1) Notwithstanding its nonconformity with other provisions of this Bylaw regulating minimum site size or site dimensions, where a development permit has been issued in accordance with the regulations of a zoning district of Bylaw No. 2135 or a land use classification of the Land Use Classification Guide, the development shall be deemed conforming to the regulations governing site size and site dimensions of the equivalent land use District of this Bylaw. Where the dimensions of a site are larger than required under Zoning Bylaw No. 2135 or the Land Use Classification Guide, but less than required by the Land Use Bylaw developments on the site shall not be deemed conforming, if the dimensions of the site are reduced through subsequent consolidation or resub-division.

2) Notwithstanding its noncompliance with the development regulations governing site size or site dimensions of the Land Use District applying to it on the date this Bylaw came into effect, the Development Officer may issue a development permit for a site which would have conformed with the regulations governing minimum site size and site dimensions of the equivalent zoning district of the Zoning Bylaw No. 2135 or land use classification of the Land Use Classification Guide, provided that the subdivision creating the site was approved prior to the date this Bylaw came into effect.

3) Notwithstanding its nonconformity with provisions of this Bylaw regulating maximum height, minimum setbacks, yards, separation spaces, the provision of amenity areas, design requirements relating to the integration of uses within buildings, or the provision of access to building areas, where a development permit has been issued for a building in accordance with the regulations of a zoning district of Bylaw No. 2135 or a land use classification of the Land Use Classification Guide, the building shall be deemed conforming to the specified regulations of the equivalent land use District of this Bylaw. Where this allows such buildings to be enlarged or added to, any enlargement or addition shall conform to all of the provisions of this Bylaw.

4) If a development permit has been issued for a building in accordance with the development standards of a zoning district of Bylaw No. 2135 or a land use classification of the Land Use Classification Guide, the building shall be deemed conforming to the equivalent development standards of the equivalent land use District of this Bylaw where, in the opinion of the Development Officer, any difference in the standards is due solely to metric conversion and any arithmetic rounding-off associated with such conversion. Where this allows such buildings to be enlarged or added to, any enlargement or addition shall conform to the metric standards of this Bylaw.

4.3 Deleted

4.4 Community and Neighbourhood Improvement Plans

Wherever the regulations of this Bylaw require reference to the policies or provisions of a Statutory Plan, the Development Officer shall in the case of Calder, Canora, Great Estate, Norwood and Riverdale also refer, for that purpose, to the policies and provisions of the applicable Community Plan or Neigh-bourhood Improvement Plan adopted prior to the effective date of this Bylaw. Where the provisions of plans refer to districts of Zoning Bylaw No. 2135 or the Land Use Classification Guide, the Development Officer shall have regard to them, insofar as they are applicable, with respect to equivalent Land Use Districts as specified in Section 4.1.
4.5 **Transitional Use of the DC3, Temporary Holding District**

Where the DC3 District is applied to land on the effective date of this Bylaw, the term "previous land use designation" shall refer to the land use classification under the Land Use Classification Guide applying to the land immediately prior to the effective date of this Bylaw. Any regulations respecting use or development previously applying to the land by virtue of its classification, whether contained in Bylaw No. 2135, Bylaw No. 4949, Development Control Resolution No. 1, the Land Use Classification Guide, or the Schedule of Permitted Uses for Areas not included under the Zoning Bylaw shall remain in force under this Bylaw in accordance with the provisions of the DC3 District.

Notwithstanding the maximum period of application and reversion provisions of Section 730.2, Clause (2); where land is zoned District 3 on the effective date of this Bylaw, No. 5996, the DC3 District shall remain in effect until this Bylaw is amended to apply another land use District.

4.6 **Development Applications in Process**

An application for a development permit which is received in its complete and final form prior to the effective date of this Bylaw shall be processed and any permit issued shall be in accordance with Bylaw No. 2135 or Bylaw No. 4949 and the regulations thereto, as applicable.

4.7 **Rezoning and Reclassification Amendments in Process**

An application for amendment to Bylaw No. 2135, or to Resolutions adopted pursuant to Bylaw No. 4949 which has been:

1) received by the Municipal Planning Commission in a complete and final form in accordance with the requirements of Bylaw No. 2135 or Bylaw No. 4949, or

2) considered by the Municipal Planning Commission, prior to the effective date of this Bylaw; may, notwithstanding any additional application or procedural requirements of this Bylaw, be considered and adopted by City Council, without reapplication or reconsideration by the Municipal Planning Commission, as an application to redistrict to the equivalent land use district of this Bylaw as specified in Section 4.1.

5. **Non-Conforming Buildings, Structures and Uses**

5.1 Where

1) on or before the day on which this Bylaw or any Bylaw for the amendment thereof comes into force, a development permit has been issued, and

2) the enactment of the Bylaw would render the development in respect of which the permit was issued, a non-conforming use or non-conforming building,

the development permit continues in effect, notwithstanding the enactment of the Bylaw referred to in Clause (2).
5.2 A non-conforming use of land or a non-conforming use of a building may be continued, but if that use is discontinued for a period of six consecutive months or more, any future use of the land or building shall conform with the provisions of this Bylaw.

5.3 A non-conforming use of part of a building may be extended throughout the building, but the building, whether or not it is a non-conforming building, shall not be enlarged or added to and no structural alterations shall be made thereto or therein.

