

## Military Clipping File Re-Organization Project

City of Edmonton Archives

Savannah Newton

June, 2019

**Intent:** To provide intellectual (and some physical) reorganizing of the military clippings project begun by Kevin Bell. Some of his original suggestions have been brought over to this version of the project while others have not.

**Collection Summary:** any clipping file deemed to be associated directly or at least tangentially with the military in a significant capacity. This includes but is not limited to armouries, bases, units, paramilitary organizations, and veterans. Clipping files contain articles printed in newspapers or magazines; most other types of document would be found elsewhere. The files will not contain any articles published after 2013.

**Languages:** materials are in English.
