Mill Creek Ravine Bridges Rehabilitation Bridges and Trail Closures

September 28, 2017

The City of Edmonton plans to rehabilitate three and replace two bridges in Mill Creek Ravine. During the construction phase (October 9, 2017 – October 15, 2018) the bridges and trails in the Mill Creek Ravine will be closed to pedestrians and cyclists. Rehabilitation of the bridges is necessary for extending the life of the structures and for ensuring the continued safety of the users. The complete closure of bridges and trails will help to ensure the project is completed in a timely manner.

During the time that the bridges and trails are closed, pedestrians and cyclists should use alternate routes (proposed detour map attached).

Scope of Work:

Major repairs for the bridges will include:

Bridge B029 – South, on the Upper Asphalt Trail:

- Demolition and disposal of the existing bridge
- Construction of concrete foundations
- Fabrication and installation of timber trestle style bridge structure
- Paved asphalt trail connections

Bridges B198 and B200 – on Lower Gravel Trail:

- Demolition and disposal of the existing bridges
- Construction of concrete foundations
- Fabrication and installation of glulam timber style bridge structures
- Gravel trail connections

Bridge B032 – Central, on the Upper Asphalt Trail:

- Partial demolition and disposal of the existing bridge
- Salvage sound timber members for re-use
- Slope stability measures
- Construction of concrete foundations
- Fabrication and installation of timber trestle style bridge structure

Bridge B033- North, on the Upper Asphalt Trail:

- Removal and replacement of wooden staircase at new location
- Partial demolition and disposal of the existing bridge
- Salvage sound timber members for re-use
- Installation of slope stability measures
- Construction of concrete foundations
- Fabrication and installation of timber trestle style bridge structure

- Paved asphalt trail connections
- Bank erosion protection measures