5.4 A non-conforming use of part of a lot shall not be extended or transferred in whole or in part to any other part of the lot and no additional buildings shall be erected upon the lot while the non-conforming use continues.

5.5 A non-conforming building may continue to be used, but the building shall not be enlarged, added to, rebuilt or structurally altered except:

1) as may be necessary to make it a conforming building, or

2) as the Development Officer considers necessary for the routine maintenance of the building.

5.6 If a non-conforming building is damaged or destroyed to the extent of more than 75 per cent of the value of the building above its foundation, the building shall not be repaired or rebuilt except in accordance with the provisions of this Bylaw.

5.7 The use of land or the use of a building is not affected by reason only of a change of ownership, tenancy or occupancy of the land or building.

5.8 Where a development permit has been issued for a building in a District which specifies that development shall comply with development regulations of the most restrictive abutting District, it shall be interpreted as referring to the Land Use Districts which were abutting at the time the permit was issued. Notwithstanding a subsequent amendment to this Bylaw which results in a more restrictive abutting District, the building shall remain conforming and the more restrictive regulations shall apply only if the building is rebuilt or to any enlargement or addition.

5.9 A building which does not satisfy the regulations of this Bylaw may be deemed to conform to this Bylaw pursuant to Sections 11.5 and 11.6. Where this allows such buildings to be enlarged or added to, any enlargement or addition shall meet all of the requirements of this Bylaw.

BYLAW 6626
1981 11 10

6. The Land Use District Map

6.1 The Land Use District Map is Part III of this Bylaw. It divides the City of Edmonton into Districts, and specifies the District or Overlay provisions applying to particular lands.
6.2 District Boundaries

Should uncertainty or dispute arise relative to the precise location of the boundary of any land use District or Overlay, as depicted on the Land Use District Map, the location shall be determined by applying the following rules:

1) where a District boundary is shown as approximately following the centre of streets, lanes or other public thoroughfares, it shall be deemed to follow the centre line thereof;

3) where a District boundary is shown approximately following City limits, it shall be deemed to be following City limits;

4) where a District boundary is shown as approximately following the centre of pipelines, railway lines, or utility easements, it shall be deemed to follow the centre line of the right-of-way thereof;

5) where a District boundary is shown as approximately following the edge or shore lines of the North Saskatchewan River, or other bodies of water, it shall be deemed to follow such lines, and in the event of change in such edge or shorelines, it shall be deemed as moving with the same;

6) where a District boundary is shown as being parallel to or as an extension of features noted above, it shall be so construed;

7) where a District boundary is shown as approximately following a topographic contour line or a top-of-bank line, it shall be deemed to follow such line, and in the event of change in such line, it shall be deemed as moving with that line;

8) where features on the ground are at variance with those shown on the Land Use District Map or in other circumstances not mentioned above, the Municipal Planning Commission shall interpret the District boundaries. Any such decision may be appealed to the Development Appeal Board; and

9) where a land use District boundary is not located in conformity to the provisions of Clauses (1) to (8) of this Section 6.2, and in effect divides or splits a registered parcel of land, the disposition of such boundary shall be determined by dimensions indicated on the Land Use District Map or by measurements directly scaled from that Map.

6.3 Street and Highway Boundaries

1) Notwithstanding anything contained in this Bylaw, no land use District shall be deemed to apply to any public roadway and any public roadway may be designed, constructed, widened, altered, redesigned and maintained in such manner as may be determined by the City Engineer.

3) Notwithstanding Clause (2) above, where such abutting lands are governed by different land use Districts, the centre line of the public roadway shall be deemed to be the land use District boundary.

7. Approval Required for Development

No person

1) shall commence, or cause or allow to be commenced, a development without a development permit therefor issued under the provisions of Section 14 of this Bylaw, or

2) shall carry on, or cause or allow to be carried on a development without a development permit therefor issued under Section 14 of this Bylaw.

a) the applicant;

b) the owners of the land subject to the proposed redistricting amendment;

c) each assessed owner of land, wholly or partly within a distance of 60 metres (196.84 ft.) of the boundaries of the site which is subject to the redistricting amendment; and

d) the President of the Community League operating within the notification boundaries described in (c) above.

During any cessation of ordinary mail delivery, the notice to those described in Clauses (1) (a), (1) (b) and (1) (d) shall be given by such other alternative means as the Municipal Planning Commission may specify, and the notice to those described in Clause (1) (c) shall be provided in the newspaper only.

2) Where, in the opinion of the Municipal Planning Commission, any proposed redistricting amendment is likely to affect other owners of land, it shall notify owners of land beyond 60 metres (196.85 ft.) at such additional distance and direction from the site as, in its opinion, may experience any impact attributable to any development allowed under the proposed land use District.

3) Prior to consideration by Council of an amendment to Parts I and II of this Bylaw, the Development Officer shall give such notice as is required by Section 139 of the Planning Act.

