

Smoke Alarm Program

sleeping areas = CO alarms

levels = smoke alarms

Do you...

- Have working smoke alarms on all levels of your home?
- Have carbon monoxide alarms outside all sleeping areas?
- Dust the outside of your alarms periodically?
- Have a home escape plan and periodically practice it?
- Have house numbers clearly visible night/day from street?

Things to Remember...

- Install smoke alarms within 5m of each bedroom
- All alarms, battery operated and electrical, need to be replaced every 10 years
- Contact a certified electrician to install/replace an electrical smoke alarm
- Change alarm batteries when you turn clocks back for Daylight Savings Time
- Temporarily silence the alarm by pressing and holding hush button (if equipped)
- **Test** alarms each month (press and hold test button)

Check off completed monthly test below:

- Jan Feb Mar Apr May Jun
 Jul Aug Sept Oct Nov Dec

Date battery was replaced:

Smoke Alarm Program

Smoke alarms save lives.

In the event of a fire, a smoke alarm is your first line of defence.

Fire Prevention: 780.496.3628

edmonton.ca/smokealarmprogram

A properly-installed, fully-functioning smoke alarm cuts the risk of dying in a reported fire by 50%, according to the *National Fire Protection Association*.

What is the Smoke Alarm Program?

- Edmonton Fire Rescue Services has partnered with the Electrical Contractors Association Alberta to provide and install combination smoke and CO alarms free of charge to home owners in selected residential communities in Edmonton
- Edmonton Fire Rescue Services will not retain information from the safety check except to document the number of smoke alarms provided or installed
