall face the Site zoned BP.