4) a) Except for the applications which are in conformity with an Area Redevelopment or Area Structure Plan, or those applications which are adopted in order to ensure conformity of an Area Redevelopment or Area Structure Plan with the Land Use Bylaw, or for amendments to place lands within the DC3 District, the owner or applicant shall erect a Redistricting Application Information sign within 14 days of making an application to amend Part III of this Bylaw to change the land use District governing any land.
b) The Redistricting Application Information sign shall be erected at a prominent location on the site, or within 4.5 m (14.8 ft.) of the site between the site and a public roadway, other than a lane, shall be readable from a distance of 15 m (49.2 ft.) and shall be maintained in a reasonable and legible condition until such time as the application to amend Part III is approved by Council, struck from Council's agenda, or withdrawn. If a site is bounded by more than one public roadway, other than a lane, one or more Redistricting Application Information signs shall be erected in a manner so as to be visible from each public roadway, other than a lane.

c) Redistricting Application Information signs, as erected, shall be of a maximum height above ground of 3 m (9.8 ft.), a minimum area of 1 m² (10.8 sq. ft.) and a maximum area of 3 m² (32.3 sq. ft.).

d) Redistricting Application Information signs shall contain the following information:

   i) the present land use District applicable to the site;
   ii) the land use District proposed by the applicant;
   iii) a general description of the uses which could develop within the land use District proposed by the applicant, together with a notice that the description is not exhaustive;
   iv) the maximum permitted height, density and floor area ratio within the land use District proposed by the applicant;
   v) the site's total area; and
   vi) the phone number of the City's Land Use Bylaw Amendment Officer, and an indication that at that phone number, more information respecting the application may be sought.

e) In addition to the information requirements listed in Clause (1) of this Section 26.2, the applicant shall, within 7 days of the erection of the Redistricting Application Information sign, submit to the Municipal Planning Commission a letter indicating that the sign has been erected in accordance with the requirements of the Land Use Bylaw.

f) Where the applicant is not the owner of the subject site, the Development Officer may authorize an alternative notification, which does not meet all of the requirements of this Section, on public property adjacent to the subject site.

26.5 Conformity with the Regional Plan

1) Notwithstanding anything contained in this Bylaw, no amendment to the Land Use Bylaw shall be enacted which would cause this Land Use Bylaw to be, or become, at variance with, or in contravention of, an adopted Regional Plan.

2) If it appears to the Municipal Planning Commission that a proposed amendment is at variance with, or in contravention of, a Regional Plan, the Municipal Planning Commission shall advise the applicant that before the proposed amendment can be enacted, the Regional Plan must be amended so that the proposed amendment to the Land Use Bylaw, if enacted, will not be at variance with, or in contravention of, the Regional Plan.
50. Applicability

The General Development Regulations apply to any development on any site, irrespective of the District in which it is located. Where these Regulations appear to be in conflict with the regulations in the District or Overlay in which the use is either a Permitted or Discretionary Use, the General Development Regulations shall take precedence, except in the case of the Airport Protection Overlay and provided that a District or Overlay may, in its regulations, specifically exclude or modify these provisions with respect to any use.

51. Lot Dimensions and Areas

51.1 Subdivision

The Municipal Planning Commission shall not approve the subdivision of land within any District, or on any site for which the Municipal Planning Commission will support a redistricting application, into lots of lesser dimensions and areas than the regulations of that District prescribe, except as provided in Clauses (1), (2), (3), and (4) below.

3) The Municipal Planning Commission may approve the subdivision of land in the AG District to subdivide from a quarter section

b) parcels which are to be used for Essential Utility Services.

4) The Municipal Planning Commission may approve a subdivision of land which includes parcels of a size less than the minimum site size required in the AGU District and in the AG1 District, if these parcels are to be used for Essential Utility Services, if these parcels are remnants or other parcels which result from the planned subdivision or replotting process where, in the opinion of the Municipal Planning Commission, such parcels are likely to be created for a temporary period and will subsequently be incorporated into a consolidation or another subdivision or development pattern, and districted in a manner consistent with proposed land use Districts prior to development, or if, in the opinion of the Municipal Planning Commission, the AGU or AG1 districting is to be temporary and is soon to be replaced with another land use District.

1) The Development Officer shall not refuse an application for a development permit for single detached housing on a site with a depth of at least 30 m (98 ft.) and a width of at least 10 m (32.8 ft.), or semi-detached housing or duplex housing on a site with a site area of at least 470 m² (4,951 sq. ft.) and a width of at least 13.5 m (44.3 ft.) only for the reason that the site does not meet the minimum area and dimensions set out in this Bylaw, if:

a) the site in question is a lot which was created prior to the effective date of Bylaw 2135; or

b) the site in question is a lot approved by the Municipal Planning Commission in an area where the surrounding lands were generally subdivided pursuant to Section 51.1 of this Bylaw; or

60. Fences in Residential Districts

1) Except in the case of the RPL District, a fence on a site in a Residential District shall not be higher, measured from the general ground level 0.5 m (1.6 ft.) back of the property line of the site on which the fence is to be constructed, than:

b) 1 m (3.3 ft.) for the portion of a fence that does extend beyond the foremost portion or portions of the principal building on the site, provided that the Development Officer may allow a fence to be erected to not more than 1.85 m (6.1 ft.) in height if, in his opinion, it will not prejudice the amenities of the District.

2) On a site in the RPL District, a fence shall not be higher than:

a) 1.85 m (6.1 ft.) for the portion of a fence that does not extend into the required Front Yard, the required Side Yard where it abuts a flanking public roadway other than a lane, and the portion of the required Rear Yard which abuts a flanking public roadway other than a lane and has a depth from the flanking public roadway other than a lane equal to the width of the required Side Yard; and

b) 1 m (3.3 ft.) for the portion of a fence which extends into the required Front Yard, the required Side Yard where it abuts a flanking public roadway other than a lane, and the portion of the required Rear Yard described in Clause 2(a) above.

