CONCEPT DESIGN

WELCOME TO THE 101 AVENUE DRAFT CONCEPT

- At the September workshop we shared concept options and received great feedback from you
- Over the last few months City staff and the Edmonton Design Committee also reviewed the concept options
- Using this diverse feedback we have developed one draft concept for 101 Avenue

Take a look and let us know what you think!
Your suggestions will help us refine the concept further before presenting it to Council

HOW TO GIVE FEEDBACK:

- Use your sticky notes to paste comments onto the display materials
- Submit your comments at a laptop or on a comment sheet
- Need more time to think about it? Review the material on our website or email comments to our project email:
  www.edmonton.ca/101AvenueCorridorStudy
  101AvenueCorridorStudy@edmonton.ca

Ask yourself the questions:

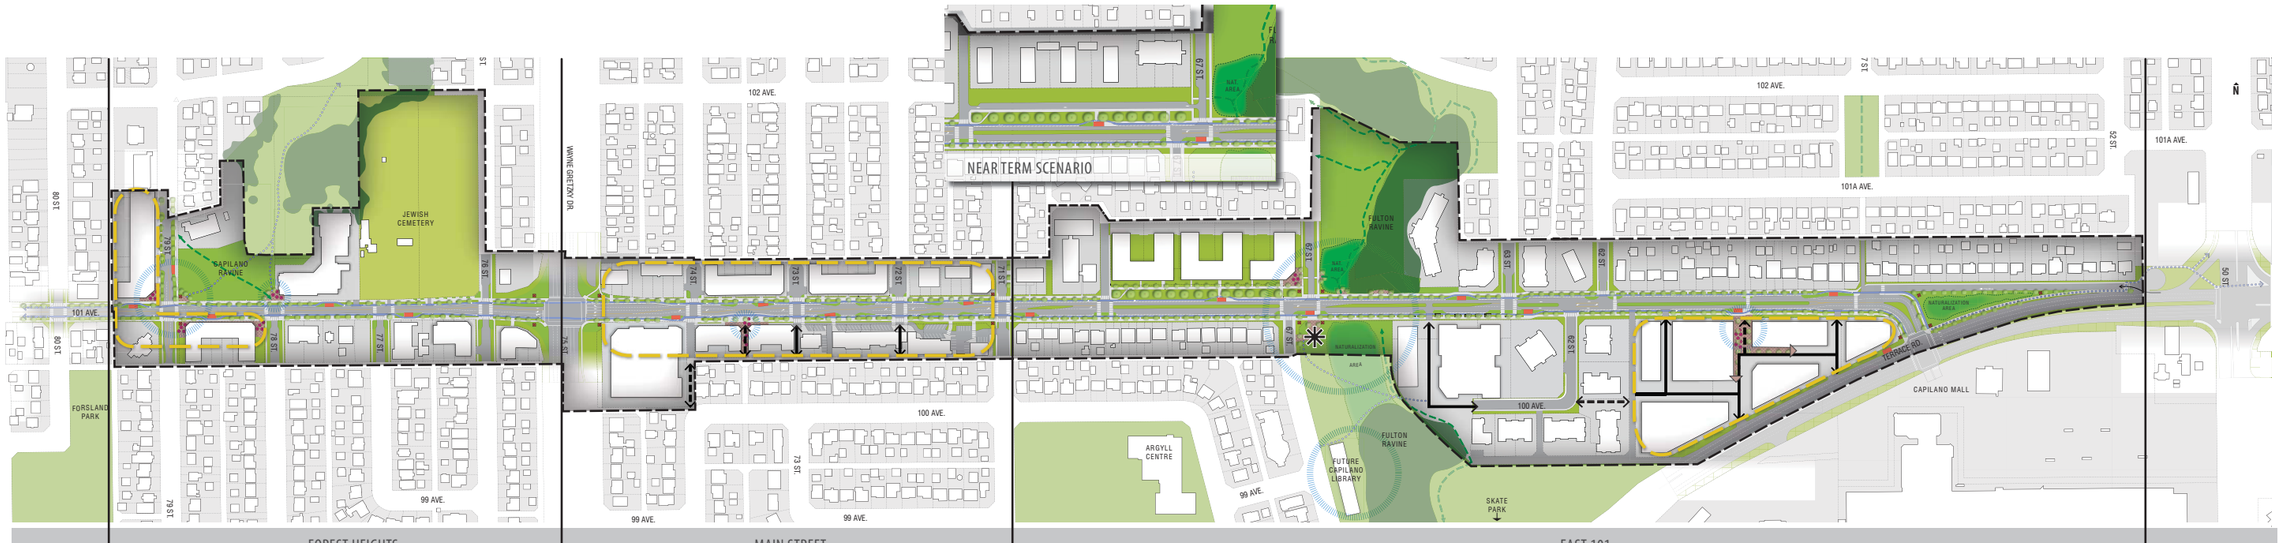
- Is there anything missing?
- Does the concept address my concerns with 101 Avenue?
- Will the ideas presented help realize my hopes for 101 Avenue?
- Does the concept achieve the community vision for 101 Avenue?

Talk to a staff member if you have any questions or comments about the information presented

BUILDING A BRIGHTER 101 AVENUE

Edmonton

Public Realm



CREATE A SENSE OF PLACE

101 Avenue stretches through distinct neighbourhoods and its streetscape design will have a cohesive and strong identity - connecting the neighbourhoods together. Common approaches used throughout include:

- Enhance the streetscape with wide sidewalks protected from traffic, seating, garbage/recycling receptacles, bike parking, and pedestrian-scale lighting and signage
- Bring more green to the street with boulevard trees, planter boxes, and planting in the curb extensions

FOREST HEIGHTS

- Provide seating nodes with landscaping in and around the perimeter of the Capilano Ravine
- Install a shared use path through the Capilano Ravine and provide a connection to the pedestrian bridge over Wayne Gretzky Drive
- Install new public art to reinforce the community hub at 101 Avenue and 79 Street

MAIN STREET

- In the near term, buffer the pedestrian realm from existing surface parking lots with street furniture and planters
- Provide space for businesses to spill out onto the street (patios, pop-up sales, etc.) and small gathering spaces along the corridor
- Add public art, signage, and other features to contribute to the area's identity

EAST 101

- Create a gateway feature at the east end of 101 Avenue
- As redevelopment occurs close the service road between 67 Street and 70 Street to create a larger linear park space
- In the near term, buffer the pedestrian realm from existing surface parking lots with street furniture and planters
- Orientate new development and public spaces to take advantage of views of the downtown
- Improve trails through Fulton Ravine and provide connections to destinations
- Create a community hub at Fulton Ravine
