APPENDIX A: SECURITY REQUIREMENTS........................................................................1

APPENDIX B: SECURITY REQUIREMENTS........................................................................1
GUIDELINES FOR ESTABLISHING SECURITY IN SERVICING AGREEMENTS

1. SUMMARY
Subdivision & Development Coordination establishes the Security amount to be included in a Servicing Agreement using the guidelines described in this document. Developers are first categorized based on their past performance, then a percentage of the estimated construction costs, as submitted by the developer’s consultant, is used as the Security amount based on the category in which the developer is placed. Any holdback amounts are also determined based on category, as well as timing for submitting fees and assessments.

2. ACCEPTABLE FORMS OF SECURITY
The City of Edmonton will accept Security submitted as part of the Servicing Agreement in the form of:
- a Letter of Credit/Guarantee in accordance with the Letter of Credit Requirements outlined in Schedule “A”; or
- Cheque; or
- Bank Draft; or
- Development Bond

1 – Will be part of a 5 year Pilot Program starting in 2020

Note: Insurance Bonds and payments by Credit Card will not be accepted.

3. STEP 1: THE CATEGORY
Developers are first categorized based on past performance with any of the following:
- Servicing Agreements with the City of Edmonton
- Municipal Improvement Agreements with the City of Edmonton
- Development Agreements with other municipalities through the provision of references

Each developer will be placed into one of four categories using the following criteria:

Table 1: Description of Categories

<table>
<thead>
<tr>
<th>Category A: Describes a developer whose past performance includes one or a combination of the following criteria:</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) Being party to two (2) or more Servicing Agreements or Municipal Improvement Agreements with the City of Edmonton in the past five (5) years where all Construction Completion Certificates were issued within the timelines set out in the agreements; or</td>
</tr>
<tr>
<td>b) References from another municipality certifying the completion of two (2) or more</td>
</tr>
</tbody>
</table>
GUIDELINES FOR ESTABLISHING SECURITY IN SERVICING AGREEMENTS

Development Agreements in the past five (5) years where all Construction Completion Certificates were issued within the timelines set out in that agreement.

Category B: Describes a developer whose past performance includes one of the following criteria:

a) Being party to one (1) Servicing Agreement or Municipal Improvement Agreement with the City of Edmonton in the past five (5) years where all Construction Completion Certificates were issued within the timelines set out in the agreement; or

b) References from another municipality certifying the completion of one (1) Development Agreement in the past five (5) years where all Construction Completion Certificates were issued within the timelines set out in that agreement.

Category C: Describes a developer whose past performance includes one of the following criteria:

a) No previous Servicing Agreements or Municipal Improvement Agreements with the City of Edmonton in the past five (5) years or previous Development Agreements with other municipalities in the past five (5) years; or

b) Entered into agreements described above where not all Construction Completion Certificates have been issued in order to qualify as a Category B.

Category D: Describes a developer who has been involved in a major breach of the terms and conditions of previous Servicing Agreements or Municipal Improvement Agreements, or a developer who has frequent minor breaches of the terms and conditions of previous Servicing Agreements, Municipal Improvement Agreements or Development Agreements with other municipalities.

Developers using multiple company names to sign their agreements may be considered as one developer at the discretion of the Director of Subdivision & Development Coordination. Joint Ventures that fall into different categories under this Guideline will be considered on a case by case basis.

4. STEP 2: THE AMOUNT

Once a developer has been categorized, the amount of security taken will be based on a percentage of the construction costs, plus fifteen per cent (15%) for Engineering and Testing. The percentage will vary depending on the category in which the developer has been placed. A minimum amount will be taken for all developments and a landscape holdback will be permitted that is based on the estimated landscape costs. Holdbacks for temporary
infrastructure will be permitted for all Categories of developers.

All construction costs provided for the purposes of determining any Security amounts must be dated, stamped and signed by a Professional Engineer.