61. Accessory Uses and Building

61.1 Accessory Uses and Building: General

1) A use listed in any Use Class, or any other use, may be an Accessory Use to a Permitted or Discretionary Use which is a principal use on the site, if such use complies with the definition of Accessory in this Bylaw. Notwithstanding the foregoing, accessory parking may be on the same site as the principal use or comply with Section 66.5 of this Bylaw.
2) Accessory Uses and Buildings are permitted in a District when accessory to a principal use which is a Permitted Use in that same District and for which a development permit has been issued.

3) Accessory Uses and Buildings are discretionary in a District when accessory to a principal use which is a Discretionary Use in that same District and for which a development permit has been issued.

4) Where any building or structure on a site is attached to a principal building on the site by a roof, an open or enclosed structure above grade, a floor or a foundation which is above grade, or any structure below grade allowing access between the buildings such as a parking garage or a corridor or passageway connecting the buildings, it is a part of the principal building and is not an Accessory Building.

5) Accessory Buildings and Structures shall be located on a corner site as follows:

62. Lighting of Sites

Any outdoor lighting for any development shall be located and arranged so that no direct rays of light are directed at any adjoining properties, or interfere with the effectiveness of any traffic control devices.

63. Height

In determining whether a development conforms to the maximum height permissible in any district, the following regulations shall apply:

1) In any District other than a Residential District, the following features shall not be considered for the purpose of height determination: chimney stacks, steeple, bellfries, domes or spires, monuments, elevator housings, roof stairway entrances, water or other tanks, ventilating equipment, skylights, fire walls, parapet walls, receiving or transmitting structures, masts, flag poles, clearance markers or other erections which are considered to be similar by the Development Officer.

2) In any Residential District, those features specified in Clause (1) shall not be considered for the purpose of height determination, except that receiving or transmitting structures, other than those which may be normally required for adequate local television reception, shall be considered. The maximum height for such structures shall be the maximum height in the District, and not the maximum height specified in Section 61.3, Clause (2).
3) Notwithstanding (1) and (2) above, any development shall comply:

a) with the requirements contained in the Airport Protection Overlay Schedules governing the height of buildings and structures, and

b) with the requirements for operation of the Alberta Government Telephones microwave beams, as determined by the Development Officer.

64. Access to Sites

1) All access locations and curb crossings shall require the approval of the City Engineer.

2) No person shall construct a driveway for motor vehicles from a site to a public roadway, if the public roadway, in the opinion of the City Engineer, carries or will carry a heavy traffic volume, or such driveway would create an unnecessary traffic hazard, unless there is no other practical method of vehicular access to the site and a turning space is provided on the site connected to the driveway so that every motor vehicle leaving the site by the driveway will face the public roadway which the driveway enters.

3) Where the site abuts a lane, vehicular access to the loading space shall be provided from the lane unless otherwise authorized by the City Engineer.

65. Off-Street Vehicular Loading and Unloading Facilities

65.1 When any new development is proposed including a change of use of existing development, or when any existing development is, in the opinion of the Development Officer, substantially enlarged or increased in capacity, off-street vehicular loading and unloading spaces shall be provided in accordance with Schedule 65A below:

65.2 Mixed Use Developments
For mixed uses, the total requirements for loading and unloading spaces shall be the sum of the requirements of the uses computed separately unless the applicant can demonstrate to the satisfaction of the Development Officer that there is a complementary or non-overlapping use of the loading or unloading facilities which would warrant a reduction of the requirements.

65.3 Location of Loading and Unloading Space
All loading and unloading spaces shall be located on the site so that all materials and commodities loaded or unloaded can be easily collected or distributed within the site, to and from all tenants or occupants. Access shall be so arranged that no backing or turning movements of vehicles going to or from the site causes interference with traffic on the adjoining or abutting public roadways, lanes, sidewalks, or boulevards.

65.4 Size of Loading and Unloading Space
Loading and unloading spaces shall be of adequate size and with adequate access, both to the satisfaction of the Development Officer, to accommodate the types of vehicles which will be loading and unloading, without those vehicles projecting into a public roadway. In no case shall the space be less than 28 m² (301.4 sq. ft) or less than 2.6 m (8.4 ft) wide, or have less than 3.7 m (12.0 ft) overhead clearance.

66. Required Off-Street Vehicular Accessory Parking

66.1 General Operation
1) In any District, when any new development is proposed including a change of use of existing development, or when any existing development is, in the opinion of the Development Officer, substantially enlarged or increased in capacity, then provision shall be made for off-street vehicular parking or garage spaces in accordance with the regulations and standards contained in this Section 66.

2) Where the applicant for a development permit can demonstrate to the satisfaction of the Development Officer; through a demand study prepared and submitted with respect to the proposed development, that by virtue of the use, character, or location of the proposed development, and its relationship to public transit facilities and other available parking facilities, the parking requirement for the proposed development is less than that set out in the Parking Schedule, the Development Officer may allow a reduction in the number of parking spaces. The Development Officer shall submit the demand study to the City Engineer for his analysis, and the proposed reduction may be approved by the Development Officer only with the City Engineer's concurrence or conditional concurrence. In no case shall the resulting number of parking spaces be less than one per dwelling in the case of Residential Uses.

66.2 Number of Spaces
1) The number of off-street parking spaces required for any development shall be in accordance with Schedule 66A below.
2) The Parking Schedule shall be used to calculate the number of off-street parking spaces required for all uses. Where a proposed use is not listed in Schedule 66A, the off-street parking requirement shall be determined by the Development Officer, who may either determine that the proposed use is similar to one which is listed, or, if that is not the case, he shall make his own determination as to the requirement.

3) Where the total number of parking spaces is determined by reference to a unit such as the number of seats or floor area, the next higher number shall be required where the calculation results in a fractional number of parking spaces.

4) The parking requirements of Schedule 66A may be altered in accordance with the provisions of a Schedule to a Statutory Plan Overlay.

5) In the case of the multiple use of a site, the Development Officer shall calculate the parking required for each individual use and the total shall be deemed to be the required parking for the site, unless the applicant can demonstrate to the satisfaction of the Development Officer that there is a complementary use of the parking facilities which would warrant a reduction in the parking requirements. Where such reduction is made, the Development Officer shall state the reduction, and the reasons for it on the Development Permit.

5) Notwithstanding Clause (4) above, in the case of bulk outdoor storage, including but not limited to auto wrecking, lumber yards, pipe storage and like uses, where, because of height of materials stored, a screen planting would not be sufficient, a fence, earth berm or combination thereof, with sufficient height to block the view, shall be substituted for the requirements of Clause (4).

6) Where, because of conditions not conducive to good horticultural practices, a screen planting cannot reasonably be expected to survive, the Development Officer shall require a masonry wall, wood fence or earth berm, or combination thereof, to be substituted for the requirements of Clause (4) above.

7) Any screen planting required by this Section shall consist of evergreen trees or shrubs, or flowering trees or shrubs, or both, provided according to the specifications contained in Section 69.4(1), or evergreen plants at least 40 cm (15.7 in.) in height when planted, or deciduous plants at least 60 cm (23.6 inches) in height when planted. a) the operation will be carried out so as to create a minimum of dust and environmental disturbance;

4) The Development Officer may require as a condition of issuing a permit to excavate land, that the applicant take the precautions and follow the methods prescribed by the Development Officer for the prevention or control of dust or any other nuisance caused by the proposed operation, and for the reclamation of the site if required.

When a microclimatic impact study indicates that strict adherence to the Statutory Plan is not feasible, or would result in a design which would conflict with:

a) other regulation of this Bylaw or the General Purpose of the applicable land use District; or

b) other applicable Statutory Plan objectives; or

SECTION 710
DIRECT DEVELOPMENT CONTROL DISTRICT

710.1 General Purpose
To provide a direct control district for detailed, sensitive control of the use, development, siting and design of buildings and disturbance of land where this is necessary to establish, preserve or enhance:

a) areas of unique character or special environmental concern, as identified and specified in an Area Structure Plan or Area Redevelopment Plan, or

b) areas or sites of special historic, cultural, palaeontological, archaeological, prehistoric, natural, scientific or aesthetic interest as designated under the Alberta Historical Resources Act (1973).

710.2 Application
1) This district shall only be applied:

a) where specified by an Area Structure Plan or Area Redevelopment Plan, or

b) to those historical resources which have been designated by the Minister or Council in accordance with the Alberta Historic Resources Act (1973).

710.3 Uses
A permit may be issued for those uses prescribed for the land in an approved Area Redevelopment Plan or Area Structure Plan, or those uses consistent with its designation under the Alberta Historical Resources Act (1973).

710.4 Development Criteria
1) All developments shall comply with the development criteria contained in an Area Structure Plan or Area Redevelopment Plan, except that any criteria or conditions applying as a result of designation of a historical resource under the Historical Resources Act (1973) shall take precedence.

2) In the case of designated historical resources, any application to demolish, alter, restore, or repair a building or structure, or to excavate or otherwise disturb land shall require prior written authority in accordance with the Historical Resources Act (1973).

3) A development may also be evaluated with respect to its compliance with:

a) the objectives and policies of an applicable Statutory Plan;

b) the General Regulations and Special Land Use Provisions of this Bylaw;

c) the regulations of abutting land use Districts.

710.5 Information Requirements
1) In addition to the information normally required for a development application under this Bylaw, the applicant shall submit all information specified in an applicable Area Redevelopment Plan or Area Structure Plan and a narrative explaining how the proposed use or development would be consistent with the intent of the District.
2) With respect to Section 710.5(1), if the development application concerns an historic resource designated under Section 18(1) or Section 19.3(2) of the Alberta Historical Resources Act (1973), a copy of the Minister’s written approval with respect to Section 18(9) of said Act or Council’s approval with respect to Section 19.3(b) of said Act shall be submitted with the application.

3) The Development Officer may require any additional information he deems appropriate in order to determine whether the proposed use or development is consistent with an approved Statutory Plan.
720.1 General Purpose
To provide a direct control district to enable major, comprehensively planned and
designed development creating a unique, integrated and high quality urban
environment, which is compatible with surrounding development and complies
with applicable Statutory Plans but which could not be accommodated under any
other land use District in this Bylaw.

720.2 Application
1) This District shall only be applied to a site which is entirely owned, leased or
controlled by a single person, agent or corporation at the time the initial
development proposal and application for redistricting is submitted.

2) This District shall only be designated if the following conditions are met:
a) the development proposed adheres to the General Purpose of this District;
b) the development proposed or its component parts, in terms of essential
features, could not be enabled through any other land use District;
c) the development proposed complies with any approved Statutory Plan;
d) the development proposed complies with the Uses and Development Criteria
specified in this District.

3) Prior to considering support or approval of any application for the use of this
District, the Municipal Planning Commission or Council respectively, may
require that the applicant prepare or obtain an amendment to a Statutory Plan
for the area where the application of this District is sought.

4) Where this District is applied, Council shall regulate and control the use and
development of land or buildings through a development agreement between
the applicant and the City. The development agreement for the entire site must
be executed prior to the issuance of any development permit, and it shall detail
all regulations and conditions imposed by Council upon the development and
use of land at the time of redistricting.

5) If the development proposal upon which the designation of this District is
based involves subdivision, a proposed plan of subdivision shall be included in
the development agreement as the basis for future subdivision. The Municipal
Planning Commission shall not approve any subdivision under this District
which does not generally conform with the provisions of the agreement, except
for the purpose of effecting the staging or financing of the development
proposal and provided that its form and integrity are not affected.

6) After this District is applied, the Development Officer shall only issue a
development permit for an application which conforms to the provisions of the
development agreement and, when there is nothing in the agreement which
supersedes them, the General Development Regulations and Special Land Use
Provisions of this Bylaw.

7) If a development application does not conform to the requirements of Clause
(6), above, and in the Development Officer's opinion it would alter the nature
of the uses, intensity or form of the development proposal upon which this
designation is based, he shall refuse the application.

8) The application of this District to land and the development agreement pursuant
to it shall be in force until changed by an amendment to the Land Use
Bylaw provided that development permits for the entire development agreed to
under this District are issued:

a) within one year of the date of third reading of the passage of the Bylaw amendment applying this District; or,

b) for sites in excess of 2 ha (4.96 acres) within such greater time period as may be agreed to by Council and specified in the development agreement.

9) In establishing a greater time period for the issuance of development permits pursuant to Clause (8) above, Council shall consider the following criteria:

a) A reasonable time period should be allowed for the applicant to complete financing arrangements and the detailed design of the development, and to permit resolution of impediments to development which may exist or arise because of factors beyond his control.

b) Depending upon the scale and complexity of the development involved, the time period may allow for staging the components of the development provided that reasonably continuous development activity is maintained. Time periods for the issuance of development permits for individual stages of the development may be established in the development agreement.

c) The total time period should be limited to maintain the certainty and visibility of development under this District and to avoid potentially speculative development proposals. This period should rarely exceed five years, even for very large developments. In some cases it may be desirable to postpone application of this District for all or part of the site, in lieu of granting an extended period of time for the issuance of development permits.

10) If development permits are not issued within the time periods specified or if the permits issued within the specified periods subsequently lapse because a building permit is not issued, is cancelled or construction activity is not maintained, the agreement between the applicant and the City shall be null and void for that portion of the site without a valid development permit, and the land use designation for that portion shall automatically revert to the land use designation in place prior to the application of this District, unless:

a) Council, by Bylaw, extends the application of this District for that part of the site for a specified further period.

b) Council substitutes another land use District for that part of the site.

11) Development Information signs shall be erected in accordance with Section 72 of this Bylaw.

720.3 Uses
Council may, through the development agreement required in this District, allow any use which complies with any Statutory Plan for the area and which, in its opinion, meets the general purpose of this District and is compatible with the character, form and integrity of existing surrounding uses and Permitted Uses in surrounding land use Districts.

720.4 Development Criteria
1) Council may, through the development agreement required in this District, specify any development regulation, criteria or condition necessary to ensure
development conforms to the development proposal upon which this designation is based.

2) In determining the acceptability of a development proposal under this District, Council may consider, among other matters, the following:

a) its relationship and compliance with the General Municipal Plan and other applicable Statutory Plans;

b) its relationship to Statutory Plans or Replotting Schemes, in preparation for the area;

c) its compliance with or conformity to the regulations of surrounding land use Districts and the General Development Regulations and Special Land Use Provisions of this Bylaw;

d) its compatibility with surrounding existing land uses, scale of development, and potential effect on stability, retention and rehabilitation of desirable existing uses and/or buildings in the area;

e) its traffic impact;

f) the location, function and design of roadways, parking facilities, pedestrian circulation and transit systems serving the whole proposed development, or each phase of the proposed development and the provision of transit facilities and enclosed parking;

g) its impact on services such as water and sewage systems, public transit, and other utilities;

h) its impact on community services including student generation and school capacities;

i) its relationship to municipal land, right-of-way or easement requirements;

j) its design responsiveness to its urban environmental context and urban design considerations, including microclimatic impacts;

k) its impact on natural drainage patterns, vegetative cover, air and water quality, energy conservation and efficiency;

l) the provision and quality of landscaped open space and recreational amenities; including children’s play space or other communal recreational space;

m) its provision of defensible space and impact on policing, public safety and security;

n) its responsiveness to the documented concerns and opinions of area residents and owners;

o) the arrangements for the ongoing maintenance of communal open spaces, recreational facilities and lands which are not to be conveyed to the City;

p) the need for restrictive covenants or development agreement provisions to maintain the design integrity of the project and control any future additions, accessory buildings or renovations.
3) In addition, all proposals for large-scale developments involving subdivision within this District shall comply with the City of Edmonton Standard Servicing Manual and Standard Servicing Agreement, except where the applicant is able to demonstrate that by departing from the established local standards, the viability and objectives of the development are enhanced and adequate service is maintained.

720.5 Information Requirements

1) The applicant shall submit the following information at the time of his application for designation of this District in addition to the information requirements for a development permit for a Class D development as described in the General Administrative Clauses of this Bylaw:

   a) a written statement of why the application of this District is necessary and an impact assessment outlining:
      i) relationship and compliance to the General Municipal Plan;
      ii) relationship to relevant Statutory Plans or Replotting Schemes in preparation;
      iii) compatibility with surrounding existing land uses and scale of development;

To provide a Direct Control District for the creation of site specific land use regulations in respect of specific sites within the City where the circumstances relating to the development of a specific site are such that regulation and control by means of the other land use districts provided for in this Bylaw would be inappropriate or inadequate, having regard to existing or future surrounding developments and to the interest of the applicant and the public, generally.

750.2 Application
1) This district shall only be applied where all of the following conditions are met:
   a) the proposed development is, in the opinion of Council, considered appropriate for the site having regard for the land use policies of the General Municipal Plan, the objectives of any applicable Area Structure or Area Redevelopment Plan, and compatibility with the scale and character of surrounding development;
   b) that the use of any other land use district of this Bylaw to accommodate the proposed development would, in the opinion of Council, result in potential conflicts with existing or future surrounding developments, should the full development potential of such land use district be utilized; and
   c) the proposed development is not of a scale or complexity requiring a comprehensive planning and implementation approach that, in the opinion of Council, would be more appropriately regulated through the DC2 - Comprehensively Planned Development district.

2) The application of this district may be initiated through the bylaw amendment procedures of Section 26 of this Bylaw; or Council may, after the public hearing on any proposed redistricting bylaw, amend the proposed bylaw to a site specific Development Control District - DC5, and pass the proposed bylaw, where Council is of the opinion that the development circumstances of the proposed bylaw warrant the use of a site specific district.

750.3 Uses
A development permit shall be issued for those uses prescribed in the bylaw applying this district to the site provided that, in the opinion of the Development Officer, the development application complies with this bylaw and the development regulations prescribed in the bylaw applying this district to the site.

750.4 Development Regulations

6) Applications to erect or construct on any land within the “receiver site” as defined by Transport Canada; will be forwarded to Transport Canada. Applications which include vehicular parking facilities, heavy electrical equipment, electric welding or high tension power lines will be analyzed on an individual basis and may be refused, notwithstanding the fact that a use is listed as Permitted if it is deemed that such use will result in electronic interference effects.

7) Construction on any land within the boundaries of the “control tower view plane” which is a surface measured out from control tower eye level at a slope of 1:29 until it intersects the “Inner Horizontal Surface” at 45.72 m (1,150 feet) above the airport reference point, shall not exceed in height the elevation at that point of the control tower view plane surface identified in a Schedule to this Bylaw.

8) The use or development of any land within this Overlay must be such as not to cause any objectionable or dangerous condition that would interfere with the safety of airport operations. A development within the Airport Protection Overlay shall not, in the opinion of the Development Officer with due regard to Transport Canada’s comments, cause excessive:
a) discharge of toxic, noxious or other particulate matter, into the atmosphere as in the case of:

i) a plant for primary metal production, metal processing, the processing of wood or wood products, the processing of coal, the processing of natural gas or its derivatives, the manufacture of asphalt or ready-mixed concrete, gravel crushing or meat packing.

820F.1 General Purpose

To alter or specify regulations for Permitted and Discretionary Uses in otherwise appropriate land use Districts in order to achieve the objectives of the Central McDougall Area Redevelopment Plan, as adopted by Bylaw 6222.

820F.2 Application

The designation, location and boundaries of each underlying land use District or subdistrict affected by this Schedule are as indicated on Appendix 1 to this Schedule.

820F.3 Regulations Altered by Statutory Plan Overlay

The development regulations of Section 820F.4 - 820F.6 shall be applied in place of or in addition to regulations of the following underlying land use Districts, in accordance with the provisions of Section 820 of this Bylaw.

820F.4 CMX (Area 1) - Commercial Mixed Use District for the 101 Street Pedestrian Corridor (Section 370, Land Use Bylaw)

Areas of Application

Portions of Subarea 1, generally located between 101 and 102 Streets from 105 to 106 Avenues, designated CMX in Bylaw 6388, amending the Land Use Bylaw.

Rationale

The southern portion of 101 Street is adjacent to high density development in the Downtown and the intensive redevelopment proposed for the CN lands. The General Municipal Plan recommends that this area of Central McDougall form part of the transition zone from Downtown commercial development to the medium density residential uses north of 106 Avenue. The General Municipal Plan states that the height and intensity of buildings in this transition zone may approach, but not equal, those in the Downtown. The height and intensity of development will decrease with distance from the Downtown to blend with the lower intensity development on, and north of, 107 Avenue. It is intended that this part of the transition zone consist of office and commercial uses which will encourage pedestrian flows along 101 Street to the Downtown. Specific building regulations have been included in this CMX District which are intended to minimize negative microclimate impacts at street level, provide space at grade for landscaping and installation of street furniture, and maintain an axial view to the Downtown.

Specific Provisions Affecting Consideration of Discretionary Uses

The Development Officer shall have regard for the following guidelines when reviewing development applications for Discretionary Uses:

1) Parking and loading shall, wherever possible, be from the rear lane. When this is not feasible, parking and loading should be consolidated and located away from sidewalk areas most heavily used by pedestrians.

2) Developments shall have a setback from the rear property line to accommodate pedestrian travel, as outlined in Policy 1.6 of this Plan. The portion of the rear setback intended for pedestrian travel shall be hardsurfaced and developed so that the pedestrian corridor is readily distinguishable from vehicular circulation and loading areas.
3) Commercial Use Classes such as General Retail Stores, Eating and Drinking Establishments, Personal Service Shops and Indoor Amusement Establishments, which contribute to pedestrian activity, shall be encouraged at the ground floor level and shall have direct access to grade.

4) Any applications involving redevelopment of the MacDonalds Consolidated Building, located at 105 Avenue and 102 Street, shall be encouraged to integrate and retain this building in the redevelopment proposal.

The following Discretionary Uses, from those listed in Section 370.4 of the Land Use Bylaw, have not been deleted by Statutory Plan Overlay:

1) The maximum floor area ratio shall be 7.0.

2) The maximum building height shall be 68m (223.1 ft.).

3) A minimum setback of 3.6m (11.8 ft.) shall be required where a site abuts a public roadway, other than a lane. This setback shall be hardsurfaced and landscaped to provide a functional and attractive streetscape for pedestrian use, as set out in Policy 1.6 of this Plan.
4) Developments fronting onto 101 Street shall either:
   a) include a 10m (32.8 ft.) setback from the front and side building line at or before the fourth storey, or
   b) be terraced at or before the fourth storey such that the cumulative total of all terraces is a minimum 20m (65.6 ft.) and that the angle of terracing is not greater than 70 degrees, calculated using the top of the fourth storey (15m, 49.2 ft.), a 20m setback from the building front and a maximum building height of 68m (223.1 ft.) as reference points.

5) Developments fronting on 101 Street shall include canopies, awnings or building overhangs to provide weather protection over a portion of the sidewalk, in accordance with the following provisions:

   b) a canopy or awning shall extend outward from the face of the building from which it is supported by at least 2m (6.6 ft.), measured perpendicularly from the building face; and
   c) a maximum building overhang of 1.5 m may be achieved by providing an additional 1.5 m front yard at the ground floor.

6) Not more than 50 percent of the ground floor of development within any block fronting onto 101 Street shall be used for the development of Professional, Financial and Office Support Services and entrance lobbies. Notwithstanding this restriction of frontage use when:
   i) the frontage use does not comply with the performance standard; and
   ii) the applicant can clearly demonstrate the need for variance because of a physical constraint to development; and
   iii) the variance does not, in the opinion of the Development Officer, prejudice the objectives of the Central McDougall Area Redevelopment Plan relating to retail continuity along 101 Street;

the Development Officer may vary this regulation in accordance with Sections 11.5 and 11.6 of the Land Use Bylaw.

820F.5 CMX (Area 2) - Commercial Mixed Use District for the 101 Street Pedestrian Corridor (Section 370, Land Use Bylaw)

Areas of Application
Portions of Subareas 1, 2 and 3, generally located between 101 Street and 102 Street from 106 to 108 Avenues, designated CMX in Bylaw 6388, amending the Land Use Bylaw.

Rationale
This area fronts onto 101 Street and is part of the transition zone between the high intensity development in the Downtown and the medium density residential uses north of 106 Avenue and west of 102 Street. The height and intensity of development proposed for in this area will ensure that buildings are sensitively integrated with the less intensive residential development west of 102 Street and the less intensive commercial development recommended for the east side of 101 Street in the Boyle-McCauley Area Redevelopment Plan. It is intended that development in this area consist of office and commercial uses which will encourage pedestrian flows along 101 Street to the Downtown. Specific building regulations have been
included in this CMX District which are intended to minimize negative microclimate impacts at street level, provide space at grade for landscaping and installation of street furniture, and maintain an axial view to the Downtown.

Specific Provisions Affecting Consideration of Discretionary Uses
The Development Officer shall have regard for the following guidelines when reviewing development applications for Discretionary Uses:

The portion of the rear setback intended for pedestrian travel shall be hardsurfaced so that the pedestrian corridor is readily distinguishable from vehicular circulation and loading areas.

CMX (Area #4) - Commercial Mixed Use District for 102 (Section 370, Land Use Bylaw)

Area of Application

 Portions of sub-area 1, located between 101 and 103 Streets from 105 to 106 Avenues.

Rationale

This site is adjacent to two high intensity mixed use districts (CMX-1, CMX-3) and is in close proximity to the Downtown core.
The General Municipal Plan recommends that this area form part of a transition zone from Downtown commercial development to medium density residential uses north of 106 Avenue. The height and intensity of buildings in this zone may approach but not equal those in the Downtown.

It is intended that this portion of the transition zone consist of an equal mixture of residential and office/commercial uses to accomplish the transition not only in terms of height and intensity but also of land use.

The development of Commercial Uses in this district is conditional upon the provision of an equal residential component to ensure that the area maintains an identifiable residential appearance and character.
